*Program Notes* Chicago Symphony Orchestra, 1910 The volume for the 50th season, 1940/41, includes Repertoire, 1891-1941 [62] p. and Solists, 1891-1941 [5] p.

Hugo Wolf Susan Youens, 2024-01-09 A groundbreaking look at one of the great song composers of the late Romantic period In the virtual cottage industry of works on fin de siècle Vienna, Hugo Wolf (1860-1903) has been somewhat neglected, perhaps because he was the master of a small genre—the late Romantic lied—and never truly made his mark in the larger forms that command greater public attention. But in the realm of song, he is among the greatest inheritors of Schubert and Schumann, one who was both a traditionalist and a modernist. When the Viennese critic Eduard Hanslick disapprovingly dubbed Wolf “the Richard Wagner of the lied,” he was paying oblique homage to Wolf’s genius as a song composer in the most modern manner. In this book, Susan Youens examines five aspects of Wolf’s compositional art, each exemplifying a different synthesis of traditionalism and modernity and spanning his entire, tragically brief creative life, from his first efforts to his lapse into insanity in 1897. She discusses Wolf’s youthful imitations of Schumann, his genius for comic songs of a kind unlike any of his predecessors, his part in the ballad revival of the late nineteenth century, Wolf in relation to his contemporaries, and his pursuit of operatic fame. Youens looks as closely at the poetic texts as she does the music and includes numerous previously unpublished sketches and fragments, examples from songs now long out of print and difficult to obtain, and citations from Wolf’s vivid letters and other sources of the period.

*The Complete Songs of Hugo Wolf* Richard Stokes, 2021-10-08 The Complete Songs of Hugo Wolf gathers together for the first time every poem Wolf set to music. Alongside the original German texts are translations by leading Lieder expert Richard Stokes, who also provides illuminating commentary. The 36 poets set by Wolf are each given their own chapter: a brief essay on the poet is followed by a note on Wolf's connection with the writer, extracts from letters that throw light on the Songs and convey his mood at the time of composition, and the texts and translations. Short biographies of all Wolf's correspondents flesh out the extraordinary life of this genius. This will be an indispensable volume for all lovers of Lieder.

Gustav Mahler: Volume 3. Vienna: Triumph and Disillusion (1904-1907) Henry-Louis de La Grange, 1995 There he also met Alma Schindler, 'the most beautiful woman in Vienna', and La Grange tells the story of their engagement and marriage in 1902 and the early years of their tempestuous relationship. As his fame spread throughout Europe, Mahler travelled with his music to Germany, Russia, Holland, Poland, and Belgium, meeting many other leading musicians of his day, including Pfitzner, Mengelberg, Diepenbrock, Oskar Fried, and many others.

*The Mahler Companion* Donald Mitchell, Andrew Nicholson, 2002 The Mahler Companion consists of a collection of original essays on Mahler written especially for the occasion by Mahler specialists from around the world. It addresses all parts of his life and work-- symphonies, songs and song-cycles (each of which is discussed individually), his conducting activities, compositional habits, and aesthetic development--and sets these within the cultural and political context of his time. In addition, it responds to the global spread of this remarkable composer's music, and an almost universal fascination with it, by attempting to give an account of the reception of Mahler's music in many of the countries in which it eventually came to flourish, eg. Holland, France, Japan, Russia, England, and the United States. This particular series of chapters reveals that the 'Mahler Phenomenon' earned its description principally in the years after the Second World War, but also that the Mahler revival was already well under way pre-war, perhaps especially in England and the States, and most

surprisingly of all, Japan. The selection of contributors, who between them cover all Mahler's musical output, shows that here too this volume significantly crosses national boundaries. The very diverse approaches, analyses and commentaries, amply illustrated with music examples, are evidence of the uniquely rich and complex character of a music that spans more than one culture and more than one century. The volumes includes the most significant and up-to-date Mahler research and debate, and illumines some hitherto unexplored areas of Mahler's life eg. his visit to London in 1892, his sculptor daughter, Anna, and the hall in which the Seventh Symphony was first performed in Prague in 1908. It has often been claimed that Mahler, born in 1860, was in fact a prophet of much that was to come in the 20th century. His later works undeniably anticipate, often with dazzling virtuosity, many of the principal techniques and aesthetics of the new century, only the first decade of which he lived to see. Small wonder that among his earliest admirers was a collective of some of the most important and innovative composers of our time, Schoenberg, Berg, and Webern. Their successors (Copland, Shostakovich, and Britten, to name a few) were to range across contrasting cultures and national frontiers. Drawing on the best resources and the most up-to-date information about the composer, this volume fulfils the need in Mahler literature for a genuinely comprehensive guide to the composer and will be the authoritative guide for Mahler enthusiasts for years to come.
