Logic for Justice Isaac Wilhelm, 2023-09-21 An introductory textbook, *Logic for Justice* covers, in full detail, the language and semantics of both propositional logic and first-order logic. It motivates the study of those logical systems by drawing on social and political issues. Basically, *Logic for Justice* frames propositional logic and first-order logic as two theories of the distinction between good arguments and bad arguments. And the book explains why, for the purposes of

social justice and political reform, we need theories of that distinction. In addition, Logic for Justice is extremely lucid, thorough, and clear. It explains, and motivates, many different features of the formalism of propositional logic and first-order logic, always connecting those features back to real-world issues. Key Features Connects the study of logic to real-world social and political issues, drawing in students who might not otherwise be attracted to the subject. Offers extremely clear and thorough presentations of technical material, allowing students to learn directly from the book without having to rely on instructor explanations. Carefully explains the value of arguing well throughout one's life, with several discussions about how to argue and how arguments – when done with care – can be helpful personally. Includes examples that appear throughout the entire book, allowing students to see how the ideas presented in the book build on each other. Provides a large and diverse set of problems for each chapter. Teaches logic by connecting formal languages to natural languages with which students are already familiar, making it much easier for students to learn how logic works.

O'Neill, Jenet Kirkpatrick, 2024-10-29 *Ideals and Ideologies: A Reader* is a comprehensive compilation of classic and contemporary readings representing all major “isms.” It offers students a generous sampling of key thinkers in different ideological traditions and places them in their historical and political contexts. New to this edition The twelfth edition includes the following additions: Steven Levitsky and Daniel Ziblatt, “How Democracies Die” (two distinguished political scientists delineate the sources of democratic demise). Ayn Rand, “Collectivized Ethics” (a well-known libertarian thinker argues that it is illegitimate for governments to legally mandate behavior that benefits other people). Patrick Deneen, “Aristopopulism” (an influential conservative professor makes the case for a new kind of governing alliance between masses and elites). Herbert Marcuse, “One-Dimensional Man” (a renowned twentieth-century Marxist argues that capitalism creates a set of false needs and beliefs that prevent workers from resisting it). “Patriot Front Manifesto” (an Alt-Right white nationalist group attempts to link their ideology to American history and values). Ta-Nehisi Coates, “The Case for Reparations” (a prominent author argues that Americans should seriously consider what it would take to make amends to Black people for the ongoing effects of slavery, Jim Crow, and other forms of discrimination). Kate Manne, “Ameliorating Misogyny” (a contemporary feminist philosopher redefines misogyny as the central mechanism for governing women's behavior and upholding patriarchy). Lorna Bracewell, “A Story of Queer Survival” (a lesbian feminist scholar links her personal coming-of-age experiences to the central beliefs of the gay liberation movement). Karla Cornejo Villavicencio, “Waking up from the American Dream” (a Harvard graduate and author who came to the United States as an undocumented immigrant describes the challenges faced by people who do not have the rights and privileges of full citizenship). Pope Francis, “Laudate Deum” (the leader of 1.3 billion Catholics worldwide describes how he believes they, and other people of

The Motherhood Myth Vanessa Bennett, 2025-08-19 A guide to reclaim your Self as a mother—realize why it’s hard, reassess boundaries, recognize archetypes, and revolutionize how you parent and partner “A lifeline for any mother ready to stop repeating patterns and start reclaiming her power.” —Shefali Tsabary, PhD, New York Times bestselling author It’s no secret that the transition to motherhood can be difficult. We’re fed myths that we should know how to be mothers, that it should be effortless, that we’ll parent harmoniously with our partners... when the reality is anything but. The Motherhood Myth offers the profound support that mothers so desperately need—not just an explanation of the challenges but a nuanced understanding of why we’re experiencing them and, most crucially, how we can navigate through them. Vanessa Bennett, a therapist and mother, has sat with countless clients navigating the same pain points she faced. Motherhood is an initiation into a new way of being, but most of us have lost touch with the myths, stories, and ancestral knowledge that once guided us through this radical shift in identity. The Motherhood Myth draws on depth psychology to support us through this transition by:

- Exploring the patriarchal social and cultural forces that impact parenting today
- Introducing key archetypes, along with their golden and shadow qualities
- Illuminating the importance of initiation as we shift from one way of being to another... and how this is missing for many women today
- Sharing stories that illustrate archetypes in action—from the goddess Kali to the tale of Demeter—and how we can see ourselves in these myths
- Asking provocative questions about intimacy, consent, and connection
- Creating shifts in our lives to claim our sovereignty and identity as Mother

In each chapter, Bennett shares relatable personal or client stories as well as practical tools to help us discover and embody an unshakable sense of Self. She also provides skills and scripts to increase capacity for conflict, vulnerability, and discomfort. As Bennett explains, “I want to shout from the rooftops that life is not meant to be simply ‘gotten through’ or endured.” This guide can help you “navigate not just the initial shift into parenthood but also the continual evolution with more ease, authenticity, and self-compassion.”

A pioneering figure in post-modern approaches to gender, race and sexuality, her prodigious output is matched only by the scope of its concern - touching on everything from aesthetics to the politics of identity to the experience of love. These newly re-issued classics are as inspirational as ever.

