James McClelland

**Botany Bay and the First Fleet** Alan Frost, 2019-06-04 Now in one definitive volume, Botany Bay and the First Fleet is a full, authentic account of the beginnings of modern Australia. In 1787 a convoy of eleven ships, carrying about 1400 people, set out from England for Botany Bay, on the east coast of New South Wales. In deciding on Botany Bay, British authorities hoped not only to rid Britain of its excess criminals, but also to gain a key strategic outpost and take control of valuable natural resources. According to the conventional account, it was a shambolic affair: under-prepared, poorly equipped and ill-disciplined. Here, Alan Frost debunks these myths, and shows that the voyage was in fact meticulously planned - reflecting its importance to Britain's imperial and commercial ambitions. In his examination of the ships, passengers and preparation, Frost reveals the hopes and schemes of those who engineered the voyage, and the experiences of those who made it. The culmination of thirty-five years' study of previously neglected archives, Botany Bay and the First Fleet offers new and surprising insights into how Australia came to be.

*Caroline Princess of Wales & Other Forgotten People of History* Keith R. Dawson, 2010 Discover the fascinating stories that historians have neglected to tell us over the years. Caroline Princess of Wales was the wife of King George IV of England, a man who neglected her womanly needs. Deciding that what was good for the gander was good for the goose, she is often said to be the first woman of the Women's Liberation. This collection includes many other largely unknown historic people and events. Read the story of American patriot Nathaniel Wheatley, brother of Negro slave poet and singer, Phillis Wheatley, whose death is still a mystery. Unearth the truths of the Holsworthy Connection, a tale of the three most important women in the history of early Australia and illuminates the religious connection to the founding of Sydney. Encounter other important men and woman whose stories have yet to be told, until now.

The First Fleet Alan Frost, 2011 In 1787 a convoy of eleven ships, carrying about 1500 people, set out from England for Botany Bay. According to the conventional account, it was a shambolic affair: under - prepared, poorly equipped and ill - disciplined. Robert Hughes condemned the organisers' "muddle and lack of foresight", while Manning Clark described scenes of "indescribable misery and confusion". In *The First Fleet: The Real Story*, Alan Frost draws on previously forgotten records to debunk these persistent myths. He shows that the voyage was in fact meticulously planned - reflecting its

importance to the British government's secret ambitions for imperial expansion. He examines the ships and supplies, passengers and behind-the-scenes discussions. In the process, he reveals the hopes and schemes of those who planned the voyage, and the experiences of those who made it.

*Australia's Most Infamous Criminals* Graham Seal, 2023-10-03 Page turning stories of inventive scams, dramatic escapes and captures, and vile deeds of our most infamous criminals. 'Graham Seal finds and writes ripper, fair-dinkum, true blue Aussie yarns. His books are great reads.' —The Weekly Times Australia's master storyteller trawls our rich history of cold cases, notorious robberies, shameless frauds and razor gangs to uncover a cast of colourful villains. From the men and women who stepped off the convict ships and continued to ply their trade, to the dark streets of the burgeoning towns and cities over the next couple of centuries, it's a fascinating array of tales. Australia's worst serial killer is a woman from Perth, responsible for over 30 deaths. There are the lolly shop murders, the world's first plane hijacking, the great bookie robbery and the black widow of Richmond. There are lesser-known stories from our best-known crims, including Tilly Devine, Squizzy Taylor, Iris Weber, Francis Deeming and of course Ned Kelly, as well as practitioners of the long con you'll hear about for the first time. The inventive scams, dramatic escapes and vile deeds of our most infamous criminals will keep you turning the pages.

