Born Believers Justin L. Barrett, 2012-03-20 Infants have a lot to make sense of in the world: Why does the sun shine and night fall; why do some objects move in response to words, while others won't budge; who is it that looks over them and cares for them? How the developing brain grapples with these and other questions leads children, across cultures, to naturally develop a belief in a divine power of remarkably consistent traits—a god that is a powerful creator, knowing, immortal, and good—explains noted developmental psychologist and anthropologist Justin L. Barrett in this enlightening and

provocative book. In short, we are all born believers. Belief begins in the brain. Under the sway of powerful internal and external influences, children understand their environments by imagining at least one creative and intelligent agent, a grand creator and controller that brings order and purpose to the world. Further, these beliefs in unseen super beings help organize children's intuitions about morality and surprising life events, making life meaningful. Summarizing scientific experiments conducted with children across the globe, Professor Barrett illustrates the ways human beings have come to develop complex belief systems about God's omniscience, the afterlife, and the immortality of deities. He shows how the science of childhood religiosity reveals, across humanity, a "natural religion," the organization of those beliefs that humans gravitate to organically, and how it underlies all of the world's major religions, uniting them under one common source. For believers and nonbelievers alike, Barrett offers a compelling argument for the human instinct for religion, as he guides all parents in how to effectively encourage children in developing a healthy constellation of beliefs about the world around them.

A Comforting Word Kenn Fikins, 1994-04 What do I say to a suffering friend? I feel like I should say something but what? I have never had that experience before so how can I help them? Have you ever found yourself finding excuses that will justify your lack of encouragement to someone immersed in grief? This book will help you understand that encouraging a grieving friend may not be as difficult as we make it out to be.

Uncultured Daniella Mestyanek Young, 2022-09-20 A painful and propulsive memoir delivered in the honest tones of a woman who didn't always think she'd live to tell her story. —The New York Times A BuzzFeed Best Book of September In the vein of *Educated* and *The Glass Castle*, Daniella Mestyanek Young's *Uncultured* is more than a memoir about an exceptional upbringing, but about a woman who, no matter the lack of tools given to her, is determined to overcome. Behind the tall, foreboding gates of a commune in Brazil, Daniella Mestyanek Young was raised in the religious cult The Children of God, also known as The Family, as the daughter of high-ranking members. Her great-grandmother donated land for one of The Family's first communes in Texas. Her mother, at thirteen, was forced to marry the leader and served as his secretary for many years. Beholden to The Family's strict rules, Daniella suffers physical, emotional, and sexual abuse—masked as godly discipline and divine love—and is forbidden from getting a traditional education. At fifteen years old, fed up with The Family and determined to build a better and freer life for herself, Daniella escapes to Texas. There, she bravely enrolls herself in high school and excels, later graduating as valedictorian of her college class, then electing to join the military to begin a career as an intelligence officer, where she believes she will finally belong. But she soon learns that her new world—surrounded by men on the sands of Afghanistan—looks remarkably similar to the one she desperately tried to leave behind. Told in a beautiful, propulsive voice and with clear-eyed honesty, *Uncultured* explores the dangers unleashed when harmful group mentality goes unrecognized, and is emblematic of the many ways women have to contort themselves to survive.

The Philosopher King Heath Carpenter,2019-06-01 Texas-born T Bone Burnett is an award-winning musician, songwriter, and producer with over forty years of experience in the entertainment industry. In *The Philosopher King*, Heath Carpenter evaluates and positions Burnett as a major cultural catalyst by grounding his work, and that of others abiding by a similar “roots” ethic, in the American South. Carpenter examines select artistic productions created by Burnett to understand what they communicate about the South and southern identity. He also extends his analysis to artists, producers, and cultural tastemakers who operate by an ethic and aesthetic similar to Burnett’s, examining the interests behind the preservationist/heritage movement in contemporary roots music and how this community contributes to ongoing conversations regarding modern southern identity. *The Philosopher King* explores these artistic connections, the culture in which they reside, and most specifically the role T Bone Burnett plays in a contemporary cultural movement that seeks to represent a traditional American music ethos in distinctly Southern terms. Carpenter looks at films, songs, soundtracks, studio albums, fashion, and performances, each loaded with symbols, archetypes, and themes that illuminate the intersection between past and present issues of identity. By weaving together ethnographic interviews with cultural analysis, Carpenter investigates how relevant social issues are being negotiated, how complicated discussions of history, tradition, and heritage feed the ethic, and how the American South as a perceived distinct region factors into the equation.

Ethnic Identity, Social Mobility and the Role of Soulmates Marieke Sloom,2018-09-21 Based on a study among higher-educated adult children of lower-class Turkish and Moroccan immigrants in the Netherlands, this open access book explores processes of identification among social climbers with ethnic minority backgrounds. Using both survey data and

open interviews with these 'minority climbers', the study details the contextual and temporal nature of identification. The results illustrate how ethnicity is contextual but have tangible and inescapable effects at the same time. Also the findings call for a more reflexive use of terms like ethnic ingroup/outgroup and bonding/bridging. Overall, the book helps us understand the emergence of middle-class segments that articulate their minority identities and as such it will be of great interest to academics, policy makers and all those interested in processes of integration and/or diversity.

Responsibility from the Margins David Shoemaker, 2015 David Shoemaker develops a novel pluralistic theory of responsibility, motivated by our ambivalence to cases of marginal agency--such as those caused by clinical depression or autism, for instance. He identifies three distinct types of responsibility, each with its own set of required capacities: attributability, answerability, and accountability.

Zines in Third Space Adela C. Licona, 2012-10-01 Develops third-space theory by engaging with zines produced by feminists and queers of color. Zines in Third Space develops third-space theory with a practical engagement in the subcultural space of zines as alternative media produced specifically by feminists and queers of color. Adela C. Licona explores how borderlands rhetorics function in feminist, and queer of-color zines to challenge dominant knowledges as well as normativizing mis/representations. Licona characterizes these zines as third-space sites of borderlands rhetorics revealing dissident performances, disruptive rhetorical acts, and coalitions that effect new cultural, political, economic, and sexual configurations.
