

Sex Lies And Videotape Review

SJ Ball

Spy ,1990-02 Smart. Funny. Fearless.It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented --Dave Eggers. It's a piece of garbage --Donald Trump.

Outsider Features Richard K. Ferncase,1996-06-21 In the early 1980s, serious American independent films including Stranger Than Paradise, Blood Simple, and She's Gotta Have It attracted ever-widening audiences, culminating with Steven Soderbergh's award-winning sex, lies, and videotape. This film, which won the Cannes Film Festival's top award and took more than \$30 million at the box office in the United States alone, capped a remarkable decade for off-Hollywood filmmakers. Outsider Features takes an in-depth look at 10 of the most successful independent feature films made during this decade, from John Sayles's seminal and groundbreaking The Return of the Secaucus Seven to Michael Moore's wry and irreverent Roger & Me, the most lucrative non-music documentary ever made. Outsider Features offers accounts of the genesis of each film, complete synopses and critical analyses, and biographies of each filmmaker.

Filmography of American History Grant Tracey,2001-11-30 Containing over 200 films, this resource is ideal for students, teachers, and other viewers who are interested in using films to enhance their knowledge of American historical events and periods. Along with traditional historical categories, such as the two World Wars, the Civil War, and the Great Depression,

the book emphasizes immigrant, multicultural, and women-centered films to portray the fullness of the American experience. It also analyzes representations of people and events across different films for a variety of viewpoints, and considers how films reconfigure a past era through the issues of the day in which they were produced. For ease of use, the book is organized into time periods. Each entry contains: •the setting •director •cast •credits •the year of production •distributor Ratings are supplied to identify audience-appropriateness. The detailed narrative supplies a brief plot summary along with a thesis supported by strong examples from the film, such as excerpts of dialogue and factual details from history. The entries encourage readers to view the film through the lens of history and to consider it within the larger nexus of films listed in that particular chapter. Frequently, the historical focus considers both the time period depicted in the film and the time period in which it was made. The running times provide readers with a quick access to key scenes for further study. Each entry also concludes with sources for further reading, and indexes identify those films with multicultural and women's themes.

Film Criticism as a Cultural Institution Huw Walmsley-Evans, 2018-03-28 At the beginning of the 21st century film criticism was described as in crisis. The decline of print journalism, a series of lay-offs of prominent critics, and the rise of amateur reviewing online spurred a conversation about the decline, even death, of film criticism. This discourse flourished in part because film criticism has been little examined in scholarship to date. This book takes a deeper look at film criticism by focusing on its institutional contours. This is achieved through a combination of archival research and interviews with prominent film critics and stakeholders, including Adrian Martin (LOLA), Stephanie Zacharek (Time), Peter Bart (Variety), and Andrew Sarris (The Village Voice). Film Criticism as a Cultural Institution first examines the contemporary crisis conversation surrounding film criticism, comparing this to historical precedents. It then provides what today's crisis conversation does not: an account of film criticism's institutional formations. Using primarily U.S. and Australian case studies based on interviews, observation and archival research—as well as accounts from other national schools—the book maps contemporary film criticism. Across various sites, such as publications or online spaces, and organisations, such as film critics circles, it elucidates film criticism's institutional practices, tasks, compartments, and personae. Looking at the history of conversations about film criticism shows us that crisis has always been a leitmotif. While acknowledging the considerable changes and challenges that film criticism faces today, this book situates these within an historical context and proposes an institutional framework that allows us to move beyond crisis discourse. Looking at film criticism in this way allows us to see that the very question of what counts as film criticism is continually contested within an institutional ecology made up of distinctive critical compartments addressed to distinctive audiences.

Deep Fakes Michael Filimowicz, 2022-03-01 Deep Fakes: Algorithms and Society focuses on the use of artificial intelligence technologies to produce fictitious photorealistic audiovisual clips that are indistinguishable from traditional video media. For over a century, the indexical relationship of the photographic image, and its related media of film and video, to

the scene of capture has served as a basis for truth claims. Historically, the iconicity of these images has featured a causal traceback to actual light rays in a particular time and space, which were fixed by chemical reactions or digital sensors to the resultant image. Today, photorealistic audiovisual media can be generated from deep learning networks that sever any connection to an actual event. Should society instantiate new regimes to manage this new challenge to our sense of reality and the traditional evidential capacities of the 'mechanical image'? How do these images generate information disorder while also providing the basis for legitimate tools used in entertainment and creative industries? Scholars and students from many backgrounds, as well as policymakers, journalists and the general reading public, will find a multidisciplinary approach to questions posed by deep fake research from Communication, International Studies, Writing and Rhetoric.

