Pavlina Radia, Sarah Fiona Winters, Laurie Kruk

Trauma & Memory Christine Berberich, 2021-03-30 Over the past decades, the memory of the Holocaust has not only become a common cultural consciousness but also a cultural property shared by people all over the world. This collection brings together academics, critics and creative practitioners from the fields of Holocaust Studies, Literature, History, Media Studies, Creative Writing and German Studies to discuss contemporary trends in Holocaust commemoration and representation in literature, film, TV, the entertainment industry and social media. The essays in this trans-disciplinary collection debate how contemporary culture engages with the legacy of the Holocaust now that, 75 years on from the end of the Second World War, the number of actual survivors is dwindling. It engages with ongoing cultural debates in Holocaust Studies that have seen a development from, largely, testimonial presentations of the Holocaust to more fictional narratives both in literature and film. In addition to a number of chapters focusing in particular on literary trends in Holocaust representation, the collection also assesses other forms of cultural production surrounding the Holocaust, ranging from recent official memorialisation in Germany to Holocaust presentation in film, computer games and social media. The collection also highlights the contributions by creative practitioners such as writers and performers who use drama and the traditional art of storytelling in order to keep memories alive and pass them on to new generations. The chapters in this book were originally published as a special issue of *Holocaust Studies: A Journal of Culture and History*.

The Routledge Handbook to Auschwitz-Birkenau Sarah M. Cushman, Joanne Pettitt, Dominic Williams, 2025-08-12 This handbook examines Auschwitz-Birkenau as both a site and a symbol of Nazi genocide. Scholars from a range of disciplinary perspectives consider Auschwitz's history by engaging with Holocaust historiography and its place in Holocaust memory and representation, illustrating their mutual influence. The chapters bring new insights to topics that other studies of Auschwitz have explored before, such as the Sonderkommando, the Czech family camp, and literary representations of Auschwitz. Other chapters cover recent developments and more neglected areas, such as the experience and memory of Romani prisoners, the fate of Soviet prisoners of war, and Auschwitz's presence on social media. The handbook also responds to a number of recent trends and new paradigms in Holocaust Studies, including contributions from the fields of Environmental Studies, Spatial Studies, and Gender Studies. As a crucial overview of the topic of Auschwitz-Birkenau and an introduction to its most recent and fruitful scholarly approaches, this handbook will be a valuable resource for

undergraduates from second year and up, as well as for graduate students and researchers seeking a survey of the field.

Bearing Witness Philip Rosen, Nina Apfelbaum, 2001-11-30 This resource guide will help readers locate over 800 first-person accounts, fiction, poetry, art interpretations, and music by Holocaust victims and survivors, as well as videos relating the testimony and experiences of Holocaust survivors. In addition to the few well-known writers, artists, and musicians whose work so eloquently captures their experience during the Holocaust, this guide will introduce the reader to the lives and work of more than 250 lesser known or unrecognized writers, artists, and musicians from many countries who documented their experience of persecution at the hands of the Nazis. This guide will help students gain firsthand knowledge of what it was like to experience the Holocaust and how ordinary people coped and created art and meaning from the ashes of their lives. The entry on each writer, artist, and musician features a biographical sketch and list of his or her works, with full bibliographic data. Entries on literature and videos are annotated and include recommendations for age-appropriateness. The work is divided into five parts: writers of memoirs, diaries and fiction; poets; artists; composers and musicians; and videos that feature testimony by survivors. Each part features an introductory overview of the artists and art created in that genre out of Holocaust experience. Title, artist/writer, and nationality indexes will help the reader select materials, and an index organized by age-appropriate levels will help teachers and librarians to select literature and videos for students.

