

Russia In Global Affairs

Roger E. Kanet

Russia in Global Affairs ,2003

Russia and the Middle East Fyodor Lukyanov,2019 This collection of articles and essays centers around Vladimir Putin's Middle East foreign policy since 2001. Many of these pieces are written by officials who played a direct part in crafting Russian policy in this region: from Yevgeny Primakov, the first prime minister of the Putin era; to longtime Foreign Minister Sergei Lavrov, UN adviser Vladimir Orlov, and Energy Minister Aleksandr Novak. This collection also features independent research articles from reputable scholars. The content is divided into three thematic parts: (1) regional issues, including Islamist movements and natural resources; (2) military concerns, including strategies to combat terrorism; and (3) politics and governance, including reflections on the Arab Spring and the Middle East's role in a future world order.

Russia's World Order Paul Robinson,2025-04-15 Russia's World Order explores the ideas underlying the undeclared New Cold War between Russia and the West. The first Cold War was a struggle between capitalism and communism; most Western politicians and policymakers imagine the new one to be a struggle between democracy and autocracy. Russia's World Order explains that in Russian eyes, the conflict is about something very different: it is a fight between two incompatible visions of where history is leading. Russia's World Order describes the civilizational theory that has come to dominate Russian official discourse, and that has come to dominate Russian official discourse and that is being used by the Russian state to justify its clashes with the West. Whereas the West promotes a vision of history that drives all nations toward convergence on a single social, political, and economic model (that of modern Western liberalism), Russia's political leaders increasingly portray the world as consisting of numerous distinct civilizations, each diverging toward its own unique destination. The Russian state portrays itself as defending the right of all civilizations to chart their own independent path of development and is having some success in using this logic to win allies around the world. Paul Robinson recounts how ideas of inevitable convergence once dominated Russian thought as well but were gradually pushed out by civilizational theories. He outlines where these theories came from, what they propose, and how they became popular. Russia's World Order thereby reveals the true nature of today's New Cold War and the challenge that Russian civilizationism poses to the West.

Russian Foreign Policy in the 21st Century R. Kanet,2010-10-29 After the collapse of the Soviet Union expectations were high that a 'new world order' was emerging in which Russia and the other former Soviet republics would join the Western

community of nations. That has not occurred. This volume explains the reasons for this failure and assesses likely future developments in that relationship

Russia's Role in World Politics Elias Götz, Neil MacFarlane, 2022-12-09 This book explores Russia's role in world politics. In recent years, Moscow has played an increasingly active and assertive role in geopolitics. Examples include Russia's takeover of Crimea and meddling in eastern Ukraine; Russia's military intervention in Syria and support for the Assad government; the Kremlin's alleged interference in the 2016 US presidential race; the pursuit of closer economic and diplomatic ties with China; and Russia's ambitious military reforms and nuclear brinkmanship. Not surprisingly, Russia's role in world politics has become the object of a spirited debate among Western policymakers, think-tank analysts, and academics. Much of this debate focuses on one central question: What are the main drivers, or causes, of Moscow's recent assertiveness? The contributions gathered here address this question by focusing on the interplay of power, ideas, and domestic influences. Previously published in *International Politics* Volume 56, issue 6, December 2019

Russia's Foreign Policy D. Cadier, M. Light, 2015-06-30 This edited volume analyses the evolution and main determinants of Russia's foreign policy choices. Containing contributions by renowned specialists on the topic, the study sheds light on some of the new trends that have characterised Russia's foreign policy since the beginning of Vladimir Putin's third presidential term.

