Christianity and the Roman Empire Ralph Martin Novak, 2001-02-01 The rise of Christianity during the first four centuries of the common era was the pivotal development in Western history and profoundly influenced the later direction of all world history. Yet, for all that has been written on early Christian history, the primary sources for this history are widely scattered, difficult to find, and generally unknown to lay persons and to historians not specially trained in the field. In *Christianity and the Roman Empire* Ralph Novak interweaves these primary sources with a narrative text and constructs a single continuous account of these crucial centuries. The primary sources are selected to emphasize the manner in which the government and the people of the Roman Empire perceived Christians socially and politically; the ways in which these perceptions influenced the treatment of Christians within the Roman Empire; and the manner in which Christians established their political and religious dominance of the Roman Empire after Constantine the Great came to power in the early fourth century CE. Ralph Martin Novak holds a Masters Degree in Roman History from the University of Chicago. For: Undergraduates; seminarians; general audiences

Christianizing the Roman Empire Ramsay MacMullen, 1984-01-01 Offers a secular perspective on the growth of the Christian Church in ancient Rome, identifies nonreligious factors in conversion, and examines the influence of Constantine

Christianity and the Roman Games Richard F. DeVoe, 2003-03-14 Christians to the lions! The image of early Christian victims of pagan blood - lust in the Roman arenas are as familiar as a catechism to Christians of all ages. Dr. Richard DeVoe parallels the development of these two great social forces of the Roman Empire: Christianity; the Roman games which included not only the arena, but also the circus and the theatre. He questions why Christianity did not have more effect on the Roman games, as both institutions grew apace for four centuries. He concludes, contrary to traditional church history, that Christianity did not limit, but, in fact absorbed and perpetuated the games. Why? With regard not only to the games, but also education, the military and the imperial cult, Rome was not Christianized: Christianity was paganized! *Christianity and the Roman Games* traces this process of paganization from the first through the fifth centuries, discovering surprising consequences both for Christianity and subsequent history.

Christianity in the Roman Empire Robert E. Winn, 2018 Christianity in the Roman Empire is a topical and biographical introduction to Christianity before Constantine. While its focus is the historical development of the proto-orthodox community, Robert Winn aims to bridge the gap between contemporary Christians and those who lived in the Roman Empire. To do this, his chapters discuss particular topics such as prayer, biblical interpretation, worship, and persecution, as well as prominent and controversial individuals such as Ignatius of Antioch, Justin Martyr, Melito of Sardis, and Tertullian. Part One addresses the world of the apostolic fathers, Part Two addresses hostility to Christianity and the response of Christians to this antagonism, and Part Three addresses doctrinal and communal issues of the third century. The book will pique readers' interest and provide them with a deeper appreciation for the religious identity of early Christians in the Roman Empire: what they believed and how they lived. Part One: Christianity in the Year 100 1. Christians, Jews, and Romans in the First Century 2. New Way of Life: Didache and the Epistle of Barnabas 3. Clement of Rome and the Church of Corinth 4. Ignatius of Antioch and True Christianity 5. Worship and Church Order in the Year 100 Part Two: Christianity in a Hostile World (100-250) 6. Celsus, a Critic of Christianity 7. Justin Martyr, a Defender of Christianity 8. The Persecution of Christians 9. The Martyrdom of Perpetua and Felicity 10. Cyprian of Carthage and the Unity of the Church Part Three: Faith and Practice in the Third Century 11. Reading the Bible with Early Christians 12. Irenaeus of Lyons and True Christianity 13. Tertullian of Carthage and True Christianity 14. Prayer and the Spiritual Life of Early Christians 15. Eusebius of Caesarea: After Two Hundred Years

Impulsore Chresto Jakob Engberg, 2007 Impulsore Chresto reassesses opposition to Christianity AD 50-250. The Roman authorities' persecutions have caught the attention of both the public, intrigued by martyrs, and scholars, arguing that executions were relatively rare. This is not challenged, but the executions are placed in context as the most dramatic aspect of a spectrum of opposition including rumors, polemic, harassment and accusations. Such opposition was taken for granted and rarely described. When studying the preserved texts on trials against Christians, however, it appears that even here relatives, plaintiffs, spectators or local officials played crucial roles. There were as many reasons for opposition as opponents, but some motives reappear in clusters: Christians were perceived as superstitious and ungodly, as endangering peace with the gods and social order.

Christianity in the Later Roman Empire: A Sourcebook David M. Gwynn, 2014-11-20 This sourcebook gathers into a single collection the writings that illuminate one of the most fundamental periods in the history of Christian Europe. Beginning from the Great Persecution of Diocletian and the conversion of Constantine the first Christian Roman emperor, the

volume explores Christianity's rise as the dominant religion of the Later Roman empire and how the Church survived the decline and fall of Roman power in the west and converted the Germanic tribes who swept into the western empire. These years of crisis and transformation inspired generations of great writers, among them Eusebius of Caesarea, Ammianus Marcellinus, Julian 'the Apostate', Ambrose of Milan, John Chrysostom, Jerome and Augustine of Hippo. They were also years which saw Christianity face huge challenges on many crucial questions, from the evolution of Christian doctrine and the rise of asceticism to the place of women in the early Church and the emerging relationship between Church and state. All these themes will be made accessible to specialists and general readers alike, and the sourcebook will be invaluable for students and teachers of courses in history and church history, the world of late antiquity, and religious studies.

