The Way That Leads Among the Lost Angela Garcia, 2024-04-30 Based on over a decade of research, a powerful, moving work of narrative nonfiction that illuminates the little-known world of the anexos of Mexico City, the informal addiction treatment centers where mothers send their children to escape the violence of the drug war. *The Way That Leads Among the Lost* reveals a hidden place where care and violence are impossible to separate: the anexos of Mexico City. The prizewinning anthropologist Angela Garcia takes us deep into the world of these small rooms, informal treatment centers for alcoholism, addiction, and mental illness, spread across Mexico City's tenements and reaching into the United States. Run and inhabited by Mexico's most marginalized populations, they are controversial for their illegality and their use of coercion. Yet for many Mexican families desperate to keep their loved ones safe, these rooms offer something of a refuge from what lies beyond them—the intensifying violence surrounding the drug war. This is the first book ever written on the anexos. Garcia, who spent a decade conducting anthropological fieldwork in Mexico City, draws readers into their many dimensions, casting light on the mothers and their children who are entangled in this hidden world. Following the stories of its denizens, she asks what these places are, why they exist, and what they reflect about Mexico and the wider world. With extraordinary empathy and a sharp eye for detail, Garcia attends to the lives that the anexos both sustain and erode, wrestling with the question of why mothers turn to them as a site of refuge even as they reproduce violence. Woven into these portraits is Garcia's own powerful story of family, childhood, homelessness, and drugs—a blend of ethnography and memoir converging on a set of fundamental questions about the many forms and meanings that violence, love, care, family, and hope may take. Infused with profound ethnographic richness and moral urgency, *The Way That Leads Among the Lost* is a stunning work of narrative nonfiction, a book that will leave a deep mark on readers.

The Woman Who Looks Both Ways (Book 4 of White Rabbit) Stuart Oldfield, 2012-08-24 With his life in complete meltdown in this world, Simon Cadwallader finds himself unexpectedly transported into an alternative reality. Hallucinogenic dream or a parallel universe? Either way, he arrives completely disorientated and with no memory of his previous life - not even his own name. As he gradually gets his bearings, it becomes apparent that our amnesiac hero is an unwitting participant in a game about which he knows nothing. Indeed, as the story unfolds, the absolutely pivotal nature of his role in this game becomes disturbingly clear, as does the multitude of attendant dangers. The four books of the series follow the stranded hero as he struggles through a world of which he is not part in his search for a way home. Alice in Wonderland for adults, Odyssey for the post-psychedelic age, or improbable mystical allegory, White Rabbit combines black comedy with surreal adventure into a weird and fantastical entertainment.

Christmas: The way it used to be - paperback Nathan Harding, William Harding, 2013-11-22 Christmas: The way it used to be is an easy-to-read, yet in-depth research book that looks into this religious festival's murky past. It spans hundreds of years and many countries to show the real history. Julius Caesar introduced the Julian calendar in 46BC placing December 25 as the day with the shortest daylight hours. In AD 350, this day was appointed as the Feast of the Nativity. In later years, it was called Mass of Christ. Today people use the contraction, Christmas! In Scandinavian culture, December 25 through January 6 became known as Yuletide. This period lasted 12 days. Many people celebrate December 25: Some for worship, some for business, and others for more devious actions. This book explores the ancient history of sun worship: Prior to Jesus' earthly birth- all the way back to Babylon. It gives insight to God's views on Israel's participation and answers the question, How does God want to be worshipped. It compares many aspects of Christmas with the Holy Scriptures.

