Resumen de historia de la literatura española Ernest Mérimée,1929

Resumen historico de la Literatura española. Segunda parte del Manual de literatura Antonio Gil y Zárate,1862

Historias Antonio Sancho Royo,2007 El volumen V de las “Historias” de Polibio comprende los libros V y VI de esta obra. El primero de ellos forma una unidad de estructura, de función y conceptual con los dos libros precedentes, todos tienen como objetivo exponer los acontecimientos históricos que tuvieron lugar en el mundo en el transcurso de la 140 olimpiada. Este tríptico representa el relato de la historia propiamente dicha. El libro VI es el primero de los libros que se conservan en estado fragmentario, aunque esto no impide conocer con exactitud el contenido y la estructura. Y ello se debe a la amplitud de lo conservado y a su contenido que es más un ensayo de filosofía de la historia que un relato de hechos militares.

Las historias de la literatura española del hispanismo francés (1908-1977) , Las historias de la literatura española del hispanismo francés (1908-1977) se propone como un estudio de la evolución de la historiografía literaria del hispanismo francés durante casi siete décadas del siglo XX. A través del análisis de las siete historias de la literatura española publicadas en este periodo -las de Mérimée, Legendre, Camp, Larrieu y Thomas, Cirot y Darbord, Descola y Aubrun-, el autor analiza el desarrollo del discurso historiográfico-literario francés, señalando tanto la consolidación de un modelo de historia de la literatura marcadamente didáctico y mediado por las circunstancias del campo de estudio como el abandono de este en algunas propuestas alternativas que se caracterizan por una alta carga interpretativa. El estudio no solo aborda la selección y

valoración de autores en cada una de estas historias, sino que también examina las metodologías que emplean, las estructuras que despliegan y los contextos intelectuales en los que aparecen, a la vez que las contextualiza en la tradición historiográfica del hispanismo internacional. Se exploran cuestiones clave como la influencia de las corrientes ideológicas y académicas en la configuración del canon, las tensiones entre positivismo, narración e interpretación, y las características genéricas de la historia de la literatura. Este volumen se sitúa en el cruce de la teoría y la historia de la historia literaria y los estudios sobre el hispanismo, ofreciendo una mirada panorámica y crítica a un corpus hasta ahora poco estudiado. Su combinación de análisis cuantitativo y cualitativo, así como su enfoque comparativo, lo convierten en punto de partida para investigadores y lectores interesados en la historiografía literaria, la recepción de la literatura española en Europa y la historia del hispanismo extranjero.

Historias. Libros I-II Publio Cornelio Tácito, 2016-08-05 La traducción, a cargo de Antonio Ramírez de Verger, va acompañada de una introducción, dirigida al público culto en general, sea experto o sea profano, y de notas generosas para aclarar cuestiones históricas, geográficas y literarias. La obra de Tácito se ha convertido en un monumento literario que mantiene su vigencia a lo largo de los siglos. Las Historias, escritas por Tácito (56/57-ca. 120 d.C.), el maestro del vigor narrativo y del análisis psicológico de los personajes, narran las brutales guerras civiles que se desencadenaron a lo largo del Imperio Romano durante el largo año 69 d. C. tras el suicidio de Nerón, el último emperador de la dinastía Julio-Claudia. Por los dos primeros libros desfilan cuatro emperadores: el anciano Galba, el vividor Otón, el hedonista Vitelio y el probo Vespasiano.

Historia de los trasplantes en la Argentina y en el mundo Roberto Cambariere, 2022-09-01 Los avances científicos y la investigación constante permitieron que el trasplante de órganos sea hoy una práctica habitual. Esto fue posible gracias a un entusiasta grupo de científicos que, a lo largo de varias décadas, trabajaron incansablemente seguros de que la ciencia podía mejorar la calidad de vida y perpetuarla. Testigo y protagonista, el doctor Roberto Cambariere reconstruye con rigor y sensibilidad el recorrido de los trasplantes en la Argentina y en el mundo. Motivado por el deseo de dejar la historia a disposición de las nuevas generaciones, y con el desafío que implica para alguien que se sumerge en el pasado llegar hasta el presente con la tinta aún fresca, el autor nos ofrece un apasionante recorrido donde la filosofía, la ética y la ciencia se amalgaman de un modo exquisito, como solo puede ejecutarlo alguien que se ha dedicado al saber y que ha vivido intensamente.

Robar la historia Miguel A. López, 2017 Este libro conjuga un recorrido ejemplar por la producción artística latinoamericana. Nos vemos aquí envueltos en la contingencia vital de un pensamiento que se siente atraído por las interrupciones y no por las continuidades, por los estallidos y no por las restauraciones, por las mezcolanzas de cuerpos y género(s) desensamblados y no por las identidades plenas, por las roturas de parentescos y no por los linajes directos, por los saberes entrecortados y no por la síntesis unitaria de un conocimiento íntegro. Robar la historia. Contrarrelatos y prácticas artísticas de oposición tiene como horizonte las mutaciones sociales y culturales que llevaron las tecnologías de la creación a experimentar con nuevos modos de hacer y de pensar el arte que mezclan la potencia expresiva de las formas y los conceptos

con las demandas ciudadanas y los reclamos comunitarios, los movimientos civiles, las luchas de deseos que se contagian a multitudes en acción. Al transgredir los ritos de institucionalización del saber académico, este libro sobre arte (un libro de traspasos disciplinarios que también habla de colonialidad, de sexualidad y patriarcado, de capitalismo, de violencia y memorias postdictatoriales, de globalización transnacional, de movimientos sociales y de esfera pública) contribuye no sólo a minar los discursos opresores sino a reconfigurar subjetividades críticas que logran zafarse del acoso neoliberal recurriendo a los artificios y desbordes de la imaginación radical.
