What is Beauty? A Multidisciplinary Approach to Aesthetic Experience Martino Rossi Monti, Davor

Pećnjak, 2020-11-11 Does art need to be beautiful? Can humour be beautiful? What is the relationship between beauty and mimetic behaviour? What does literature have to do with beauty? What are the limitations of neuroscientific approaches to beauty? Are the experience of beauty and the production of “art” confined to anatomically modern humans? Is the experience of beauty confined to humans at all? These are just some of the questions discussed in this volume. It gathers together authors from different areas of research, including philosophy, history of philosophy, history of ideas, cognitive biology, neuroscience, anthropology and paleoanthropology, in order to investigate some of the most debated aspects of the problem of beauty and aesthetic experience. The volume will appeal to both the general reader and the specialist in the humanities, social sciences and the natural sciences.

The Beauty of What Remains Steve Leder, 2023-01-03 The national bestseller From the author of the bestselling *More Beautiful Than Before* comes an inspiring book about loss based on his most popular sermon. As the senior rabbi of one of the largest synagogues in the world, Steve Leder has learned over and over again the many ways death teaches us how to live and love more deeply by showing us not only what is gone but also the beauty of what remains. This inspiring and comforting book takes us on a journey through the experience of loss that is fundamental to everyone. Yet even after having sat beside thousands of deathbeds, Steve Leder the rabbi was not fully prepared for the loss of his own father. It was only then that Steve Leder the son truly learned how loss makes life beautiful by giving it meaning and touching us with love that we had not felt before. Enriched by Rabbi Leder's irreverence, vulnerability, and wicked sense of humor, this heartfelt narrative is filled with laughter and tears, the wisdom of millennia and modernity, and, most of all, an unfolding of the profound and simple truth that in loss we gain more than we ever imagined.

For the Beauty of the Church W. David O. Taylor, 2010-03-01 Think of your local church. Without art--music, song, dance, etc.--it would be a much poorer place. But if protestants have any vision for the arts, it tends to be a thin one. This unique book is an attempt to contribute to a robust, expansive vision for the church and the arts. Its specific aim is to show how the many parts of the landscape of church and art hold together. You can think of it as a kind of helicopter flyover, but one with expert pilots. The guides include the likes of Eugene Peterson, Lauren Winner, Jeremy Begbie, Andy Crouch, and John

Witvliet, helping to inspire readers and empower pastor-leaders with a vision of the church and the arts that is compelling, far-seeing, and profoundly transformative.

The Beauty and Power of Biblical Exposition Douglas Sean O'Donnell,Leland Ryken,2022-08-11 The Sacred Duty and Delight of Handling the Word of God In order to understand, appreciate, and faithfully preach the word of God, pastors must discern the literary nature of the Bible. Instead of just acknowledging the various genres of Scripture, pastors and teachers should allow these genres to influence how the text is approached and communicated. In The Beauty and Power of Biblical Exposition, they will learn how to both read and preach the Bible as a literary anthology. To accomplish this, Douglas Sean O'Donnell and Leland Ryken teach pastors how to faithfully preach while keeping the original authors' intentions in mind, helping them grow in their craft and love for God's word. They explain how to read six genres—including narratives, parables, epistles, poetry, proverbs, and visionary writings—for the purpose of captivating congregations with the richness of Scripture. Written for Pastors: Especially young pastors or those just out of seminary Practical: Contains guides, tables, and examples to help develop sermons Heartfelt: Written with the desire for pastors to learn and grow as communicators

Unleash the Beauty and Power of Love H. C. Villanueva,2012-05-02 Chapter 1: To cross the great unknown to harvest love is a challenge we all face. Chapter 8: You cannot close your heart, ignore the hurting world around you, and be content with life. Chapter 32: Love is real. The question is whether we are real enough to embrace love. Chapter 21: We hide inside shells of denials and go under shades of lies to avoid the piercing rays of truth. Chapter 6: To share love in the arena of life, you open the vault of your heart and disburse gems polished by God. Chapter 11: Regret robs your life. It is a thief you allow to rummage your soul and steals the precious life you have been given. Chapter 27: In the face of adversity, you are forced to define yourself. You are given a chance to show your essence. The depth of your heart exposed and the size of your faith revealed. Chapter 2: Love binds feelings on the solid rock of faith and ties passion within the sacrificial cord of promise.

