Indigenous Education Policy, Equity, and Intercultural Understanding in Latin America Regina Cortina, 2016-12-29 This book is a comparative study of educational policies over the past two decades in Latin America. These policies, enacted through constitutional reforms, sought to protect the right of Indigenous peoples to a culturally inclusive education. The book assesses the impact of these policies on educational practice and the on-going challenges that countries still face in delivering an equitable and culturally responsive education to Indigenous children and youth. The chapters, each written by an expert in the field, demonstrate how policy changes are transforming education systems in Bolivia, Ecuador, Mexico, and Peru. Going beyond the classroom, they highlight the significance of these reforms in promoting intercultural dialogue in Latin American societies.

El derecho internacional y su influencia en las ciencias constitucional y económica modernas Ignacio Bartesaghi, 2016-04-01 El número 4 de la colección tus Cogens titulado 'El derecho internacional y su influencia en las ciencias constitucional y económica modernas' recoge dieciocho contribuciones arbitradas y que, según su temática, componen las cuatro secciones de este libro. La primera se dedica a los debates inacabados del derecho internacional. La segunda se ocupa de la internacionalización del derecho constitucional, en la que se hace énfasis en los textos constitucionales que instituyen la integración regional como un objetivo. La tercera parte del libro, dedicada a la seguridad latinoamericana, interroga si las modalidades de este concepto ofrecen oportunidades organizativas para la integración regional. La cuarta y última parte trata sobre las problemáticas de la integración económica. Un texto sugerente que enfrenta y debate varias de las más atractivas influencias del derecho internacional.

Bolivia's Border System José Blanes Jiménez, 2023-04-14 This volume demonstrates how Bolivia is part of a regional border system and intends to contribute to public policies, related to violence and distortions stemming from global illegal markets, specifically for vulnerable populations. The book offers a multinational investigation on the changing and unknown image of the relationship systems that surround countries and, in particular, the structuring and functions of their borders. The chapters offer a reflection on how the lines of borders connect us to distant regions, which defines the real scope of the borders of globalization, while also impacting trade, labor flows, and organized crime. The book reveals how Bolivia has advanced from an image of borders, built through territorial disputes with neighbors, to today's conception of them. In doing

so, it argues that underlying tensions have developed between the local and the global, namely, Bolivia inserting itself into the global system of illegal markets, thereby generating critical scenarios for various social groups. Bolivia's Border System comprises the first research into Bolivia's border subsystem and illegal markets. It will be a vital resource for researchers of Bolivia and Bolivian history, international relations, security studies, border studies, and contemporary Latin America.

[Latin America's Global Border System](#) Beatriz Zepeda,Fernando Carrión Mena,Francisco Enríquez Bermeo,2022-05-05
Latin America's Global Border System is the opening volume in the first collection of academic works devoted exclusively to borders and illegal markets in Latin America. This volume features expert discussions on border issues of Argentina, Brazil, Bolivia, Ecuador, Guatemala, Italy, Mexico and Peru, as well as studies on illegal markets, cities, and gender as a first step to understanding the intricacies of the global border system of illegal markets and Latin America's role in it. The book constitutes a valuable source of information on the geographic, economic, demographic, and social characteristics of the most important Latin American border regions, and their relation to global illegal markets, while also offering valuable insights into the ways illegal markets are organized in each country and how they connect across borders to create the global border system. This book will not only be a valuable resource for academics and students of international relations, security studies, border studies and contemporary Latin America, but will also prove relevant to national and international policy-makers devoted to foreign, security and development policies.

Tradición, escritura y patrimonialización Ane-Gaël,Bilhaut,Silvia,Macedo,2012-09-13 En estos últimos años, dentro de los temas emergentes de mayor interés para los antropólogos, y más específicamente para aquellos que trabajan con poblaciones amerindias, dos sobresalen: los procesos de escritura, y los de patrimonialización de la cultura inmaterial. Raros son los estudios que se centran específicamente en la relación del patrimonio con la escritura. Este libro pretende contribuir a este aspecto, discutiendo la relación entre los procesos de patrimonialización y los procesos de la escritura en las sociedades amerindias.