*The First Fleet Piano: Volume One* Geoffrey Lancaster, 2015-11-03 During the late eighteenth century, a musical-cultural phenomenon swept the globe. The English square piano—invented in the early 1760s by an entrepreneurial German guitar maker in London—not only became an indispensable part of social life, but also inspired the creation of an expressive and scintillating repertoire. Square pianos reinforced music as life's counterpoint, and were played by royalty, by musicians of the highest calibre and by aspiring amateurs alike. On Sunday, 13 May 1787, a square piano departed from Portsmouth on board the *Sirius*, the flagship of the First Fleet, bound for Botany Bay. Who made the First Fleet piano, and when was it made? Who owned it? Who played it, and who listened? What music did the instrument sound out, and within what contexts was its voice heard? What became of the First Fleet piano after its arrival on antipodean soil, and who played a part in the instrument's subsequent history? Two extant instruments contend for the title 'First Fleet piano'; which of these made the epic journey to Botany Bay in 1787-88? *The First Fleet Piano: A Musician's View* answers these questions, and provides tantalising glimpses of social and cultural life both in Georgian England and in the early colony at Sydney Cove. The First Fleet piano is placed within the musical and social contexts for which it was created, and narratives of the individuals whose lives have been touched by the instrument are woven together into an account of the First Fleet piano's conjunction with the forces of history. View 'The First Fleet Piano: Volume Two Appendices'. Note: Volume 1 and 2 are sold as a set (\$180 for

both) and cannot be purchased separately.

**Primary Mathematics** Penelope Serow, Rosemary Callingham, Tracey Muir, 2014-01-20 Primary Mathematics provides a comprehensive introduction to teaching and learning mathematics in today's classrooms. Drawing links to the Australian Curriculum, this book covers the core learning areas of measurement, space and geometry, early number concepts, data and statistics, chance and probability, and patterns and algebra. At the centre of this book is the belief that ICT can be a powerful tool for enhancing student learning. Although many classrooms have been resourced with computers, interactive whiteboards and mobile technology, teachers need to be able to transform these technological tools into meaningful teaching and learning experiences. This book explores the ways in which technology can be integrated into the mathematics classroom. The book also explores issues around student diversity, assessment 'for', 'of' and 'as' learning, and teaching in rural and remote areas. Primary Mathematics is an indispensable resource for pre- and in-service teachers alike.

**Convicts and the Arts** Professor Max Howell, Dr Lingyu Xie, 2013-11-01 There are a considerable number of books on the art of the convicts, so Convicts & Art has been covered reasonably well but art is only once facet of the arts that has been examined to any extent. This book concerns itself with Convicts & the Arts. This book, then, endeavors to look at the convicts' contribution to the arts, and demonstrates without doubt that the convicts made a significantly broader contribution to the culture of Australia than previously thought. There is a common misconception that all convicts were immediately institutionalised in a cell, and convict culture was solely a prison culture. It needs reinforcing that when the First Fleet arrived there were no prisons in Australia, no cells where they could put the convicts. The early governors and principal authorities quite logically endeavoured to use whatever skills the convicts had. So artists, generally forgers, were placed with those who were interested in recording a visual history of this new land. Among the convicts were bricklayers, house painters, jewelers, silversmiths, goldsmiths and so on, and some of them made significant contributions to the emerging society. Some of these contributions will be developed herein. This work endeavors to examine the convicts' contribution to the arts in Australia, in areas like the writing of novels, poetry, autobiographies, sculpture, theatre, music, architecture, jewelry, the press, decorative arts and pottery.

**Memorandums by James Martin** Tim Causer, 2017-06-07 Among the vast body of manuscripts composed and collected by the philosopher and reformer Jeremy Bentham (1748-1832), held by UCL Library's Special Collections, is the earliest Australian convict narrative, Memorandums by James Martin. This document also happens to be the only extant first-hand account of the most well-known, and most mythologized, escape from Australia by transported convicts. On the night of 28 March 1791, James Martin, William and Mary Bryant and their two infant children, and six other male convicts, stole the colony's fishing boat and sailed out of Sydney Harbour. Within ten weeks they had reached Kupang in West Timor, having, in an amazing feat of endurance, travelled over 3,000 miles (c. 5,000) kilometres) in an open boat. There they passed

