Carroll Michels

The Diva's Guide to Selling Your Soul Kathleen O'Reilly, 2005-04-05 Don't hate me because I'm beautiful... Call me V. I used to be a nobody, just a girl from New Jersey who was probably going to hell anyway -- or worse, mediocrity and a size 14. Now I get whatever I desire just by casting a little spell....a flawless body, a luxury penthouse, and a Fifth Avenue shop where rich women clamor for my overpriced handbags. Even better, I have power. I can taunt my ex-husband, break hearts without guilt, and love every minute of it. My secret? I lost the one thing I never needed in the first place: my soul. I sold it. And you'll never guess who's got it now. She's a devil in disguise. You know her as the dishiest gossip columnist in the city's trashiest tabloid. I call her Lucy. And our deal is this: the more clients I recruit for her Life Enrichment Program, the greater my rewards. But just between us, my fast track to heartless apathy has hit a few speed bumps -- lately, I've had the totally annoying impulse to do things that are...good. First there was rescuing a kid in the park. Then there was the date with the handsome, decent guy who wasn't even a celebrity. What's next, giving to charity or something? All I know is Lucy doesn't like it, not one little bit. And when she finds out, there will be hell to pay...

The Executive Calling Roger D. Andersen, 2008-06-04 There are a vast number of Christians in professional and management positions in corporate America who wish to lead as Christ intended. The Executive Calling describes how they can to reconcile their faith with corporate cultures in ways that can enable them to lead effectively and righteously. This book not only challenges current Christian leaders in corporations to discover God's calling for them in their jobs, but calls younger professional and college students to consider leadership careers in the corporate world. Roger Andersen, once vice president of PepsiCo, breaks new ground for anyone who is struggling with reconciling career success and obedient service to Jesus. In these ten expansive chapters--rich in sound, biblical wisdom, and mixed with Andersen's insights from thirty-years of experience--readers will discover why Christians can and are, indeed, called to excel in the corporate world. It examines Scriptural advice on the most important leadership qualities and successful management practices. Available at the end of the book is a comprehensive Christian Executive's Study Guide that is perfectly suited for further individual, small group, or devotional study.

Quotes of a Common Man Garvey DellaKing,

Quote the World Forevermore AYDI the Watcher ,2022-09-19 Why do I call myself AYDI the Watcher? That's a good

question. I call myself that because I observe our world and the way we interact as humans. Years and years of these observations led me to read up on Psychology, politics and human relations. I listened to many prominent psychologists and therapists to hone my ideas, and the result is this book. Now, this is not a traditional book that delves into the subject matters mentioned above, but a collection of inspiring and thought-provoking quotes fleshed out with my thoughts and feelings, these thoughts and feelings touching on human psychology and behaviour. Some of these quotes were taken from my Facebook page, The Watcher (@AYDIttheWatcher) and expanded upon and new ones were added to convey my thoughts on this world that we live in and how hierarchies and human structures affect our daily lives. My goal is to get people thinking and see different perspectives, and protect themselves from harm and manipulation. I hope this goal is achieved and your minds are unlocked. The freer the minds, the better the world.

The irony of honesty Robert Grant, 2023-05-25 We are a species divided. Split into so many different groups and subgenres, that it's hard to keep up. Gender, ethnicity, age, culture, religion, political stand point...our economic status, education level, sexual preference, food allergies, music, film, hair cut...dog or cat? The divisions are endless. One of the only things that all humans have in common (apart from bodily functions) is that we all lie. People rarely want to hear the truth, even if they ask for it. If you were unabashedly honest, people would hate you for it or call you a sociopath...Which is overwhelmingly ironic. This new collection of poems discusses the idiosyncrasies in life and how most people (including him) dishonestly deal with them.

How to Build Your Creative Career Russell Nohelty, 2019-04-16 Are you sick of barely scraping by as a creative? How long have you been trying to build your career? How many hours have you spent banging your head against a wall? How much money have you sunk into ads and marketing that just don't work? Now, what if you had a blueprint that could show you all the elements you need to build a creative career without feeling gross about it. How much would that be worth to you? This book can't guarantee you a successful career, but it can give you all the fundamental knowledge you need to set you up for success because it was written by a creative for a creative. *How to Build Your Creative Career* is set up in five sections: How to Make Great Content, The Basics of Sales, Building an Audience from Scratch, Making Money at Live Shows, and Launching your Product Successfully. Every creative I've ever met is stuck at one of those stages of their career, and this book gives you the tools to open those floodgates, overcome those blocks in your own career, and supercharge your career. So the question is this: if this book can break you through the blocks in your own life, what is it worth to you?

Consciouspreneur Gavin McHale, As a high performer, you know what you're good at, whether it's school, sport, business, or life. Driven by the need to win and love of success, you stick to what you're good at, until suddenly it's not enough. You're not enough. When your go-to strategies fail, when you start to fail, how do you get back on top? Author Gavin

McHale knows this feeling all too well. A high performer in hockey, school, and later in business, he didn't know how to fail—until that was all he knew. Gavin tanked his professional hockey career after it barely started. When he started his personal training business, he found himself self-sabotaging once again. He didn't realize it wasn't enough to do the work; he had to embody it. Stuck in a vicious cycle of negative self-talk and limiting beliefs, Gavin learned that he had to stop looking outward for answers. Instead, he needed to turn inward. **Consciouspreneur: What To Do When The Hard Work Stops Working** is a self-improvement guide for anyone ready to invest in their personal growth. Hard lessons and practical tips based on research and the author's hockey career will help readers understand how making the unconscious become conscious will transform themselves and their lives. If you're looking for another fluffy, superficial self-help book, you've come to the wrong place. If you're ready to get your emotions in check and rewrite the stories holding you back, **Consciouspreneur** is for you.

Turn Browsers Into Buyers Michele Howe, 2007-05-03

Soul Centered Jeff Motley, 2007-10 In this book the author presents a theory about space and time in which time has characteristics identical to those of space. Starting from the premise that motion is the most fundamental, physical phenomenon in nature and that rotational motion, Spin, in the subatomic domain is mathematically different from that in the macroscopic world, he postulates that space and motion are the only fundamental, physical phenomenon in nature; that SPACE and TIME have identical properties; and that every physical manifestation or phenomenon of the universe can be represented by motion in a six dimensional SPACE-TIME; that in that six dimensional space there is one preferred dimension of time and one preferred dimension of space. Generalizing rotations in that six dimensional space with two preferred dimensions he obtains that there are 16 separable and distinguishable kinds of rotations and 16 corresponding anti rotations. These numbers coincide with the present day elementary particles theory that there are 16 quarks, leptons and force carriers and corresponding antiparticles. Also, the fact that the photon is its own antiparticle comes out of the theory. The book stays on a semi speculative level. It pretends to be a challenge to mathematicians and theoretical physicists to venture into an avenue that may be the way to a new revolution in physics.
