Through the Black Mirror Terence McSweeney, Stuart Joy, 2019-07-26 This edited collection charts the first four seasons of Black Mirror and beyond, providing a rich social, historical and political context for the show. Across the diverse tapestry of its episodes, Black Mirror has both dramatized and deconstructed the shifting cultural and technological coordinates of the era like no other. With each of the nineteen chapters focussing on a single episode of the series, this book provides an in-depth analysis into how the show interrogates our contemporary desires and anxieties, while simultaneously encouraging audiences to contemplate the moral issues raised by each episode. What if we could record and replay our most intimate memories? How far should we go to protect our children? Would we choose to live forever? What does it mean to be human? These are just some of the questions posed by Black Mirror, and in turn, by this volume. Written by some of the foremost scholars in the field of contemporary film and television studies, *Through the Black Mirror* explores how Black Mirror has become a cultural barometer of the new millennial decades and questions what its embedded anxieties might tell us.

This book contains in depth reviews, plots, analysis, themes, influences, Easter eggs and other fascinating information about the series. The Binge Watcher's Guide to Black Mirror Marc W. Polite, 2021-03-03 Black Mirror is regarded by many as the modern iteration of *The Twilight Zone* with a creator, Charlie Brooker, who is often seen as the Rod Sterling of his

generation, as he has written all 22 of the shows' episodes so far. The acclaimed British sci-fi anthology series focusing on the dark side of technology premiered in 2011 and has won eight Emmy Awards. In *The Binge Watcher's Guide to Black Mirror*, you will see the parallels drawn between what is in the show, and how our modern society is not too far off from what is depicted in the anthology series. The reader will encounter a thoughtful recap and analysis of each episode from all five seasons, as well as the interactive Black Mirror movie- *Bandersnatch*. Embracing the meaning and the mayhem of this moment, *The Binge Watcher's Guide to Black Mirror* is a spirited, fan-centered companion of the show.

Humanity in a Black Mirror Jacob Blevins,Zahi Zalloua,2023-01-03 The presentation of technology as a response to human want or need is a defining aspect of *Black Mirror*, a series that centers the transhumanist conviction that ontological deficiency is a solvable problem. The articles in this collection continue *Black Mirror's* examination of the transhuman need for plentitude, addressing the convergence of fantasy, the posthuman, and the dramatization of fear. The contributors contend that *Black Mirror* reveals both the cracks of the posthuman self and the formation of anxiety within fantasy's empty, yet necessary, economy of desire. The strength of the series lies in its ability to disrupt the visibility of technology, no longer portraying it as a naturalized, unseen background, affecting our very being at the ontological level without many of us realizing it. This volume of essays argues that this negative lesson is *Black Mirror's* most successful approach. It examines how *Black Mirror* demonstrates the Janus-like structure of fantasy, as well as how it teaches, unteaches, and reteaches us about desire in a technological world.

Philosophical Reflections on Black Mirror Dan Shaw,Kingsley Marshall,James Rocha,2021-12-16 *Black Mirror* is a cultural phenomenon. It is a creative and sometimes shocking examination of modern society and the improbable consequences of technological progress. The episodes - typically set in an alternative present, or the near future - usually have a dark and satirical twist that provokes intense question both of the self and society at large. These kind of philosophical provocations are at the very heart of the show. *Philosophical reflections on Black Mirror* draws upon thinkers such as Friedrich Nietzsche, Pierre Hadot and Michel Foucault to uncover how *Black Mirror* acts as 'philosophical television' questioning human morality and humanity's vulnerability when faced with the inexorable advance of technology.