In Scripture Lori Hope Lefkowitz, 2010-01-15 Applying psychoanalytic and gender theory to selected Biblical narratives from Genesis to the Book of Ruth, Lefkowitz interprets the Bible's stories as foundation texts in the development of sexual identities. In Scripture is an exploration of the Biblical origins of a series of unstable ideas about the sexes, human sexuality, family roles, and Jewish sexual identities, in particular, and by extension, changing attitudes towards Jewish men and women.

Another Steven Soderbergh Experience Mark Gallagher, 2013-04-04 How do we determine authorship in film, and what happens when we look in-depth at the creative activity of living filmmakers rather than approach their work through the abstract prism of auteur theory? Mark Gallagher uses Steven Soderbergh's career as a lens through which to re-view screen authorship and offer a new model that acknowledges the fundamentally collaborative nature of authorial work and its circulation. Working in film, television, and digital video, Soderbergh is the most prolific and protean filmmaker in contemporary American cinema. At the same time, his activity typifies contemporary screen industry practice, in which production entities, distribution platforms, and creative labor increasingly cross-pollinate. Gallagher investigates Soderbergh's work on such films as *The Limey*, *Erin Brockovich*, *Ocean's Eleven* and its sequels, *Solaris*, *The Good German*, *Che*, and *The Informant!*, as well as on the *K Street* television series. Dispensing with classical auteurist models, he positions Soderbergh and authorship in terms of collaborative production, location filming activity, dealmaking and distribution, textual representation, genre and adaptation work, critical reception, and other industrial and cultural phenomena. Gallagher also addresses Soderbergh's role as standard-bearer for U.S. independent cinema following 1989's sex, lies and videotape, as well as his cinephilic dialogues with different forms of U.S. and international cinema from the 1920s through the 1970s. Including an extensive new interview with the filmmaker, *Another Steven Soderbergh Experience* demonstrates how industries and institutions cultivate, recognize, and challenge creative screen artists.

Bigger Than Blockbusters James Roman, 2009-02-17 Whether it's the hum drum existence of Marion Crane and her illicit love affair, the psychotic antics of Norman Bates, the sudden irrational migration of birds, a crop duster swooping down on Roger Thornhill in the middle of nowhere, or Vincent Vega and Mia Wallace's unforgettable dance at Jack Rabbit Slim's -

they are all cinematic moments that forever changed the psyche and viewing experience of American audiences. *Bigger Than Blockbusters: Movies That Defined America* tells the stories behind the most significant and influential films in American culture, movies that have had a profound influence on the literary, cinematic and popular culture of our time. Arranged chronologically, the volume gives readers an opportunity to place the films within the context of the social and cultural historic dynamic of the time, making this an ideal source for student papers and reports. Each entry includes the filmmaker, actors, release information, a synopsis of the film, critics' reviews, awards, current availability, and then background on the making of the film in an artistic, economic, and technological context. Spanning all genres, including horror and drama, adventure, comedy, musicals, science fiction, and more, this volume is loaded with enough trivia and factoids to satisfy even the most die-hard movie buff. Also included are other Greatest Films compilations from the National Society of Film Critics and noteworthy sources for comparative purposes. Guaranteed to inspire forays into film favorites as well as some very lively debate, this resource is essential reading for film lovers and students alike.

Film Firsts Ethan Alter, 2014-02-17 This forward-looking exploration of contemporary American film across the last 40 years identifies and examines the specific movies that changed the film industry and shaped its present and future. Since the mid-1970s, American cinema has gone through enormous changes, such as the birth of the modern summer blockbuster, the rise of the independent film industry, ongoing technological advancements in special effects, and the ever-evolving models for film distribution. Written by a professional film critic and film buff, this book tells the story of contemporary American cinema in a unique and engaging way: by examining 25 key movies that demonstrated a significant creative, technological, or business innovation that impacted the industry at large. Each chapter in this chronological survey of contemporary film is divided into two sections: *The Film*, which offers a critical overview of the film in question; and *The First*, which describes the specific innovation achieved by that film and places that achievement in the larger historical context. Two additional appendices in each chapter explore other significant aspects of both the film and its groundbreaking nature. The broad coverage—ranging from action movies to horror films to science fiction favorites—ensures the work's appeal to all film fans.

Community, Space and Online Censorship Scott Beattie, 2016-05-23 Internet censorship is a controversial topic - while the media periodically sounds alarms at the dangers of online life, the uncontrollable nature of the internet makes any kind of pervasive regulatory control impossible. This book compares the Australian solution, a set of laws which have been criticized

as being both draconian and ineffectual, to major regulatory systems in the UK and US and understanding what drives them. The 'impossibility' of internet regulation opens deeper issues - what do we mean by regulation and how do we judge the certainty and effectiveness of law? These questions lead to an exploration of the theories of legal geography which provide tools to understand and evaluate regulatory practices. The book will be a valuable guide for academics, students and policy makers working in media and censorship law, those from a civil liberties interest and people interested in internet theory generally.

