

The Puppeteers Jason Chaffetz

Jason Chaffetz

They're Coming for You Jason Chaffetz, 2025-07-01 Trump may be in office, but the Democrats have laid the groundwork for permanent power. While the Biden-Harris administration publicly stumbled and flailed, their bureaucrats and allies outside of government have been turning Republican nightmares into dystopian realities. Censoring the truth tellers. Debanking the politically disfavored. Firing the vaccine hesitant. Excluding the white, Christian, and conservative job applicants. Who needs a deep state when academia, big banks, corporations, and the healthcare system are willing to do what the deep state can't? Now that they're out of power in the White House and Congress, the Democrats are mobilizing in the shadows, working to make sure an election like 2024 never happens again. In *They're Coming for You*, Jason Chaffetz reveals how Democrats have been planting the seeds of political control using unelected institutions that collect and weaponize private information. Most of us know we have traded our privacy for convenience. Most of us have chosen not to worry that the government will track our Facebook posts and arrest us. But what if an online retailer does? What if companies use that data to refuse to hire us, do business with us, or ship products to us? *They're Coming for You* lays bare the frightening truth about how these institutions are collecting, buying, selling, and sharing our data without regard for our privacy, civil liberties, or national security. Republican political victories will ring hollow until this bureaucratic partnership with the nonprofit and private sectors is exposed and the power of the administrative state checked.

Multiple Selves Richard Lebow, 2024-11-28 *Multiple Selves* offers an original take on identity, self-fashioning, and the problems of identity politics. It bridges the genres of political science, sociology, philosophy, and even self-help. It draws on current debates in psychology, philosophy and political science, as well as art and literature, to address a serious life issue that has important political and ethical implications. *Multiple Selves* denies that we have a single identity, are unique, or could use either identity or uniqueness as a source of political and ethical guidance. We are a jumble of multiple self- and social-identifications, that change in character and rise and fall in importance over time. Some of these identifications are reinforcing, others are in conflict, and all are context-dependent. The book offers a critique of identity politics, on both the right and the left. It proposes more realistic ways of self-fashioning, described as much as a social, as an individual enterprise. Recognition of our fragmented selves can produce important ethical insights and greater psychological contentment.

The Energy Transition And The Struggle For Global Governance John R Fanchi,2024-07-16 Events around the world have shown that the energy transition is more likely to be chaotic rather than peaceful as nations around the world engage in a struggle to achieve global governance. This unique compendium of useful information will help readers understand how the desire to implement an energy transition is being used to catalyze a change in the modern world order. The book concludes with the identification of possible world orders that might emerge after the energy transition.

TURMOIL IN USA Mundiayath Venugopalan,2024-12-04 In this book we try to describe what created the turmoil: the changing American family, children's education, employment, open borders and illegals in the millions, impact of crime and proxy wars, taxation and spending in the trillions increasing national debt, disputed elections, two failed assassination attempts on former president Trump, a coupe on sitting president Biden by Demo elites, and losing our greatness. Average Americans can only impact the direction of the country by voting in elections, but now there is too much money in our elections for the less competent to get elected making it dangerous to the overwhelming share of we the people. Common people going to a supermarket find grocery prices up by 20% though wages after taxation have been down nearly 5%. Biden's DEIA and "woke" government has created new race problems in our schools and universities. We don't want Biden's sweeping Title IX proposal that would bring in gender identity and sexual orientation in schools just as financier George Soros aimed for biological males to compete in girls' sports and use bathrooms and locker rooms that correspond with their "gender identity." We need to reorganize the departments involved in educating our children and the educational foundations in schools and colleges at all levels. President Biden's open border policy brought in several million strangers of unknown value and utility for us taxpayers to support. Family structure the country was proud of since inception was destroyed. Starting new proxy wars with weak woke military and financing them on taxpayer dime, at the same time not caring for citizen safety from crime and drug proliferation became undesirable to many citizens. Worst of all these, playing Mother Nature on climate and proxy wars with huge amounts of our money has not been rewarding. Certainly, we don't want four more years of Biden's taxing and spending that would increase the federal debt for our children immensely. Having lost people support Biden withdrew his nomination and Harris was chosen to oppose former president Trump. We prayed that America become safe soon after the 2024 election with a Trump victory. People want to be prideful in this country again. People want a cheerleader for this nation, not the one without redeeming value we now have sleeping most of the time on the beach. And we don't have much hope if flip-flop giggling Vice-president Harris with "no change in value" gets elected with "Joy." To our surprise former President Trump painted USA Republican red defeating Harris badly by midnight on election night.

The Puppeteers Jason Chaffetz,2023-06-06 AN INSTANT NEW YORK TIMES BESTSELLER Why does it feel like no matter what happens in American politics, the Democrats still get their way? When he left Congress in 2017, Jason Chaffetz

still thought elections could save us. For generations, conservatives have hoped that freedom-loving congressional majorities could turn back the tide and restore America's liberties and prosperity. But now, he says, winning elections will not be enough. Increasingly, the work of government is being done by people outside the government—unelected power brokers who are invisible to the American public but who pull the strings, set the agendas, create the incentives, and write the rules we must all live by. Using both government and non-governmental institutions, leftists have bypassed the legislative process to compel institutional compliance with partisan goals. The White House or the Congress may change hands, but the left remains in power. In *The Puppeteers*, Chaffetz reveals how: Susan Rice was put in charge of using the bureaucracy to make sure Republicans never win another election. The federal government now could be deployed to harvest ballots from Democrats. President Biden hired a Blackrock executive to run his economic agenda for the first two years of his presidency. State treasurers planned to use billions of government dollars to “address climate change” and “racial inequality,” with almost no way for voters to stop them. Randi Weingarten makes more decisions for the education department than people who actually work there. Electing the right leaders is no longer enough. To take back our country, the American people need to understand that they're in a new fight. But it's a fight that's still eminently winnable, and Chaffetz reveals the playbook.
