Els Bastiments menors catalans de construcció artesanal del segle XX Ribó Golovart, Alexandre ,Secció de Ciències i Tecnologia,2012-11-28 Poques són les obres que s'han centrat en l'estudi dels bastiments menors propis de les aigües de la Mediterrània Occidental. Menys encara han estat els autors que han escollit com a objecte d'estudi les barques de les aigües catalanes. A més, les publicacions de què disposem analitzen només els bastiments marins i s'obliden dels que naveguen per rius i estanys. L'autor vol omplir un buit en la bibliografia nàutica catalana, i, per això, fa una proposta de classificació molt rigorosa d'aquests bastiments sense deixar de banda detalls aparentment insignificants. La recerca de camp realitzada, la varietat de fonts consultades i el tractament de la informació obtinguda confereixen rigor i una gran riquesa de continguts a l'obra. Aquest estudi és una mostra de la tasca de recerca duta a terme durant anys per Alexandre Ribó, oficial de la marina mercant, geògraf i estudiós de la llengua catalana. Com en qualsevol treball fet amb ambició, passió o dedicació constants, el text es beneficia en tot moment dels trets més marcats de la personalitat de l'autor.

Sabers per als laics Isabel Müller,Frank Savelsberg,2021-11-08 This volume brings together contributions by specialists from a variety of disciplines discussing the epistemological history of the Middle Ages and the Renaissance and the transmission of knowledge in the Crown of Aragon. They consider, among other things, the materiality of texts, the linguistic models employed, the persistence of ancient models of perceiving the world, up to the establishment of new ways of thinking and knowledge transfer.

Contacte i contrast de llengües i dialectes Joan Veny Clar,2011-11-28 Tal como refleja el título, este libro se ocupa de diversos aspectos de la relación del catalán con las lenguas vecinas (castellano, aragonés, occitano), sea por contacto, sea

por contraste. Sus páginas ilustran, entre otros aspectos, la interferencia con el castellano a través de estudios sobre la adopción y/o adaptación del fonema /x/ en los dialectos catalanes (tipo navaca, navaja, navaja), subrayan la importancia de la presencia aragonesa en el ámbito valenciano frente a las imaginarias huellas mozárabes (tema que se ilustra con gemecar) y demuestran la densidad de los occitanismos del rossellonés, entrados muy pronto y de los cuales, además, se elaboran criterios para identificarlos. Por otro lado, el contraste entre catalán y asturiano, y catalán y gallego permite visualizar las concomitancias y discordancias entre estos sistemas lingüísticos comparados. Esta obra es un complemento imprescindible de las monografías que Joan Veny ha dedicado a la historia de la lengua catalana y, en concreto, a la de sus dialectos.

La història dels llenguatges iberoromànics d'especialitat (segles XVII-XIX). Jenny Brumme, 2010-07-30 Les solucions en la formació de terminologies i de tipus de textos especialitzats que ofereixen les èpoques anteriors poden guiar les solucions que s'han de proposar avui, i poden contribuir a l'harmonització dels models actuals. Els estudis i balanços publicats durant els últims anys demostren la importància d'un enfocament històric en aquest àmbit, que es troava a faltar per a les llengües iberoromàniques. Tenint en compte aquesta situació, es va organitzar el col·loqui La història dels llenguatges iberoromànics d'especialitat (segles XVII-XIX). Solucions per al present, els resultats del qual us presentem en aquest volum.\n

Joan Fuster, traductor d'Albert Camus Francesca Cerdà Mollà, 2024-04-17 Malgrat la diversitat d'estudis existents sobre l'obra de Joan Fuster, la seua faceta com a traductor ha rebut fins ara una atenció parcial i superficial, limitada a articles esparsos i a aspectes molt concrets. En aquest estudi s'aborda la figura del Fuster traductor des de diferents vessants -l'activitat traductora, el seu paper com a promotor de traduccions, el model de llengua i les solucions de traducció-, dins un marc general de recerca històrica i descriptiva. El buidatge del seu fons epistolar, d'expedients de censura de les traduccions, pròlegs, anotacions dietarístiques, etc. permet de reconstruir la informació contextual necessària per a entendre el seu 'modus operandi' com a traductor, com ara les circumstàncies que van dur-lo a exercir la traducció i que van condicionar el procés editorial dels projectes en què participà. Alhora, els resultats obtinguts a partir de la minuciosa descripció textual de la seua traducció de 'La pesta' d'Albert Camus (1962) complementen i enriqueixen la informació obtinguda en la fase de recerca prèvia, per tal com permeten comprovar que el context en què es realitzà afecta tant les solucions de traducció de Fuster com de l'edició publicada.

De Lexicografia Paz Battaner Arias,Janet DeCesaris Ward,2010-08-30 La lexicografia exigeix rigor, amplitud, complexitat i laboriositat. L'interès actual és tenir diccionaris variats i idonis des de perspectives diverses i per a tot tipus d'usuaris variats. El I Symposium Internacional de Lexicografia va convidar a considerar l'activitat lexicogràfica des d'un horitzó obert, que enllaça i travi les nostres llengües amb unes altres i els productes de les quals representin realment una ajuda, ja que el gènere comú o descriptor de tot tipus de diccionari és el terme instrument; de precisió, si pot ser.

Canvi lingüístic, estandardització i identitat en català / Linguistic Change, Standardization and Identity in Catalan Hans-Ingo Radatz,2020-05-15 The multiplicity of parallel identities that make up our personalities is a phenomenon in which our individual identity choices merge with diverse collective identities. The present volume is a contribution to the field of Identity Studies, but from a clearly linguistic perspective. It unites several contributions which analyze discourses centered on national or regional identities – as for instance the Catalanity of the frontier city of Lleida, the connection between the natural environment and the conceptualization of deictic space, or the dialectics between center and periphery. Other chapters try to shed light on problems arising from the particular situation of Catalan as a non-state language. The contributions thus range from aspects of Cultural Studies on identities and their constituting discourses to Catalan linguistics and sociolinguistics.