Russia's Gamble Vladimir Gel'man, 2025-06-09 In February 2022, Russia launched a full-scale military assault on Ukraine, aimed at re-establishing Russian control over the Ukrainian state, economy and society, similar in many ways to the Soviet period. This goal, however, was not achieved, and most likely will not be achieved in the future. Rather, the Russian "special military operation" has resulted in extraordinary disasters and losses for Russia, for Ukraine, and for the entire world. This book examines the origins of the Russian assault on Ukraine and offers an explanation of why it has not achieved its aims. Why did Russian elites and leaders propose, prepare for and implement the assault on Ukraine in such a poorly prepared and heavily destructive way? In seeking to answer these questions, Gel'man focuses on Russia's domestic agenda and its dynamics after the collapse of the Soviet Union. The personalist nature of the Russian authoritarian political regime, its vulnerability to bad governance, major misperceptions by the Russian elites and leadership, and reliance of the Kremlin upon previous experience of Russian impunity were all key factors that led to Russia's fateful decision to attack Ukraine and have continued to shape Russia's mistake-ridden conduct of the war since then. Gel'man also considers what lessons can be learned from Russia's military assault for understanding the global agenda and for the study of domestic and international politics in the twenty-first century. This book, written by a leading expert on Russian politics, will be of great value to students and scholars in politics and to anyone interested in Russia and in the causes and consequences of the war against Ukraine.

Russia's Military Interventions Samuel Charap,Edward Geist,Frederick, Bryan,Drennan, John J.,Chandler, Nathan,Kavanagh, Jennifer,2021-09-27 Despite Russia's relatively small global economic footprint, it has engaged in more interventions than any other U.S. competitor since the end of the Cold War. In this report, the authors assess when, where, and why Russia conducts military interventions by analyzing the 25 interventions that Russia has undertaken since 1991, including detailed case studies of the 2008 Russia-Georgia War and Moscow's involvement in the ongoing Syrian civil war.

The Russia Trap George Beebe,2019-09-03 "A must read for anyone who cares about our nation's security in these cyber-serious, hair-trigger times." – Susan Eisenhower Every American president since the end of the Cold War has called for better relations with Russia. But each has seen relations get worse by the time he left office. Now the two countries are facing off in a virtual war being fought without clear goals or boundaries. Why? Many say it is because Washington has been slow to wake up to Russian efforts to destroy democracy in America and the world. But a former head of Russia analysis at the CIA says that this misunderstands the problem. George Beebe argues that new game-changing technologies, disappearing rules of the game, and distorted perceptions on both sides are combining to lock Washington and Moscow into an escalatory spiral that they do not recognize. All the pieces are in place for a World War I-type tragedy that could be triggered by a small, unpredictable event. The Russia Trap shows that anticipating this danger is the most important step in preventing it.

Russia's National Security in Aleksandr Dugin's Neo-Eurasianism Marcin Skladanowski,2023-09-05 Aleksandr Dugin is an extremely radical thinker. Nevertheless, it is worth dealing with his thought because it shows in an exaggerated form how the evolution of social and political ideas took place in the history of Russia, which led to Putin's contemporary neo-imperialism. This book presents the Russian discourse on national security against a broader background of global academic reflection, takes a closer look at the sources and ideological basis of the concept of Russia's security developed by Dugin, discusses the subject and main dimensions of Russia's national security in Dugin's works, and shows the importance of Russia's foreign policy for the creation of its national security.

Routledge Handbook of Russian Politics and Society Graeme Gill,James Young,2013-03 There is an ever-burgeoning number of books analyzing the Russian experience, or aspects of it. This Handbook is the first single volume which gives both a broad survey of the literature as well as highlighting the cutting edge research in the area. Through both empirical data and theoretical investigation each chapter in the Routledge Handbook Russian of Politics and Society examines both the Russian experience and the existing literature, points to research trends, and identifies issues that remain to be resolved. Offering focused studies of the key elements of Russian social and political life, the book is organized into the following broad themes: General introduction Political institutions Political Economy Society Foreign Policy Politically, economically, and socially, Russia has one of the most interesting development trajectories of any major country. This Handbook seeks to

answer questions about democratic transition, the relationship between the market and democracy, stability and authoritarian politics, the development of civil society, the role of crime and corruption, and the creation of a market economy. Providing a comprehensive resource for scholars and policy makers alike, this book is an important contribution to the study of Russian Studies, Eastern European studies, and International Relations.

