New Times, 1988

The New York Times Theatre Reviews 1999-2000 New York Times Theater Reviews, 2001-12 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew*, and includes extensive discussions of the play's various printed versions and its theatrical productions. Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play. The issues discussed include gender, authority, female autonomy and unruliness, courtship and marriage, language and speech, and performance and theatricality.

After Taste: Cultural Value and the Moving Image Julia Vassilieva, Constantine Verevis, 2014-01-02 In the wake of the debates over high/low culture distinction spilling into the effective dismantling of the boundary that once separated them, the past decade has seen the explosion of 'bad taste' production on screen. Starting with paracinema or 'badfilm' – a movement that has grown up around sleazy, excessive, or poorly executed B-movies and has come to encompass disreputable and unworthy films – this trend has been evident in various formats: on television and in video-art, low-budget and straight to TV films, amateur and home movies. The proliferation of trash on screen can be seen as delivering the final blow to the vexed issue of taste. More importantly, it prompts a reconsideration of some critical issues surrounding production, circulation, understanding and teaching of 'bad objects' in the media. This collection of essays, written by international film and television scholars, provides detailed critical analysis of the issues surrounding judgements of cultural value and taste, feeling and affect, cultural morals and politics, research methodologies and teaching strategies in the new landscape of 'after taste' media. Addressing global and local developments – from global Hollywood to Australian indigenous film and television, through auteurs Sergei Eisenstein to Jerry Bruckheimer, on to examples such as *Twilight* to *Sukiyaki Western Django* – the

essays in this book offer a range of critical tools for understanding the recent shifts affecting cultural, aesthetic and political value of the moving image. This book was originally published as a special issue of *Continuum: Journal of Media & Cultural Studies*.

Fools and Jesters in Literature, Art, and History Vicki K. Janik,1998-05-21 Jesters and fools have existed as important and consistent figures in nearly all cultures. Sometimes referred to as clowns, they are typological characters who have conventional roles in the arts, often using nonsense to subvert existing order. But fools are also a part of social and religious history, and they frequently play key roles in the rituals that support and shape a society's system of beliefs. This reference book includes alphabetically arranged entries for approximately 60 fools and jesters from a wide range of cultures. Included are entries for performers from American popular culture, such as Woody Allen, Mae West, Charlie Chaplin, and the Marx Brothers; literary characters, such as Shakespeare's Falstaff, Rabelais' Gargantua and Pantagruel, and Singer's Gimpel; and cultural and mythological figures, such as India's Birbal, the American circus clown, the Native American Coyote, Taishu Engeki of Japan, Hephaestus, Loki the Norse fool, schlimiels and schlimazels, and the drag queen. The entries, written by expert contributors, are critical as well as informative. Each begins with a biographical, artistic, religious, or historical background section, which places the subject within a larger cultural and historical context. A description and analysis follow. This section may include a discussion of the fool's appearance, gender role, ethical and moral roles, social function, and relationship to such themes as nature, time, and mortality. The entry then discusses the critical reception of the subject and concludes with an extensive bibliography of general works.

Lewis Carroll's Cats And Rats... And Other Puzzles With Interesting Tails Yossi Elran,2021-06-08 British-Israeli recreational mathematician, communicator and educator, Yossi Elran explores in-depth six of the most ingenious math puzzles, exposing their long 'tails': the stories, trivia, quirks and oddities of their history and, of course, the math and mathematicians behind them. In his unique 'talmudic', associative way, Elran shows the hidden connections between Lewis

Carroll's 'Cats and Rats' puzzle and the math of taxi driving, a number pyramid magic trick and Hollywood movie fractals, and even how packing puzzles are related to COVID-19! Elran has a great talent for explaining difficult topics — including quantum mechanics, a topic he relates to some original 'operator' puzzles — making the book very accessible for all audiences. With over 40 additional, original puzzles, and touching on dozens of hot math topics, this is a perfect book for math lovers, educators, kids and adults, and anyone who loves a great read. Yossi Elran is co-author of our bestselling *The Paper Puzzle Book*, and heads the Innovation Center at the Davidson Institute of Science Education, the educational arm of the world-renowned Weizmann Institute of Science in Israel.

Julius Caesar Horst Zander, 2005-07-05 This book explores traditional approaches to the play, which includes an examination of the play in light of current history, in the context of Renaissance England, and in relation to Shakespeare's other Roman plays as well as structural examination of plot, language, character, and source material. *Julius Caesar: Critical Essays* also examines the current debates concerning the play in Marxist, psychoanalytic, deconstructive, queer, and gender contexts.