Porque Estamos Aquí Jessica Nydia Pabón-Colón, 2025-11-11 A future classic collection of Puerto Rican feminist writing that spans time, terrain, and phases, invokes voices across generations and fields, and bridges island and diaspora. In her years of scholarship and activism with fellow Puerto Rican feminists, editor Jessica N. Pabón-Colón reached for a feminism to ground her work and validate the women who paved her way—but in her search for a specific tradition of Puerto Rican feminism, what she found were gaps, disappearances, and unanswered questions. Despite the presence of Puerto Ricans in US pop culture and the long history of Boricua resistance to US subjugation, both on the archipelago and in the diaspora, she did not find a feminist lens to link the myriad identities and geographies of Ricanness or to focus critique on Puerto Rico's status as an American neo-colony. Counteracting such erasure, *Porque Estamos Aquí* maps Boricua feminisms of the past, the present, and the future, defining what it means to be a “bad subject” of US empire. Engaging in radical collectivity, Pabón-Colón joins forces with Puerto Rican scholars, memoirists, artists, and activists—including feminist legends like Aurora Levins Morales and political trailblazers like Rosa Clemente—to ground this anthology in a tradition of resistance to empire at home. Through essays, roundtables, historiographies, poems, and other cross-genre writing, *Porque Estamos Aquí* asserts that Puerto Rican feminists are undeniably, irreducibly here and will guide generations of our shared movement for years to come.

Justice Through Diversity? Michael J. Sweeney, 2016-08-30 Arguably the most transformative force in contemporary society is the commitment to justice through diversity. A prime example is the change justice through diversity has wrought

on who enters, teaches and administers the university. It has changed the content of what is taught and the mission statements that define the purpose of higher education. What is rarely defined, however, is justice and how it is related to diversity. If justice is equality, are all differences equal? Are all differences in race, gender, sexual orientation, national origin, ethnicity, religion and culture equal? Should such differences be weighted differently and thus hierarchically? On what basis are those differences to be weighted and ranked to ensure equality? Justice Through Diversity brings together a Who's Who of contemporary scholars to explore these questions and others in an attempt to understand one of the central commitments in the modern world.

Public Feminisms Carrie N. Baker, Aviva Dove-Viebahn, 2023-05-16 The field of feminist studies grew from the U.S. women's movements of the 1960s and 1970s and has continued to be deeply connected to ongoing movements for social justice. As educational institutions are increasingly seeing public scholarship and community engagement as relevant and fruitful complements to traditional academic work, feminist scholars have much to offer in demonstrating different ways to inform and interact with various communities. In *Public Feminisms: From Academy to Community* edited by Carrie N. Baker and Aviva Dove-Viebahn, a diverse range of feminist scholar-activists write about the dynamic and varied methods they use to reach beyond the traditional academic classroom and scholarly journals to share their work with the public. Part one explores how feminist scholars engage broader audiences through art, media, and public programming, including essays on a public discussion series teaching intersectional feminist analysis of popular films, and a podcast from Latina scholars discussing issues of reproductive justice, social justice, motherhood, sexuality, race, and gender. Part two focuses on activism and public education, including essays on "Take Back the Night," and archiving the women's march protests. Part three turns to public writing and scholarship, including an essay on elevating the perspectives and voices of underrepresented creatives in the film and television industry. Part four explores feminist pedagogies for community engagement and for teaching public feminisms. Accessible and engaging to a broad range of readers, the essays in this volume are a rich resource for scholars and students interested in infusing their academic knowledge into the public sphere. With this timely book, the editors offer an opportunity to reflect on the meaning and importance of community engagement and highlight some of the important public-facing work feminist scholars are doing today. Faculty, graduate, and undergraduate students, as well as administrators hoping to increase their schools' connections to the community, will find this volume indispensable.

Community and the World Torry D. Dickinson, 2003 This collection of articles and artwork examines inclusive community development education, which engages members of diverse, often marginalised groups in research and education for social change. Community development education is the democratic and scholarly practice of involving everyday people, from all backgrounds, in the research-based process of designing, starting, and evaluating programs that meet people's needs. The book's varied contributions serve as personalised invitations to: work with others as equals, join democratic social

projects, talk to people you wouldn't have talked to before, value self-education, recognise contributions made by unpaid workers, invent ways to be non-violent, challenge passivity, and use democracy as a way to improve communities and the world. Addressing culture to science, chapters contain work carried out by younger and older scholarly activists in: Women's Studies, anti-racist and anti-colonial studies, history, the social sciences, global studies, community studies, media studies, horticulture, philosophy, education, co-operatives and community service, social-movement organising, project development, political art, and popular music. Each chapter contains diverse themes, comes from multidisciplinary research, and speaks to the subject of education for social change in individual ways. Contributions focus on popular education, self-education, self-defined group education, group-defined university projects, and scholarly activism in local to global movements.

