Nonfiction Matters Stephanie Harvey, 2023-10-10 When we open the gates to nonfiction inquiry, we open our thinking and expect the unexpected, making reading discoveries, research discoveries, and writing discoveries on our way. Nonfiction Matters offers teachers the tools to help students explore nonfiction and dig deep to reach more complete understanding of the real world and report these insights in a compelling manner. Stephanie Harvey shows how students can read expository text, engage in research, and write authentic nonfiction that is captivating, visual, and full of voice. The inquiry projects she describes require in-depth learning: topic selection, question development, research exploration, reading for content, organization, synthesis, writing to convey meaning, and presenting findings—all skills that develop independent thinkers who know how to make decisions, solve problems, and apply their knowledge insightfully. Full of practical suggestions to help you bring nonfiction into your curriculum, *Nonfiction Matters*: presents strategies for understanding expository text and conducting meaningful research; offers ideas for organizing and writing accurate, effective nonfiction from idea to finished presentation; advances the importance of teacher modeling and guided practice in instructional delivery; provides a list of inquiry tools and resources—both print and electronic; suggests ways to facilitate project-based learning and assess the projects as they develop; includes bibliographies of nonfiction children's books by subject and genre and lists of recommended magazines. Why is nonfiction almost a guaranteed success? The key to teaching with nonfiction is passion, for children are passionate inquirers, and nonfiction fuels their curiosity and their demand for knowledge and understanding of the world.

The Everything Guide to Informational Texts, K-2 Kathy H. Barclay, Laura Stewart, Deborah M. Lee, 2014-02-20 Do monarch butterflies have a nose? a kindergartener inquires. Does it rain on the moon? a first-grader wonders. Does a white shark really produce 30 million teeth? asks a second grader. These incisive, critical quests for additional knowledge about the world are precisely what children do when the Common Core State Standards for informational texts go right in K-2. And with *The Everything Guide to Informational Texts*, the Common Core will go right in K-2. Authors Kathy Barclay and Laura Stewart have written the book that teachers like you have been pleading for—a resource that delivers the what I need to

know Monday through Friday to engage kids in a significant amount of informational text reading experiences. No filler, no lofty ideals about college and career readiness, but instead, the information on how to find lesson-worthy texts and create developmentally appropriate instructional plans that truly help young readers comprehend grade-level texts. What you'll love most: The how-to's on selecting stellar informational texts High-impact comprehension strategies for nonfiction Suggestions on providing sufficient challenge in guided reading, read alouds, and other practices Model text lessons and lesson plan templates across each grade An annotated list of 449 informational texts for read alouds, guided reading, and independent reading It's time to bring in to our classrooms all the high-quality informational texts that are available. It's time to demonstrate to students how to read them, and to allow the authors of these children's texts to take readers into rich, complex ideas they can handle with our support. If ever there were a book to quell our concern about how Common Core expectations will play out in grades K-2, this is it.

Teaching Text Features to Support Comprehension Michelle Kelley,Nicki Clausen-Grace,2015-05-26 When K-5 students understand how to read text features like diagrams, bullets, insets, and tables, they are reading the whole page--essential for deep comprehension of nonfiction and fiction text. In this revised edition of *Reading the Whole Page: Teaching and Assessing Text Features to Meet K-5 Common Core Standards*, seasoned educators Michelle Kelley and Nicki Clausen-Grace show you how to explicitly teach K-5 students to read text features, use them to navigate text, and include them in their own writing. The classroom-proven mini-lessons, activities, and assessment tools in *Teaching Text Features to Support Comprehension* help you: teach relevant Common Core State Standards and grade-level expectations; diagnose, monitor, and meet student needs with one of two level-appropriate assessments; evaluate knowledge with a unique picture book that can be downloaded that illustrates all the text features; and monitor and guide differentiated instruction with a convenient class profile. Sixty mini-lessons for teaching print, graphic, and organizational features provide ample choices for meeting the standards while adapting to students' needs. Flexible lessons, which follow the gradual release of responsibility model and increase in difficulty, can be used within the typical 90-minute reading block, during content-area instruction, in small groups, and as part of independent practice opportunities like literacy centers. Each lesson offers concept review, suggestions for differentiation, assessment options, and technology connections, requiring students to find, explore, manipulate, and create text features in their own writing. Even more activities--from text feature walks to scavenger hunts--help students integrate text feature knowledge as they read. The downloadable materials provided online include important resources and convenient lesson supports, such as interactive thinksheets that can be filled out directly on the computer, visual examples of each text feature, rubrics, the assessment picture book, and readers' theatre scripts.