The Holocaust: A Guide to Europe's Sites, Memorials and Museums Rosie Whitehouse, 2024-10-04 New from Bradt is *The Holocaust: Europe's Sites, Museums and Memorials*, a unique travel guidebook to European locations that tell the story of the greatest crime ever perpetrated – the Nazi genocide of 6 million Jews and other persecuted groups. In recent years countries once reluctant to delve into the dark corners of their past have begun to document the history of the Holocaust and its aftermath. Europe has many new ground-breaking museums and memorials that tell us as much about the present as they do the past. Chapters are dedicated to each country or region occupied by Nazi Germany, plus nations like the UK and neutral Sweden, which played a vital role both before and after the Holocaust. Organised around city hubs in each country, this Bradt guide helps visitors explore numerous destinations, whether infamous, well known or comparatively unexpected. This is much, much more than a guide to notorious sites such as Auschwitz-Birkenau, Buchenwald or Dachau. You can take a walking tour in Vienna, to view the new wall of names. Or visit the Memorial des Martyrs de la Deportation in Paris, Anne Frank House in Amsterdam or the Jewish Museum in Ferrara. And you can learn how babies were smuggled out of the Kovno ghetto in potato sacks in Lithuania or read about Bavaria's Kloster Indersdorf, a remarkable children's home that cared for survivors. Written by a journalist and travel writer specialising in Jewish history, Bradt's *The Holocaust: Europe's Sites, Museums and Memorials* provides the traveller with not only a list of must-see sites in each country but also a comprehensive list of organisations that run tours, commemorations and volunteer schemes. Suggestions of where to eat and

stay (including Kosher restaurants and hotels) ease the traveller's way, as do descriptions of local Jewish organisations and tips on how to pace potentially difficult journeys into Europe's dark past. Bradt's *The Holocaust: Europe's Sites, Museums and Memorials* is the first comprehensive travel guide to the genocide and the first to help the traveller understand the Holocaust by seeing the places where it unfurled.

The Future of Humanity Pavlina Radia, Sarah Fiona Winters, Laurie Kruk, 2019-08-12 What is the future of humanity? What does it mean to be 'human' in the posthuman age? What responsibility does humankind have towards others and their environments? How are the stories that humans tell themselves implicated in the very power asymmetries and eco-political challenges that they bemoan? Taking a cross-disciplinary approach to the posthuman age, the essays in this collection speak to the multifaceted geographies and counter-geographies of humanity, probing into the possible futures we face as planetary species. Some of these include: ecological issues generated by centuries of neglecting our environment(s); power asymmetries stemming from economic and cultural globalization; violence and its affective politics informed by cultural, ethnic, and racial genocides; religious disputes; social inequities produced by consumerism; gender normativity; and the increasing impact of digital and AI (artificial intelligence) technology on the human body, as well as historical, socio-political, not to mention ethical relations.

Jewish Studies and Holocaust Education in Poland Lynn W. Zimmerman, 2014-01-23 This volume examines how people in Poland learn about Jewish life, culture and history, including the Holocaust. The main text provides background on concepts such as culture, identity and stereotypes, as well as on specific topics such as Holocaust education as curriculum, various educational institutions, and the connection of arts and cultural festivals to identity and culture. It also gives a brief overview of Polish history and Jewish history in Poland, as well as providing insight into how the Holocaust and Jewish life and culture are viewed and taught in present-day Poland. This background material is supported by essays by Poles who have been active in the changes that have taken place in Poland since 1989. A young Jewish-Polish man gives insight into what it is like to grow up in contemporary Poland, and a Jewish-Polish woman who was musical director and conductor of the Jewish choir, Tslil, gives her view of learning through the arts. Essays by Polish scholars active in Holocaust education and curriculum design give past, present and future perspectives of learning about Jewish history and culture.

Image, History and Memory Michał Haake, Piotr Juskiewicz, 2022-02-22 This book discusses the active relationship among the mechanics of memory, visual practices, and historical narratives. Reflection on memory and its ties with historical narratives cannot be separated from reflection on the visual and the image as its points of reference which function in time. This volume addresses precisely that temporal aspect of the image, without reducing it to a neutral trace of the past, a mnemotechnical support of memory. As a commemorative device, the image fixes, structures, and crystalizes memory, turning the view of the past into myth. It may, however, also stimulate, transform, and update memory, functioning as a

matrix of interpretation and understanding the past. The book questions whether the functioning of the visual matrices of memory can be related to a particular historical and geographical scope, that is, to Central and Eastern Europe, and whether it is possible to find their origin and decide if they are just local and regional or perhaps also Western European and universal. It focuses on the artistic reflection on time and history, in the reconstructions of memory due to change of frontiers and political regimes, as well as endeavours to impose some specific political structure on territories which were complex and mixed in terms of national identity, religion and social composition. The volume is ideal for students and scholars of memory studies, history and visual studies.