Black Mirror and Philosophy David Kyle Johnson,2019-12-03 A philosophical look at the twisted, high-tech near-future of the sci-fi anthology series *Black Mirror*, offering a glimpse of the darkest reflections of the human condition in digital technology *Black Mirror*—the Emmy-winning Netflix series that holds up a dark, digital mirror of speculative technologies to modern society—shows us a high-tech world where it is all too easy to fall victim to ever-evolving forms of social control. In *Black Mirror and Philosophy*, original essays written by a diverse group of scholars invite you to peer into the void and explore the philosophical, ethical, and existential dimensions of Charlie Brooker's sinister stories. The collection reflects *Black Mirror's* anthology structure by pairing a chapter with every episode in the show's five seasons—including an

interactive, choose-your-own-adventure analysis of *Bandersnatch*—and concludes with general essays that explore the series' broader themes. Chapters address questions about artificial intelligence, virtual reality, surveillance, privacy, love, death, criminal behavior, and politics, including: Have we given social media too much power over our lives? Could heaven really, one day, be a place on Earth? Should criminal justice and punishment be crowdsourced? What rights should a "cookie" have? Immersive, engaging, and experimental, *Black Mirror and Philosophy* navigates the intellectual landscape of Brooker's morality plays for the modern world, where humanity's greatest innovations and darkest instincts collide.

Theology and Black Mirror Amber Bowen, John Anthony Dunne, 2022-04-14 *Black Mirror*, Netflix's dystopian anthology, probes what it means to be human in a technological world. While the show raises interesting, if not disturbing, questions, it refrains from giving answers, putting the onus on viewers to continue the conversation. Accordingly, *Theology and Black Mirror* engages questions and prominent themes in the show with resources from the Christian tradition, including the academic disciplines of biblical studies, theology, philosophy, and ethics.

The Digital Dystopias of Black Mirror and Electric Dreams Steven Keslowitz, 2020-01-07 This critical examination of two dystopian television series--*Black Mirror* and *Electric Dreams*--focuses on pop culture depictions of technology and its impact on human existence. Representations of a wide range of modern and futuristic technologies are explored, from early portrayals of artificial intelligence (Rossum's *Universal Robots*, 1921) to digital consciousness transference as envisioned in *Black Mirror*'s *San Junipero*. These representations reflect societal anxieties about unfettered technological development and how a world infused with invasive artificial intelligence might redefine life and death, power and control. The impact of social media platforms is considered in the contexts of modern-day communication and political manipulation.

Amateur Media and Participatory Cultures Annamaria Motrescu-Mayes, Susan Aasman, 2019-01-23 *Amateur Media and Participatory Cultures* aims to delineate the boundary line between today's amateur media practice and the canons of professional media and film practice. Identifying various feasible interpretative frameworks, from historical to anthropological perspectives, the volume proposes a critical language able to cope with amateur and new media's rapid technological and interpretative developments. Conscious of the fact that amateur media continue to be seen as the benchmark of visual records of authentic rather than mass-media-derived events, Annamaria Motrescu-Mayes and Susan Aasman pay particular attention to the ways in which diverse sets of concepts of amateur media have now merged across global visual narratives and everyday communication protocols. Building on key research questions and content analysis in media and communication studies, they have assessed differences between professional and amateur media productions based on the ways in which the 'originators' of an image have been influenced by, or have challenged, their context of production. This proposes that technical skills, degrees of staging and/or censoring visual information, and patterns in media socialisation define central differences between professional and amateur media production, distribution and consumption.

The book's methodical and interdisciplinary approach provides valuable insights into the ways in which visual priming, cultural experiences and memory-building are currently shaped, stored and redistributed across new media technologies and visual channels.

Fighting for the Future Sabrina Mittermeier, Mareike Spychala, 2020-06-19 The first two seasons of Star Trek: Discovery, the newest instalment in the long-running and influential Star Trek franchise, received media and academic attention from the moment they arrived on screen. Discovery makes several key changes to Star Trek's well-known narrative formulae, particularly the use of more serialized storytelling, appealing to audiences' changed viewing habits in the streaming age – and yet the storylines, in their topical nature and the broad range of socio-political issues they engage with, continue in the political vein of the series' megatext. This volume brings together eighteen essays and one interview about the series, with contributions from a variety of disciplines including cultural studies, literary studies, media studies, fandom studies, history and political science. They explore representations of gender, sexuality and race, as well as topics such as shifts in storytelling and depictions of diplomacy. Examining Discovery alongside older entries into the Star Trek canon and tracing emerging continuities and changes, this volume will be an invaluable resource for all those interested in Star Trek and science fiction in the franchise era. List of contributors: Sherryl Vint, Andrea Whiteacre, Torsten Kathke, John Andreas Fuchs, Ina Batzke, Sarah Böhlau, Will Tattersdill, Kerstin-Anja Munderlein, Diana Mafe, Whit Frazier Peterson, Henrik Schillinger, Arne Sönnichsen, Judith Rauscher, Amy C. Chambers, Mareike Spychala, Sabrina Mittermeier, Jennifer Volkmer, Si Sophie Pages Whybrew and Lisa Meinecke.

