Catalog of the Gerald K. Stone Collection of Judaica Gerald K. Stone, 2021-01-05 Gerald K. Stone has collected books about Canadian Jewry since the early 1980s. This volume is a descriptive catalog of his Judaica collection, comprising nearly 6,000 paper or electronic documentary resources in English, French, Yiddish, and Hebrew. Logically organized, indexed, and selectively annotated, the catalog is broad in scope, covering Jewish Canadian history, biography, religion, literature, the Holocaust, antisemitism, Israel and the Middle East, and more. An introduction by Richard Menkis discusses the significance of the Catalog and collecting for the study of the Jewish experience in Canada. An informative bibliographical resource, this book will be of interest to scholars and students of Canadian and North American Jewish studies.

The Oxford Handbook of Archaeological Ceramic Analysis Alice M. W. Hunt, 2016-12-15 The Oxford Handbook of Archaeological Ceramic Analysis draws together topics and methodologies essential for the socio-cultural, mineralogical, and geochemical analysis of archaeological ceramic. Ceramic is one of the most complex and ubiquitous archaeomaterials in the archaeological record: it occurs around the world and through time in almost every culture and context, from building materials and technological installations to utilitarian wares and votive figurines. For more than 100 years, archaeologists have used ceramic analysis to answer complex questions about economy, subsistence, technological innovation, social organization, and dating. The volume is structured around the themes 'Research design and data analysis', 'Foundational concepts', 'Evaluating ceramic provenance', 'Investigating ceramic manufacture', 'Assessing vessel function', and 'Dating ceramic assemblages'. It provides a common vocabulary and offers practical tools and guidelines for ceramic analysis using techniques and methodologies ranging from network analysis and typology to rehydroxylation dating and inductively coupled plasma mass spectrometry. Each chapter provides the theoretical background and practical guidelines, such as cost and destructiveness of analysis, for each technique, as well as detailed case studies illustrating the application and interpretation of analytical data for answering anthropological questions.

Solar Surveyors Peter Bond, 2022-07-29 This is the story of humankind's quest over centuries to learn the true nature of the most dominant object in our Solar System: the Sun. Award-winning science writer Peter Bond describes in detail how our

ideas about the Sun have changed over the millennia, starting with the simple observations of classical astronomy and continuing through telescopic observations to the age of nuclear physics. He shows how we discovered the Sun's basic characteristics - its distance, size, temperature and composition - and then describes how, with evermore sophisticated instruments, we have learned about the Sun's enormous energy output, its atmosphere and the explosive eruptions that blast clouds of magnetized gas and high-energy particles toward our world. Most of this book focuses on the Space Age, when suborbital rockets and satellites have probed every aspect of our nearby star. Each of these missions is described in detail, with summaries of their objectives, spacecraft designs, scientific payloads and results. The book also looks forward, describing forthcoming missions that will shed new light on remaining solar mysteries, notably the source of the energy that heats the outer corona to millions of degrees. Richly illustrated with mission photos, design diagrams, and infocharts, this book is a fascinating read for anybody interested in the Sun and our attempts to unravel its secrets.

Global Food Legislation Evelyn Kirchsteiger-Meier, Tobias Baumgartner, 2014-05-27 Food is produced not only to be consumed in the country of its origin, but also to be exported to various locations worldwide. As such, manufacturers and suppliers need to know the market conditions and regulations of their customers in export markets. Filling a distinct need in the globalized food economy, this introductory reference distils the key facts and regulations from the food laws of 10 countries and the European Union across four continents. The result is a truly global survey of the world's most important food markets in terms of regulatory standards, principles and the authorities involved. To enable comparison between each country portrait, each chapter is structured in the same way, and includes information on the legal framework, the competent authorities, explanations of the basic principles of food law, introductions to the main areas of regulation (particularly, labeling and advertising; food hygiene and safety; additives and flavorings; food supplements; genetically modified organisms; import and export regulations), accountability regulations, and information on Internet resources. The publication therefore provides key facts for food producers active on the international market, who often lack the time and resources to refer to the primary laws and legal commentaries. Markets discussed: Argentina Brazil Canada China European

True Christianity - Teacher's Manual PDF Dr. Paul G. Caram,2020-01-23 This teacher manual is based on Dr. Paul Caram's book True Christianity. Dr. Caram's excellent and life changing study on the topic of True Christianity is a focus upon the most important subjects of life. Our Lord's discourses concentrated solely upon the most critical issues of the heart and that is what every true believer should do as well. Dr. Caram has searched the Scriptures in order to find the themes that will determine our eternal destiny so that we might obtain the full inheritance that God has in store for us.