The Lost Knowledge of Christ Dominic White, 2015 Did Christianity once teach secret knowledge? Dominic White argues that the early Church in fact taught a wonderful wisdom about the cosmos. Christian cosmology offers resources for us to speak to many of the problems, questions, and issues we face both in the church and in society. It does not provide instant answers; rather, it is in some ways more like the parables of Jesus, stories that challenge our view of the world and invite us to reflection and contemplation. This lost knowledge sheds new light on many biblical teachings and areas of controversy within Christianity: the meaning of repentance; the mystery of the cross; Jesus' ascent through the heavens; angels and stars; the body and the feminine; justice and ecology; and liturgy, art, music, and dance. The Lost Knowledge of Christ shares the cosmic, psychological, and artistic focus of today's nonreligious spiritualities and offers some surprising responses. The Professor Terry Castle, 2011-01-04 From Terry Castle, the brilliant cultural commentator whom Susan Sontag called the most expressive, most enlightening literary critic at large today, comes a long-awaited collection of captivating personal essays. The title piece at the heart of the anthology—Castle's candid, wry, and rueful retelling of her romantic involvement with a female professor during graduate school—is a pitch-perfect recollection of the fiascoes of youth. Here, also, are classic Castle short works, including *Desperately Seeking Susan*, a droll and bittersweet account of her friendship with Sontag; *My Heroin Christmas*, a darkly humorous examination of addiction, her family and stepsiblings, and the late, great saxophonist Art Pepper; and the picaresque *Travels with My Mother*, a rollicking tour through lesbianism, art, and the difficult yet transcendent paintings of Agnes Martin. *The Professor* is Terry Castle at her best: utterly distinctive, wise, frank, and fearless.

Colonial Living, 1957 Describes the industries, schools, society, culture, and growth of the coastal settlements during the colonial period.

The Professor and Other Writings Terry Castle, 2023-11-21 [Terry Castle is] the most expressive, most enlightening literary critic at large today. —Susan Sontag From one of America's most brilliant critics and cultural commentators, Terry Castle, comes *The Professor and Other Writings*: a collection of startling, gorgeously-written autobiographical essays and a new, long-form piece about the devastation and beauty of early love. James Wolcott, contributing writer to *Vanity Fair*, calls Terry Castle a Jedi knight of literary exploration and lesbian scholarship, and *The Professor and Other Writings* a greatest-

hits package of show-stopping monologues and offhand-genius riffs. *The Professor and Other Writings* is a hilarious and heartbreaking exploration of gender, identity, and sexuality in the grand tradition of such feminist luminaries as Susan Sontag, Camille Paglia, and Joan Didion.

The Lost Continent of Mu James Churchward, 2007-08 This classic book on the theory of a lost continent in the Pacific imparts the fascinating travel stories and theories of James Churchward.

Journey to Jesus Kent Jorgen Bureson, Rhoda Grever Schuler, 2025-06-03 When many Christian congregations are asking, “How can we draw new members into our midst?” the authors reframe the question: “How can congregations make new disciples and deepen the faith of long-time Christians?” Rediscovery of the early church catechumenate provides a means to form new disciples in today’s culture. Inspiring case studies of four congregations emphasize the contextual flexibility of adult faith formation. Interviews with catechumenal leaders and participants in adult faith formation reveal how a catechumenate that is central to congregational life can energize and orient the people of God toward the mission of God. Opening windows into congregational life, especially at worship, those who had journeyed through the adult faith formation process describe their experiences and the profound changes that took place in them. Adult faith formation is a journey—not a program—of belonging, believing, and behaving that draws people into Christ’s orbit for life. As one participant said, “For the first time I understood what it meant to be a Christian.” Through the adult catechumenate she heard the voice of Christ, calling her to new life and a rich baptismal identity.

It is the largest and most inclusive work of its kind. History and Hope in American Literature Benjamin Railton, 2016-11-10 Throughout history, creative writers have often tackled topical subjects as a means to engage and influence public discourse. American authors—those born in the States and those who became naturalized citizens—have consistently found ways to be critical of the more painful pieces of the country's past yet have done so with the patriotic purpose of strengthening the nation's community and future. In *History and Hope in American Literature: Models of Critical Patriotism*, Ben Railton argues that it is only through an in-depth engagement with history—especially its darkest and most agonizing elements—that one can come to a genuine form of patriotism that employs constructive criticism as a tool for civic engagement. The author argues that it is through such critical patriotism that one can imagine and move toward a hopeful, shared future for all Americans. Railton highlights twelve works of American literature that focus on troubling periods in American history, including John Steinbeck's *The Grapes of Wrath*, David Bradley's *The Chaneyville Incident*, Louise Erdrich's *Love Medicine*, Tony Kushner's *Angels in America*, Junot Díaz's *The Brief Wondrous Life of Oscar Wao*, and Dave Eggers's *What Is the What*. From African and Native American histories to the Depression and the AIDS epidemic, Caribbean and Rwandan refugees and immigrants to global climate change, these works help readers confront, understand, and transcend the most sorrowful histories and issues. In so doing, the authors of these books offer hard-won hope that can help point people in the direction of a more perfect union. *History and Hope in American Literature* will be of interest to students and practitioners of American literature and history.

