**Toxic Workplaces** Anna Remijn Derham, 2021-05-16 Change your focus. Change your focus to change your thoughts that will change your feelings that change how you relate to the world out there, and your choice for your change will change what you attract back at you. If you focus on thinking that everything will go wrong, it will. So if you can change your focus to believe that you can choose to take 100% responsibility for yourself, you can decide to back yourself to choose the thoughts that create the feelings that empower you to feel confident to influence your work choices. You choose. What was I thinking to attract yet another intimidation experience in the workplace? Giselle quietly asks herself, I love the excitement of adventure in my life, but choosing another workplace with narcissistic behaviour is a bit too much of an adventure for me right now. As much as I try, I can't connect with Delilah, and then the other staff become afraid of connecting with me because they fear her wrath. Your choice. You can choose to change your focus from what others think of you to focus on what you choose to feel about yourself. You can choose to be who you need to be. You can decide to change the meaning of how you react to how you will respond. You can change how you think to change your feelings that will change your perception of your world, and you can choose how to respond to the world out there. Your change. Quantum Physics says that we are the past, we are the future, and we are endless moments of now that are filled with endless possibilities. If endless possibilities are available to everyone, then they are available to you.

What Am I Here For? Martin C. Bala, 2024-03-18 We all go through life with similar struggles and desires, but not everyone follows their childhood dreams, not everyone is successful, or at least feels that way. There are also moments in your life when something unusual happens. An accident, a health problem, or something bigger than your job, your career. In those moments, life loses its meaning and you start to think: Is what I am doing now all there is? Is this what I dreamed of as a child? What am I here for? Similar questions have been on my mind for more than two decades of my life, and I have found answers that I am willing to share with you in this book. People who are truly successful do things differently than most, and it is not too late for you to learn what they know. Without finding your purpose, true success can be very difficult to achieve. It is never too late to change the way you think, to act differently, and to make a difference. Everyone needs to believe in something, even if it is only in their own abilities. I invite you on an exciting journey of self-discovery and the beginning of a new phase of your life. What you will find in this book is a great insight into the psychology of who you are and a different perspective on widely accepted truths. It will teach you how to work on yourself and apply the knowledge you find to your own life. I've turned my life around, and so can you. You already have what you need. Find out how you can live the life of your dreams! The world of subjective contrast and compassion Is a false world, built entirely By each person's imagination. Nothing is as it seems..." ~ Zen proverb

*Moving Beyond Stress* Carol Cherich Ph.D, 2021-03-22 In 2002, people in the United States, according to a 2003 study, purchased nearly \$17.2 billion worth of antidepressants and anti-anxiety drugs, up more than 10 percent from 2001. Americans spent \$1.1 billion in the same year on just two of the major prescription sleeping pills, to say nothing of the over-

the-counter brands and seven of the top ten best-selling drugs for stress. So many of our concerns stem from stress and anxiety that stress has become the invisible disease of the twenty-first century. But stress is not the enemy; it is built into our systems to protect us from danger and to help us survive. In *Moving beyond Stress*, author Dr. Carol Cherich offers a learning tool that focuses on stress reduction and provides quizzes for measuring what is learned. The lessons center on identifying what stress is, how to decrease stressors, and how to de-stress using breathing techniques. A simplified teaching guide that functions as a quick desk reference and resource, *Moving beyond Stress* reminds us we must pay attention to when we are feeling stressed, learn alternative ways of coping with the stressors, and find the fun in life.

The Criminal Class Paul A. MacNamara,2022-07-06 "Teaching in the jail system is a surreal experience, a whole other existence. In this bizarreness you encounter things that make you shake your head, shake your fist, cry your heart out, laugh your head off and blow your mind. And I felt compelled to write it down; to capture its un-realness. Hopefully I can convey

some of this in Criminal Class.” The only door in the room was now closed and sitting before me was a murderer, a rapist, an armed robber and a guy serving six years for grievous bodily harm. Each of them had a sharpened pencil in their hands; a potential weapon. I had been forewarned yet I had handed them out willingly. I looked at these four brutes trying not to stare but conscious of not looking away in fear either. All four of them had their eyes fixed on me too; sussing out the new guy. In silence I shot back a tight-lipped grin. Slowly but purposefully, I glanced at the secured metal door and, next to it, the red duress button on the wall. I guessed the distance to be three metres. I looked back at the prisoners and wondered, if it came to it, would I be able to press that button or exit the doorway before they could get to me? I didn’t fancy my chances... The Criminal Class is based on the true-life experiences of an everyday teacher who makes the precarious career transition to an Education Officer in the prison system. Dealing with both the law enforcers and the law breakers, but not bound by any normal allegiances, he finds himself having to trod the rocky path of an outsider on the inside. His surreal experiences with will compel you as they draw you in. The bizarreness he encountered will make you shake your head, pump your fist, cry your heart out, laugh your head off and blow your mind.

Annaleise Carr Annaleise Carr,2014-03-11 Over eight months worth of planning, hundreds of hours of hard physical training, amassing a team of dedicated crewmates, approaching sponsors and collecting donations -- and finally, swimming for twenty-seven hours across the cold, rough waters of Lake Ontario. Why would a fourteen-year-old girl take on such a challenge? For Annaleise Carr, the motivation came not from a desire for glory. Her ultimate quest was to raise money for her new friends at Camp Trillium, a charity that provides a camping experience for kids with cancer. What kept her going through the cold water, the exhaustion, and the terrifying night swim was the thought of those kids and their families that she was helping. In August of 2012, she became the youngest person to cross Lake Ontario, breaking the record set more than fifty years earlier by Marilyn Bell. Readers will meet an extraordinary fourteen-year-old girl in this book. As she tells her story, it becomes clear how idealism and an intense desire to help others can lead a young teen to almost unimaginable achievements. [Fry reading level - 4.8