Theory and Structure in Addiction and Cure Adi Ann Berkovic,Shlomo Giora Shoham,Efrat Vignansky-Addad,2019-01-03 This book will be of value to everyone interested in the prevention of addiction and the detection, treatment and rehabilitation of drug addicts. It interprets and applies research findings about the causation and cure of drug addiction using the author's personality theory which is extensively compared with that of other personologists. The book includes the qualitative analysis of 12 addict case studies. It is especially timely in view of the need for effective legislation, judicial procedures, and treatment programs to deal with the opioid crisis in the United States and Canada.

The Mission of Maya and Methuselah Karen Marie Humphreys,2024-01-11 The Mission of Maya and Methuselah guides readers through a practical and well-researched program that will prepare them for their final fifteen to twenty years of life. Geared to people in their forties and older, the preparation focuses on fitness, functionality, and financial health. Dr. Karen Humphreys is an engaging, knowledgeable partner on your journey to better health in your senior years. Her rich background in the medical field positions her to speak with credibility on issues surrounding geriatric care, preventative healthcare, financial planning, and even end-of-life care. She takes a holistic approach, balancing physical wellbeing with the need for financial and social health. Dr. Humphreys has witnessed the devastating impact of frailty on individuals and the healthcare system, and she understands that openings in long-term care and assisted living homes won't keep up with the demand over the next twenty years. Now more than ever, it's critical that our aging population remains strong, healthy, and independent. Full of clear instructions, objective advice, and meaningful encouragement, The Mission of Maya and Methuselah is a must-read for everyone who wants to remain healthy and self-sufficient for as long as possible..

Turning the Curse into a Blessing - Teacher's Manual PDF Dr. Paul G. Caram,2020-01-23 This teacher manual is based on one of the most tragic and triumphant stories in Scripture, that of Job. Dr. Caram masterfully describes how righteous Job was tried by the Lord in order that he might be perfected to an even greater degree and come out of his trial as purified gold. You will be challenged and encouraged as you read this study of Job's life and see how the Lord uses our trials and tribulations to purify our lives that we might receive the double portion of His blessing.

The Politics of Knowledge and Global Biodiversity Alice B.M. Vadrot,2014-04-24 The establishment of the Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES) points to the crucial role attributed to science and knowledge for the successful implementation of biodiversity politics by both scientists and policy-makers. With the increased importance of biodiversity in international politics, and in part inspired by the success the Intergovernmental Panel on Climate Change (IPCC) has had in raising awareness of global warming, the call for an 'IPCC for Biodiversity' was successful. *The Politics of Knowledge and Global Biodiversity* gives a full overview of the process of its implementation as finalised in 2013 and proposes an innovative conceptual framework that puts this specific case into a more general perspective of international politics and relations. It provides a detailed empirical analysis of the knowledge politics associated with the establishment of IPBES and its conceptual framework and methodological approach is grounded in a theoretical perspective. This pioneering work is the first to examine IPBES in this way and is essential reading for researchers and scholars of International Relations, Environmental and Biodiversity Politics, Science-Policy Interfaces and Global Environmental Governance. It will also be of interest to political scientists and social scientists.

Choose Life John Goodrich,Jeanette Hagen Pifer,2022-05-03 You're pro-life. But can you explain why? You already believe in choosing life. But when the counterarguments are coming at you from every angle—legal, biological, medical, ethical, moral, philosophical, and biblical—how do you defend the pro-life view? And as you defend it . . . how do you speak with wisdom, humility, and compassion? Now more than ever, the times call for a balance of truth and mercy. There are good, wise, and thoughtful rebuttals of every claim made by pro-abortion advocates. Collected here in one place, *Choose Life* offers you reasonable responses from leading experts in their respective fields. The authors are accomplished women and men from all walks of life. They'll help you know what to say—and why to say it—when you're faced with claims like: "The courts have already settled the issue." "The fetus is not a person." "My body, my choice." "I shouldn't have to raise an unwanted child." "My circumstances justify ending my pregnancy." "Abortions are helpful to women and society." "The pro-life movement doesn't care about social justice." It's time to set aside the strident fist-shaking and hurled insults. Learn to make the pro-life case with intelligent arguments and compassionate love—just the way a Christian should.

