Models of Social Intervention and Constructionism Laura Karina Castro Saucedo,Fernando Bruno,César Arnulfo De León Alvarado,2023-08-25 This book takes a new, critical, and multidisciplinary look at experiences and meanings of social intervention in different social contexts, taking the approaches of social constructionism as a theoretical approach. The volume collects the results of theoretical-practical experiences that social science professionals with critical and

constructionist visions linked to social work intervention have carried out in different spaces. It considers the way social work intervention models are built, their foundation, and their application. It provides the findings on tested intervention models built according to the basis of social constructionism in specific social scenarios, providing interesting findings that show intervention alternatives beyond traditional approaches. The social intervention strategies discussed take place in diverse situations, including health recovery and reconstruction in breast cancer, family abandonment issues of institutionalized adolescents, institutional care of refugee families, women caregivers of children with disabilities, men who exercise violence, and more.

Human Dignity Edward Sieh, Judy McGregor, 2017-05-02 This book examines the concept of dignity from a variety of global perspectives. It scrutinizes how dignity informs policy and practice, and is influenced by international and domestic law, human rights values, and domestic politics. An exciting collection of essays, this edited volume provides an analysis of human rights as they are experienced by real people who have in many cases been forced to take action to further their own interests. Readers will discover an extensive range of issues discussed, from the internet, climate change and disabilities, to globalization, old-age, and migrants' rights. The last section deals with the impact of various issues on indigenous and migrant populations, specifically violence in Columbia, border issues in Tijuana, women's and children's rights violations, and the complex problems experienced by refugees, particularly in regards to citizenship. The interdisciplinary nature of this work makes it an invaluable read for scholars of Health Studies, Law, Human Rights, Sociology and Politics.

In Pursuit of World-Class Universities Marcelo Rabossi, K.M. Joshi, Saeed Paivandi, 2018-03-10 The pursuit to construct “world-class” universities is an ongoing global obsession across the world, which lays emphasis on the development of competitive higher education and research systems as core national economic approach. The portrayal “world-class” is more contextual rather than absolute, the expression “world-class university” has an irrefutable cachet. There is no solo, clear-cut definition of what organises a world-class university (WCU), but there are few common attributes that majority of the experts point towards. The three attributes stated by Philip Altbach and Jamil Salmi that focus on a high concentration of talent, abundant resources and favourable governance have been widely discussed in writings and practice. Both in developing and developed countries, policymakers and higher education leaders are attempting to identify and outline their

desires and plans aimed at achieving global ranking for their university/universities. Despite condemnation of the methodology, the choice of indicators and weightings, and the reliability and quality of data used for comparing performance, the obsession for constructing world-class universities has increased over the period of time. But how much do we really discern or comprehend regarding the ranking systems? What do the rankings really measure? Do rankings measure the quality and help in attaining the broad assignment of higher education? Does the competition as outcome of ranking raise standards? Is the ranking system an apposite instrument to frame higher education policies? This edited volume tries to look at the concept of world-class universities in milieu of different countries of the world and explore their experiences either in existing WCUs or constructing WCU or attempting to create WCU. The country-based chapters show differentiated paths of achievements and their approach towards the concept of WCU.

Un doctorado para barrer el salón Mora-Solano, Salomón, 2021-11-30 Este libro busca dar a comprender cómo se han configurado las trayectorias profesionales y las expectativas de futuro de los docentes públicos después de la aprobación del Nuevo Estatuto de Profesionalización Docente colombiano. Así, identifica las características sociohistóricas fundamentales de la transformación de su mundo laboral bajo la noción de profesionalización docente, para abordar los procesos de individuación mediante un estudio articulado de “pruebas sociales” y “soportes”. De este modo, mediante el concepto anclaje socioexistencial, a partir de las narrativas de cuatro docentes, el libro analiza las expectativas de futuro que los profesores diseñan como respuesta a los desafíos estructurales.