Thinking Woman Jennifer Hockenbery Dragseth, 2016-08-25 What does it mean to be a woman? Do women have a unique nature and a unique vocation? Should feminists work to help women specifically or to support all people? Thinking Woman examines the lives and ideas of women in the history of philosophy who wished to understand and advocate for themselves as women. Some, like Hildegard of Bingen and Edith Stein, found women to be a unique creature designed by God, necessary for good stewardship of creation. Others, such as Mary Wollstonecraft and Sojourner Truth, found women to be identical to men in all but biology and thus identical before the law. Still others, from Simone de Beauvoir to Judith Butler, found the very question troubling as they tried to sort out cultural ideas from biological rules. These women and their views form a canon on the question of women, a canon that can help guide the conversation for thinkers and activists today who want both to understand women and to advocate for justice for all people.

Feminist Encounters with Confucius Mathew Foust, Sor-Hoon Tan, 2016-10-11 This work builds on earlier works, which defend Confucianism against charges of sexism and present interpretations of Confucianism compatible with Feminism, but contributors go beyond the much discussed care ethics, and common arguments of how ren (humaneness) can ground an egalitarian humanism that include gender equality. Besides ethics and political philosophy topics, this volume includes discussions in other philosophical areas such as epistemology, metaphysics, and applied philosophy. Through the encounter of Feminism and Confucius's perspectives, each contributor generates novel answers to the questions addressed. In some cases, authors raise new questions about the chosen topic, inadequacies in how it has been addressed in previous Confucian or Feminist discourse, and/or challenges for either or both Confucianism and Feminism.

Postcolonial Practice of Ministry Stephen Burns, Kwok Pui-lan, 2016-07-13 Postcolonial studies has challenged the Eurocentric frameworks and methodologies in the fields of biblical studies and theology. Postcolonial Practice of Ministry is a groundbreaking anthology that enables a new engagement between postcolonial and practical theologies, focused on three key areas of the practice of ministry: pastoral leadership, liturgical celebration, and interfaith engagement. Postcolonial Practice of Ministry will make an impact in at least two areas of theological reflection: first, among postcolonial scholars, it

will stretch postcolonial theology into an area where it has been neglected; second, it will provide a comprehensive resource for rethinking the practice of ministry. Contributors to this volume are well-known scholars from different racial, national, and denominational backgrounds, bringing with them experiences of hybrid identities and multicultural churches. Many of them are pioneers in introducing postcolonial discourse to their fields.

Elgar Encyclopedia of Political Sociology Maria Grasso, Marco Giugni, 2023-12-11 This comprehensive and authoritative Encyclopedia, featuring entries written by academic experts in the field, explores the diverse topics within the discipline of political sociology. By looking at both macro- and micro-components, questions relating to nation-states, political institutions and their development, and the sources of social and political change such as social movements and other forms of contentious politics, are raised and critically analysed.

Synergy, Healing, and Empowerment Richard Katz, Stephen Murphy-Shigematsu, 2012 Guided by the concept of synergy, this groundbreaking collection explores alternatives in the areas of counseling, education, and community health and development. Synergy refers to the process of two or more things coming together to create a new, greater, and often-unexpected whole. When synergy exists, formerly scarce resources can expand and become renewable and accessible to all. Drawing upon the diverse cultural experiences of Aboriginal groups in North America and around the world, these compelling narratives provide practical insights into the emergence of synergy and obstacles to its existence. Synergy, Healing and Empowerment offers invaluable guidance in the pursuit of a just and equitable society.

Open Play Sheree Bekker, Stephen Mumford, 2025-03-15 A thought-provoking manifesto arguing for the end of gender segregation in athletics. Sheree Bekker and Stephen Mumford argue that the category of “women’s sports” is not the feminist win some would have you believe. Instead, the segregation of women in sports is just one of the many ways in which women are told to expect less from society. Women had to fight to be included in sports in the first place, and are now only included under far less favorable terms than those enjoyed by men. There are better ways to ensure safety and fairness, the authors make clear, than segregation by gender. And this matters deeply: ending gender segregation would encourage a more equitable distribution of resources, increase women’s participation in sports, and challenge outdated, sexist myths about women and their bodies.

Masters of War Carl Boggs, 2013-10-11 Few United States citizens conceive of their country as an empire, but, as the contributors to *Masters of War* convincingly argue, the U.S. legacy of military power runs long and deep. Often mobilized in the name of spreading democracy, maintaining international order, and creating the conditions for economic self-determination, constantly expanding global U.S. military power is difficult to characterize as anything but an imperialism bent on global domination. However, at the same time that the U.S. government hawks rhetoric of human rights and national sovereignty, its dominion has begun breeding widespread resistance and opposition likely to make the twenty-first century an

era marked by sustained, and generally unanticipated, blowback. Presenting a wide range of essays by some of the anti-war movement's most vocal and incisive critics, *Masters of War* reminds us that worldwide economic and military dominance has its price, both globally and domestically.

Research Handbook on Feminist Engagement with International Law Susan Harris Rimmer, Kate Ogg, For almost 30 years, scholars and advocates have been exploring the interaction and potential between the rights and well-being of women and the promise of international law. This collection posits that the next frontier for international law is increasing its relevance, beneficence and impact for women in the developing world, and to deal with a much wider range of issues through a feminist lens.