themselves off as the survivors of a shipwreck, a ruse which—initially, at least—fooled their Dutch hosts. This new edition of the Memorandums includes full colour reproductions of the original manuscripts, making available for the first time this hugely important document, alongside a transcript with commentary describing the events and key characters. The book also features a scholarly introduction which examines their escape and early convict absconding in New South Wales more generally, and, drawing on primary records, presents new research which sheds light on the fate of the escapees after they reached Kupang. The introduction also assesses the voluminous literature on this most famous escape, and critically examines the myths and fictions created around it and the escapees, myths which have gone unchallenged for far too long. Finally, the introduction briefly discusses Jeremy Bentham's views on convict transportation and their enduring impact.

Shipowners investing in the South Sea Whale Fishery from Britain: 1775-1815 Jane M. Clayton and Charles A.

Clayton, 2016-03-18 A reference book providing a snapshot of the life histories of more than fifty shipowners investing in the South Sea Whale Fishery over a forty year period. It gives details of their places of business, the number of whaling ships they owned and biographical information about their commercial dealings and personal lives. A map of London showing the River Thames and the location of the businesses of the majority of these shipowners is enclosed.

**Dangerous Women** Hope Adams, 2021-02-16 Named one of 2021's Most Anticipated Historical Novels by Oprah Magazine • Cosmopolitan • and more! Nearly two hundred condemned women board a transport ship bound for Australia. One of them is a murderer. From debut author Hope Adams comes a thrilling novel based on the 1841 voyage of the convict ship *Rajah*, about confinement, hope, and the terrible things we do to survive. London, 1841. One hundred eighty Englishwomen file aboard the *Rajah*, embarking on a three-month voyage to the other side of the world. They're daughters, sisters, mothers—and convicts. Transported for petty crimes. Except one of them has a deadly secret, and will do anything to flee justice. As the *Rajah* sails farther from land, the women forge a tenuous kinship. Until, in the middle of the cold and unforgiving sea, a young mother is mortally wounded, and the hunt is on for the assailant before he or she strikes again. Each woman called in for question has something to fear: Will she be attacked next? Will she be believed? Because far from land, there is nowhere to flee, and how can you prove innocence when you've already been found guilty?

**Early Days of Windsor, N.S. Wales** Rev. James Steele, 1916

**The First Taint of Civilization** Francis X. Hezel, 2021-05-25 "Hezel writes clearly and with erudition and commands an impressive body of information. His book is a tour de force.... Not only will it be read eagerly by Pacific scholars, but it should find a wide audience among well-educated Micronesians hungry for greater understanding of how their islands have become ensnared in world geopolitics." —Ethnohistory

**Early Days of Windsor** James Steele, 2021-11-09 In 'Early Days of Windsor,' James Steele intricately weaves a narrative that brings to life the formative years of one of England's most storied towns. Through a meticulous blend of historical analysis and vivid storytelling, Steele captures the social, political, and cultural dynamics that shaped Windsor during its infancy. The book is characterized by its eloquent prose and rich descriptions, placing readers in the midst of the town's bustling markets and serene riverbanks, while revealing the interplay between local governance and the monarchy's influence. Steele's literary style resonates with the traditions of 19th-century historical fiction, echoing the works of authors like Sir Walter Scott, yet is firmly grounded in rigorous historical scholarship. James Steele, a devoted historian and ardent advocate for local heritage, draws upon a wealth of research and personal passion for Windsor's history. His academic background informs his keen insight into the socio-economic conditions of the era, shedding light on how the narratives of ordinary citizens intertwined with those of nobility. Steele's dedication to preserving local stories has inspired this work, as he endeavors to deepen understanding of Windsor's significance in the larger tapestry of British history. I wholeheartedly recommend 'Early Days of Windsor' to historians, literature enthusiasts, and anyone intrigued by the rich legacy of this iconic town. Steele's engaging style and thorough examination provide both an enjoyable read and a valuable educational resource, inviting readers to discover the foundational stories that continue to resonate in modern society.