Relatos de sufrimiento ambiental: el caso de Doña Juana Erika, Ortiz Díaz, 2019-10-31 Con base en relatos de vida, esta investigación reconstruye históricamente la cotidianidad de dos comunidades de la ciudad de Bogotá (Mochuelo Alto y Mochuelo Bajo) que han convivido con el basurero de Doña Juana durante veintinueve años. Describe lo que estas comunidades han hecho frente al sufrimiento ambiental y a su vez establece un contraste frente a lo experimentado por cada una de ellas. La propuesta histórica de los relatos de vida se muestra también como un campo de análisis de la vida cotidiana que pone en relieve las contradicciones del día a día y algunas de las implicaciones que han tenido las comunidades en términos de las relaciones sociales, muestra cómo la cotidianidad se encuentra atravesada por elementos como la incertidumbre frente a la contaminación, las luchas políticas, las resignaciones, las negociaciones, los procesos de habituación a la contaminación y los distintos estados de espera.

Migration, Gender and Social Justice Thanh-Dam Truong, Des Gasper, Jeff Handmaker, Sylvia I. Bergh, 2013-09-06 This book is the product of a collaborative effort involving partners from Africa, Asia, Europe and Latin America who were funded by the International Development Research Centre Programme on Women and Migration (2006-2011). The International Institute of Social Studies at Erasmus University Rotterdam spearheaded a project intended to distill and refine the research findings, connecting them to broader literatures and interdisciplinary themes. The book examines commonalities and

differences in the operation of various structures of power (gender, class, race/ethnicity, generation) and their interactions within the institutional domains of intra-national and especially inter-national migration that produce context-specific forms of social injustice. Additional contributions have been included so as to cover issues of legal liminality and how the social construction of not only femininity but also masculinity affects all migrants and all women. The resulting set of 19 detailed, interconnected case studies makes a valuable contribution to reorienting our perceptions and values in the discussions and decision-making concerning migration, and to raising awareness of key issues in migrants' rights. All chapters were anonymously peer-reviewed. This book resulted from a series of projects funded by the International Development Research Centre (IDRC), Canada.

Saltar el torniquete Marisol Alé Tapia, Claudio Duarte, Daniel Miranda, 2021-01-13 A partir del viernes 18 de octubre, la juventud estudiantil que había estado una semana saltando los torniquetes del Metro en protesta por el alza del pasaje, abrió las compuertas de lo que sería una de las mayores movilizaciones populares de la historia de Chile. Ese fin de semana y en los meses que vinieron, personas de diversas edades, sectores sociales y organizaciones civiles salieron a las calles para expresar su cansancio y reclamar dignidad, agradeciendo a las y los jóvenes por “ayudarlos a despertar”. En paralelo, el desconcierto y vacío interpretativo del mundo político e intelectual, y de los medios de comunicación, era evidente. Con el ánimo de profundizar y enriquecer el debate, y sobre todo de abordar una realidad compleja desde diferentes disciplinas y enfoques, este libro permite visibilizar a las y los protagonistas de la movilización, conocer sus anhelos y frustraciones, sus ideas y espacios de acción política, y la manera en que aspiran a vivir en comunidad. *Saltar el torniquete. Reflexiones desde las juventudes de octubre* se nutre tanto de testimonios como de investigaciones académicas, de tal modo que en sus páginas se genera un riquísimo y original cruce de miradas y experiencias sobre un hito que cambió —y está cambiando— el rumbo de Chile.

Análisis sociológico con documentos personales Rodríguez Jaume, M.^a José, Garrigós, José Ignacio, 2017-06-30 Este Cuaderno Metodológico aborda el uso, con fines científicos, de documentos personales inobstrusivos, esto es, de documentos personales que han sido escritos sin ningún estímulo exterior, es decir, sin ser solicitados por ningún investigador. Se toma como referencia la clásica idea de la investigación no obstrusiva—inobstrusiva, discreta o no reactiva— (unobtrusive) que en 1966 enunció Eugene Webb junto con sus colaboradores. En la actualidad, han aparecido nuevos espacios biográficos donde la gente común publica su relato en primera persona sobre sus vivencias y sentimientos; se trata, sobre todo, de los diarios en línea o blogs (weblogs, fotology y videoblogs). Además, se ha publicado una gran cantidad de libros escritos por personas que narran aspectos cruciales de sus vidas, como el enfrentamiento a enfermedades graves o la experiencia con la adopción. Estos libros, que nosotros denominaremos «documentos personales de formación», son un claro ejemplo de documentos personales en la posmodernidad a la vez que un excelente modelo para tratar los problemas metodológicos y técnicos

inherentes a la investigación con documentos personales inobstrusivos. Cada una de las fases de la investigación con este tipo de documentos se fundamenta en el fenómeno de las adopciones y en las narraciones en primera persona que sobre este tema se publicaron en España entre los años 1990 y 2011.