[Nuevas estrategias de inserción internacional para América Latina](#) Rita Giacalone,Gisela da Silva Guevara,Aldo Olano Alor,Martha Ardila,Rafael Enrique Piñeros Ayala,Graziano Palamara,2020-08-24 El libro se interroga sobre la proyección política, diplomática, económica y comercial de América Latina y analiza las propuestas de los actores estatales, de la sociedad civil y las proposiciones de los organismos regionales. La pluralidad de temas que esta elección metodológica suscrita es abordada a partir de un inédito concepto de inserción internacional sustentado en tres grandes componentes: desarrollo, vinculación entre factores internos y externos, y relación entre Estado y sociedad civil. En su conjunto, estos tres componentes teóricos soportan un original esfuerzo de conceptualización capaz de involucrar tantos los recursos, las representaciones discursivas, las ambiciones y las dimensiones simbólicas e institucionales que sustentan hoy en día las propuestas de la inserción internacional latinoamericana.

Geografia das Relações Internacionais da América Latina e Caribe: Temas e Debates Claudete de Castro Silva Vitte,Gustavo Glodes Blum,2023-02-24 A complexidade do mundo atual desafia o conjunto de saberes disciplinares institucionalizados com seus conceitos e discussões, especialmente os campos da Geografia e das Relações Internacionais. A interlocução entre esses campos, no entender dos organizadores e autores desta obra, potencializa o desenvolvimento de alternativas analíticas que buscam somar às já existentes, muitas vezes focadas nas particularidades de seus objetos teóricos. Duas décadas adentro no século XXI, em um mundo atravessado por inúmeras crises e desafios, são muito mais dúvidas do que certezas que nos inquietam, e a América Latina e o Caribe não estão alheios a essas transformações do mundo e nem refratários às questões da atualidade. Por esse motivo, a coletânea Geografia das relações internacionais da América Latina e Caribe: temas e debates busca contribuir para discussões teóricas e empíricas sobre o momento geopolítico em que nos encontramos. Ao longo da obra, tanto os capítulos sobre discussões conceituais quanto os que tratam de estudos de casos compõem um sobrevoô sobre algumas das principais questões da nossa região no atual cenário geopolítico mundial. As autoras e os autores, que foram ou ainda são estudantes de mestrado e doutorado no Programa de Pós-Graduação em Geografia da Universidade Estadual de Campinas, bem como alguns membros do grupo de estudos, buscam, sob a orientação da professora Claudete de Castro Silva Vitte, jogar luzes no lusco-fusco da realidade do mundo atual, refletindo sobre algumas questões urgentes para pensar a nossa realidade latino-americana e caribenha. Na primeira parte estão reunidos os trabalhos que, por meio da discussão teórica da Geografia Política e da Geopolítica, buscam verificar pontes e conexões com as Relações Internacionais e vice-versa. Já na segunda parte, o foco é apostar em conexões desses campos disciplinares a fim de compreender os jogos de interesse, os conflitos e emancipações que marcaram e marcam a formação territorial da América Latina e do Caribe. Diante das atuais mudanças geopolíticas do mundo, espera-se que a leitura permita não apenas a reflexão, mas também a busca por encontrar caminhos que nos permitam construir o vasto horizonte das geografias possíveis na nossa região.

O inventamos o erramos Xabier Arribalzo Montoro,Ramón Franquesa Artés,Igor Pasquini Pomini,Mario del Rpsal Crespo,Henrique Pons Angelli,Gemma Cairí-i-Céspedes,Everaldo de Oliveira de Andrade,Alejandro César López Bolaños,Juan Alberto Arancibia Córdova,Albert Contreras Riera,Eduard Montesinos Cuiró,Roser Rodríguez Carreras,Gabriela Roffinelli,2022-11-21 ¿Tiene sentido hoy el debate sobre la transición a otro tipo de sociedad? Desde nuestro punto de vista más que nunca, ante la constatación de que en el capitalismo se tornan imposibles las legítimas aspiraciones de la mayoría de la población, acordes a las posibilidades materiales que la productividad del trabajo permite. Porque no cunde la resignación, sino que en todos los continentes se levantan grandes movilizaciones, incluso con elementos embrionariamente revolucionarios en algunos casos. A lo largo de la historia ha habido muchas experiencias de lucha contra la dominación capitalista basada en la explotación, al menos declaradamente. En este libro analizamos diez de ellas, con distintas