Public History in Poland Joanna Wojdon, 2021-11-29 This volume presents various aspects of public history practices in Poland, alongside their historical development and theoretical reflections on public history. Despite a long tradition and variety of forms of public history, the very term public history, or literally speaking history in the public sphere, has been in use in Poland only since the 2010s. This edited collection contains chapters that focus on numerous practices and media forms in public history including historical memory, heritage tourism, historical re-enactments, memes and graphic novels, films, archives, archaeology and oral history. As such, the volume brings together the Polish experiences to wider international audiences and shares Polish controversies related to public history within the academic discourse, beyond media news and politically engaged commentaries. Furthermore, it sheds crucial light on the developments of collective memory, historical and political debates, the history of Poland and East-Central Europe, and the politics of post-World War Two and post-communist societies. Authored by a team of academic historians and practitioners from the field, *Public History in Poland* is the perfect resource for students from a variety of disciplines including Public History, Heritage, Museum Studies, Anthropology, and Archaeology.

Concentration Camps in Nazi Germany Nikolaus Wachsmann, Jane Caplan, 2009-12-04 Offers an overview of the scholarship that has changed the way the concentration camp system is studied over the years.

Digital Holocaust Memory, Education and Research Victoria Grace Walden, 2021-12-03 This book explores the diverse range of practical and theoretical challenges and possibilities that digital technologies and platforms pose for Holocaust memory, education and research. From social media to virtual reality, 360-degree imaging to machine learning, there can be no doubt that digital media penetrate practice in these fields. As the Holocaust moves beyond living memory towards solely mediated memory, it is imperative that we pay critical attention to the way digital technologies are shaping public memory and education and research. Bringing together the voices of heritage and educational professionals, and academics from the arts and humanities and the social sciences, this interdisciplinary collection explores the practicalities of creating digital Holocaust projects, the educational value of such initiatives, and considers the extent to which digital technologies change the way we remember, learn about and research the Holocaust, thinking through issues such as ethics,

embodiment, agency, community, and immersion. At its core, this volume interrogates the extent to which digital interventions in these fields mark an epochal shift in Holocaust memory, education and research, or whether they continue to be shaped by long-standing debates and guidelines developed in the broadcast era.

Essentials of Holocaust Education Samuel Totten, Stephen Feinberg, 2016-03-17 *Essentials of Holocaust Education: Fundamental Issues and Approaches* is a comprehensive guide for pre- and in-service educators preparing to teach about this watershed event in human history. An original collection of essays by Holocaust scholars, teacher educators, and classroom teachers, it covers a full range of issues relating to Holocaust education, with the goal of helping teachers to help students gain a deep and thorough understanding of why and how the Holocaust was perpetrated. Both conceptual and pragmatic, it delineates key rationales for teaching the Holocaust, provides useful historical background information for teachers, and offers a wide array of practical approaches for teaching about the Holocaust. Various chapters address teaching with film and literature, incorporating the use of primary accounts into a study of the Holocaust, using technology to teach the Holocaust, and gearing the content and instructional approaches and strategies to age-appropriate audiences. A groundbreaking and highly original book, *Essentials of Holocaust Education* will help teachers engage students in a study of the Holocaust that is compelling, thought-provoking, and reflective

Impossible Escape Steve Sheinkin, 2023-08-29 From three-time National Book Award finalist and Newbery Honor author Steve Sheinkin, a true story of two Jewish teenagers racing against time during the Holocaust—one in hiding in Hungary, and the other in Auschwitz, plotting escape. It is 1944. A teenager named Rudolf (Rudi) Vrba has made up his mind. After barely surviving nearly two years in the Auschwitz concentration camp in Poland, he knows he must escape. Even if death is more likely. Rudi has learned the terrible secret hidden behind the heavily guarded fences of concentration camps across Nazi-occupied Europe: the methodical mass killing of Jewish prisoners. As trains full of people arrive daily, Rudi knows that the murders won't stop until he reveals the truth to the world—and that each day that passes means more lives are lost. Lives like Rudi's schoolmate Gerta Sidonová. Gerta's family fled from Slovakia to Hungary, where they live under assumed names to hide their Jewish identity. But Hungary is beginning to cave under pressure from German Nazis. Her chances of survival become slimmer by the day. The clock is ticking. As Gerta inches closer to capture, Rudi and his friend Alfred Wetzler begin their crucial steps towards an impossible escape. This is the true story of one of the most famous whistleblowers in the world, and how his death-defying escape helped save over 100,000 lives.