Christianity and the Roman Empire William Edward Addis, 2008

The Making of a Christian Empire Elizabeth DePalma Digeser, 2000 The Making of a Christian Empire is the first full-length book to interpret the Divine Institutes as a historical source. Exploring Lactantius's use of theology, philosophy, and rhetorical techniques, Digeser perceives the Divine Institutes as a sophisticated proposal for a monotheistic state that intimately connected the religious policies of Diocletian and Constantine, both of whom used religion to fortify and unite the Roman Empire.--BOOK JACKET.

Christian and Pagan in the Roman Empire Tertullian, 2001-09 In this volume, Robert D. Sider undertakes a judicious pruning of the original texts and brings a fresh accessibility to the important writings of Tertullian.

Christianity in Ancient Rome Bernard Green, 2010 The reader is taken on a journey from the earliest roots of Christianity to its near acceptance as religion of the Roman Empire. The reader is taken from the very first generation of Christians in Rome, a tiny group of Jews who acknowledged Jesus as the Messiah, down to the point when Christianity had triumphed over savage persecution and was on the verge of becoming the religion of the Roman Empire. Rome was by far the biggest city in the Roman world and this had a profound effect on the way Christianity developed there. It became separate from Judaism at a very early date. The Roman Christians were the first to suffer savage persecution at the hands of Nero. Rome saw the greatest theological movements of the second century thrashing out the core doctrines of the Christian faith. The emergence of the papacy and the building of the catacombs gave the Roman Church extraordinary influence and prestige in the third century, another time of cruel persecution. And it was in Rome that Constantine's patronage of the Christian faith was most evident as he built great basilicas and elevated the personal status of the Pope.

Christian Intellectuals and the Roman Empire Jared Secord, 2021-05-06 Early in the third century, a small group of Greek Christians began to gain prominence and legitimacy as intellectuals in the Roman Empire. Examining the relationship that these thinkers had with the broader Roman intelligentsia, Jared Secord contends that the success of Christian intellectualism during this period had very little to do with Christianity itself. With the recognition that Christian authors were deeply

engaged with the norms and realities of Roman intellectual culture, Secord examines the thought of a succession of Christian literati that includes Justin Martyr, Tatian, Julius Africanus, and Origen, comparing each to a diverse selection of his non-Christian contemporaries. Reassessing Justin's apologetic works, Secord reveals Christian views on martyrdom to be less distinctive than previously believed. He shows that Tatian's views on Greek culture informed his reception by Christians as a heretic. Finally, he suggests that the successes experienced by Africanus and Origen in the third century emerged as consequences not of any change in attitude toward Christianity by imperial authorities but of a larger shift in intellectual culture and imperial policies under the Severan dynasty. Original and erudite, this volume demonstrates how distorting the myopic focus on Christianity as a religion has been in previous attempts to explain the growth and success of the Christian movement. It will stimulate new research in the study of early Christianity, classical studies, and Roman history.

The Roman Empire and the New Testament Dr. Warren Carter, 2010-09-01 An indispensable introduction to Roman society, culture, law, politics, religion, and daily life as they relate to the study of the New Testament. The Roman Empire formed the central context in which the New Testament was written. Anyone who wishes to understand the New Testament texts must become familiar with the political, economic, societal, cultural, and religious aspects of Roman rule. Much of the New Testament deals with enabling its readers to negotiate, in an array of different manners, this pervasive imperial context. This book will help the reader see how social structures and daily practices in the Roman world illumine so much of the content of the New Testament message. For example, to grasp what Paul was saying about food offered to idols one must understand that temples in the Roman world were not "churches," and that they functioned as political, economic, and gastronomic centers, whose religious dealings were embedded within these other functions. Brief in presentation yet broad in scope, *The Roman Empire and the New Testament: An Essential Guide* will introduce students to the information and ideas essential to coming to grips with the world in which early Christianity was born.

Christianity and the Roman Empire (Classic Reprint) William E. Addis, 2015-06-28 Excerpt from Christianity and the Roman Empire The early history of Christianity cannot be uninteresting to those who wish to be counted among the disciples of Jesus. During the first three hundred years of its existence, the tendencies which afterwards marked the great Churches of Christendom, began clearly to display themselves. And even within this short period the complex movement to which we give the name of Christianity, may be treated from several different points of view. It may be regarded as the manifestation of a great moral and religious impulse, and the stress will then fall on its power of quickening the inner forces of character, and transforming the whole standard of feeling and action.