orientaciones que van desde las revolucionarias que suponen el control del Estado (que deja así de ser un Estado burgués, como la Comuna de París), hasta otras meramente reformistas, de gestión capitalista supuestamente progresista (como la sueca), pasando por las que implican control obrero, pero sólo a escala de unas pocas empresas y bajo el capitalismo y el Estado burgués (como las fábricas recuperadas en Argentina). Se abordan también las colectivizaciones de Cataluña de la Guerra Civil, la experiencia de Vietnam, el modelo de Kerala en India, la Revolución chilena en los primeros setenta, la cuestión de la planificación y gestión obrera en Bolivia (1952-1971) y Perú (1968-1975), además de, en el periodo reciente, la experiencia boliviana y las concesiones forestales comunitarias en Guatemala. Cada una de ellas presenta también especificidades geográficas, temporales y de nivel de desarrollo de la sociedad en la que tiene lugar, ligadas en todo caso a las relaciones de fuerza existentes, a su articulación política. Como indica el título “O inventamos o erramos”, no buscamos recetas, porque las circunstancias particulares en cada caso siempre deben ser tenidas en cuenta. Sí consideramos que el estudio de distintas experiencias arroja lecciones importantes sobre cómo se desarrollan los procesos sociales, base para intervenir en ellos con la irrenunciable aspiración final de la emancipación de la humanidad de toda forma de opresión. Esta obra tiene por objetivo contribuir, humildemente, a este fin. El libro es el resultado de una investigación llevada a cabo por un grupo de compañeras y compañeros de cinco universidades públicas latinoamericanas y europeas, desarrollada en el marco de un proyecto de la Unión Iberoamericana de Universidades (UIU). Son la Universitat de Barcelona (UB), la Universidad de Buenos Aires (UBA), la Universidad Complutense de Madrid (UCM), la Universidad Nacional Autónoma de México (UNAM) y la Universidade de São Paulo (USP)

Post-Development from the Global South Sally Matthews, Alba Castellsagué, 2025-04-22 Post-development advocates and decolonial thinkers are calling for radical alternatives to development, but how do these ideals sit with the day-to-day reality of marginalised communities struggling with poverty, precarity, and the deprivation of human rights? This book investigates how post-development alternatives are being understood and negotiated on the ground in the Global South. Indigenous concepts and practices attributed to people in the Global South are seen by post-development thinkers as offering transformative alternatives to dominant development models of progress and economic growth. For example, *buen vivir* from

particular regions of South America points to a ‘culture of life’ and ubuntu in Southern Africa emphasises human connectedness and mutuality. Such terms are associated with social and environmental sustainability, and a greater connection to Southern epistemologies. Drawing on extensive fieldwork, this book takes us directly to Global South communities from around the world, to consider the complex ways in which they negotiate the ideas and practices associated with (post)development, and their views on the supposed indigenous alternatives. The book encourages a contextual approach that embraces the tensions and contradictions that exist within different communities. Taking the reader from abstract post-development theory right into the heart of communities directly impacted by development, this book will be an important guide for students, researchers and practitioners looking for better ways to address the desires and aspirations of marginalised communities in the Global South.

Middle Class Identities and Social Crisis Alejandro Grimson, Menara Guizardi, Silvina Merenson, 2022-12-16 This book explores the dynamics of the middle-class global rebellion born of the frustration at declining living standards. Addressing narratives constructed by different social and political agents and groups, it examines contexts of social crisis in Latin America, Europe, Africa, Asia, and Oceania, understanding the middle classes as a set of complex and conflicting political relationships. With attention to the manner in which people create situated habits, consolidating new expectations and desires through a concrete biography, it analyzes continuities and changes in classed self-perceptions based on performative use. With new perspectives, including historical and intersectional approaches, Middle Class Identities and Social Crisis transcends disciplinary boundaries to explore the hybridity of research methods and techniques and challenge established analytical frameworks. It will therefore appeal to scholars across the social sciences with interests in class and questions of class identity.