Chapter 34: Life grows cold when you do not put ideas in the furnace of adversity. When you tarry, dreams become wavering titillations of the soul, and aspirations turn into useless trinkets of the mind. Chapter 16: When we fail to follow God, we drift in a sea of confusion, struggle in the field of opportunity, and wither in the garden of life.

Plato and the Question of Beauty Drew A. Hyland, 2008-05-28 Drew A. Hyland, one of Continental philosophy's keenest interpreters of Plato, takes up the question of beauty in three Platonic dialogues, the *Hippias Major*, *Symposium*, and *Phaedrus*. What Plato meant by beauty is not easily characterized, and Hyland's close readings show that Plato ultimately gives up on the possibility of a definition. Plato's failure, however, tells us something important about beauty—that it cannot be reduced to logos. Exploring questions surrounding love, memory, and ideal form, Hyland draws out the connections between beauty, the possibility of philosophy, and philosophical living. This new reading of Plato provides a serious investigation into the meaning of beauty and places it at the very heart of philosophy.

On Beauty and Measure John Sallis, 2021-10-05 On Beauty and Measure features renowned philosopher John Sallis' commentaries on Plato's dialogues the *Symposium* and the *Statesman*. Drawn from two lecture courses delivered by Sallis, they represent his longest and most sustained engagement to date with either work. Brilliantly original, Sallis's close readings of Plato's dialogues are grounded in the original passages and also illuminate the overarching themes that drive the dialogues.

The Revival of Beauty Catherine Wesselinoff, 2023-08-18 This book provides original descriptive accounts of two schools of thought in the philosophy of beauty: the 20th-century “Anti-Aesthetic” movement and the 21st-century “Beauty Revival” movement. It also includes a positive defence of beauty as a lived experience extrapolated from Beauty-Revival position. Beauty was traditionally understood in the broadest sense as a notion that engages our sense perception and embraces everything evoked by that perception, including mental products and affective states. This book constructs and places in parallel with one another the Anti-Aesthetic and Beauty-Revival movements. In the author’s view, Anti-Aestheticism is devoted to a decisive negation of beauty—denying its importance as a philosophical notion and its significance as a lived experience. It suggests that beauty is a merely sensual experience, which can be used, at best, as a distraction from justice and, at worst, as an instrument of evil. Alternatively, the Beauty-Revival movement advances arguments for beauty as an experience that extends primarily to sensual experience, but which also calls forth mental products and cognitive and affective states evoked by that experience. After reconstructing these two positions, the author elaborates on the notion of beauty as a lived experience through three key moments which occur in the process of our experiencing beautiful objects. These moments are (a) the conditions that constitute an experience of beauty, (b) the attitudinal features most likely to lead to the experience of beauty, and (c) the results of the experience of beauty. *The Revival of Beauty* will be of interest to scholars and advanced students working in aesthetics, history of philosophy, and art history.

The Beauty of Holiness in the Common-prayer: Thomas Bisse,1716

The Beauty Trade Angela B. McCracken,2014-01-02 While it is frequently trivialized, the business of beauty is one of the most important global industries, generating millions of dollars and implicating many more the world over, from consumers to corporate elites. As trends spread so do ideas about standards of appearance and what is necessary to look good and fit in -- standards that are often influenced by ideas about race, class and gender norms. In looking at beauty products, practices, and ideas of youth in Guadalajara, Mexico, The Beauty Trade takes seriously the question of whether and how beauty norms are changing in relation to the globalizing beauty economy. Angela B. V. McCracken considers who benefits and who loses from beauty globalization and what this means for gender norms among youth. Weaving together fascinating ethnographic research on beauty practices and insights from political economy theory, the book presents a feminist analysis of the global economy of beauty. Rather than a sign of frivolity, the beauty economy is intimately connected to youth's social and economic development. Cosmetic makeovers have become a modern rite of passage for girls, enabling social connections and differentiations, as well as entrepreneurial activities. The global beauty economy is a phenomenon generated by young people, mostly women, laboring in, teaching, and consuming beauty --- and eager for belonging and originality, using every mechanism at their disposal to enhance their appearance. As McCracken shows, globalization is not homogenizing beauty standards to a Western ideal; rather, it is diversifying beauty standards. The Beauty Trade explains how globalization, combined with youth's desires for uniqueness, is enabling the spread of a diversity of beauty cultures, including alternative visions of gender appropriate looks and behavior.

