Actividades Nutritivas. Manual para padres y educadores Begoña Pérez Llano, 2020-04-30 La creciente preocupación por cuidar nuestra salud a través de la mejora de nuestra alimentación nos ha llevado a constatar que necesitamos mejorar también nuestra educación nutricional. Nuestra forma de alimentarnos depende de muchos factores entre los que está de forma muy clara la información que tengamos nosotros mismos acerca de los alimentos, sus nutrientes y la forma de combinar todo esto para que la dieta sea saludable. Este libro quiere contribuir a incrementar nuestra educación nutricional desde el comienzo de nuestra educación, en las etapas de educación infantil, primaria e incluso secundaria, cuando somos más receptivos a la nueva información, a las nuevas sensaciones que nos aportan los alimentos y es la etapa en la que aprendemos hábitos de toda índole, incluidos los alimentarios. Por esto, el libro está dirigido a padres y educadores (profesores, monitores de comedor, campamentos, actividades extraescolares), que son los agentes que deben trabajar estos

aspectos. El libro propone actividades variadas con un contenido explicado para conocer los principios de la alimentación saludable. Cada una de las actividades está detallada para que cualquier educador pueda reproducirla sin problemas. Se ha procurado incluir actividades para todos los niveles educativos citados. Además, con la idea principal de hacer que este aprendizaje sea lo más divertido posible, las propuestas son muy variadas y con un enfoque práctico y lúdico. Porque si disfrutamos, aprendemos más.

Renuncia a la obesidad Monique Laroque-Medina, 2016-07-15 ¿Cuáles son las causas de la obesidad? ¿Qué riesgos conlleva? no sólo influyen en ella el exceso de alimento y el sedentarismo: el cuerpo y la mente se entrelazan en esta disfunción, a menudo difícil de resolver. Monique Laroque-medina le da las herramientas para valorar de una forma madura y consciente si realmente desea enfrentarse a este problema; si este es su deseo, el libro le mostrará el modo de cambiar tanto sus hábitos alimentarios como su mentalidad y su actitud para afrontar el tratamiento de la forma más correcta, es decir, de una forma positiva. Así, con la cura 4sincro -una fórmula que plantea el cuidado personal para poder tratar el sobrepeso teniendo en cuenta la sincronización de, por un lado, la alimentación según la cronobiología y, por otro, la alimentación de acuerdo con los grupos sanguíneos-, contará con la garantía de obtener los resultados esperados de una manera paulatina y segura. Las tres fases en que se estructura esta cura le permitirán perder peso, regularlo y estabilizarlo.

La dieta que activa tu vida Josep Lluís Berdonces,2015-11-01 Nuestra dieta y hábitos alimentarios nos han hecho perder el contacto con los microbios que viven en los alimentos, privándonos de los que son beneficiosos para nuestra salud y obligando a nuestro organismo a un innecesario, antinatural y constante gasto de enzimas propias, que es una de las principales causas de envejecimiento, enfermedad y muerte prematuras. En su dilatada carrera como médico de familia y especialista en medicina natural, el doctor Berdonces ha centrado su actividad en la idea de que la alimentación es el pilar de la salud, puesto que todo aquello que comemos y asimilamos en poco tiempo termina formando parte de nuestro cuerpo. En su libro no sólo nos descubre los problemas de la nutrición contemporánea sino que nos da las pautas de una alternativa saludable, que nos van a permitir repoblar de microorganismos imprescindibles nuestro intestino. La dieta enzimática descrita en esta obra nos propone cómo incluir en nuestros platos una serie de alimentos maravillosos que, como confirma la literatura científica, han demostrado tener propiedades medicinales especiales, que pueden reducir de forma espectacular enfermedades como las alergias, el exceso de colesterol, la diabetes, el ácido úrico e incluso el cáncer.