El presidencialismo latinoamericano y sus claroscuros William Herrera Añez, 2023-12-12 Este libro aborda el estudio del sistema presidencial y sus claroscuros en Colombia, México, Perú, Bolivia, Argentina y Chile. El sistema presidencial “reina” en América Latina y pese a todas las críticas que se le pueden hacer y se le hacen, no existe ninguna posibilidad de cambiar (a corto o mediano plazo) al sistema semipresidencial, menos al parlamentario europeo. Con la finalidad de cualificar a este modelo se ha propuesto, por ejemplo, el “Semipresidencialismo” en Chile y se ha introducido el Jefe de Gabinete de Ministros en la Argentina y el Presidente del Consejo de Ministros en Perú. Como advertía Jorge Carpizo no existe una forma universal de gobierno que sea la mejor, que diferentes condiciones de desarrollo social y económico, así como político hacen que un sistema de gobierno sea más adecuado en un país que en otro, que los estudios críticos del presidencialismo tienen importancia, que existen diversos tipos de presidencialismo y que unos funcionan mejor que otros, dependiendo de una serie de factores. En todo caso, cierta bonanza y crecimiento económico son determinantes para la

estabilidad del gobierno y la funcionalidad de cualquier diseño político (presidencial, parlamentario o semipresidencial). En realidad, no hay Ejecutivo débil con un Presupuesto fuerte, y musculoso porque el Presidente siempre saldrá con cierta facilidad de las “turbulencias” políticas, que son imprescindibles en todo régimen democrático.

Ecotourism Impacts on Indigenous Peoples Wayne A. Babchuk, Robert K. Hitchcock, 2024-11-30 Ecotourism, defined as responsible travel to natural areas that conserves the environment and improves the well-being of local people, has become one of the fastest growing industries in the world. The impacts of ecotourism on people in virtually every part of the planet are particularly true for Indigenous people. Indigenous people are found in over half of the world's countries and their cultures, customs, traditions, identities, and natural resource management systems are of great interest to scientists, tourists, and travelers. Many Indigenous peoples reside in conservation hotspots and places with high biological biodiversity. As shown in this book, ecotourism has both promises and pitfalls for Indigenous peoples, who seek to enhance their livelihoods while conserving the habitats in which they reside and the sacredness of their traditions. Drawing on cases from South America, North America, Africa, and Asia, *Ecotourism Impacts on Indigenous Peoples* examines the social, economic, political, and environmental impacts of ecotourism. A common plea of Indigenous people is that they have greater control over incoming ecotourists and receive more equitable social, economic, and cultural benefits from what they recognize as a highly complex industry with significant environmental, economic, and political effects.

Revenue Statistics in Latin America 2014 OECD, Inter-American Development Bank, Economic Commission for Latin America and the Caribbean, 2014-01-20 This book provide internationally comparable data on tax levels and tax structures for a selection of Latin American and Caribbean (LAC) countries.

The Struggle for Natural Resources Carmen Soliz, Rossana Barragán, 2024-03-15 The Struggle for Natural Resources traces the troubled history of Bolivia's land and commodity disputes across five centuries, combining local, regional, national, and transnational scales. Enriched by the extractivism and commodity frontiers approaches to world history, the book treats Bolivia's political struggles over natural resources as long-term processes that outlast immediate political events. Exploration of the Bolivian case invites dialogue and comparison with other parts of the world, particularly regions and countries of the so-called Global South. The book begins by examining three Bolivian resources at the center of political dispute since the early colonial period, namely land, water, and minerals. Carmen Soliz, Rossana Barragán, and Sarah Hines show that, as in the colonial and early republican past, these resources have remained the focus of political contention to the present day. Until the end of the nineteenth century, Bolivia's battle over natural resources was primarily concentrated in the highlands and inter-Andean valleys. Beginning in the 1860s, the bicycle and soon the automobile industries triggered demand for natural rubber found in the heart of the Amazon. José Orsag analyzes the impact of this extractive economy at the turn of the twentieth century. The book concludes by examining two resources that are central to understanding the last century of

