Estudio del léxico y bases de datos María Jesús Mancho, Universidad Autónoma de Barcelona. Seminario de Filología y de Informática, 2006 Es una obra miscelánea que reúne diversas investigaciones en las que se aplican herramientas informáticas al estudio de la historia del léxico del español. Todos los trabajos fueron expuestos en un seminario que, con el mismo título, tuvo lugar en el Centro de Investigaciones Lingüísticas de la Universidad de Salamanca (CILUS) y en el Seminario de Filología e Informática de la Universidad Autónoma de Barcelona durante los años 2003-2005. El Seminario de Filología e Informática del Departamento de Filología Española de la UAB es una unidad de investigación que nació de la necesidad de coordinar esfuerzos y del espíritu de colaboración de aquellas personas del amplio campo de la filología que tenían en común la utilización de soportes informáticos en sus investigaciones. En el Seminario se investigan cuestiones teóricas y prácticas relacionadas, principalmente, con la construcción de bancos de datos diacrónicos de las lenguas hispánicas, la composición y el etiquetado de corpus lingüísticos, el estudio y la elaboración de diccionarios, la edición y el tratamiento de textos clásicos y los estudios de fonética.

Mediamorfosis: Perspectivas sobre la innovación en periodismo Alicia de Lara González, Félix Arias Robles, 2017-11-21 La innovación es crucial para potenciar la capacidad que tiene una empresa de crear una ventaja competitiva sostenible que le permita sobrevivir en un contexto casi siempre complejo y plagado de retos. Cuando se cumplen 20 años de "Mediamorfosis", la obra de Roger Fidler, el presente texto examina la transformación del ecosistema mediático al hilo de la innovación en la producción y distribución de contenidos, la incorporación de nuevos perfiles profesionales, el papel de las audiencias y la búsqueda de nuevos modelos de negocio. Porque como apuntaba Fidler, la mediamorfosis surge a raíz de los cambios que se produce a lo largo de la historia en los sistemas de comunicación. En la última década, el concepto de innovación se ha convertido en lugar común en diversos sectores de la actividad empresarial, tecnológica y social. Es importante tener en cuenta que innovar implica la capacidad de asumir los cambios y usar habilidades creativas para detectar un problema o necesidad, encontrar una solución novedosa y desarrollarla con éxito. Este libro, fruto de algunos de los trabajos presentados en el XXIII Congreso Internacional de la Sociedad Española de Periodística, bajo el título MEDIAMORFOSIS Perspectivas sobre la innovación en periodismo, plantea la oportunidad de profundizar en las dimensiones y el alcance de la innovación en los medios. Se trata de un compendio de investigaciones originales que exploran cómo se puede innovar en las principales

áreas que afectan al desarrollo del periodismo y cuáles son los modelos que destacan en el ámbito nacional e internacional. Al abordar el concepto de innovación periodística desde diferentes enfoques, la obra puede ser de gran utilidad para estudiantes y profesores de Periodismo, así como para el alumnado de estudios superiores relacionados con el mundo de la comunicación. En este congreso celebramos también las XII Jornadas Internacionales de Periodismo, foro que siempre ha buscado acercar los retos de la industria y de la profesión a la Universidad, como manifiestan las valiosas aportaciones recogidas en estas actas.

Cómo leer, razonar y estudiar ciencia política Víctor Hugo Martínez González,2022-09-27 ¿De qué trata la ciencia política si los polítólogos no se forman en aulas para practicar los más precisos y reales entresijos del poder? De no dilucidarse a tiempo, esta duda atormenta a estudiantes de una carrera de la que no atinan a descifrar su sustancia. «¿Para qué estudié ciencia política?», se cuestionan así quienes perciben que su perfil carece de un claro conjunto de habilidades profesionales. El objetivo de este libro es responder a estas inquietudes. Con dicho afán, su originalidad radica en sacar a la luz asuntos que no acaban de ser esclarecidos en los cursos introductorios a la carrera por ser de una naturaleza diferente y preliminar a la historia temática de la disciplina. ¿Qué es la ciencia política: cómo se la lee, razona y estudia? Situadas antes de la exposición de los enfoques y métodos de la disciplina, estas preguntas implican un tratamiento muy distinto, relacionado además (y en concreto) con el gozoso descubrimiento de una vocación de estudio. Pensado para estudiantes, este libro se dirige también a los profesores. ¿Cómo (hacer) leer la ciencia política, más allá de la mera decodificación de sus textos?, es algo que compete a las labores docentes. Ciencia de la política, o estudio científico de la política, como su nombre expresa, constituye un modo especializado de analizar lo político. ¿Cómo construir ese ángulo de vista? ¿Qué insumos resultan indispensables? Este ensayo trabaja sobre esas coordenadas.