International Affairs, 2007

The Routledge Handbook of Russian International Relations Studies Maria Lagutina, Natalia Tsvetkova, Alexander Sergunin, 2023-02-27 This handbook examines the study of international relations (IR) in Russia, giving a comprehensive analysis of historical, theoretic-conceptual, geographical, and institutional aspects. It identifies the place and role of Russia in global IR and discusses the factors that facilitate or impede the development of Russian IR studies. The contributors represent diverse Russian regions and IR schools and offer an overview of different intellectual traditions and key IR paradigms in the post-Soviet era. Filling the vacuum in international understanding of the Russian perspective on pivotal international issues, they demonstrate the continuity and change in Russia's international policy course over the past three decades and explain how different foreign policy schools and concepts have affected Russian foreign policy making and the decision-making process. Providing a unique contribution to the discussion on non-Western IR theory, this handbook will appeal to scholars and students of international relations, Russian studies, world politics, and international studies.

Russia's Cultural Statecraft Tuomas Forsberg, Sirke Mäkinen, 2021-11-04 This book focusses on Russia's cultural statecraft in dealing with a number of institutional cultural domains such as education, museums and monuments, high arts and sport. It analyses to what extent Russia's cultural activities abroad have been used for foreign policy purposes, and perceived as having a political dimension. Building on the concept of cultural statecraft, the authors present a broad and nuanced view of how Russia sees the role of culture in its external relations, how this shapes the image of Russia, and the ways in which this cultural statecraft is received by foreign audiences. The expert team of contributors consider: what choices are made in fostering this agenda; how Russian state authorities see the purpose and limits of various cultural instruments; to what extent can the authorities shape these instruments; what domains have received more attention and become more politicised and what fields have remained more autonomous. The methodological research design of the book as a whole is a comparative case study comparing the nature of Russian cultural statecraft across time, target countries and diverse cultural domains. It will be of interest to scholars and students of Russian foreign policy and external relations and those working on the role of culture in world politics.

Russia's International Relations in the Twentieth Century Alastair Kocho-Williams, 2013 Russia has long been a major player in the international relations arena, but only by examining the whole century can Russian foreign policy be properly understood, and the key questions as to the impact of war, of revolution, of collapse, the emergence of the Cold War

and Russia's post-Soviet development be addressed. Surveying the whole of the twentieth century in an accessible and clear manner Russia's International Relations in the Twentieth Century provides an overview and narrative, with analysis, that will serve as an introduction and resource for students of Russian foreign policy in the period, and those who seek to understand the development of modern Russia in an international context. The volume includes: an analysis of the major themes which surrounded Russia's position in world affairs as one of the European Great Powers before the First World War the impact of Revolution and the emergence of Soviet foreign policy with its dual aims of normalization and world revolution the changes wrought to the international order by the rise of Nazi Germany and by the Second World War the origins and development of the Cold War the end of the Cold War and the Soviet collapse how Russia has rebuilt itself as an international power in the post-Soviet era. An essential resource for students of Russian history and International policy.

Russian Foreign Policy Jeffrey Mankoff, 2009-04-16 A second edition of this book is now available. This thoughtful and balanced text examines the development of Russian foreign policy since the end of the Cold War. Presenting an evenhanded treatment of controversial issues, Jeffrey Mankoff analyzes Russia's interactions with major global actors, including the United States, the European Union, the Commonwealth of Independent States, and China. Despite Moscow's often-harsh rhetoric and the deployment of Russian forces against Georgia in 2008, the author convincingly demonstrates that today's Russia is more interested in restoring what its leaders consider to be its rightful place among the world's major powers than in directly challenging the West. Thoroughly researched and knowledgeable, this book will be invaluable for all students of Russia.

