Atlas of Forecasts Katy Börner, 2021-08-31 Forecasting the future with advanced data models and visualizations. To envision and create the futures we want, society needs an appropriate understanding of the likely impact of alternative actions. Data models and visualizations offer a way to understand and intelligently manage complex, interlinked systems in science and technology, education, and policymaking. Atlas of Forecasts, from the creator of Atlas of Science and Atlas of Knowledge, shows how we can use data to predict, communicate, and ultimately attain desirable futures. Using advanced data visualizations to introduce different types of computational models, Atlas of Forecasts demonstrates how models can inform effective decision-making in education, science, technology, and policymaking. The models and maps presented aim to help anyone understand key processes and outcomes of complex systems dynamics, including which human skills are needed in an artificial intelligence-empowered economy; what progress in science and technology is likely to be made; and how policymakers can future-proof regions or nations. This Atlas offers a driver's seat-perspective for a test-drive of the future.

Film Genres in Hungarian and Romanian Cinema Andrea Virginás, 2021-04-22 Film Genres in Hungarian and Romanian Cinema: History, Theory, and Reception discusses how the Hungarian and Romanian film industries show signs of becoming a regional hub within the Eastern European canon, a process occasionally facilitated by the cultural overlap through the historical province of Transylvania. Andrea Virginás employs a film historical overview to merge the study of small national cinemas with film genre theory and cultural theory and posits that Hollywood-originated classical film genres have been important fields of reference for the development of these Eastern European cinemas. Furthermore, Virginás argues that Hungarian and Romanian genre films demonstrate a valid evolution within the given genre's standards, and thus need to be incorporated into the global discourse on this subject. Scholars of film studies, Eastern European studies, cultural studies, and history will find this book particularly useful.

Lights, Camera, Feminism? Samantha Majic, 2023-05-16 Celebrities in the United States have drawn significant

attention and resources to the complex issue of human trafficking—a subject of feminist concern—and they are often criticized for promoting sensationalized and simplistic understandings of the issue. In this comprehensive analysis of celebrities' anti-trafficking activism, however, Samantha Majic finds that this phenomenon is more nuanced: even as some celebrities promote regressive issue narratives and carceral solutions, others use their platforms to elevate more diverse representations of human trafficking and feminist analyses of gender inequality. *Lights, Camera, Feminism?* thus argues that we should understand celebrities as multilevel political actors whose activism is shaped and mediated by a range of personal and contextual factors, with implications for feminist and democratic politics more broadly.

Restoring Identities Upolu Lumā Vaai, Mark A. Lamport, 2023-11-03 In a sense, Oceania can be considered a microcosm of World Christianity. Within this region are many of the same observable trends on the global level that impact Christian life, faith, and witness. The geography of Oceania--the liquid continent--is unique. Christianity arrived in Australia and New Zealand in the late eighteenth century via British colonial powers. Indigenous Aboriginal peoples, Torres Strait Islanders, and Māori peoples were dispossessed of land, property, rights, and dignity. Christianity grew by migration and conversion (not always voluntary), and over time became tightly intertwined with culture. In the twentieth century, rapid secularization moved Christianity into the private sphere, and by 2020 Christian affiliation had dropped from 97 percent to 57 percent. However, the history of Christianity in the Pacific Islands--Melanesia, Micronesia, and Polynesia--is quite different. Christianity arrived via Protestant and Catholic missionaries between the fifteenth and nineteenth centuries and grew substantially in the twentieth century largely due to indigenous Christian efforts. Islanders brought Christianity to neighboring islands, indigenous theologies developed, and churches gradually separated from their Western mission founders. One of the great success stories of World Christianity is Papua New Guinea, which grew from just 4 percent Christian in 1900 to 95 percent in 2020. However, growth is never the entire story. Violence against women is endemic in Papua New Guinea and is often combined with accusations of witchcraft. An estimated 59 percent of women have experienced physical or sexual violence in their lifetime (and 48 percent in the last year). As Christianity continues its shift to the global South, it becomes increasingly critical to heed the experiences, perspectives, and theologies of Christians, particularly women, in the Pacific Islands.

