The Wilderness Writings of Howard Zahniser Mark W. T. Harvey, 2014-07-01 Howard Zahniser (1906-1964), executive secretary of The Wilderness Society and editor of The Living Wilderness from 1945 to 1964, is arguably the person most responsible for drafting and promoting the Wilderness Act in 1964. The act, which created the National Wilderness Preservation System, was the culmination of Zahniser's years of tenacious lobbying and his work with conservationists across the nation. In 1964, fifty-four wilderness areas in thirteen states were part of the system; today the number has grown to 757 areas, protecting more than a hundred million acres in forty-four states and Puerto Rico. Zahniser's passion for wild places and his arguments for their preservation were communicated through radio addresses, magazine articles, speeches, and congressional testimony. An eloquent and often poetic writer, he seized every opportunity to make the case for the value of wilderness to people, communities, and the nation. Despite his unquestioned importance and the power of his prose, the best of Zahniser's wilderness writings have never before been gathered in a single volume. This indispensable collection makes available in one place essays and other writings that played a vital role in persuading Congress and the American people that wilderness in the United States deserved permanent protection.

Endangered Species Edward P. Weber,2016-03-21 This book uses primary documents as a lens through which to examine historical and present-day efforts to protect endangered species in the United States and around the world. In this thought-provoking work, author Edward P. Weber examines the values, policies, challenges, and approaches to endangered species conservation over the past 200 years. Using primary source documents and in-depth analysis of the issues, the reference tracks the evolution of species protection and conservation in the United States, and offers a brief look at global programs in the United States and other parts of the world. The book surveys how different countries are faring in protecting their plant and animal life, and considers which guidelines and programs hold the most promise for success in the future. Chapters compare and contrast past and present attitudes regarding endangered species and extinction and identify the influence of major organizations and individuals central to the debate over endangered species. Judiciously selected primary documents also explore the impact of species endangerment and loss on natural ecosystems—and ultimately, on humankind itself.

Wilderness Forever Mark W. T. Harvey,2009-11-23 Winner of the Forest History Society's 2006 Charles A. Weyerhaeuser Book Award As a central figure in the American wilderness preservation movement in the mid-twentieth century, Howard Zahniser (1906-1964) was the person most responsible for the landmark Wilderness Act of 1964. While the rugged outdoorsmen of the early environmental movement, such as John Muir and Bob Marshall, gave the cause a charismatic face, Zahniser strove to bring conservation's concerns into the public eye and the preservationists' plans to fruition. In many fights to save besieged wild lands, he pulled together fractious coalitions, built grassroots support networks, wooed skittish and truculent politicians, and generated streams of eloquent prose celebrating wilderness. Zahniser worked for the Bureau of Biological Survey (a precursor to the Fish and Wildlife Service) and the Department of the Interior, wrote for Nature

magazine, and eventually managed the Wilderness Society and edited its magazine, Living Wilderness. The culmination of his wilderness writing and political lobbying was the Wilderness Act of 1964. All of its drafts included his eloquent definition of wilderness, which still serves as a central tenet for the Wilderness Society: an area where the earth and its community of life are untrammelled by man, where man himself is a visitor who does not remain. The bill was finally signed into law shortly after his death. Pervading his tireless work was a deeply held belief in the healing powers of nature for a humanity ground down by the mechanized hustle-bustle of modern, urban life. Zahniser grew up in a family of Methodist ministers, and although he moved away from any specific denomination, a spiritual outlook informed his thinking about wilderness. His love of nature was not so much a result of scientific curiosity as a sense of wonder at its beauty and majesty, and a wish to exist in harmony with all other living things. In this deeply researched and affectionate portrait, Mark Harvey brings to life this great leader of environmental activism.