Educación, Desarrollo e Innovación Social Brizeida Hernández-Sánchez, José Carlos Sánchez-García (Editores),2018-02-01

Nuevo paradigma comunicativo: Lo 2.0, 3.0 y 4.0 Sonia Morales Calvo,Felip Vidal Auladell,Magdalena Mut Camacho,2020-04-20 La Universidad se encuentra en pleno progreso desde su tiempo cero; de hecho, halla su carta de naturaleza en la necesidad de mejorar el medio que la nutre y por y para el que existe: la sociedad.Rompiendo las viejas membranas de la enseñanza imperante hasta el siglo XX, las nuevas (r)evoluciones de contenidos y fórmulas, como lo fuera el EEES (o Plan Bolonia) o las TIC, suponen la respuesta a esas actualizadas necesidades docentes y curriculares. Las

Humanidades, las Artes, las Ciencias sociales y la Docencia se reescriben, hibridando, gracias a los nuevos lenguajes y herramientas, contenidos otrora lejanos. La nueva Academia es poliédrica, ínter y multi disciplinar, dialógica y colaborativa. En este estado de cosas la colección Herramientas universitarias se erige como atalaya para agrupar bajo su égida al más amplio conjunto de autores internacionales que iluminen, con sus investigaciones, la panoplia de contenidos que conforman el mundo científico donde nace el futuro. La calidad intelectual queda refrendada mediante la rigurosa implantación del habitual proceso garante, basado en la revisión o arbitraje por pares ciegos (peer review) de estos capítulos, sin renunciar a la más antigua tradición universitaria que obliga al opositor de lo publicado, a soportar el peso de la prueba. Este doble modelo de evaluación, a priori y a posteriori, garantiza la calidad del contenido de los textos de esta colección. Pertenecer a la Academia, y en ello radica orgullosamente su valía, supone que todos sus miembros responden a una ambición irrenunciable: mostrar que el conjunto de sus trabajos conforma la vanguardia científica internacional. El texto que aquí se presenta está auspiciado por el Fórum Internacional de Comunicación y Relaciones Públicas (Fórum XXI), la Sociedad Española de Estudios de la Comunicación Iberoamericana (SEECI), la Asociación cultural Historia de los Sistemas Informativos y el Grupo Complutense (no 931.791) de Investigación en Comunicación Concilium.

Auditoria ciudadana sobre la calidad de la democracia Proyecto Estado de la Nación (Costa Rica), 2001

El impacto de la CONEAU en universidades argentinas Ángela Corengia, 2015 Con esta obra, la autora se propone pasar de las conjeturas a las evidencias empíricas del impacto de las políticas y los procesos de evaluación y acreditación de la calidad en las funciones universitarias (docencia, investigación, extensión y gestión) y en los actores institucionales. Mediante las profusas evidencias recolectadas, se pudo concluir que los procesos de evaluación institucional tienen un impacto más bien leve en las instituciones, apuntando que la ausencia de instrumentos de apoyo estatal a la mejora institucional limita el alcance de la política pública, así como la ausencia de "sanciones" en términos del marco legal vigente. Por el contrario, se concluye que el impacto a nivel de cambios fácticos —y no meramente enunciativos— es importante en los procesos de acreditación de carreras de grado de profesiones reguladas. En el caso de la acreditación de posgrados, se observa una resonancia menor, producto de las "estrategias adaptativas" que adoptan las instituciones para superar las evaluaciones críticas de los pares disciplinarios. Finalmente, el análisis sobre las percepciones de los actores es muy sugerente, a partir de la aplicación de una propuesta analítica que las agrupa en un continuo que va desde la "adopción plena" a la "resistencia pasiva", pasando por la "adopción pragmática".