Theological Perspectives on God and Beauty Graham Ward,Edith Wyschogrod,2003-08-01 Eminent theologians John Milbank, Graham Ward, and Edith Wyschogrod discuss aesthetics, placing radical orthodoxy in dialogue with postmodern theology.

Pythagoras attributed mystical qualities to some of the numbers. Even the religious properties of numbers were extensively studied. So, four chapters are exclusively devoted to such numbers, namely, the amazing number 108, the unlucky 13, the beauty of 153, and the number of the beast, with lots of new curiosities and miraculous coincidences.

Aquinas on Beauty Christopher Scott Sevier, 2015-02-12 *Aquinas on Beauty* explores the nature and role of beauty in the thought of Thomas Aquinas. Beginning with a standard definition of beauty provided by Aquinas, it explores each of the components of that definition. The result is a comprehensive account of Aquinas's formal view on the subject, supplemented by an exploration into Aquinas's commentary on Dionysius's *Divine Names*, including a comparison of his views with those of both Dionysius and those of Aquinas's mentor, Albert the Great. The book also highlights the tight connection in Aquinas's thought between aesthetics and ethics, and illustrates how Aquinas preserves what is best about aesthetic traditions preceding him, and anticipates what is best about aesthetic traditions that would follow, marrying objective and subjective aesthetic intuitions and charting a kind of *via media* between the common extremes.

Reaffirming the Importance of Beauty Sonja Zuba, 2023-08-03 This book argues that beauty challenges us to find meaning in its object, to make critical comparisons, and to examine our own lives and emotions in the light of what we find. The book examines the importance of beauty not only in terms of art and aesthetics, but also within the context of the current post-religious age. It engages with the philosophical works of Roger Scruton and William Desmond, and endorses and addresses many important discussions surrounding art and beauty found in the works of Plato, Kant, Hegel, Schopenhauer, Nietzsche, and Heidegger. It also takes seriously the role of poetry and painting to explore the theme that runs through this research: the idea that beauty is rationally found. Meditations on the art of Manet, Van Gogh, Delacroix, Rembrandt, and other artists, together with the voices of several poets, show us that beauty cannot be reduced to aesthetics only. Irreducible to philosophy, religion, or aesthetics, the notion of beauty is deeply examined in all its forms and spiritual meaning.

Beauty and the End of Art Sonia Sedivy, 2016-04-21 *Beauty and the End of Art* shows how a resurgence of interest in beauty and a sense of ending in Western art are challenging us to rethink art, beauty and their relationship. By arguing that Wittgenstein's later work and contemporary theory of perception offer just what we need for a unified approach to art and beauty, Sonia Sedivy provides new answers to these contemporary challenges. These new accounts also provide support for

the Wittgensteinian realism and theory of perception that make them possible. Wittgenstein's subtle form of realism explains artworks in terms of norm governed practices that have their own varied constitutive norms and values. Wittgensteinian realism also suggests that diverse beauties become available and compelling in different cultural eras and bring a shared 'higher-order' value into view. With this framework in place, Sedivy argues that perception is a form of engagement with the world that draws on our conceptual capacities. This approach explains how perceptual experience and the perceptible presence of the world are of value, helping to account for the diversity of beauties that are available in different historical contexts and why the many faces of beauty allow us to experience the value of the world's perceptible presence. Carefully examining contemporary debates about art, aesthetics and perception, *Beauty and the End of Art* presents an original approach. Insights from such diverse thinkers as Immanuel Kant, Hans-Georg Gadamer and Arthur Danto, Alexander Nehamas, Elaine Scarry and Dave Hickey are woven together to reveal how they make good sense if we bring contemporary theory of perception and Wittgensteinian realism into the conversation.