A Timeline of Global Christianity Brett Knowles, 2020-06-01 This timeline comprises one thousand significant dates for global Christianity. It includes events across all inhabited continents (and also in Antarctica and outer space), emphasizing those occurring in the non-Western world. The detailed annotations on each date are intended as provocative ignition points to spark historical curiosity, functioning as launchpads into further exploration in global Christianity. For example: -739: What did the finding of the Rotas-Sator palindrome on the walls of an eighth-century Sudanese cave dwelling indicate? -1346: Who were the mysterious Christians in the Javanese Royal Court of Majapahit? -1969: Why was the secret communion on the Moon hushed up by NASA? -1992: Why was Paraguay the only Latin American country to include an indigenous language as a national language? Since previous histories of Christianity usually have a European or North American perspective, students will find this book useful for its global coverage. It can be used in three ways. Firstly, it can be used chronologically as a continuous global timeline. It can also be used as a sampling of Christianity in each country, or as an index of significant figures in the history of global Christianity. Each section is cross-referenced to the timeline, making it a valuable resource for historical study.

Is Your Work Worth It? Christopher Wong Michaelson, Jennifer Tosti-Kharas, 2024-05-07 What is work that's worth doing in a life worth living? A revealing exploration of the questions we ask and the stories we tell about our work. According to recent studies, barely a third of American workers feel "engaged" at work, and for many people around the world, happiness is lowest when earning power is highest. After a global pandemic that changed why, how, and what people do for a living, many workers find themselves wondering what makes their daily routine worthwhile. In *Is Your Work Worth It?*, two professors - a philosopher and organizational psychologist - investigate the purpose of work and its value in our lives. The book explores vital questions, such as: Should you work for love or money? When and how much should you work? What would make life worth living in a world without work? What kind of mark will your work leave on the world? This essential book combines inspiring and harrowing stories of real people with recent scholarship, ancient wisdom, arts, and literature to help us clarify what worthy work looks like, what tradeoffs are acceptable to pursue it, and what our work can contribute to society.

The Burning Anna Todd,2023-08-01 The new epic love story from Anna Todd continues. After The Falling, comes The Burning, the second novel in the Brightest Stars trilogy, from the No. 1 internationally bestselling author of the After series.

'Anna Todd has done it again!' COLLEEN HOOVER 'Todd is the biggest literary phenomenon of her generation'

COSMOPOLITAN Anna Todd's Brightest Stars trilogy continues the contemporary love story of Karina, a young

woman who 'grew up military' and is living and working for the first time on her own, and Kael, a 21-year-old soldier now home after two deployments, profoundly scarred by his time in Afghanistan. The Burning picks up from the sudden and shocking disruption of Karina and Kael's developing romance at the ending of The Falling: their attraction to one another is undeniable, yet the trust they've placed in each other has been traumatically broken. To resolve what may be difficult, or impossible, to repair, Kael's closed off past (a past that unknowingly links him to Karina's family) must be opened and reconciled - demons and all. And Karina must decide whether loving someone she doesn't want to live without is worth the pain and risk of it all. Anna Todd's Brightest Stars trilogy will continue with The Infinite Light of Dust, coming soon.

The Spring Girls Anna Todd, 2018-01-02 Four sisters desperately seeking the blueprints to life—the modern-day retelling of Louisa May Alcott's Little Women like only Anna Todd (After, Imagines) could do. The Spring Girls—Meg, Jo, Beth, and Amy—are a force of nature on the New Orleans military base where they live. As different as they are, with their father on tour in Iraq and their mother hiding something, their fears are very much the same. Struggling to build lives they can be proud of and that will lift them out of their humble station in life, one year will determine all that their futures can become. The oldest, Meg, will be an officer's wife and enter military society like so many of the women she admires. If her passion—and her reputation—don't derail her. Beth, the workhorse of the family, is afraid to leave the house, is afraid she'll never figure out who she really is. Jo just wants out. Wishing she could skip to graduation, she dreams of a life in New York City and a career in journalism where she can impact the world. Nothing can stop her—not even love. And Amy, the youngest, is watching all her sisters, learning from how they handle themselves. For better or worse. With plenty of sass, romance, and drama, The Spring Girls revisits Louisa May Alcott's classic Little Women, and brings its themes of love, war, class, adolescence, and family into the language of the twenty-first century.
