*Chinese Marriage Traditions* Daniel Tong, 2005

**Traditional Chinese Folk Customs** Zhengming Du, 2015-10-05 *Traditional Chinese Folk Customs* provides the reader with a kaleidoscopic view of social and cultural phenomena in various different areas and ethnic communities in China, in both ancient times and the present. Although the extent to which such old customs are still prevalent in Chinese society today varies, these traditions have had an undeniable impact on the contemporary Chinese way of life. Furthermore, given the growing consciousness of the importance of protecting traditional cultures, a number of folk customs that had once fallen to the verge of extinction are now being recovered, while others are still often found in Chinese literary works even if they have fallen out of common usage. As such, this book offers interesting insights into an often overlooked aspect of Chinese culture--Provided by publisher.

**Wedding Customs** Mira Donnelly, AI, 2025-03-06 *Wedding Customs* explores the fascinating world of marriage traditions across cultures, highlighting how these customs reflect social structures, historical influences, and community values. Wedding ceremonies serve as unique lenses through which to examine cultural identity and social dynamics, offering insights into how societies define relationships and transmit values. For instance, the book contrasts the elaborate, multi-day Indian wedding celebrations with the more community-focused practices in some African cultures, where ancestral veneration takes precedence. The book begins by introducing key concepts in wedding anthropology and then progresses to exploring the historical development of marriage practices across various regions. It analyzes the symbolism embedded in wedding rituals, examining the meaning of vows, the exchange of gifts, and the role of music and dance. One intriguing fact is how wedding customs illuminate societal priorities; in some cultures, weddings are primarily about forging alliances between families, while in others, they emphasize individual love and commitment. This exploration extends to how globalization and cultural exchange impact wedding traditions, blending ancestral customs with emerging practices.

The Writing of Weddings in Middle-Period China Christian de Pee, 2012-02-01 Approaching writing as a form of cultural practice and understanding text as an historical object, this book not only recovers elements of the ritual practice of Middle-Period weddings, but also reassesses the relationship between texts and the Middle-Period past. Its fourfold narrative of the

writing of weddings and its spirited engagement with the texts—ritual manuals, engagement letters, nuptial songs, calendars and almanacs, and legal texts—offer a form and style for a cultural history that accommodates the particularities of the sources of the Chinese imperial past.

**Locating Chinese Women** Kate Bagnall, Julia T. Martínez, 2021-03-23 This ground-breaking edited collection draws together Australian historical scholarship on Chinese women, their gendered migrations, and their mobile lives between China and Australia. It considers different aspects of women's lives, both as individuals and as the wives and daughters of immigrant men. While the number of Chinese women in Australia before 1950 was relatively small, their presence was significant and often subject to public scrutiny. Moving beyond traditional representations of women as hidden and silent,

this book demonstrates that Chinese Australian women in the twentieth century expressed themselves in the public eye, whether through writings, in photographs, or in political and cultural life. Their remarkable stories are often inspiring and sometimes tragic and serve to demonstrate the complexities of navigating female lives in the face of racial politics and imposed categories of gender, culture, and class. Historians of transnational Chinese migration have come to recognize Australia as a crucial site within the 'Cantonese Pacific', and this collection provides a new layer of gendered comparison, connecting women's experiences in Australia with those in Canada, the United States, and New Zealand. 'Locating Chinese Women is a path-breaking book. By exploring the experiences of Chinese Australian women during the nineteenth and early twentieth centuries, the authors have opened new and compelling avenues of inquiry about the history of Chinese Australian women. In this landmark work, they have brilliantly recast the history of Chinese Australia.' —Joy Damousi, Australian Catholic University 'Locating Chinese Women breaks new ground in Australian and transnational Chinese women's history by making the lives of remarkable Chinese Australian women visible. Photographs, testimonies, Chinese-language newspapers, and digitized archives help document the women's agency and activities as they navigate public lives between and within Australia and China during the nineteenth and early twentieth centuries.' —Shirley Hune, University of California, Los Angeles, and University of Washington

**Reading Bridal Magazines from a Critical Discursive Perspective** E. Glapka, 2014-09-04 Bridal magazines have become increasingly popular in Western society, proliferating the idea of a 'princess bride' on her 'big day'. Yet little has been written on how the ever-expanding wedding media and the popular wedding culture constructs gender and affects the ways women live and experience their weddings. Offering a critique of contemporary wedding discourse, this book marries together analyses of media texts and their reception to propose a new approach to media discourse. The analysis richly illustrates how women are invited to embrace not only the stereotypical idea of bridal femininity but also a consumptive way of experiencing it. Through examination of brides' accounts of their 'big days', the book observes the imprints of the popular gender imagery on their self-portraits and self-narratives, and describes the women's diverse approaches to them. Based on insights from gender and critical discourse studies, sociology and audience research, this exploration illuminates the ongoing debate on 'media and gender' and its methodological approaches.
