**The Fifth Narrative** Benjamin Katz, 2004-05 This book was written for bright, brave and curious people who wish to become farsighted, to find other meanings and necessities beyond our recent Grand Tales (Religion, Pessimism, Capitalism and Science). The Fifth Narrative is about our emergence out of our dung beetle' state. It reveals our unawareness that the dungballs which currently sustain us (Grand Narratives) constrain our ability to be farsighted thus endangering our future evolution. It tells how human folly in our time seems more than ever to confound these grand stories and their bearing meaning. It explains why a new grand Narrative is necessary in order to survive and prevail. And why a new psychology encompassing areas like global ecology, demography, resources and politics is of impending necessity. The book deals with the emergence of a new civilization through technology and farsighted knowledge, which will form and guide our further evolution. Its essential message is: Let us become wiser ascending Icarus, rising beyond our limiting schemes and perspectives.

The Ghost and the Haunted Portrait Cleo Coyle, 2021-05-04 Bookshop owner Penelope Thornton-McClure and her gumshoe ghost team up to solve the stunning mystery at the heart of a madwoman's self-portrait in this all new installment from New York Times bestselling author Cleo Coyle. While gathering a collection of vintage book cover paintings for a special event in her quaint Rhode Island bookshop, Penelope discovers a spooky portrait of a beautiful woman, one who supposedly went mad, according to town gossip. Seymour, the local mailman, falls in love with the haunting image and buys the picture, refusing to part with it, even as fatal accidents befall those around it. Is the canvas cursed? Or is something more sinister at work? For answers, Pen turns to an otherworldly source: Jack Shepard, PI. Back in the 1940s, Jack cracked a case of a killer cover artist, and (to Pen's relief) his spirit is willing to help her solve this mystery, even if he and his license did expire decades ago.

**The History of Speed** Martin Roach, 2020-10-29 'A special treat...The pictures and stories combine to provide a rich texture to telling the difficult story of why we chase speed like an addiction.' Valerie Thompson, the world's fastest female motorcycle racer Ever since we built machines that could transport us, there has been a desire to find ways to make them go faster. For some, going faster isn't enough - they want to be the fastest. This book celebrates those who have built the machines and driven them at ever greater speeds. This is The History of Speed. Bestselling motorsport writer Martin Roach tells the extraordinary story of those who have come to be obsessed by speed. From Camille Jenatzy, 'the Red Devil', who became the first man to drive at over 100kmh in 1899, through the golden age of Malcolm Campbell and his Bluebird, and on to the modern era of jet- and rocket-propelled cars, we have gone faster and faster. But this book is not just about these record-breakers, Roach also looks at the technology, the engines and the inventors who helped progress in speed at all levels, from Formula One to the supercars from the likes of Ferrari and Mercedes that are eagerly snapped up by collectors, rarely to be seen on the road. Accompanied by some of the most stunning images of the cars and those who made and drove them, Roach tells a wonderful story of innovation and invention. He talks to some of the great drivers to find out what inspires them to risk their lives, and finds out from engineers how they developed their ideas. Along the way, we hear some remarkable tale and anecdotes, but also find out how the pursuit of speed can also have its costs, with many tragic heroes and heroines falling along the way. If you've ever thrilled to the roar of a sports car engine, of loved the feel of the g-force as you accelerate away, or even looked on in wonder at a powerful engine, The History of Speed is a book that you will not want to miss out on.

**Rapture Practice** Aaron Hartzler, 2013-04-09 Sometimes salvation is found in the strangest places: a true story. Aaron Hartzler grew up in a home where he was taught that at any moment the Rapture could happen. That Jesus might come down in the twinkling of an eye and scoop Aaron and his family up to heaven. As a kid, Aaron was thrilled by the idea that every moment of every day might be his last one on planet Earth. But as Aaron turns sixteen, he finds himself more attached to his earthly life and curious about all the things his family forsakes for the Lord. He begins to realize he doesn't want the Rapture to happen just yet--not before he sees his first movie, stars in the school play, or has his first kiss. Eventually Aaron makes the plunge from conflicted do-gooder to full-fledged teen rebel. Whether he's sneaking out, making out, or playing hymns with a hangover, Aaron learns a few lessons that can't be found in the Bible. He discovers that the best friends aren't always the ones your mom and dad approve of, and the tricky part about believing is that no one can do it for you. In this funny and heartfelt coming-of-age memoir, debut author Aaron Hartzler recalls his teenage journey to find the person he is without losing the family that loves him. It's a story about losing your faith and finding your place and your own truth--which is always stranger than fiction.

