Logan Smalley, Stephanie Kent

Foundational Theology Neil Ormerod, Christiaan Jacobs-Vandegeer, 2015-12-01 Fundamental theology is traditionally viewed as the starting point for the various disciplines within Catholic theology; it is the place where solid foundations are established for the further research and engagement with the vast terrain of historical, systematic, philosophical, and sacramental/liturgical theology. In *Foundational Theology*, a landmark new study, Neil Ormerod and Christiaan Jacobs-Vandegeer seek to ground foundational theology in the normative drive toward meaning, truth, goodness, and beauty, appropriated by the theologian through religious, moral, intellectual, and psychic conversions. In doing so, the work maps out the implications of those fundamental orientations to the specific questions and topics of the Catholic theological tradition: God, Trinity, revelation, and an array of doctrinal points of investigation. The authors in this work provide a comprehensive approach to theological foundations for theologians while employing a new, groundbreaking approach to the discipline through the application of the insights of Bernard Lonergan, one of the foremost Catholic theologians of the modern era.

The Illusion of Control Mario Vanhoucke, 2023-07-04 This book comprehensively assesses the growing importance of project data for project scheduling, risk analysis and control. It discusses the relevance of project data for both researchers and professionals, and illustrates why the collection, processing and use of such data is not as straightforward as most people think. The theme of this book is known in the literature as data-driven project management and includes the discussion of using computer algorithms, human intuition, and project data for managing projects under risk. The book reviews the basic components of data-driven project management by summarizing the current state-of-the-art methodologies, including the latest computer and machine learning algorithms and statistical methodologies, for project risk and control. It highlights the importance of artificial project data for academics, and describes the specific requirements such data must meet. In turn, the book discusses a wide variety of statistical methods available to generate these artificial data and shows how they have helped researchers to develop algorithms and tools to improve decision-making in project management. Moreover, it examines the relevance of project data from a professional standpoint and describes how professionals should collect empirical project data for better decision-making. Finally, the book introduces a new approach to data collection, generation, and analysis for creating project databases, making it relevant for academic researchers and professional project managers.

This text draws on the Emmy Award-winning author's decades of professional experience in broadcast journalism. The author's real-world perspective conveys the excitement of a career in journalism.

Rather Dumb Mike Walker, 2005-02-27 Using *Rather* as a touchstone, Mike Walker rips into the arrogance and presumption of the news media--the elitist, agenda-driven mentality that allows its journalists and editors to ignore basic rules of journalism. Walker uses this short, blisteringly humorous book to personally kick *Rather* in the shins and also, more importantly, explain how real news is properly gathered and vetted, how it's properly written and reported, and why some journalists and editors think they're above such things. For years the mainstream media has stared down its collective nose at publications like the *National Enquirer*, but as Walker shows in scorching detail and irreverent humor, it is the gatekeepers and news elitists who need a trip to the woodshed, starting with Dan Rather.

American Visions: The United States, 1800-1860 Edward L. Ayers, 2023-10-24 "An inspiring book.... American Visions beautifully shows how remarkably resilient dreams of a better republic remained even in the darkest of times." —Christoph Irmscher, Wall Street Journal A revealing history of the formative period when voices of dissent and innovation defied power and created visions of America still resonant today. With so many of our histories falling into dour critique or

blatant celebration, here is a welcome departure: a book that offers hope as well as honesty about the American past. The early decades of the nineteenth century saw the expansion of slavery, Native dispossession, and wars with Canada and Mexico. Mass immigration and powerful religious movements sent tremors through American society. But even as the powerful defended the status quo, others defied it: voices from the margins moved the center; eccentric visions altered the accepted wisdom, and acts of empathy questioned self-interest. Edward L. Ayers's rich history examines the visions that moved Frederick Douglass, Margaret Fuller, the Native American activist William Apess, and others to challenge entrenched practices and beliefs. So, Lydia Maria Child condemned the racism of her fellow northerners at great personal cost. Melville and Thoreau, Joseph Smith and Samuel Morse all charted new paths for America in the realms of art, nature, belief, and technology. It was Henry David Thoreau who, speaking of John Brown, challenged a hostile crowd Is it not possible that an individual may be right and a government wrong? Through decades of award-winning scholarship on the Civil War, Edward L. Ayers has himself ventured beyond the interpretative status quo to recover the range of possibilities embedded in the past as it was lived. Here he turns that distinctive historical sensibility to a period when bold visionaries and critics built vigorous traditions of dissent and innovation into the foundation of the nation. Those traditions remain alive for us today.

