Imperial Armour Warwick Kinrade, 2007

Siege of Vraks Steve Lyons, 2025-02-25 Understand just how the Death Korps of Krieg have earned their reputation as the Imperium's most ruthless fighters in this gripping tale of desperate defence and defiant loyalty. Vraks is an armoury world that is vital to the struggling Imperium and its efforts to resist the wider threats to humanity. The planet is a key link in the long supply chain that keeps the beleaguered Imperial regiments stationed around the Eye of Terror and ready for war. The stoic Death Korps of Krieg have been assigned to this desperate world's defence. The grim soldiers of this regiment are born to serve the Emperor, as below Krieg's irradiated surface is a human factory, existing only to produce soldiers destined for the front line in the Imperium's most toxic and gruelling warzones. These indoctrinated soldiers are unflinchingly loyal and willing to sacrifice themselves without question or regard to ultimately win victory. And they will need all these qualities to face the horrors awaiting them on Vraks...

Navigating Imaginary Worlds Mark J.P. Wolf, 2025-06-16 This edited anthology offers a collection of essays that each look at various types of wayfinding. Together they explore a variety of wayfinding tools and techniques and their applications, as well as ways of keeping track of the construction of worlds too. With transmedial worlds extending over multiple media, multiple authors, and sometimes even multiple decades of creation, a wealth of different issues can arise; worlds need to direct audience members into how to organize them conceptually. Edited by Mark J. P Wolf and featuring contributions from a distinguished set of authors from interdisciplinary backgrounds, this book enriches the theory, history, and practice of world-building, through the exploration of navigation. The essays have many overlapping concerns and together they provide the reader with a range of discussions regarding wayfinding and the many ways it intersects with world-building - and world-experiencing - activities. Thus, rather than just analyzing worlds themselves, the anthology also asks the reader to consider analyzing the act of world-building itself. This collection will be of interest to students and scholars in a variety of fields including Subcreation Studies, Transmedia Studies, Popular Culture, Comparative Media Studies, Video Game Studies, Film Studies, and Interdisciplinary Literary Studies.

Heralds of the Siege Nick Kyme, Laurie Goulding, 2019-04-02 Horus has triumphed. His fleet nears Terra and the Throne of his hated father. Many have fallen to bring this moment about, their names a legacy of glory – these are their tales. A galaxy burns and brother turns on brother as the conflict brought about by a beloved son's betrayal reaches its fateful end. The Warmaster Horus has triumphed. His massive fleet at last nears Terra and the patriarchal Throne of his hated father. Many have fallen to bring this moment about, their tales are the ashes upon which the Heresy was born and prospered. Others have played their own small parts, drops in an ocean of war and blood. None of it matters. Terra looks to the skies as it raises its defences. Armies muster, heroes raise their swords, citizens cower. The war is coming. And nothing can stop it.
