**John Rieder**

Literary Genres Paul F. Kisak, 2016-05-03 A literary genre is a category of literary composition. Genres may be determined by literary technique, tone, content, or even (as in the case of fiction) length. The distinctions between genres and categories are flexible and loosely defined, often with subgroups. The most general genres in literature are (in loose chronological order) epic, tragedy, comedy, and creative nonfiction. They can all be in the form of prose or poetry. Additionally, a genre such as satire, allegory or pastoral might appear in any of the above, not only as a subgenre, but as a mixture of genres. Finally, they are defined by the general cultural movement of the historical period in which they were composed. This book discusses over 40 forms of literary genres that have survived the test of time and considered classics in literature. Any writer or reader is served well to know and study these genres.

**Genre Analysis and Corpus Design** Ulrike Henny-Krahmer, 2024-01-22 This work in the field of digital literary stylistics and computational literary studies is concerned with theoretical concerns of literary genre, with the design of a corpus of nineteenth-century Spanish-American novels, and with its empirical analysis in terms of subgenres of the novel. The digital text corpus consists of 256 Argentine, Cuban, and Mexican novels from the period between 1830 and 1910. It has been created with the goal to analyze thematic subgenres and literary currents that were represented in numerous novels in the nineteenth century by means of computational text categorization methods. To categorize the texts, statistical classification and a family resemblance analysis relying on network analysis are used with the aim to examine how the subgenres, which are understood as communicative, conventional phenomena, can be captured on the stylistic, textual level of the novels that participate in them.

**The Cambridge Companion to Narrative** David Herman, 2007-07-19 The Cambridge Companion to Narrative provides a unique and valuable overview of current approaches to narrative study. An international team of experts explores ideas of storytelling and methods of narrative analysis as they have emerged across diverse traditions of inquiry and in connection with a variety of media, from film and television, to storytelling in the 'real-life' contexts of face-to-face interaction, to literary fiction. Each chapter presents a survey of scholarly approaches to topics such as character, dialogue, genre or language, shows how those approaches can be brought to bear on a relatively well-known illustrative example, and indicates directions

for further research. Featuring a chapter reviewing definitions of narrative, a glossary of key terms and a comprehensive index, this is an essential resource for both students and scholars in many fields, including language and literature, composition and rhetoric, creative writing, jurisprudence, communication and media studies, and the social sciences.

Genre Anis S. Bawarshi, Mary Jo Reiff, 2010-03-08 **GENRE: AN INTRODUCTION TO HISTORY, THEORY, RESEARCH, AND PEDAGOGY** provides a critical overview of the rich body of scholarship that has informed a “genre turn” in Rhetoric and Composition, including a range of interdisciplinary perspectives from rhetorical theory, applied linguistics, sociology, philosophy, cognitive psychology, and literary theory.

**An Introduction to Literary Studies** Mario Klarer, 2004 Systematically taking in literary theory, genre and history, the author provides easy to understand descriptions of a variety of approaches to texts, thus offering an accessible and clear general survey of literature.

Science Fiction and the Mass Cultural Genre System John Rieder, 2017-03-07 A fresh approach to the history and shape of science fiction In *Science Fiction and the Mass Cultural Genre System*, John Rieder asks literary scholars to consider what shape literary history takes when based on a historical, rather than formalist, genre theory. Rieder starts from the premise that science fiction and the other genres usually associated with so-called genre fiction comprise a system of genres entirely distinct from the pre-existing classical and academic genre system that includes the epic, tragedy, comedy, satire, romance, the lyric, and so on. He proposes that the field of literary production and the project of literary studies cannot be adequately conceptualized without taking into account the tensions between these two genre systems that arise from their different modes of production, distribution, and reception. Although the careful reading of individual texts forms an important part of this study, the systemic approach offered by *Science Fiction and the Mass Cultural Genre System* provides a fundamental challenge to literary methodologies that foreground individual innovation.

The Modern Preacher and the Ancient Text Sidney Greidanus, 1989-01-19 A fusion of biblical hermeneutics and homiletics, this thorough and well-researched book offers a holistic contemporary approach to the interpretation and preaching of biblical texts, using all the scholarly tools available and focusing especially on literary features. Greidanus develops hermeneutical and homiletical principles and then applies them to four specific genres: Hebrew narratives, prophetic literature, the Gospels, and the Epistles.

The Genre, Composition, and Hermeneutics of the Epistle of James Luke Leuk Cheung, 2007-09-01 James reflects both features of Hellenistic paraenesis and wisdom instruction, but its contents owe more to the latter. The work can be seen as a countercultural wisdom instruction containing various aphorisms, aiming to challenge the hearers' worldview and to reorient them to the values acceptable to God. The concern of perfection comes at the prologue and the epilogue, which forms the framework from which James is to be understood. The units 2:8-13, 3:13-18, and 4:11-12, which link the seemingly unrelated

adjacent sections together, reflect similar arguments. The perfect law of liberty and the wisdom from above, and ultimately God the Lawgiver and the Judge, are the yardsticks by which one's speech and actions have to be measured and judged (1:19-25). The preeminent concern of our author is the importance of the perfect law with its fulfillment bringing about perfection, freeing one from the power of evil desire.