Los jóvenes tienen voz Gonçalves Da Silva, Freddy, Ariza Martínez, Juan Sebastián, García Estrada, Rodrigo de J, Gómez Navas, Diana, Charry Joya, Carlos Andrés, Díaz Ríos, Claudia M, Galindo Bohórquez, Javier F, Urbano Canal, Nathalia, Cruz Castillo, Alba Lucía, Pinto Quijano, Ángela Cristina, Caro Hernández, Pinto Quijano, Souza de Araujo, Bruno, Costa, Felipe, Quiroga Rendón, Emmanuel, Bertrand, Sara, López de Uralde Castellano, Koro, Medina, zMaría Beatriz, Yáñez, Jaime, Wielheim. Valerie, Díaz Pulgar, Samuel A, 2022-12-30 Más que un libro, esta recopilación de textos teóricos es un ejercicio de reflexión alrededor del concepto de juventud a nivel social, cultural y político en Latinoamérica. La lectura de este libro propone un diálogo intergeneracional entre académicos especializados y otros investigadores jóvenes en formación que navegan a través de la crítica, el pensamiento historicista, el análisis sociológico, la literatura y la crónica. Se busca analizar este concepto desde distintas variantes, poniendo el foco en nuestro territorio y en las universidades. Catorce textos inéditos se intercalan con seis entrevistas a jóvenes innovadores latinoamericanos. Una pieza en construcción de nuestra historia que busca explorar las voces jóvenes, con sentido ciudadano, en esta conversación que también les pertenece.

Metacomunicación en la era de la infoxicación Maximiliano Fernández Fernández, 2022-12-22

Apuntes para desarrollar una investigación en el campo de la administración y el análisis organizacional Adriana Fassio, 2016-06-01 En un contexto de generalización de demandas de tesinas de grado y posgrado y de tesis de maestría y doctorado, las herramientas básicas para la investigación se constituyen en un saber y un oficio de aprendizaje ineludible para aquellos que se proponen cumplimentar estos requisitos académicos. La originalidad de esta obra consiste en presentar paso a paso las herramientas básicas para la investigación en un campo de conocimiento determinado, el de la Administración. Se introduce al lector en dos aspectos relevantes y complementarios entre sí para abordar una investigación: la construcción de los marcos de análisis y de las herramientas metodológicas. Se intenta dar nuevas respuestas a preguntas y cuestiones relacionadas con la elaboración de y desarrollo de proyectos de investigación en el campo de la gestión y el análisis organizacional, así como aportar nuevos ejemplos y ejercicios que puedan ser puestos en juego en el aula como aprestamientos para la redacción delo proyecto de tesis y del informe final de sus hallazgos.

La sociología en España Fernández Esquinas, Manuel, Domínguez Amorós, Màrius, 2022-03-01 Este libro ofrece un análisis integrado de la sociología española como disciplina científica y profesional organizada para la producción de saber sobre la sociedad. Se presenta como una panorámica de la situación de la sociología española en algunos aspectos transversales que moldean y, en algunas ocasiones, determinan las características, condicionantes y líneas de futuro de la

disciplina sociológica. El libro reúne dieciocho contribuciones organizadas en seis partes temáticas que abarcan la historia institucional, los rasgos cognitivos, la universidad, la profesión, la producción científica y la presencia social. La aproximación a estos temas, novedosa en muchas de sus facetas, ha requerido la revisión y actualización de una extensa documentación, así como la recopilación y análisis sistemático de datos de diversa índole, estructurados en varios componentes metodológicos: fuentes, registros y legislación sobre el ámbito universitario; estadísticas oficiales del INE y del Sistema de Información Universitario; consultas a instituciones científicas y profesionales de la sociología; encuesta online a profesionales de la sociología; datos bibliométricos sobre la producción científica y las especialidades; e información sobre la presencia de la sociología en los grandes medios de prensa escrita y online. Este trabajo se ha afrontado como tarea colectiva y colaborativa entre instituciones y equipos: es iniciativa de la Federación Española de Sociología con motivo de la conmemoración de su 40 aniversario. Ha contado con la colaboración del Centro de Investigaciones Sociológicas, a la que se han sumado varias instituciones y personas que han ido dando forma a los temas que, por primera vez, aparecen reunidos en una misma obra.