China's Way to Carbon Emissions Reduction Ying Shen, 2015-08-18 Now that the most recent scientific estimates have shown that China has become the world's largest source of greenhouse gas emissions, China's influence on the world's environment and sustainable development highlights the importance of tailoring Chinese climate change law to conform with the requirements of international conventions and agreements on climate change. This thorough analysis, based on an examination of climate status, legal background, and current regulatory systems in China, examines the potential role of different policy instruments in reducing carbon emissions in order to find an appropriate choice for China, and recommends approaches to key issues for relevant authorities. The author conducts a comprehensive and in-depth study on the three mainstream environmental policy instruments used to control carbon emissions – the cap-and-trade system, the carbon tax, and command-and- control regulations – in a Chinese context. She reviews China's current policies, and elucidates how the issues of climate change and global warming call for social, environmental, economic, and legal reforms in China, especially in the areas of administrative law and property rights law. Among the issues and topics covered are the following: - key issues on designing and implementing each of the three policy instruments; - the choice of regulatory instruments for carbon emissions reduction in a socialist market economy based on the discussion of market failure and government failure theories; - legal challenges from China's current administrative legislation and the definition of carbon emissions entitlements; - practical effect of China's climate change policy at the national, provincial, and local levels; - effectiveness of China's

implementation of its international obligations; - lessons learned from schemes implemented in the United States and Australia; - comparison of China's seven regional pilot emissions trading scheme (ETS) programmes with the well-established EU ETS; - linkage between China's ETS and other ETSs from a global perspective; and - future direction of an emerging carbon market in China. The analysis assesses the critical costs and benefits of each approach in the context of selected case studies, taking legal literature in the field fully into account. Given that the Chinese government is taking steps to reduce emissions by altering energy production and usage and is signalling a willingness to make similar commitments in a multilateral treaty, it is very timely and important for lawmakers and scholars, within and outside China, to think about new and appropriate regulatory measures to respond to the crisis and plan for a sustainable future. This study provides not only a useful benchmark for both China and other countries in formulating initiatives on enhancing climate protection, but also details the global implications for governments and for international organizations concerned with the understanding between China and the rest of the world in the context of climate change mitigation.

The Craft of Church Planting Christian Selvaratnam, 2022-06-30 Drawing on insights from the training practices of the English medieval craft guilds, a global survey of 500 church planters, interviews with artists and church planting trainers and the authors 30 years of ministry experience, 'The Craft of Church Planting' offers a distinctive and imaginative perspective on the methods used to train future practitioners in the art of church planting. Demonstrating how training for the next generation of church planting leaders might be informed by the historic master-apprentice model, guild learning communities, creativity and an artisan approach to ministry, this book is a vital resource to inform the methods of training for the next generation of church planters.

Lost Continents & the Hollow Earth David Hatcher Childress, Richard S. Shaver, 1999 This book is Childress' thorough examination of the early hollow earth stories of Richard Shaver, and the fascination that fringe fantasy subjects such as lost continents, UFOs, and the hollow earth have had on people. Shaver's rare 1948 book, *I Remember Lemuria* is reprinted in its entirety, and the book is packed with illustrations from Ray Palmer's *Amazing Stories* issues of the 1940s. Childress discusses famous hollow earth books and delves deep into whatever reality may be behind the stories of tunnels underground.

The Alchemy of Illness Kat Duff, 1993 Illness is a universal experience. There is no privilege that can make us immune to its touch. We are taught to assume health, illnesses being just temporary breakdowns in the well-oiled machinery of the body. But illness has its own geography, its own laws and commandments. At a time when the attention of the whole nation is focused on health care, Kat Duff inquires into the nature and function of illness itself. Duff, a counselor in private practice in Taos, New Mexico, wrote this book out of her experience with chronic fatigue syndrome, but what she has to say is applicable to every illness and every one of us. For those who are sick, this book offers solace and recognition. For those who care for them either physically or emotionally, it offers inspiration and compassion. Finally, this fresh perspective on healing reveals

how every illness is a crucible that tries our mettle, tests our limits, and provides us with an unparalleled opportunity to integrate its lessons into our lives.
