The Promise of Memory Lorna Martens,2011-10-10 We once believed in the power of Proust's madeleine and Wordsworth's boyhood memories—before literary culture began to defer to Freud's questioning of adult memories of childhood. In this first sustained look at childhood memories as depicted in literature, Lorna Martens reveals how much we may have lost by turning our attention the other way.

The Remembrance of Things Past Matthew Rampley,2000 The art historian Aby M. Warburg and the philosopher Walter Benjamin are widely respected as two of the most significant cultural theorists of the twentieth century. Their common interests in historiography, the function of collective memory, and the relation of modern society to earlier stages of human social existence, were important examples of the attempt to articulate, analyse and represent the experience of modernity. Drawing on a variety of discourses from aesthetics, art history, anthropology and psychology, they presented an account of modernity and human development that represented an important counter to the optimistic belief in progress prevalent amongst their contemporaries. Rarely, however, have the connections between these two thinkers been explored in depth. This volume consists of an exploration of the intellectual relation between them, considering their varying responses to the question of the meaning of modernity, and above all their common legacy for the present.

Testimonies of Resistance Nicholas Chare,Dominic Williams,2019-09-01 The Sonderkommando—the “special squad” of enslaved Jewish laborers who were forced to work in the gas chambers and crematoria of Auschwitz-Birkenau—comprise one of the most fascinating and troubling topics within Holocaust history. As eyewitnesses to and unwilling abettors of the murder of their fellow Jews, they are the object of fierce condemnation even today. Yet it was a group of these seemingly compromised men who carried out the revolt of October 7, 1944, one of the most celebrated acts of Holocaust resistance. This interdisciplinary collection assembles careful investigations into how the Sonderkommando have been represented—by themselves and by others—both during and after the Holocaust.

Breaking the Silence Linda Goldman,2014-06-11 The second edition of this bestselling book is designed for mental health professionals, educators, and the parent/caregiver, this book provides specific ideas and techniques to work with children in various areas of complicated grief. It presents words and methods to help initiate discussions of these delicate topics, as well as tools to help children understand and separate complicated grief into parts. These parts in turn can be

grieved for and released one at a time. A new chapter is included, called Communities Grieve: Involvement with Children and Trauma. It includes information on The Taiwan Earthquake and how the community worked with children, a school bus accident in which 36 elementary school children witnessed the death of the bus driver that was driving and how the school system worked with these children and their families; a boy who was running on a cross country team and got hit by a car, which was witnessed by teammates; and how a non-profit community grief agency worked with family, school, and community. The last study is from the Oklahoma bombing and the outgrowth of a place for the traumatized children and how they still work with kids and family today. This chapter then contains new activities to work with traumatized grieving children. The new edition also includes updated resources, books, curriculums, websites, hotlines and another new chapter on bullying and victimization issues. The chapter for educators has been expanded, including the coverage of topics such as at-risk students, gay and lesbian issues, and self-injurious behaviors.

Media Control Robert E. Gutsche, Jr., 2015-10-22 Media Control: News as an Institution of Power and Social Control challenges traditional (and even some radical) perceptions of how the news works. While it's clear that journalists don't operate objectively ? reporters don't just cover news, but they make it ? Media Control goes a step further by arguing that the cultural institution of news approaches and presents everyday information from particular and dominant cultural positions that benefit the power elite. From analysing how the press operate as police agents by conducting surveillance and instituting social order through its coverage of crime and police action to bolstering private business and neoliberal principles by covering the news through notions of boosterism, Media Control presents the news through a cultural lens. Robert E. Gutsche, Jr. introduces or advances readers' applications of critical race theory and cultural studies scholarship to explore cultural meanings within news coverage of police action, the criminal justice system, and embedding into the news democratic values that are later used by the power elite to oppress and repress portions of the citizenry. Media Control helps the reader explicate how the power elite use the press and the veil of the Fourth Estate to further white ideologies and American Imperialism.

Seeing Israeli and Jewish Dance Judith Brin Ingber, 2011 A comprehensive survey of historical and contemporary Jewish dance. In Seeing Israeli and Jewish Dance, choreographer, dancer, and dance scholar Judith Brin Ingber collects wide-ranging essays and many remarkable photographs to explore the evolution of Jewish dance through two thousand years of Diaspora, in communities of amazing variety and amid changing traditions. Ingber and other eminent scholars consider dancers individually and in community, defining Jewish dance broadly to encompass religious ritual, community folk dance, and choreographed performance. Taken together, this wide range of expression illustrates the vitality, necessity, and continuity of dance in Judaism. This volume combines dancers' own views of their art with scholarly examinations of Jewish dance conducted in Europe, Israel, other Middle East areas, Africa, and the Americas. In seven parts, Seeing Israeli and Jewish Dance considers Jewish dance artists of the twentieth and twenty-first centuries; the dance of different Jewish

communities, including Hasidic, Yemenite, Kurdish, Ethiopian, and European Jews in many epochs; historical and current Israeli folk dance; and the contrast between Israeli and American modern and post-modern theater dance. Along the way, contributors see dance in ancient texts like the Song of Songs, the Talmud, and Renaissance-era illuminated manuscripts, and plumb oral histories, Holocaust sources, and their own unique views of the subject. A selection of 182 illustrations, including photos, paintings, and film stills, round out this lively volume. Many of the illustrations come from private collections and have never before been published, and they represent such varied sources as a program booklet from the 1893 Chicago World's Fair and archival photos from the Israel Government Press Office. Seeing Israeli and Jewish Dance threads together unique source material and scholarly examinations by authors from Europe, Israel, and America trained in sociology, anthropology, history, cultural studies, Jewish studies, dance studies, as well as art, theater, and dance criticism. Enthusiasts of dance and performance art and a wide range of university students will enjoy this significant volume.