*Rubber Side Down* José Gouveia, K. Peddlar Bridges, 2008 Poetry. Biker poet? The words don't seem to fit together. But, no so long ago, neither did cowboy poet. Biker poetry was originally meant to be recited and found its way into performance, or slam, poetry, with readings conducted at every major biker rally. Today, the biker poetry movement is alive and spreading quickly in print form, not only in the US, but all around the world. RUBBER SIDE DOWN provides a look inside this movement, not only through the poetry being written by its members, but also through contributions by established poets like Allen Ginsberg, Thom Gunn and Diana Wakoski; essays on the movement's history and evolution; and photography by noted motorcycle photographer Michael Lichter and others.

*Ways to Go Beyond and Why They Work* Rupert Sheldrake, 2019-01-24 To go beyond is to move into a higher state of consciousness, to a place of bliss, greater understanding, love, and deep connectedness, a realm where we finally find life's meaning - experiences for which all spiritual seekers seek. Dr Rupert Sheldrake, writing as both a scientist and a spiritual explorer, looks at seven spiritual practices that are personally transformative and have scientifically measurable effects. He combines the latest scientific research with his extensive knowledge of mystical traditions around the world to show how we may tune into more-than-human realms of consciousness through psychedelics, such as ayahuasca, and by taking cannabis. He also shows how everyday activities can have mystical dimensions, including sports and learning from animals. He discusses traditional religious practices such as fasting, prayer, and the celebration of festivals and holy days. Why do these practices work? Are their effects all inside brains and essentially illusory? Or can we really make contact with forms of consciousness greater than our own? We are in the midst of a spiritual revival. This book is an essential guide.

**The MotoLady's Book of Women Who Ride** Alicia Mariah Elfving, 2021-05-18 Written and curated by Alicia Mariah Elfving, founder of TheMotoLady.com and the Women's Motorcycle Show, and arguably the most notable advocate for women in the motorcycling hobby, *The MotoLady's Book of Women Who Ride* subverts all the tired women-and-motorcycle tropes, offering the true stories of the women past and present who ride and wrench as well as anyone, proving every bit as indispensable to maintaining and growing a positive motorcycling culture. Historically, depictions of women in motorcycle culture tend to objectify—from the outlaw motorcycle club “biker babe” to cheesecake photography to posturing celebrities with motorcycles as props. The truth is much different. From the early days of motorcycle culture more than 100 years ago, women have played a central role in making the motorcycle a legitimate form of transportation, recreation, and motorsport. Elfving presents more than 70 figures in the motorcycle world, from the Americas to Europe and even the Middle East and South Asia—stunt riders, racers, builders, customizers, organizers, and more. Elfving links today's women motorcyclists with those of the past and illustrates the freedom represented by two wheels, and how motorcycles allow women to transcend

cultural expectations confidently. You'll meet riders such as: Sofi Tsingos, who raises money for charities by building and auctioning motorcycles. Safety ambassador Brittany Morrow, who found her calling after surviving a high-speed crash with no gear. The Van Buren sisters, who in 1916 were among the first motorcyclists to ride coast to coast and the first women to ride to the summit of Pikes Peak. The late Jessi Combs, an iconic TV personality, metal fabricator, and land-speed record holder. Overwhelmingly positive, Elfving instills confidence and can-do rather than providing an echo chamber of common complaints among women in motorcycling. In addition, The MotoLady's Book of Women Who Ride is illustrated throughout with contemporary and historical photos of the author's subjects, comprising a beautiful as well as inspiring package.

Hasidic Tales, 2011-04-23 The Tales of the Hasidic Masters Can Become a Companion for Your Own Spiritual Journey. The wisdom of the Hasidim is earthy, realistic, rooted in the simplicity of the heart. It is alive with the awareness of the holiness of Creation and the boundlessness of God's mercy, and is utterly honest about the necessity of living such awareness in loving service to all beings. It is a wisdom that fuses the highest mystical initiations with the most down-home celebration of life and a rugged commitment to social and political justice in all its forms. In other words, it is a wisdom that is never, as my old prep school headmaster would put it, too divine to be of any earthly use. —from the Foreword by Andrew Harvey Martin Buber, author of Tales of Hasidim, was the first to bring the Hasidic tales to life for modern readers in the middle of the twentieth century. His groundbreaking work was the first time that most readers had ever encountered the lives and teachings of these profound and enigmatic spiritual masters from Eastern Europe. In *Hasidic Tales: Annotated & Explained*, Rabbi Rami Shapiro breathes new life into these classic stories of people who so marvelously combined the mystical and the ordinary. Each demonstrates the spiritual power of unabashed joy, offers lessons for leading a holy life, and reminds you that the Divine can be found in the everyday. Without an expert guide, the allegorical quality of *Hasidic Tales* can be perplexing. But Shapiro presents them as stories rather than parables, making them accessible and meaningful. Now you can experience the wisdom of Hasidism firsthand even if you have no previous knowledge of Jewish spirituality. This SkyLight Illuminations edition offers insightful yet unobtrusive commentary that explains theological concepts, introduces major characters, offers clarifying references unfamiliar to most readers, and reveals how you can use the Hasidic tales to further your own spiritual awakening.

