Digital Banking And Finance: A Handbook Christopher E C Gan, Nirosha Hewa-wellalage, Ahmed Imran Hunjra, 2025-01-24 Finance is undergoing a profound transformation. Digital technologies are reshaping payments, lending,

insurance, and wealth management. Big data technology is now an integral part of the financial services industry and will continue to drive future innovation. Digital finance has fundamentally changed how we live and do business, and it has been a major disruptor of the finance industry. The advantages of digital finance have long been recognized. Rapidly growing digital technologies also have the potential to deliver financial services at significantly reduced costs, thereby increasing financial inclusion and generating significant efficiency improvements across the economy. To build inclusive societies and address rising inequalities, global and national leaders must bridge the digital divide across and within countries to reap the benefits of digital financial services and build appropriate regulatory frameworks for ensuring trusted transactions in a digitalized economy. This means finding the right balance between enabling financial innovation and addressing risks, including insufficient consumer protection, a lack of financial and digital literacy, unequal access to digital infrastructure, and data biases that need action at the national level. This book focuses on financial technology, with a particular emphasis on the impact of digital finance on the finance and banking industries. Chapters address topics such as FinTech, big data, Bitcoin, corporate governance, and economic policy, while also considering current global issues like climate change and the COVID-19 pandemic. Supported by the most recent research and illuminating case studies, this handbook offers an insightful overview of how the finance and banking sectors are changing under the influence of the digital age.

Shari'ah and Common Law Adnan Trakic, 2022-10-24 Harmonisation of law, a term that refers to the bringing together of two different legal traditions, has developed a negative connotation when considered in the context of Shari'ah and common law. Harmonisation began to be looked at as an attempt by one legal system to impose its values on the other. A major reason for that is the lack of understanding of the scope to which these two legal traditions converge. One of the principal findings of this book is that Shari'ah and common law have many more commonalities than differences. As a result, the need for harmonisation between the two might have been exaggerated. The similarities do not need to be harmonised. Rather, they need to be acknowledged and appreciated. If the differences between Shari'ah and common law, which undoubtedly exist as evidenced in this book, are viewed with an appreciation of the commonalities, the ambition to reconcile the differences would be more conducive to the harmonisation process. This book is intended to help readers better understand Shari'ah and common law and aid harmonisation efforts when the need arises.

Understanding the Higher Education Market in Africa Emmanuel Mogaji, Felix Maringe, Robert Ebo Hinson, 2020-03-06 This book offers theoretical and practical insights into the marketing of higher education in Africa. It explores the key players, challenges and policies affecting higher education across the continent; their marketing strategies and the students' selection process. While acknowledging the vast size of the continent, this book aims to provide an understanding of the dynamics of higher education in Africa. This book recognises the private and government involvement in higher education provision and students and staff as stakeholders in the marketisation process. Strategic efforts are directed by universities to

attract prospective students. This book further addresses issues such as the responses of higher education sectors to the notion of markets and marketing; consumerism and competition in higher education in Africa; conceptions of the commodification of higher education in Africa; and the dominance of Western epistemologies and their influence in transforming higher education sectors. Students as consumers in increasingly marketised higher education sectors in Africa are also discussed. Though primarily for marketing students and academic researchers, the book's feature of blended theoretical and practical knowledge means that it will also be of interest to marketing practitioners and university managers.

Islamic Green Finance Mohd Ma'Sum Billah, Rusni Hassan, Razali Haron, Romzie Rosman, Akhtarun Naba'

Billah, 2024-09-16 This book argues that focusing on the green economy and green finance is essential to counteract the catastrophic, socio-economic effects of the COVID-19 pandemic. Further, while numerous research initiatives in the context of the green economy and/or finance have been observed in different parts of the world, to date, no comprehensive work has been published on the topic of green finance in relation to the discipline of Shari'ah. This timely book provides a comprehensive guide and offers practical solutions to the core issues of green finance within the principles of Maqasid al-Shari'ah. It contends that Islamic green finance serves to promote global financial stability and mitigate the financial risks associated with climate change and environmental degradation: by integrating Islamic finance principles with sustainable and environmentally friendly practices; by encouraging ethical investments and prioritising long-term social and environmental benefits; and by redirecting capital towards sustainable projects and fostering a more sustainable and inclusive financial system. Islamic green finance's emphasis on transparency, governance, risk-sharing, and responsible investing helps lessen systemic risks and supports the transition towards a more stable and sustainable global financial landscape. The book's holistic approach to green finance in Maqasid al-Shari'ah aims to ensure that financial actions align with Islamic principles and help create a more sustainable and responsible economic system. The book is a detailed reference, which sheds light on the pressing issues of our time. It encompasses various aspects of Islamic economics and serves as a guide to implementing green financing in accordance with Islamic principles and ethics, and as such, it will appeal to academics, researchers, students and policymakers alike.