Augmentation Technologies and Artificial Intelligence in Technical Communication Ann Hill Duin, Isabel Pedersen, 2023-06-01 This book enables readers to interrogate the technical, rhetorical, theoretical, and socio-ethical challenges and opportunities involved in the development and adoption of augmentation technologies and artificial intelligence. The core of our human experience and identity is forever affected by the rise of augmentation technologies that enhance human capability or productivity. These technologies can add cognitive, physical, sensory, and emotional enhancements to the body or environment. This book demonstrates the benefits, risks, and relevance of emerging augmentation technologies such as brain-computer interaction devices for cognitive enhancement; robots marketed to improve human social interaction; wearables that extend human senses, augment creative abilities, or overcome physical limitations; implantables that amplify intelligence or memory; and devices, AI generators, or algorithms for emotional augmentation. It allows scholars and professionals to understand the impact of these technologies, improve digital and AI literacy, and practice new methods for their design and adoption. This book will be vital reading for students, scholars, and professionals in fields including technical communication, UX design, computer science, human factors, information technology, sociology of technology, and ethics. Speculative Satire in Contemporary Literature and Film Kirk Combe, 2020-12-27 Since 1980, when neoliberal and neoconservative forces began their hostile takeover of western culture, a new type of political satire has emerged that works to unmask and deter those toxic doctrines. Literary and cultural critic Kirk Combe calls this new form of satire the Rant. The Rant is grim, highly imaginative, and complex in its blending of genres. It mixes facets of satire, science fiction, and monster tale to produce widely consumed spectacles—major studio movies, popular television/streaming series, bestselling novels—designed to disturb and to provoke. The Rant targets what Combe calls the Regime. Simply put, the Regime is the sum of the dangerous social, economic, and political orthodoxies spurred on by neoliberal and neoconservative polity. Such practices include free-market capitalism, corporatism, militarism, religiosity, imperialism, racism, patriarchy, and so on. In the Rant, then, we have a unique and wholly contemporary genre of political expression and protest: speculative satire. Chapters 1 and 5 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

Girl of Steel Melissa Wehler, Tim Rayborn, 2020-03-06 The CW's hit adaptation of Supergirl is a new take on the classic DC character for a new audience. With diverse female characters, it explores different versions of the female experience. No single character embodies a feminist ideal but together they represent attributes of the contemporary feminist conversation. This collection of new essays uses a similar approach, inviting a diverse group of scholars to address the many questions about gender roles and female agency in the series. Essays analyze how the series engages with feminism, Supergirl's impact on queer audiences, and how families craft the show's feminist narratives. In the ever-growing superhero television genre,

Supergirl remains unique as viewers watch a female hero with almost godlike powers face the same struggles as ordinary women in the series.

The Routledge Companion to Gender and Sexuality in Comic Book Studies Frederick Luis Aldama, 2020-08-17 The Routledge Companion to Gender and Sexuality in Comic Book Studies is a comprehensive, global, and interdisciplinary examination of the essential relationship between Gender, Sexuality, Comics, and Graphic Novels. A diverse range of international and interdisciplinary scholars take a closer look at how gender and sexuality have been essential in the evolution of comics, and how gender and sexuality in comics demand that we re-frame and re-view comics history. Chapters cover a wide array of intersectional topics including Queer Underground and Alternative comics, Feminist Autobiography, re-drawing disability, Latina testimony, and re-evaluating the critical whiteness and masculinity of superheroes in this first truly global reference text to gender and sexuality in comics. Comics have always been an important place for the radical exploration of feminist and non-binary sexualities and identities, and the growth of non-normative comic book traditions as a field of inquiry makes this an essential text for upper-level undergraduates, postgraduates, and researchers studying Comics Studies, Women's and Gender Studies, Literary Studies, and Cultural Studies.