Bolivia's history. Kevin Young examines the fraught business of hydrocarbons, and Thomas Grisaffi analyzes the coca/cocaine circuit. Each chapter studies the social dynamics and political conflicts that shaped the processes of extraction, exchange, and ownership of each of these resources

The Politics of Identity in Latin American Censuses Luis F. Angosto-Ferrández, Sabine Kradolfer, 2017-10-02 The Politics of Identity in Latin American Censuses contributes new and original perspectives to existing discussions about the shaping of multiculturalist ideology in Latin America, its interweaving with the cultural politics of neoliberalism and the relation between ethnic identification resurgence and economic globalization. Scrutinising national censuses across the continent, the studies included in this volume reveal clear relationships between censuses, nation-building and government projects, but also strong and determinant connections between domestic and supra-national spheres. The contributors to this volume open provocative avenues of research on Latin American societies by demonstrating how, in the realm of identity politics, supra-national institutions and normativity socialise national census bureaus in a way that largely annuls ideological differences between regional governments. This book was originally published as a special issue of the Journal of Iberian and Latin American Research.

A Long Walk, a Gradual Ascent Nancy J. Thomas, 2019-12-05 A Long Walk, a Gradual Ascent tells the one-hundred-year story of the development of the Friends Church (INELA) among the Aymara peoples of the Bolivian Andes. It stretches from the beginnings of the INELA on the shores of Lake Titicaca around 1915 until the present time (2017), along with the story of the Oregon Friends Mission that accompanied the church for seventy-two years. Today the INELA spreads over fifteen districts with some two hundred congregations. The church is still predominately Aymara. The book considers the influence of history and culture on each phase of the church's development, exploring the complexity of planting a "peace church" such as the Quakers in a setting of so much conflict. The book also explores the missiological significance of the changing relationship between church and mission, and wrestles with denominational emphases and how they impacted the expression of an indigenous Aymara church.

Jerarquías enredadas Lucas de Alvarenga Gontijo, 2024-06-24 La presente obra se centra en algunas de las inquietudes y preocupaciones intelectuales en el pensamiento jurídico de Jorge Douglas Price, esto es, la decisión judicial, la filosofía y la sociología del derecho. Esto es lo que nos llevó a darle un nombre a la obra: Jerarquías enredadas. Vínculos, límites y paradojas del derecho y de la decisión Judicial. De este modo, en la presente obra hemos condensado ideas, pensamientos, experiencias teóricas y reflexiones en torno a tales temáticas que son los intereses teóricos de Jorge Eduardo Douglas Price y que sus amigos compartimos con él. Las reflexiones que aquí se desarrollan no utilizan las clásicas descripciones del derecho, de sus semánticas, de las formas en que, generalmente los juristas, nos hacemos representaciones de la realidad. Aquí mostramos las paradojas, la incertidumbre, la contingencia, la artificialidad y la ausencia de verdad en el derecho y en

lo específico en la decisión judicial. Es decir, este libro pretende generar otras descripciones, otras alternativas de observación.

Los desafíos del progresismo: Europa, América Latina y Chile Marcelo Mella, Carlos Fortin, Augusto Varas, 2024-10-01 Este libro recoge una serie de aportes que aspiran a inyectar nuevos aires en los debates de la política chilena y latinoamericana. Se trata de un esfuerzo no solamente académico sino también práctico, con la esperanza de que la elaboración de propuestas programáticas por venir, en el marco de los escenarios electorales a los que asistirá nuestro país, acometan con seriedad y rigor la diversidad de desafíos que los actores políticos tienen por delante. Las contribuciones que presentamos en este volumen reflejan la amplia diversidad de enfoques y miradas de sectores progresistas en distintas regiones del mundo, sobre los principales temas en torno a los cuales se está decidiendo el futuro de la democracia. Con esta selección de textos estamos contribuyendo con una valiosa caja de herramientas para que los temas aquí consignados puedan ser abordados desde una perspectiva de efectivo cambio social. Con ella, esperamos participar en el debate sobre los desafíos valóricos, políticos e ideológicos que hoy día enfrentan los sectores de centro-izquierda e izquierda en Chile, así como en otros países de América Latina.
