Albert A Gayle

Teaching History with Film Alan S. Marcus, Scott Alan Metzger, Richard J. Paxton, Jeremy D. Stoddard, 2010-02-25 Visit any school in the United States and chances are that you will find at least one of the social studies teachers showing a film about history. Along with the textbook, movies are one of the most prominent teaching aids in the history classroom. Yet, when middle and high school history teachers look for models of the effective use of motion pictures in history classrooms, the cupboard is surprisingly bare. *Teaching History with Film* provides a fresh, engaging, and clear overview of teaching with film to effectively enhance social studies instruction. Using cases of experienced teachers to illustrate accomplished history teaching through the use of movies, this text provides pre- and in-service teachers with ideas for implementing film-based lessons in their own classrooms and offers a deeper understanding of the thorny issues involved in using film to teach history. Each section of the book focuses on how teachers can effectively support the development of students' historical film literacy through topics such as using film to develop historical empathy, to develop interpretive skills, and to explore controversial issues. By developing the skills students need to think critically about the past or what they think they know about history, the lessons in this book illustrate how to harness the pedagogical power of film to provide the tools necessary for rigorous inquiry and democratic citizenship. Special features include: Reflection on the Case, following each chapter, analyzing and discussing the strengths and limitations of the teacher's approach as well as providing strategies for using and choosing films specific to the educational outcome Sample unit outlines, descriptions of class texts and films, worksheets, essay questions, viewer guides, and exercises for the classroom throughout Discussion of the practical considerations facing classroom teachers, including juggling time restraints, issues of parental permission, and meeting standards

Cinematic Social Studies William B. Russell, Stewart Waters, 2017-01-01 Action! Film is a common and powerful element in the social studies classroom and *Cinematic Social Studies* explores teaching and learning social studies with film. Teaching with film is a prominent teaching strategy utilized by many teachers on a regular basis. *Cinematic Social Studies* moves readers beyond the traditional perceptions of teaching film and explores the vast array of ideas and strategies related to teaching social studies with film. The contributing authors of this volume seek to explain, through an array of ideas and visions, what cinematic social studies can/should look like, while providing research and rationales for why teaching social studies with film is valuable and important. This volume includes twenty-four scholarly chapters discussing relevant topics of

importance to cinematic social studies. The twenty four chapters are divided into three sections. This stellar collection of writings includes contributions from noteworthy scholars like Keith Barton, Wayne Journell, James Damico, Cynthia Tyson, and many more.

Social Studies for Secondary Schools Alan J. Singer, 2014-10-08 Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to on-line essays about related social studies topics. Activities are followed by four categories: Think it over, Add your voice to the discussion, Try it yourself, and It's your classroom. All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on-line material linked to the text

Essentials of Middle and Secondary Social Studies William B. Russell III, Stewart Waters, Thomas N. Turner, 2013-10-15 Building on the success of a much-loved elementary text, *Essentials of Middle and Secondary Social Studies* focuses on the key issues central to the actual teaching of middle and high school social studies, including lesson planning and inclusive instructional strategies. Written in an engaging, conversational style, the text encourages teachers in their development as professionals and enables them to effectively use creative and active learning strategies in the everyday classroom. Features of the book include:

- A full chapter on lesson plans designed to provide middle and secondary social

studies teachers with classroom tested lesson plans. The chapter includes two classroom tested lessons for each social science discipline---U.S. History, World History, Geography, Government, Economics, Psychology, & Sociology. • A chapter on technology that is designed to better prepare middle and secondary social studies teachers to effectively teach social studies with technology. Teaching History with Popular Media Chad William Timm, 2025-06-17 This book combines innovative inquiry-based teaching strategies with rich qualitative descriptions from middle and high school students to document how popular media can be effectively integrated into the history classroom. The first book to address teaching history with multiple forms of popular media, this work demonstrates how incorporating movies, music, and graphic narratives increases students' engagement, builds historical thinking skills and teaches critical media literacy. Each chapter highlights a piece of popular media focusing on diverse topics including under-represented subjects like the Ludlow Massacre, the Harlem Hellfighters, and the internment of Japanese Americans during the Second World War while providing detailed lesson plans aligned with Common Core Standards. Also included are tips on teaching inquiry inductively, proactive planning, and specific examples of how to transfer the teaching tools to other forms of popular media.