Strengthening the National Institute of Justice National Research Council,Division of Behavioral and Social Sciences and Education,Committee on Law and Justice,Committee on Assessing the Research Program of the National Institute of Justice,2010-11-14 The National Institute of Justice (NIJ) is the nation's primary resource for advancing scientific research,

development, and evaluation on crime and crime control and the administration of justice in the United States. Headed by a presidentially appointed director, it is one of the major units in the Office of Justice Programs (OJP) of the U.S. Department of Justice. Under its authorizing legislation, NIJ awards grants and contracts to a variety of public and private organizations and individuals. At the request of NIJ, Strengthening the National Institute of Justice assesses the operations and quality of the full range of its programs. These include social science research, science and technology research and development, capacity building, and technology assistance. The book concludes that a federal research institute such as NIJ is vital to the nation's continuing efforts to control crime and administer justice. No other federal, state, local, or private organization can do what NIJ was created to do. Forty years ago, Congress envisioned a science agency dedicated to building knowledge to support crime prevention and control by developing a wide range of techniques for dealing with individual offenders, identifying injustices and biases in the administration of justice, and supporting more basic and operational research on crime and the criminal justice system and the involvement of the community in crime control efforts. As the embodiment of that vision, NIJ has accomplished a great deal. It has succeeded in developing a body of knowledge on such important topics as hot spots policing, violence against women, the role of firearms and drugs in crime, drug courts, and forensic DNA analysis. It has helped build the crime and justice research infrastructure. It has also widely disseminated the results of its research programs to help guide practice and policy. But its efforts have been severely hampered by a lack of independence, authority, and discretionary resources to carry out its mission.

Arbitration and Human Rights Toms Krūmiņš, 2020-08-12 This book presents a creative synthesis of two ostensibly disparate fields of law – arbitration and human rights. More specifically, it focuses on various legislative approaches to excluding the annulment of arbitral awards (setting-aside proceedings) at the seat of arbitration and evaluates the compatibility of such approaches with the European Convention on Human Rights (ECHR), in particular the right to a fair trial under Article 6(1). The book first assesses the applicability and impact of the ECHR, in particular Article 6(1), on international commercial arbitration. It then analyses a number of legislative approaches to excluding setting-aside proceedings, focusing on two synergetic phenomena – exclusion agreements and the total lack of setting-aside proceedings in national arbitration law. Lastly, the book investigates to what extent the lack of setting-aside proceedings in national arbitration law may lead to a violation of arbitrating parties' right to a fair trial under Article 6(1), and puts forward certain *de lege ferenda* recommendations on how to best approach the regulation of setting-aside proceedings in national arbitration

law from the standpoint of compliance with the ECHR.

Against the New Politics of Identity Ronald A. Lindsay, 2023-11-14 A far-reaching cultural transformation is occurring across much of the West that is threatening the very foundations of democracy. Individuals are no longer judged by their deeds, actions, and behavior but rather are defined by their race, ethnicity, and sexual orientation. Driven largely by the political Left, this transformation has led to the wholesale division of individuals into oppressed and oppressor classes. Where the Left once organized around liberal principles to ensure that all groups had an equal seat at the proverbial table, much of the Left today demands not only that those categorized as oppressed receive priority seating, but also that those categorized as oppressor are excluded from the table altogether. Government bodies, corporations, universities, and the mainstream media regularly submit to these illiberal commands and explicitly favor certain identity groups over others in the name of allyship, antiracism, or equity. As philosopher Ronald A. Lindsay argues in *Against the New Politics of Identity*, this radical cultural shift by which all policies and practices must be seen through the lens of identity rests on three dogmatic tenets: those who are alleged to be oppressed or marginalized have special insight based on their lived experience; racism is embedded in all Western laws, regulations, policies, and institutions; and equity, understood as the elimination of all group disparities in all areas of life, must take precedence over all other criteria, such as individual merit, achievement, and need. Lindsay demonstrates that these tenets are based on a series of fallacies and warns that the push for identity politics on the Left predictably elicits a parallel reaction from the Right, including the Right's own version of identity politics in the form of Christian nationalism. As he makes clear, the symbiotic relationship that has formed between these two political poles risks producing even deeper threats to Enlightenment values and Western democracy. If we are to preserve a liberal democracy in which the rights of individuals are respected, he concludes, the dogmas of identity politics must be challenged and refuted. *Against the New Politics of Identity* offers a principled path for doing so.
