Bulletin ,1898

Unexpected Death in Childhood Peter Sidebotham, Peter Fleming, 2008-04-30 For families who have experienced the death of a child, their private tragedy is all too often exacerbated by an inappropriate or incompetent professional response. For the professional charged with the responsibility of having to deal with unexpected child deaths, such as a pediatrician, a police officer, or social worker, this title offers guidance on how to respond adequately to this tragic event but also places the subject in a larger social context, examining the history, epidemiology, causes, and contributory factors surrounding the death of a child. The book also covers the prevalence and types of death, the role of the police in an unexpected child death, how to support families, how to undertake a serious case review, and how to prevent child deaths in the future. Part of the prestigious NSPCC Wiley Series in Safeguarding Children - The Multi-Professional Approach.

Oxford Handbook for the Foundation Programme Tim Raine, James Dawson, Stephan Sanders, Simon Eccles, 2014-07-04 The Oxford Handbook for the Foundation Programme returns for a new edition with clear and thorough clinical guidance and honest advice to help you excel in your first two years as a doctor. This edition has been fully updated in line with the latest guidelines and gives you practical, step-by-step guidance on everything from neurological to gastroenterological presentations. Emergency presentations are easily identifiable, giving you fast access to the information you need. This edition also includes a fully revised chapter on pharmacopeia with references to the British National Formulary, as well as chapters on practical procedures and interpreting results, acting as a guide for surviving on - and off - the wards. The Oxford Handbook for the Foundation Programme is also a unique resource for things they don't teach you at medical school about being a doctor and life on the wards. The authors have drawn on their own experiences and careful research to help you understand issues ranging from your pay and pension, stress and workplace relations, paperwork, and career development. This is an excellent resource for Foundation Programme trainees and medical students preparing themselves for life as a doctor. With this pocket-sized guide at your side you'll never be alone on the wards again.

Telling Details Jiwei Xiao, 2022-03-09 What is a detail? How is it different from *xijie*, its Chinese counterpart? Is reading for the details fundamentally different from reading for the plot? Did *xijie xiaoshuo*, the Chinese novel of details, give the world its earliest form of modern fiction? Inspired by studies of vision and modernity as well as cinema, this book gazes out on the larger world through the small aperture of the detail, highlighting how concrete literary minutiae become telling as they reveal the dynamics of seeing and hearing, the vibrations of the mind, the complexity of the everyday, and the imperative to recognize the minute, the humble, and the hidden. In a strain of masterpieces of *xijie xiaoshuo*, such details

play a key role in pivoting the novel from didacticism towards a capacious modern form. Examining the Chinese detail as both a common idiom and a unique concept, and extrapolating it from individual works to the culture at large, reveals under-explored areas of the Chinese novel: its psychological depths, its connections with other genres and forms, its partaking in Chinese material life and capitalist modernity, as well as repressions and difficulties surrounding its reception in national and international contexts. With carefully chosen case studies, Xiao's book not only exemplifies the value of deep reading in approaching complex works of Chinese fiction as world literature, it also throws light on the aesthetics and politics of the unseen, which has become central to a humanist tradition that flows across literature, cinema, and other art forms.

Half a century after the Doomsday Battle, the uneasy balance of Dark Forest Deterrence keeps the Trisolaran invaders at bay. Earth enjoys unprecedented prosperity due to the infusion of Trisolaran knowledge. With human science advancing daily and the Trisolarans adopting Earth culture, it seems that the two civilizations will soon be able to co-exist peacefully as equals without the terrible threat of mutually assured annihilation. But the peace has also made humanity complacent. Cheng Xin, an aerospace engineer from the early twenty-

first century, awakens from hibernation in this new age. She brings with her knowledge of a long-forgotten program dating from the beginning of the Trisolar Crisis, and her very presence may upset the delicate balance between two worlds. Will humanity reach for the stars or die in its cradle?