Tracing Topographies: Revisiting the Concentration Camps Seventy Years after the Liberation of Auschwitz

Joanne Pettitt, Vered Weiss, 2018-12-07 Seventy years on from the liberation of Auschwitz, the contributions collected in this volume each attempt, in various ways and from various perspectives, to trace the relationship between Nazi-occupied spaces and Holocaust memory, considering the multitude of ways in which the passing of time impacts upon, or shapes, cultural constructions of space. Accordingly, this volume does not consider topographies merely in relation to geographical landscapes but, rather, as markers of allusions and connotations that must be properly eked out. Since space and time are intertwined, if not, in fact, one and the same, an investigation of the spaces – the locations of horror – in relation to the passing of time might provide some manner of comprehension of one of the most troubling moments in human history. It is with this understanding of space, as fluid sites of memory that the contributors of this volume engage: these are the kind of shifting topographies that we are seeking to trace. This book was originally published as a special issue of Holocaust Studies:

A Journal of Culture and History.

Jews in Japan: Presence and Perception Silvia Pin, 2023-12-04 *Jews in Japan: Presence and Perception*. Antisemitism, Philosemitism and International Relations is a study on the history of real and imagined Jews in Japan, which discusses the little known cultural, political and economic ties between Jews and Japan, and follows the evolution of Jewish stereotypes in Japan in the last century and a half. The book begins with the arrival of Jews and their image in late 19th to early 20th-century Japan, when the seeds of later stereotyped visions were sown. The discussion then focuses on wartime Japan, delving into the complex and mixed attitudes of the Japanese Empire toward Jews. In postwar Japan, the partial reception of the Holocaust intertwined with earlier antisemitic and philosemitic manifestations, resulting in instances of both hatred and admiration toward Jews. Finally, the book explores the recent reframing of Japanese-Jewish historical encounters within the context of the growing ties between Japan and Israel. This study sheds new light on the little explored relations between Jews and Japan, offering thought-provoking insights into the coexistence of antisemitism and philosemitism, the political and diplomatic uses of Jewish history, and the perpetuation of Jewish stereotypes in a land devoid of a local Jewish population.

Holocaust Icons Oren Baruch Stier, 2015-11-01 The Holocaust has bequeathed to contemporary society a cultural lexicon of intensely powerful symbols, a vocabulary of remembrance that we draw on to comprehend the otherwise incomprehensible horror of the Shoah. Engagingly written and illustrated with more than forty black-and-white images, *Holocaust Icons* probes the history and memory of four of these symbolic relics left in the Holocaust's wake. Jewish studies scholar Oren Stier offers in this volume new insight into symbols and the symbol-making process, as he traces the lives and afterlives of certain remnants of the Holocaust and their ongoing impact. Stier focuses in particular on four icons: the railway cars that carried Jews to their deaths, symbolizing the mechanics of murder; the Arbeit Macht Frei ("work makes you free") sign over the entrance to Auschwitz, pointing to the insidious logic of the camp system; the number six million that represents an approximation of the number of Jews killed as well as mass murder more generally; and the persona of Anne Frank, associated with victimization. Stier shows how and why these icons—an object, a phrase, a number, and a person—have come to stand in for the Holocaust: where they came from and how they have been used and reproduced; how they are presently at risk from a variety of threats such as commodification; and what the future holds for the memory of the Shoah. In illuminating these icons of the Holocaust, Stier offers valuable new perspective on one of the defining events of the twentieth century. He helps readers understand not only the Holocaust but also the profound nature of historical memory itself.

Anne Frank Ronald Wilfred Jansen, 2015-07-08 Ronald Wilfred Jansen visited Anne Frank's home addresses in Frankfurt am Main, Aachen and Amsterdam; her hiding place the Secret Annex; and the Westerbork, Auschwitz-Birkenau and Bergen-Belsen concentration camps where Anne Frank was imprisoned. His book describes her history and the objects that today still remind us of the environment in which she lived. His motivation for writing this book is that it was one of the last

opportunities he would have to contact the people who knew Anne; these people revealed some new facts about her and her world. Other contemporaries of Anne Frank also contributed fascinating information about her surroundings. By tracing her footsteps, he gained a more complete picture of Anne Frank and her environment.