Cultivating Creativity through World Films David Campos, Ericka Knudson, 2019-11-01 With the aim to help teachers design and deliver instruction around world films featuring child protagonists, *Cultivating Creativity through World Films* guides readers to understand the importance of fostering creativity in the lives of youth. It is expected that by teaching students about world films through the eyes of characters that resemble them, they will gain insight into cultures that might be otherwise unknown to them and learn to analyze what they see. Teachers can use these films to examine and reflect on differences and commonalities rooted in culture, social class, gender, language, religion, etc., through guided questions for class discussion. The framework of this book is conceived to help teachers develop students' ability to evaluate, analyze, synthesize and interpret. The proposed activities seek to incite reflection and creativity in students, and can be used as a model for teachers in designing future lessons on other films.

board of well-respected scholars in social studies education research

The Middle Ages in Popular Imagination Paul B. Sturtevant, 2018-02-28 It is often assumed that those outside of academia know very little about the Middle Ages. But the truth is not so simple. Non-specialists in fact learn a great deal from the myriad medievalisms - post-medieval imaginings of the medieval world - that pervade our everyday culture. These, like *Lord of the Rings* or *Game of Thrones*, offer compelling, if not necessarily accurate, visions of the medieval world. And more, they have an impact on the popular imagination, particularly since there are new medievalisms constantly being developed, synthesised and remade. But what does the public really know? How do the conflicting medievalisms they consume contribute to their knowledge? And why is this important? In this book, the first evidence-based exploration of the wider public's understanding of the Middle Ages, Paul B. Sturtevant adapts sociological methods to answer these important questions. Based on extensive focus groups, the book details the ways - both formal and informal - that people learn about the medieval past and the many other ways that this informs, and even distorts, our present. In the process, Sturtevant also sheds light, in more general terms, onto the ways non-specialists learn about the past, and why understanding this is so important. *The Middle Ages in Popular Imagination* will be of interest to anyone working on medieval studies, medievalism, memory studies, medieval film studies, informal learning or public history.

American Education in Popular Media S. Terzian, P. Ryan, 2015-05-13 *American Education in Popular Media* explores how popular media has represented schooling in the United States over the course of the twentieth century. Terzian and Ryan examine prevalent portrayals of students and professional educators while addressing contested purposes of schooling in American society.

Critical Technology Issues for School Leaders Susan Brooks-Young, 2006-04-12 Ever-changing technology and a generation of digital-native students challenge educators to keep pace, especially in preparing students for a successful future in an increasingly technologically advanced world. Well-known technology specialist and consultant Susan Brooks-Young emphasizes that incorporating effective, regular use of technology as a tool for teaching and learning is imperative if we want to stay in the game. In this new book, Brooks-Young gathers her most popular and insightful work into a collection of practical technology strategies for issues most critical to busy school leaders. The book is organized into the following four sections, each focusing on a different aspect of technology leadership: *New Literacies*: the latest technology advances and opportunities for integration in schools *Engaging Teachers and Students*: tools and strategies for professional development, establishing a Web presence, classroom blogs, and distance learning *Providing a Reliable Infrastructure*: tech-ready facilities, cost management, software and networks, and the role of technology coordinators *Legal and Social Concerns*: Internet safety

and security, precautions, copyright and plagiarism concerns, home-school communications, and much more School leaders will find detailed and concise information, extensive resources, and reflective questions for personal use or group discussion. This comprehensive, straightforward guide provides all the tools needed for effective technology leadership.--Publisher's website.

Narratives from the Classroom Paul Chamness Miller, 2005 Narratives from the Classroom: An Introduction to Teaching introduces the reader to many of the important classroom issues surrounding the field of teaching. This book is unique in that it is a collection of personal accounts and ideas written by the teachers and teacher educators who lived those experiences. Because this is an introduction to teaching, each chapter addresses a different topic, ranging from the purpose of schools and teachers, issues about policies and programs in the school, and various practices found within the classroom walls. There is also a section that addresses preparation for the job market and what the first year of teaching is like. This book deliberately avoids being prescriptive and encourages the reader to form his or her own conclusions about the presented issues.

Using Technology with Classroom Instruction that Works Howard Pitler, 2007 What kinds of technology will support particular learning tasks and objectives? And how does a teacher ensure that technology use will enhance instruction and not be a distraction or a disconnected add-on? You'll find the answers here. This book builds on the landmark Classroom instruction that works by linking each of the nine categories of effective instructional strategies with educational technology applications and resources ... Each strategy-focused chapter features cross-curricular examples, many drawn from actual lesson plans, projects, and products. In addition to stories of students learning through inquiry, collaborative projects, games, and other activities that make school exciting and meaningful, you'll find dozens of recommended resources along with expert guidance on planning technology-enhanced lessons aligned with national standards.