Reading Aridity in Western American Literature Jada Ach, Gary Reger, 2020-12-14 In literary and cinematic representations, deserts often betoken collapse and dystopia. *Reading Aridity in Western American Literature* offers readings of literature set in the American Southwest from ecocritical and new materialist perspectives. This book explores the diverse epistemologies, histories, relationships, futures, and possibilities that emerge from the representation of American deserts in fiction, film, and literary art, and traces the social, cultural, economic, and biotic narratives that foreground deserts, prompting us to reconsider new, provocative modes of human/nonhuman engagement in arid ecogeographies.

Ethnomusicology, Queerness, Masculinity Stephen Amico, 2023-11-02 This open access book explores the disciplinary, disciplined, and recent interdisciplinary sites and productions of ethnomusicology and queerness, arguing that both academic realms are founded upon a destructive masculinity—indissolubly linked to coloniality and epistemic hegemony—and marked by a monologic, ethnocentric silencing of embodied, same-sex desire. Ethnomusicology's fetishization of masculinizing fieldwork; queerness's functioning as Anglophone master category; and both domains' devaluation of sensuality and experience, concomitant with an adherence to provincial, Western conceptions of knowledge production, are revealed as precluding the possibilities for equitable, dialogic pluriversality. Enlisting the sonic as theoretical intervention, the disciplined/disciplining ethno and queer are reimagined in relation to negative emotions and intractable affect, ultimately vanquished, and replaced by explorations of sound, sex/uality, and experiential somaticity within a protean, postdisciplinary space of material/epistemic equity. This uncompromising, long-overdue critique will be of interest to researchers and students from numerous theoretical backgrounds, including music, sound, gender, queer, and

postcolonial/decolonial studies.

The Dialectics of Global Justice Bryant William Sculos,2022-07-01 The Dialectics of Global Justice uses a novel application of negative dialectical interpretation to offer an immanent and ethical critique of prominent theories of global justice (i.e., cosmopolitanism), including how these theories manifest in political movements and policy agendas. Drawing on the work of Theodor Adorno and Erich Fromm especially, author Bryant William Sculos exposes the contradictory relationship between cosmopolitanism and core elements of capitalism, particularly the domineering capitalistic mentality (re)produced by and through capitalism, leading to the conclusion that cosmopolitanism, on its own terms, demands an alternative, postcapitalistic political basis in order to make robust progress toward global justice. While offering this critique, Sculos also implicitly challenges the increasingly common view that cosmopolitanism today is inherently imperialistic and out of touch with the global resurgence of nationalism and anti-cosmopolitan sentiment.

Concept TV Luca Bandirali, Enrico Terrone,2021-11-08 What is a television series? A widespread answer takes it to be a totality of episodes and seasons. Luca Bandirali and Enrico Terrone argue against this characterization. In Concept TV: An Aesthetics of Television Series, they contend that television series are concepts that manifest themselves through episodes and seasons, just as works of conceptual art can manifest themselves through installations or performances. In this sense, a television series is a conceptual narrative, a principle of construction of similar narratives. While the film viewer directly appreciates a narrative made of images and sounds, the TV viewer relies on images and sounds to grasp the conceptual narrative that they express. Here lies the key difference between television and film. Reflecting on this difference paves the way for an aesthetics of television series that makes room for their alleged prolixity, their tendency to repetition, and their lack of narrative closure. Bandirali and Terrone shed light on the specific ways in which television series are evaluated, arguing that some apparent flaws of them are, indeed, aesthetic merits when considered from a conceptual perspective. Hence, to maximize the aesthetic value of television series, one should not assess them in the same framework in which films are assessed but rather in a distinct conceptual framework.