Compliance y ley de pliegos tipo innovaciones jurídicas para combatir la corrupción Varios Autores, 2020-01-01

Los temas que se discuten en esta obra no giran en torno a las buenas o malas prácticas, aunque en ocasiones nos refiramos a ellas, este texto propone una alternativa a la empresa privada y a las organizaciones públicas: evitar al máximo las incontables luchas jurídicas por los efectos de una práctica errónea. El costo de las equivocaciones o de las malas actuaciones acarrea a largo plazo más daño económico e incluso puede terminar por acabar con la institución pública o privada, para muestra el reciente caso de Bioenergy, donde la mala gestión la llevó a la liquidación. Gestionar la reputación en un mundo hiper conectado, también se constituye en un activo básico. Frente a este orden problemático, se hace pertinente revisar un concepto no tan nuevo: compliance. Hoy se discute sobre la efectividad de la norma en entornos complejos, violentos y con Estados tardo modernos, donde el contrato social vive atrapado en el pasillo estrecho, donde es necesario que el Estado logre la fuerza de las instituciones y las movilizaciones colectivas en torno al edificio normativo, para poder propiciar el orden social y ofrecer de manera legítima y legal los derechos políticos y los derechos sociales.

Ni animales ni dioses Fernando Gil Villa, 2024-04-18 La sociedad global del siglo XXI parece más polarizada que nunca.

Para algunos, los humanos estaríamos más cerca que nunca de los dioses gracias a los logros civilizatorios. Para otros, habríamos puesto en peligro la vida del planeta y los derechos fundamentales. Las culturas de la cancelación o despiertismo (wokeness) aumentan las tensiones sociales, voluntaria o involuntariamente. Desde el deporte hasta la política -incluida la guerra-, pasando por el trabajo o la educación, la persona contemporánea busca héroes de distintos bandos cuando no logra alcanzar el éxito en todas las facetas de la vida. La humanidad, como reconocimiento de la vulnerabilidad, como competencia en el arte de la compasión, es cada vez más escasa. Tras un viaje que emprenderán por un universo tecnológico y veloz que

parece un campo de minas, los lectores encontrarán el retrato robot de una humanidad futura que se reencuentra con los ángeles de la tierra y de la luz en la senda de un humanismo equilibrado. Para este viaje Fernando Gil Villa construye una universitas navis, una nave compuesta de una infinidad de partes para explorar tanto lo inhumano como lo posthumano en un mundo humano fracturado lleno de amenazas. Su nave se enfrenta a aquella otra que pintó El Bosco, la Narrenschiff, llena de necios y locos que a veces con optimismo y otras con pesimismo van dejando una estela de insensateces y exageraciones que amenazan el luminoso humanismo que Gil Villa defiende (R. Bartra).

Investigación cualitativa longitudinal Caïs, Jordi, Folguera, Laia, Formoso, Climent, 2014-09-29 En Investigación Cualitativa Longitudinal se ofrece al lector una herramienta eficaz para familiarizarse, y al mismo tiempo profundizar, en un tipo de diseño de investigación utilizado para estudiar procesos amplios de desarrollo tales como la socialización, la creación de identidades o las trayectorias vitales. La característica principal que distingue la Investigación Cualitativa Longitudinal (ICL) es que busca descubrir y entender procesos de cambio a lo largo del tiempo. La variable temporal se convierte en el elemento central tanto en el diseño de investigación como en el análisis de los datos obtenidos. Esta capacidad de la ICL para estudiar las dinámicas sociales, ya sea a nivel individual o a nivel global, la convierte también un enfoque particularmente útil y popular para el análisis de Políticas Públicas. En el presente libro el lector encontrará un camino seguro para acceder a los diseños de investigación que predominan en la ICL: las entrevistas en profundidad sucesivas para generar relatos de vida, el análisis de generaciones y el uso de los métodos etnográficos para estudiar la evolución temporal desde el ángulo de los estudios culturales. El volumen concluye con tres ejemplos para el uso de la ICL en los tres diseños citados.
