The Music of John Ireland Fiona Richards, 2017-11-28 This title was first published in 2000. John Ireland (1879-1962) was as elusive as the music that he composed. His music resists easy categorization, in part because it is linked so closely to specific events, places and people in Ireland's personal life. The Music of John Ireland explores the expressive and extramusical qualities of Ireland's compositions and their complex system of personal musical symbols, images and ideas. Fiona Richards interweaves biography and musical analysis in a series of chapters which take their themes from the significant influences in Ireland's life: Anglo-Catholicism, paganism, the countryside, the city, love and war. Ireland emerges as highly individual, struggling with his religious beliefs, his sexuality, and an uncertainty as to his success. His music, often an expression of a state of mind, is given, for the first time, the close investigation that it merits. Ireland preferred to compose on a small scale, showing a masterful command of form and a gift for melody. Richards reveals how the essence of the man shines through in the miniatures that he wrote.

The Brokeback Book William R. Handley, 2011-05-01 An American Western made by a Taiwanese director and filmed in Canada, Brokeback Mountain was a global cultural phenomenon even before it became the highest grossing gay-themed drama in film history. Few films have inspired as much passion and debate, or produced as many contradictory responses, from online homage to late-night parody. In this wide-ranging and incisive collection, writers, journalists, scholars, and ordinary viewers explore the film and Annie Proulx's original story as well as their ongoing cultural and political significance. The contributors situate Brokeback Mountain in relation to gay civil rights, the cinematic and literary Western, the Chinese value of forbearance, male melodrama, and urban and rural working lives across generations and genders. The Brokeback Book builds on earlier debates by novelist David Leavitt, critic Daniel Mendelsohn, producer James Schamus, and film reviewer Kenneth Turan with new and noteworthy interpretations of the Brokeback phenomenon, the film, and its legacy. Also appearing in print for the first time is Michael Silverblatt's interview with Annie Proulx about the story she wrote and the film it became.

A Natural History of Nettles Dr. Keith G R Wheeler, 2007-01-16 The first book ever on the much maligned nettles of the world presents a story of these followers of mankind and his cattle throughout history. This study centres on the most abundant and sub-cosmopolitan common stinging nettle (*Urtica dioica*), but also deals with other nettles throughout the world. Tropical tormentors rich in species include the notorious nettle trees with their formidable stings which fascinated the Europeans after their discovery by botanists on the round-the-world trips of exploration in the 17-19th centuries. Many people on their travels will have met the nettle trees of the Indo-Malay region and other stinging nettles in North and South

America, India, etc., which sting and have beautiful flowers but are called nettles; these are also dealt with. The first microscopists and their descriptions of the beautiful stinging hair; the uncovering of the mechanism of its action and the more recent elucidation of the toxins causing the characteristic symptoms is a fascinating one and takes up 3 chapters. The book includes the 100 major scientific works published on the common stinging nettle and never brought to the notice of the general public before. The author spent six years studying the ecology of the nettle patch, its invertebrate herbivores (mainly insects) and vertebrate herbivores (cattle, deer, etc.,) and their interactions with other plants: its secret life is recorded in line drawings and photographs (1000+ individual items). It was not possible to publish these in colour but they are in full colour on a CD-ROM (300 dpi) at the back of the book. Covered also are nettle folklore, fibre use in World War I & II, as a food, fodder, herbal medicine, growth as a competitor plant, habitats, sex (unique exploding stamens), breeding systems, variation, evolution etc.!! Some the world's most beautiful butterflies would not exist without nettles.

The Man Who Would Be King: Selected Stories of Rudyard Kipling Rudyard Kipling, 2011-03-03 Rudyard Kipling is one of the most magical storytellers in the English language. This new selection brings together the best of his short writings, following the development of his work over fifty years. They take us from the harsh, cruel, vividly realized world of the 'Indian' stories that made his name, through the experimental modernism of his middle period to the highly-wrought subtleties of his later pieces. Including the tale of insanity and empire, 'The Man Who Would Be King', the high-spirited 'The Village that Voted the Earth Was Flat', the fable of childhood cruelty and revenge 'Baa Baa, Black Sheep', the menacing psychological study 'Mary Postgate' and the ambiguous portrayal of grief and mourning in 'The Gardener', here are stories of criminals, ghosts, femmes fatales, madness and murder.