*How to Steal Fire* Stephen Bayley, Roger Mavity, 2019-03-07 \_\_\_\_\_ 'Promises to show readers how to think boldly and spark imaginative thought' (FT) \_\_\_\_\_ Creativity is a powerful force. It drives innovation, boosts our economy and enables us to fulfil our human potential. But what actually is creativity? Is it overrated? And where exactly do ideas come from in the first place? In this book, design gurus Stephen Bayley and Roger Mavity debunk the myths and common misconceptions that form our current thinking around this complex subject. In showing readers how to think boldly and remain undaunted by challenges, they examine the phenomenon from all sides: not only the creativity of invention and of imagination but also that

of perception and of discovery, in order to reveal the truths we often overlook. Ultimately, *How to Steal Fire* will help you reclaim yourself from the anonymous dreariness of a data-driven culture and spark imaginative thought.

*365 Years of Solitude, Sufferings and the Rise of the Creators: 2020-2384* Benjamin Katz, 2018-12-28 This book tells the grand and horrendous story of the Homo sapiens' inevitable demise and downfall and the rise of ever-evolving upgraded beings, stemming from them in the next 365 years. The main narrator of this Bible-like tale is the man who devised the vision/mission of the Creators and follows the historical process of them coming to power, first as human beings and thereafter as a downloaded, evolving cyborg. This saga tells how this dethroning of sapiens and the rise of the Creators—advanced intelligent beings—may happen with great probability and the kind of world these Creators will build up on the ruins of the sapiens' civilization. Although it is fictional, it describes a real and factual development that we already watch with growing alarm: Homo sapiens destroy their life conditions on earth, and being shortsighted and unwise regarding global affairs, they don't seem to be able to stop. As everything in the universe is temporary, so are sapiens and their constructs too. This book presents the most viable future solution for evolving advanced intelligent life after sapiens.

*The Mutants' Rise & Homo Stupidilgence' Demise* Benjamin Katz, 2024-03-18 Human nature is a fusion of a beast, intelligent animal, and a potential noble/higher being than we are, and therefore the four most important questions and answers in our future journey are: 1. Are we destroying life conditions on earth? Definitely: yes! 2. Why do we do this against ourselves? We do it because we lack far sight and wisdom to understand the ill consequences of our actions. 3. Are we not Homo sapiens? Not at all. From our actions throughout history and currently, it is obvious that we are Homo Stupidilgence, both intelligent and stupid, constructive, and destructive. 4. What can we do, to save earth as habitat place for life, and ourselves as evolving beings? We must evolve beyond our mental / cognitive constraints and conflicts. There is no other way to help us out of this self-created destructiveness. It is too late for us as we have out-smarted ourselves into self-destruction!

**The Path to Addiction...** Richard McKenzie Neal, 2008-12-10 While this book is technically a sequel, the hope was that there would never be reason to continue the first book's storyline. That book was left open-ended because we can never be sure of an addict's long-term sobriety. Given the longevity of his addiction, his drug of choice and history of failures, the probability was high that my son could relapse again. He had been clean and sober for 30 months (18 months in prison and 12 months back home) before his regression was triggered by a prescription pharmaceutical. Vicodin was prescribed and that led my son back to the streets for methadone and from there it was just a matter of time before reconnecting with his old friend, heroin. My son's meltdown and the mind-numbing ugliness of the fallout are documented in-depth, during the early chapters of this book. In an effort to better understand the profound difficulties that addicts struggle with, and why they seem powerless to control their lives, the mid-section of the book is devoted to research. The book covers addictions in

general, the history of worldwide drug usage, the pros and cons of the various treatment programs, the debate over the difference of opinion regarding the numerous models, the causal triggers and the pharmaceutical companies. Every addict has two personalities, but the general public only sees the manifestation of the unsightly one; the good one goes unnoticed, even when they're clean and sober. The indistinguishable one is no different than you or me; he's just overpowered by his unwanted tenant addiction. In trying to point out that no one wants to be an addict. Once clean, the addict knows that he must always be strong and vigilant because his co-pilot is always waiting in the wings for his chance to once again, take over the flight controls.