Ahmed, 2024-10-31 This book delves into the pressing issue of energy justice as it relates to SDG 7 and its far-reaching implications for society. With a comprehensive exploration of various aspects, from reducing energy burdens to political considerations, environmental justice, and human rights, this thought-provoking collection of chapters offers a profound understanding of the challenges and potential solutions surrounding energy justice. The book then delves into the disproportionate energy burdens faced by low-income communities, shedding light on the difficult choices they must make to meet their basic needs. It further examines the

intricate interplay between energy justice, politics, and environmental concerns, striving to find a harmonious balance. Drawing from a diverse range of perspectives, the chapters explore the intersection of energy justice with human rights, analyzing its implications for countries worldwide. The book also investigates the influence of disruptive events on renewable energy programs, presents an Islamic perspective on energy justice, and highlights the roles of the financial sector, fossil fuel industry, nuclear energy sector, and energy technology innovation in mitigating energy injustice. Chapter 'The Role of the Financial Sector in Energy Justice' is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Awqaf-led Islamic Social Finance Mohd Ma'Sum Billah, 2020-09-14 This book provides an authoritative and comprehensive overview of Waqf (endowment), addressing specific issues, models, solutions, structures and practices. As Islamic finance has gained in significance, so too has the institution of Waqf, working towards creating an enterprising and an entrepreneurial community across the globe, in order to meet the underlying objectives of the sustainable development goals (SDGs) by targeting the low-income group in particular. The book analyses the historical context of Waqf as well as its revival in the digital era. It addresses the laws and policies affecting the management of Waqf, such as Maqasid al-Shari'ah, law and policies, law and fiscal reform, regulations applied within Muslim countries, judicial procedures and dispute resolutions and covers the core issues concerning the formalities of Waqf, its management and corporate governance questions. The book includes a series of specialised chapters focusing on the products and services of Waqf, covering product innovation, product development, and then assesses the risk factors in Waqf and Waqf Takaful. Finally, it focuses on the challenges of Waqf and offers recommendations for the way forward. A timely and practical guide, comprising a literature review and future research directions, as well as a number of international case studies, this will be a key reference for academics, students, researchers, practitioners and policy makers.

Genocide in Gaza Ahmet Davutoglu, Richard Falk, 2025-05-01 The December 2023 issuance of a Declaration of Conscience and Concern of Global Intellectuals to Stop Gaza Genocide to leading civil society activists and former governmental and UN officials throughout the world recorded 127 invited signatories and over 1500 endorsers. On this basis, the Declaration's originators, Ahmet Davutoglu and Richard Falk, invited a select number of signatories to an emergency conference in London to lend their authority to a further expression of the international community's deepest concerns in light of the continuation of the genocidal assault on the peoples of Gaza. This book brings together the most valuable of the presentations delivered by conference participants. It provides a coherent perspective on the extreme human catastrophe that was exposed as it unfolded in real time, arousing intense responses of outrage from the peoples of the world, which failed to alter the shameless and shocking levels of active complicity on the part of several leading Western liberal democracies. The latter constituted a cynical embrace of moral hypocrisy and double standards, paralyzing the UN and

ignoring the most flagrant violations of international law on Israel's part. The book assesses the Israeli response to the Hamas attack of October 7 from the perspective of international law and morality, as well as providing informed accounts of the inability of the UN to implement the demands of a permanent and unconditional ceasefire in Gaza. It also provides accounts of the implementation of forced evacuation, induced starvation and disease, efforts calculated to destroy the civilian population in whole or in part, Israel's defiance of the UN, the ICJ Interim Order, and international humanitarian law in the course of transparent violations of the Genocide Convention. At a time when neither governments nor international institutions are demonstrating either the will or the capability to act in accord with the rule of law or the popular will of the majority of the peoples of the world who have demonstrated against the genocide in their millions, these substantial essays give an overview of the extraordinary damage wrought and what can and should be done to protect Palestinian rights and construct a future that empowers Palestinians to give content to their right of self-determination rather than victimized by yet another effort to impose a solution from without or enable Israel to control the day after developments when the violence stops.