Rising Powers, Global Governance and Global Ethics Jamie Gaskarth, 2015-02-11 Two of the dominant themes of discussion in international relations scholarship over the last decade have been global governance and rising powers. Underlying both discussions are profound ethical questions about how the world should be ordered, who is responsible for addressing global problems, how change can be managed, and how global governance can be made to work for peoples in developing as well as developed states. Yet, these are often not addressed or only briefly mentioned as ethical dilemmas by commentators. This book seeks to ask critical and profound questions about what relative shifts in power among states might mean for the ethics and practice of global governance. Three key questions are addressed throughout the volume: Who is rising and how? How does this impact on global governance? What are the implications of these developments for global ethics? Through these questions, some of the key academics in the field explore how far debates over global ethics are really between competing visions of how international society should be governed, as opposed to tensions within the same broad paradigm. By examining how governance works in practice across the Middle East, Africa and Asia, the contributors to this volume seek to critique the way global governance discourse masks the exercise of power by elites and states, both developed and rising. This work will be essential reading for all those with an interest in the future of international relations

and global governance.

Russia's Coercive Diplomacy R. Maness, B. Valeriano, 2015-07-13 Russia's place in the world as a powerful regional actor can no longer be denied; the question that remains concerns what this means in terms of foreign policy and domestic stability for the actors involved in the situation, as Russia comes to grips with its newfound sources of might.

Routledge Handbook of Russian Security Roger E. Kanet, 2019-01-15 The Routledge Handbook of Russian Security offers a comprehensive collection of essays on all aspects of Russian security and foreign policy by international scholars from across the world. The volume identifies key contemporary topics of research and debate and takes into account the changes that have occurred in the study of Russian security strategy since the end of the Cold War. The handbook is organised into five sections: The theory and nature of Russian security policy The domestic and foreign policy nexus Instruments used by Russia in pursuing its security Global and regional aspects of Russian security and foreign policy Case studies of Russian involvement in a series of security conflicts. The book concludes with case studies of the major examples of Russian involvement and operations in a series of security conflicts, including that in Georgia, the intervention in Ukraine and occupation of Crimea, and the ongoing Civil War in Syria. This volume will be of great interest to students of Russian security, strategic studies, foreign policy, European politics, and International Relations in general.

The Reinvigorated Dragon: Russia's Rise to Global Power Pasquale De Marco, 2025-04-05 Russia, a nation of vast territory and rich history, stands at a critical juncture in its development. Having emerged from the ashes of the Soviet Union, Russia is now navigating a complex geopolitical landscape, seeking to balance its domestic challenges with its aspirations for global influence. This comprehensive book delves into the multifaceted dimensions of modern Russia, exploring its political system, economy, foreign policy, and military. It examines the challenges and opportunities facing Russia in the 21st century, providing readers with a nuanced understanding of this enigmatic nation. Domestically, Russia grapples with issues of corruption, economic inequality, and demographic decline. The book analyzes the Kremlin's efforts to address these issues, assessing the effectiveness of its policies and the prospects for future reforms. Internationally, Russia's relations with the West have been strained by geopolitical tensions and the annexation of Crimea. The book examines the roots of these tensions, exploring the historical, economic, and political factors that have shaped Russia's foreign policy. Russia's military modernization is another key focus of the book. It analyzes the Kremlin's efforts to modernize its armed forces, examining the implications for regional and global security. The book also explores Russia's role in cyber warfare, assessing its capabilities and the potential threats it poses. Beyond its military power, Russia also wields significant economic influence. The book examines Russia's energy sector, its role in global trade, and its efforts to diversify its economy. It assesses the challenges and opportunities facing Russia as it seeks to navigate the complexities of the global economy. In addition to its geopolitical and economic dimensions, the book also explores Russia's cultural and social landscape. It examines the role of the Orthodox

Church in Russian society, the rise of social media, and the challenges facing Russia's education system. ****The Reinvigorated Dragon: Russia's Rise to Global Power**** is an indispensable resource for anyone seeking to understand the complexities of modern Russia. It provides a comprehensive overview of the challenges and opportunities facing this enigmatic nation, offering readers the insights they need to make informed judgments about Russia's future role in the world. If you like this book, write a review!
