**A Dictionary of Anglo-American Proverbs & Proverbial Phrases, Found in Literary Sources of the Nineteenth and Twentieth Centuries** George B. Bryan,Wolfgang Mieder,2005 A Dictionary of Anglo-American Proverbs & Proverbial Phrases Found in Literary Sources of the Nineteenth and Twentieth Centuries is a unique collection of proverbial language found in literary contexts. It includes proverbial materials from a multitude of plays, (auto)biographies of well-known actors like Britain's Laurence Olivier, songs by William S. Gilbert or Lorenz Hart, and American crime stories by Leslie Charteris. Other authors represented in the dictionary are Horatio Alger, Margery Allingham, Samuel Beckett, Lewis Carroll, Raymond Chandler, Benjamin Disraeli, Edward Eggleston, Hamlin Garland, Graham Greene, Thomas C. Haliburton, Bret Harte, Aldous Huxley, Sinclair Lewis, Jack London, George Orwell, Eden Phillpotts, John B. Priestley, Carl Sandburg, Harriet Beecher Stowe, Jesse Stuart, Oscar Wilde, and more. Many lesser-known dramatists, songwriters, and novelists are included as well,

making the contextualized texts to a considerable degree representative of the proverbial language of the past two centuries. While the collection contains a proverbial treasure trove for paremiographers and paremiologists alike, it also presents general readers interested in folkloric, linguistic, cultural, and historical phenomena with an accessible and enjoyable selection of proverbs and proverbial phrases.

**The Dakini Codex** Nicole Personette,2023-09-20 The Dakini Codex is a compilation of poetry that describes ancient and esoteric truths, hidden mysteries, and deeply spiritual and metaphysical subjects placed into simplistic forms. It is much like a zip drive that compresses information. Through the processes of a spiritual awakening, the book takes the reader through a journey of consciousness. It includes work that was compiled as an adolescent describing aspects of life that touches the wisdom of the ages. It provides snapshots of visuals through words to describe picturesque scenes. It resorts to sonnets of love that determined kings in Sumerian ages. It is written from the lineage of the lotus-born masters and ties in with the genealogy of Mary Magdalene and Isis. It is reminiscent of ancient technologies and creation aspects. This is written as a gift to mankind and to the evolutionary and creative forms of enlightenment and spiritual complexes.

*Christian Satanic Book Five* Lucifer Jeremy White,2018-07-08 This book covers a religion based on a duality known as Christian Satanism. It is an answer to the problem of good vs. evil as a religion established to unite the two as harmoniously as possible.

*Wordplay and Metalinguistic / Metadiscursive Reflection* Angelika Zirker,Esme Winter-Froemel,2015-10-16 Wordplay can

be seen as a genuine interface phenomenon. It can be found both in everyday communication and in literary texts, and it can fulfil a range of functions – it may be entertaining and comical, it may be used to conceal taboo, and it may influence the way in which the speaker's character is perceived. Moreover, wordplay also reflects on language and communication: it reveals surprising alternative readings, and emphasizes the phonetic similarity of linguistic signs that also points towards relations on the level of content. Wordplay unravels characteristics of literary language in everyday communication and opens up the possibility to analyze literary texts from a linguistic perspective. The first two volumes of the series *The Dynamics of Wordplay* therefore aim at bringing together contributions from linguistics and literary studies, focusing on theoretical issues such as basic techniques of wordplay, and its relationship to genres and discourse traditions. These issues are complemented by a series of case studies on the use of wordplay in individual authors and specific historical contexts. The contributions offer a fresh look on the multifaceted dynamics of wordplay in different communicative settings.

**The New Peace Linguistics and the Role of Language in Conflict** Andy Curtis,2022-01-01 The idea of Peace

Linguistics (PL) has been around for decades. However, the practice of PL has only occurred much more recently, only within the last few years, since the first creditbearing, university-level PL course was taught at Brigham Young University-Hawaii in 2017. Since then, the field of NPL has grown beyond its original goals, of using peaceful language and language that avoids or de-escalates conflict. The New Peace Linguistics (NPL) focuses on in-depth, systematic analyses of the spoken and written language of some of the most powerful people in the world, such as presidents of the USA, as it is they who have the power to start wars or to bring peace. As the first book to be published on PL and on NPL, this work represents a ground-breaking study of the power of language to hurt and harm or to help and give hope. The first four chapters of the book, which provide the foundation on which the rest of the book is built, introduce the concept of Peace Linguistics and the New Peace Linguistics, starting with the origins of PL and coming to the present day. The remaining Part Two and Part Three chapters present in-depth, systematic NPL analyses of George W. Bush, Colin L. Powell, Barack H. Obama, Donald J. Trump and Joseph R. Biden. The concluding chapter reiterates the most important distinguishing and recurring features of NPL, and looks at where the field may be headed in the future.

*Arguments and Arguing* Thomas A. Hollihan,Kevin T. Baaske,2022-05-06 Arguing is a fundamental human activity; it is a process of making sense of the world and negotiating understandings with others. Arguing can be—and often is—healthy for both relationships and societies. The values of the community are shaped through people sharing their opinions, offering reasons in support of their beliefs, and deliberating. Hollihan and Baaske present techniques for effective analysis, logical reasoning, and socially constructive argumentation. They illustrate their discussions of theory and practice with multiple

engaging examples. The book focuses on narrative—argument as a story backed by evidence to evaluate courses of action or to resolve conflicts. A chapter on visual argumentation highlights the power of visual elements in arguments. Effective arguing requires a sensitivity to the demands of different argumentative contexts. Readers will become familiar with the elements of argument essential for politics, the law, debate, business, and relationships. Narrative arguments are rational arguments. Learning about the narrative reasoning process helps us tell more convincing, credible, and compassionate stories—and to become better critics of the stories we hear.
