**Mary S. Lovell**

He Felt Unwell (so He Wrote This) Grant Chemidlin, 'He Felt Unwell (So He Wrote This)' is a collection of poems and illustrations that represents the mind's messiness, how one day we can feel steely and secure, and the very next, find ourselves crumbling to bits. It's a reminder that life is a ceaseless cycle. We will always go through times when we feel empty, when we must trudge back up the hill to fetch our pails, to fill our happy. And that's perfectly okay.--Amazon website.

**Arthur Mee** Keith Crawford, 2016-07-28 Arthur Mee (1875-1943), best remembered as the creator of The Children's Encyclopaedia, was more than a popular editor, journalist and travel writer; for a generation of young readers and their parents, the name Arthur Mee truly meant something. For many in his audience, the narratives and discourses embedded within his writing tied together and legitimised a trinity of beliefs that lay at the heart of his nonconformist faith and character: God, England and Empire. Despite the enormous appeal of his many published works, which during the first half of the twentieth century saw him become a household name and a major publishing brand, Mee has remained an ethereal figure. In *Arthur Mee*, the first full-length account of Mee's life since 1946, Crawford draws upon a range of Mee's correspondence to offer for the first time a realistic picture of the man at work and at home as an antidote to the overly romanticised image attached to his name. The book places Mee's work within the wider cultural, political and social context of an England undergoing unparalleled societal change and technological advancement. Scholars of the history of education, children's literature and beyond will find much of interest in these pages, and childhood devotees to Mee's publications may well find themselves transported back to a time of wonder, imagination and hope.

It Happened Like This Nurse! TJ Edwards, 2016-12-13 Another hilarious book by the author of *You've Got a What in your Where?* TJ Edwards has the knack of seeing the funny side of some quite serious conditions they see arrive every day in Accident & Emergency. You've seen the reviews of her first book and this is more of the same. Simply brilliantly written and you cannot help laughing all the way through.

*A Key to Uncle Tom's Cabin* Harriet Beecher Stowe, 2016-01-14 I highly recommend reading this supplement in conjunction with Ms. Stowe's novel to gain a better understanding of the history of our nation. — *The Literary South* In 1852 Harriet Beecher Stowe published *Uncle Tom's Cabin*, an instant classic that received overwhelming acclaim by Northerners and other abolitionist readers. Southerners, conversely, strongly denied the novel's accuracy. The following year Stowe

answered pro-slavery critics with this unique bestseller, a meticulous and thoughtful defense of her work, which cites real-life equivalents to her characters. Southern readers were further incensed by this follow-up volume, their wrath in no small part inflamed by a Yankee woman's presuming to tell men what to think. A critical aspect of Stowe's Key is her critique of the law's support of not only the institution of slavery but also the mistreatment of individual slaves. As in the original novel, her challenge extends beyond slavery to the law itself. American society's first widely read political novel, *Uncle Tom's Cabin* influenced the development of the nation's literature, particularly in terms of protest writing. This supplement to the novel offers valuable insights into a historical and literary landmark.

A Basilisk Glance Robert Templer, 2024-09-03 Poison— invisible, unknown, hard to detect and deadly— taps into hard-wired anxieties about the risks of the world around us. From ancient times to the modern age, it has always created more fear than any other threats. In *A Basilisk Glance: Poisoners from Plato to Putin*, author Robert Templer takes us through the dark maze of poison. He traces its path from when Hercules dipped his arrows in the blood from the severed head of the Hydra to the use of chemical weapons in the Iran-Iraq War in 1980s, from the death of Socrates to the use of toxins as a weapon of assassination, from the mass suicide of Jonestown in 1979 to the sarin attack in the Tokyo metro system. Today, as the war in Ukraine rages, we are reminded of the use of radioactive and nerve weapons by Russian President Vladimir Putin to kill his opponents. His targets— like other victims of poison through the ages— know that they are never safe; a cup of tea, a door handle or even their own underwear might be tainted with a deadly toxin.

**Bess of Hardwick: Empire Builder** Mary S. Lovell, 2007-06-17 The best account yet available of this shrewd, enigmatic and remarkable woman.—Sunday Times [London] From the author of *The Sisters*, a chronicle of the most brutal, turbulent, and exuberant period of England's history. Bess Hardwick, the fifth daughter of an impoverished Derbyshire nobleman, did not have an auspicious start in life. Widowed at sixteen, she nonetheless outlived four monarchs, married three more times, built the great house at Chatsworth, and died one of the wealthiest and most powerful women in English history. In 1527 England was in the throes of violent political upheaval as Henry VIII severed all links with Rome. His daughter, Queen Mary, was even more capricious and bloody, only to be followed by the indomitable and ruthless Gloriana, Elizabeth I. It could not

have been more hazardous a period for an ambitious woman; by the time Bess's first child was six, three of her illustrious godparents had been beheaded. Using journals, letters, inventories, and account books, Mary S. Lovell tells the passionate, colorful story of an astonishingly accomplished woman, among whose descendants are counted the dukes of Devonshire, Rutland, and Portland, and, on the American side, Katharine Hepburn.

**James Clerk Maxwell and Modern Physics** Richard Glazebrook,2022-07-21 The task of giving some account of Maxwell's work—of describing the share that he has taken in the advance of Physical Science during the latter half of this nineteenth-century—has proved no light labor. The problems which he attacked are of such magnitude and complexity, that the attempt to explain them and their importance, satisfactorily, without the aid of symbols, is almost foredoomed to failure. However, the attempt has been made, in the belief that there are many who, though they cannot follow the mathematical analysis of Maxwell's work, have sufficient general knowledge of physical ideas and principles to make an account of Maxwell and of the development of the truths that he discovered, subjects of intelligent interest. Maxwell's life was written in 1882 by two of those who were most intimately connected with him, Professor Lewis Campbell and Dr. Garnett. Many of the biographical details of the earlier part of this book are taken from their work. My thanks are due to them and to their publishers, Messrs. Macmillan, for permission to use any of the letters which appear in their biography. I trust that my brief account may be sufficient to induce many to read Professor Campbell's Life and Letters, with a view of learning more of the inner thoughts of one who has left such a strong imprint on all he undertook and was so deeply loved by all who knew him.

**We Saw Spain Die** Paul Preston,2012-03-01 The war in Spain and those who wrote at first hand of its horrors. From 1936 to 1939 the eyes of the world were fixed on the devastating Spanish conflict that drew both professional war correspondents and great writers. Ernest Hemingway, John Dos Passos, Josephine Herbst, Martha Gellhorn, W. H. Auden, Stephen Spender, Kim Philby, George Orwell, Arthur Koestler, Cyril Connolly, André Malraux, Antoine de Saint Exupéry and others wrote eloquently about the horrors they saw at first hand. Together with many great and now largely forgotten journalists, they put their lives on the line, discarding professionally dispassionate approaches and keenly espousing the cause of the partisans. Facing censorship, they fought to expose the complacency with which the decision-makers of the West were appeasing Hitler and Mussolini. Many campaigned for the lifting of non-intervention, revealing the extent to which the Spanish Republic had been betrayed. Peter Preston's exhilarating account illuminates the moment when war correspondence came of age.