Coach: The Greatest Teachers in Sports and Their Lessons for Us All Justin Spizman, 2022-02-08 Every great sports coach is a life coach. This book identifies 168 outstanding coaches who have much to teach us about optimizing our performance,

our character, and our lives. Coaches build winning teams and enable each athlete they mentor, guide, cajole, and nurture to achieve top performance. More than this, every great sports coach is first and last a life coach. Sportswriter Justin Spizman identifies and profiles 168 of the greatest coaches and managers of all time. They have much to teach us about optimizing our performance, our character, and our lives. *Coach: The Greatest Teachers in Sports and Their Lessons for Us All* profiles coaches in every significant sport, from football, basketball, baseball, and hockey to gymnastics, skating, rowing, rugby, soccer, and more. From field to court, diamond, rink, and pitch, the big leagues to the Olympics, college, and high school, *Coach* delivers the most teachable moments and methods—for play, for competition, and for life. Rich in quotations, each profile ends with lessons for top performance on and off the field, in and beyond the arena. Justin Spizman tracks all the relevant stats—for every sport keeps score—but he seeks first and last to disclose the mind, the heart, and the force of character that drive each of the indispensable men and women behind the world's most envied and admired athletes. His profiles range from the likes of Cardinals manager Tony La Russa (already an MLB legend), to Aimee Boorman and Cecile Canqueteau-Landi (who both coached gymnastics phenom Simone Biles), Bill Belichick (the take-no-prisoners field general of the New England Patriots), Pat Summitt (who racked up 1,098 wins as coach of the University of Tennessee Lady Vols basketball team from 1974 to 2012), Marián Vajda (the coach behind tennis titan Novak Djokovic), and David Leadbetter (golf guru to champions Kathy Baker, Nick Faldo, and Michelle Wie).

Empty Space and Points of Light Marie Herholdt Jørgensen, The book presents a study of key issues in Winerson's oeuvre. The selected works include *Oranges are not the Only Fruit*, *art & Lies*, *The PowerBook*, and *Written on the Body*, works that are all concerned with the self in relation to the concepts of time, love gender, and the body. Drawing on Jungian ideas of quest and individual and Queer theory, Marie Herholdt Jørgensen shows how these concepts in the works of Winterson are grounded in the prospect of numerous potential realities in which several narrations of the self are made possible. Winterson disrupts the notion of one objective reality and instead centers on the individual as the narrator of various versions of reality and the self. The book contains summaries of all of Winterson's novels, making the book accessible for readers previously unfamiliar with Jeanette Winterson.

CHOICES: Never-Ending Dilemmas in Everyday Life Arthur Asa Berger, 2024-01-23 This book is about the never-ending need we have to make choices. If you think about it, we have to decide what time to wake up every morning, what to wear (unless we need to wear a uniform), what to have for breakfast (if we eat breakfast), lunch and dinner (and if we eat in restaurants, what to order), and our need to make all kinds of other choices all day long. Some of our choices are mundane, like what to have for breakfast (if we eat breakfast): to have coffee or tea (and if so, plain or with milk), cereal, toast or a bagel (and if so, what kind: plain, with poppy seeds, with everything) or a sweet roll, eggs (if so, fried, soft boiled, scrambled), and so on. Most of the choices we make are not important, and we often develop habits to relieve us of having to

think about our choices. For example, I have the same thing for breakfast every day: a bowl of oatmeal with chia seeds and flax seeds, hot milk, a cup of espresso coffee with hot milk, and half a bagel with butter. Occasionally, I have a soft-boiled egg, as well. But other choices we have to make are life-changing, such as how to live (single, living with a partner, or getting married), what kind of education to get, what kind of job or profession to choose, where to live and what kind of house to buy (if you can afford a house), whom to vote for, and so on. After reading this book, you will better understand the role that the choices we make play in society and culture and in our everyday lives.