America's Film Legacy Daniel Eagan, 2010-01-01 Collection of the five hundred films that have been selected, to date, for preservation by the National Film Preservation Board, and are thereby listed in the National Film Registry.

The Cinema of Hal Hartley Steven Rybin, 2016-12-27 Over the course of nearly thirty years, Hal Hartley has cultivated a reputation as one of America's most steadfastly independent film directors. From his breakthrough films - *The Unbelievable Truth* (1989), *Trust* (1990), and *Simple Men* (1992) - to his recently completed 'Henry Fool' trilogy, Hartley has honed a rigorous, deadpan, and instantly recognizable film style informed by both European modernism and playful revisions of Classical Hollywood genres. Featuring new essays on this important director and his films, this collection explores Hartley's work from a variety of aesthetic, cultural, and economic contexts, while also looking closely at his collaborations with actors, the contexts of his authorial reputation, his reworking of the romantic comedy and other genres, and the shifting economics of his filmmaking. This book, up-to-date through Hartley's latest film, *Ned Rifle* (2014), includes new scholarship on the director's early work as well as reflections on his cinema in connection with new theories and approaches to independent filmmaking. Covering the entire trajectory of his career, including both his features and short films, the book also includes new readings of several of Hartley's seminal films, including *Amateur* (1994), *Flirt* (1995), and *Henry Fool* (1997).

Steven Soderbergh Anthony Kaufman, 2015-05-01 The long and prolific career of Steven Soderbergh (b. 1963) defies easy categorization. From his breakout beginnings in 1989 with *sex, lies, and videotape* to 2013, when he retired from big-screen studio movie making to focus on other pursuits including television, the director's output resembles nothing less than

an elaborate experiment. Soderbergh's Hollywood vehicles such as the Ocean's Eleven movies, Contagion, and Magic Mike appear just as risky and outside-the-box as low-budget exercises such as Schizopolis, Bubble, and The Girlfriend Experience. This updated edition details key career moments: his creative crisis surrounding his fourth film, The Underneath; his rejuvenation with the ultra-low-budget free-style Schizopolis; the mainstream achievements Erin Brockovich, Traffic, and the Ocean's Eleven films; and his continuing dedication to pushing his craft forward with films as diverse as conspiracy thrillers, sexy dramas, and biopics on Che Guevara and Liberace. Spanning twenty-five years, these conversations reveal Soderbergh to be as self-effacing and lighthearted in his later more established years as he was when just beginning to make movies. He comes across as a man undaunted by the glitz and power of Hollywood, remaining, above all, a truly independent filmmaker unafraid to get his hands dirty and pick up the camera himself.

Directing Virginia Wright Wexman, 2018-01-10 When a film is acclaimed, the director usually gets the lion's share of the credit. Yet the movie director's job—especially the collaborations and compromises it involves—remains little understood. The latest volume in the Behind the Silver Screen series, this collection provides the first comprehensive overview of how directing, as both an art and profession, has evolved in tandem with changing film industry practices. Each chapter is written by an expert on a different period of Hollywood, from the silent film era to today's digital filmmaking, providing in-depth examinations of key trends like the emergence of independent production after World War II and the rise of auteurism in the 1970s. Challenging the myth of the lone director, these studies demonstrate how directors work with a multitude of other talented creative professionals, including actors, writers, producers, editors, and cinematographers. Directing examines a diverse range of classic and contemporary directors, including Orson Welles, Tim Burton, Cecil B. DeMille, Steven Soderbergh, Spike Lee, and Ida Lupino, offering a rich composite picture of how they have negotiated industry constraints, utilized new technologies, and harnessed the creative contributions of their many collaborators throughout a century of Hollywood filmmaking.

Consciousness and Being Robert C. Trundle, 2019-02-14 This book is of vital interest to anyone who yearns to know how science, theology, ethics, art, and politics do really afford objective truths. Not only that, but how these truths in seemingly clashing areas are interrelated by common sense and rooted in our incontrovertible consciousness of Being itself. Being itself, as the basis for truth, is defended against truth-denying modern philosophers who, having headed in the wrong direction with tragic costs of murderous ideologies, have completely misunderstood the simple origin of truth in the realist tradition of Aristotle, Aquinas, Etienne Gilson, and others. Their profoundness is not bamboozled by the covert and corrupting sophism of today's teachings. Anyone interested in surmounting these teachings that include political correctness and a false divide of fact from value, which paralyze the very modern ethics that helped to create them, should read this book. The book reveals how ethics, art, and politics can be as true as the sciences that inform them.
