The Victorian Mind's Eye Julia Thomas, 2025-01-12 *The Victorian Mind's Eye: Reading Literature in an Age of Illustration* The Victorians lived in an age of illustration. In a matter of decades, words and images had become enmeshed and entangled, printed alongside each other in a spectacular array of printed forms. The exponential growth of illustration not only radically changed literature, but also changed the way that literature was read. This book offers a major conceptualisation of the difference that pictures made to the reading of words. Analysing an extensive range of illustrated material and drawing on the accounts of Victorian readers, reviewers, authors, artists, and psychologists, the book describes how the Victorians characterised the effects of illustration, and how illustrations, in turn, elicited and anticipated responses from their readers. What emerges from these sources is the notion of a distinct mode of reading that determined readers' material and mental engagements with illustrated literature. The presence of images on the page was said to impact on whether readers created images in their mind as they read. Illustrations generated feelings of pleasure or displeasure; they determined what was read first, what was recalled, and what was etched in the memory. By peering into the recesses of the mind's eye, this book identifies the cognitive mechanisms and cultural politics that were central to how the Victorians described their reading of illustrated literature. It suggests the significance of these ideas of reading for understanding the place of illustration in Victorian culture and the relation between words, pictures, and historical values and meanings. Illustration was fundamental to how the Victorians read, and to how we read the Victorians.

The Dutch World of Washington Irving Elisabeth Paling Funk, 2025-06-15 The Dutch World of Washington Irving tells an alternative origin story of American literary culture. In December of 1809, before finding fame with Rip Van Winkle and The Legend of Sleepy Hollow, Washington Irving published his satirical A History of New York, from the Beginning of the World to the End of the Dutch Dynasty under the pseudonym Diedrich Knickerbocker. Elisabeth Paling Funk explains that the History of New York and the Hudson Valley folktales that followed were part of an early trend of responding to the national desire for a historical record. Funk argues that these works uniquely describe this part of the American scene in the period of the Early Republic and bring forward the Dutch strain in its history and culture. Funk explores what the young Irving would have read, heard, and observed during his early life and career in New York City, once part of the former colony of New Netherland, where he was surrounded by Dutch-speaking neighbors and relatives and Dutch literature. Based on these sources, The Dutch World of Washington Irving argues that Irving's Knickerbocker works—not only his History but also his Hudson Valley stories—represent a crucial effort to preserve Dutch life and folk customs in the Hudson Valley in the face of Anglo-Americanization. Providing the first complete glossary of Irving's Dutch vocabulary and drawing on untranslated Dutch sources, Funk offers cultural historians, scholars of American folklore and literature, and the latest generation of Irving's readers unprecedented access into the Dutch world of Washington Irving and his American contemporaries.

Frances Burney's Cecilia Catherine M. Parisian, 2016-04-15 In her exhaustive publishing history of Frances Burney's Cecilia, Or Memoirs of an Heiress, Catherine Parisian mines an extensive archival record that includes portions of the original manuscript, annotated page proofs, legal records relative to its copyright, and an abundance of letters, to chronicle

the novel's composition, printing, and publication from its first edition in 1782 to the present-day Oxford World's Classics paperback. Generally regarded on its publication as the most important novel since Tobias Smollett's *Humphrey Clinker*, *Cecilia* is a deft blend of the satire of Henry Fielding with the sentimentality of Samuel Richardson that brings a female perspective to the novel while perceptively probing class and gender relations in eighteenth-century British society. Parisian combines the methods of the book historian with those of the bibliographer to show how the two usefully inform one another and bear on the interpretation of the literary text. Examining 51 different editions of *Cecilia*, Parisian considers what these editions reveal about *Cecilia*'s reading audiences and what insights these books provide into the printing and publishing trends of the past 200 years. Lavishly illustrated and accessibly written, her timely history demonstrates the importance of *Cecilia* to the art of the novel and the history of the book.

Liminality and the Short Story Jochen Achilles, Ina Bergmann, 2014-12-05 This book is a study of the short story, one of the widest taught genres in English literature, from an innovative methodological perspective. Both liminality and the short story are well-researched phenomena, but the combination of both is not frequent. This book discusses the relevance of the concept of liminality for the short story genre and for short story cycles, emphasizing theoretical perspectives, methodological relevance and applicability. Liminality as a concept of demarcation and mediation between different processual stages, spatial complexes, and inner states is of obvious importance in an age of global mobility, digital networking, and interethnic transnationality. Over the last decade, many symposia, exhibitions, art, and publications have been produced which thematize liminality, covering a wide range of disciplines including literary, geographical, psychological and ethnicity studies. Liminal structuring is an essential aspect of the aesthetic composition of short stories and the cultural messages they convey. On account of its very brevity and episodic structure, the generic liminality of the short story privileges the depiction of transitional situations and fleeting moments of crisis or decision. It also addresses the moral transgressions, heterotopic orders, and forms of ambivalent self-reflection negotiated within the short story's confines. This innovative collection focuses on both the liminality of the short story and on liminality in the short story.