Nirvana: The True Story Everett True, 2009-11-04 Everett True is responsible for bringing Nirvana, Hole, Pavement, Soundgarden and a host of other bands to public attention. He introduced Kurt to Courtney, performed on stage with Nirvana on numerous occasions and famously pushed Kurt onto the stage of the Reading Festival in 1992 in a wheelchair. This is the true story written by the only journalist allowed into the Cobain house immediately after Kurt's death. True reveals the details of what the legendary band was really like, what happened to Cobain in Olympia and Seattle, how Kurt first met Courtney, and gives the lowdown on the scenes, the seminars, the live dates, the friends and the drug dealers surrounding the grunge explosion. A decade after Kurt Cobain's suicide, Nirvana continues to exert an enormous power on popular music as new generations discover the poignancy in their music. For the first time, here is a true insider's commentary on one of rock's most influential bands.

Into the Wild Nerd Yonder Julie Halpern, 2025-06-25 It's Jessie's sophomore year of high school. A self-professed mathelete, she isn't sure where she belongs. Her two best friends have transformed themselves into punks and one of them is going after her longtime crush. Her beloved older brother will soon leave for college (and in the meantime has shaved his mohawk and started dating . . . the prom princess!) . . . Things are changing fast. Jessie needs new friends. And her quest is a hilarious tour through high-school clique-dom, with a surprising stop along the way—the Dungeons and Dragons crowd, who out-nerd everyone. Will hanging out with them make her a nerd, too? And could she really be crushing on a guy with too-short pants and too-white gym shoes? If you go into the wild nerd yonder, can you ever come back?

Relative Strangers Emma Neale, 2011-11-01 Moving, acutely observed and psychologically deep, this fine novel captures and illuminates past and contemporary relationships. Colin should have the house to himself this Christmas. His flatmates are away and so is his girlfriend, who has gone on holiday without admitting the chill in their relationship. So who is the distraught woman in his lounge, along with a pushchair and screaming baby? Like it or not, Colin must play host to this intriguing, uninvited guest, whose revelations begin to work loose his own tightly guarded secrets.

Finder Carla Speed McNeil, 2012 *Talisman* is a book about a book: It's the book that's never there when you wake up, no matter how hard you try to take it with you. Fade Into You Nikki Darling, 2018-11-13 A glorious illumination of the dark corners of teen trouble, *Fade Into You* tangles Chicano cultural inheritance, nascent punk self-discovery, and kid truth in a stoned haze. —Jessica Hopper, author of *Night Moves* In the glorious wasteland of 1990s Los Angeles, Nikki Darling alternates between cutting class and getting high, falling into drugs, crushes, and counterculture to figure out how she fits into the world. Running increasingly wild with other angst-ridden outcasts, she pushes herself to the edge only to find herself trapped in the cyclical violence of growing up female. Written in dreamy, subterranean prose, this debut novel captures the reckless defiance and fragility of girlhood.

Sport and Monstrosity in Science Fiction Derek J. Thiess, 2019-04-30 This book pits the imaginative sports of science fiction against our widespread suspicion of the monstrous athletic body. The biopolitical nature of sport demands we see these bodies as our bodies, capable of the greatest physical feats science fiction can imagine, but also our worst fears of injury and death.

Ostara's Wings Incarnation Aya Neia, 2025-06-19 Darkness has swallowed the world. No one knows where it came from, or if the Sun will ever rise again. It's dangerous to stay outside—monsters lurk in the shadows, and humanity's days may be numbered. Just before the darkness falls, Ria finds herself stranded on the roadside with no memory of who she is, where she came from, or what she's running from. Together with a group of stranded travelers, she ends up at a remote farm, where she meets Yar—a mysterious biker with golden eyes and a serpent tattoo coiled down his back. Soon, the two must undertake a perilous journey to the very heart of the otherworldly cataclysm. To survive, Ria must brave the darkest corners of her own mind to uncover the truth: is she a victim, a weapon, or the key to saving what remains of the world? And whom should she trust—the childhood friend who is becoming a god in this new, terrible world, or the lover who may inherit the sins of those who destroyed the old one?