**Understanding Genre and Medieval Romance** K.S. Whetter, 2017-05-15 Unique in combining a comprehensive and comparative study of genre with a study of romance, this book constitutes a significant contribution to ongoing critical debates over the definition of romance and the genre and artistry of Malory's *Morte Darthur*. K.S. Whetter offers an original approach to these issues by prefacing a comprehensive study of romance with a wide-ranging and historically diverse study of genre and genre theory. In doing so Whetter addresses the questions of why and how romance might usefully be defined and how such an awareness of genre-and the expectations that come with such awareness-impact upon both our understanding of the texts themselves and of how they may have been received by their contemporary medieval audiences. As an integral part the study Whetter offers a detailed examination of Sir Thomas Malory's *Le Morte Darthur*, a text usually considered a straightforward romance but which Whetter argues should be re-classified and reconsidered as a generic mixture best termed tragic-romance. This new classification is important in helping to explain a number of so-called inconsistencies or puzzles in Malory's text and further elucidates Malory's artistry. Whetter offers a powerful meditation upon genre, romance and the *Morte* which will be of interest to faculty, graduate students and undergraduates alike.

Time, Tense, and Genre in Ancient Greek Literature , 2025-07-01 The 24 essays collected in this book address the complex interactions between concepts of time, grammatical tense, and type of genre of prose or poetry in ancient Greek literature. The chronological scope stretches across nearly a millennium from archaic epic to the Second Sophistic, from the

emotional intensity of Homer to Plutarch and the playfulness of Lucian, tracing patterns, developments, contrasts, and intertextual allusiveness across diverse texts and authors. These include dramatists (Aeschylus, Euripides, Sophocles, and Aristophanes), philosophers (Plato), lyricists (Alcman and Sappho), ancient literary critics (Dionysius of Halicarnassus), orators (whose lawcourt speeches were delivered literally 'against the clock' in the form of the clepsydra), Hellenistic poets (Apollonius and Lycophron), historiographers (Herodotus) and the fabulist Aesop. The structure is informed by Greek philosophical categories, exploring discrete metaphysical, psychological, aetiological, and ethical ideas about temporality; the collective project of the volume is to investigate how authors manipulated not only tenses but imagery, moods, and metres, as well as generic conventions, in shaping and articulating notions about orality, literariness, subjectivity, immediacy, presence, futurity, causation, gender, sexuality, ethnography, cosmology, and remotest prehistory. The result is a pioneering, unique, and multifaceted volume that throws light not only on the rich linguistic resources of the ancient Greek language in evoking time, but on surprising interconnections between genres often studied in isolation.

**Genre Studies in Focus** Faten Haouioui, Hajer Ayadi, 2024-03-05 This collection of essays aims to revise genre theory and studies. Authors in this volume present and discuss different literary genres in transition. They investigate genre hybridization, transformation, reconciliation and evolution. Therefore, the volume reconceptualizes the theory according to novel texts and contexts in, for example, trans-generic film series, feminine poetry, and Arab women writing. It introduces new generic labels in travel literature and new sub-genres in Maghrebean literature. Genre blurs the boundaries between genre hierarchy, labels, and borderlines. We read a gothic text that encompasses trauma, testimony, resistance and history. Moreover, scholars contributing to this collection astutely point out that genres are hybrid yet flexible by nature. They adopt a cross-cultural and interdisciplinary approach to genre theory. The volume targets researchers, theorists and students reading and interpreting literary and historical texts alongside genre theory.

**Pragmatics of Fiction** Miriam A. Locher, Andreas H. Jucker, 2017-04-10 Pragmatics of Fiction provides systematic orientation in the emerging field of studying pragmatics with/in fictional data. It provides an authoritative and accessible overview of this versatile new field in its methodological and theoretical richness. Giving center stage to fictional language allows scholars to review key concepts in sociolinguistics such as genre, style, voice, stance, dialogue, participation structure or features of orality and literariness. The contributors explore language as one of the creative tools to craft story worlds and characters by drawing on concepts such as regional, social and ethnic language variation, as well as multilingualism. Themes such as emotion, taboo language or impoliteness in fiction receive attention just as the challenges of translation and dubbing, the creation of past and future languages, the impact of fictional language on language change or the fuzzy boundaries of narratives. Each contribution, written by a leading specialist, gives a succinct, representative and up-to-date overview of research questions, theories, methods and recent developments in the field.

**Film Genre** Barry Keith Grant, 2007 Offering a concise analysis of film genre, this text introduces the topic in an accessible manner, covering theory and sample analyses of genre films such as the western, science fiction and the musical, through to horror, comedy and the thriller.

**Basic Bible Interpretation** Roy B. Zuck, 2002-05-15 A hermeneutics book for the common person. Readers will appreciate the scholarly, yet readable style of Roy Zuck, former Professor of Bible Exposition at Dallas Theological Seminary.

**Genre (Routledge Revivals)** Heather Dubrow, 2014-06-27 This study, first published in 1982, explores and demonstrates the ways in which an awareness of literary genre can illuminate works as diverse as Milton's 'Lycidas' and Berryman's Sonnets. The first book to offer a historical survey of genre theory, it traces the history from the Greek rhetoricians to such contemporary figures as Frye and Todorov. Particular emphasis is placed on the ways in which comments on genre reflect underlying aesthetic attitudes.

*The Birth Report Genre in the Hebrew Bible* Timothy D. Finlay, 2005 Timothy D. Finlay conducts a comprehensive analysis of all birth reports in the Hebrew Bible. These passages include genealogies, stories of annunciation to barren women and prophetic narratives. The birth reports may be short but they contribute greatly to the plot.--BOOK JACKET.

*Dictionary of the Theatre* Patrice Pavis, 1998-01-01 An encyclopedic dictionary of technical and theoretical terms, the book covers all aspects of a semiotic approach to the theatre, with cross-referenced alphabetical entries ranging from absurd to word scenery.
