Barbie Kristin Noelle Weissman, 1999 This thesis is a cultural analysis of: a) women's idealized perception of the Barbie doll, & b) the construction of the Barbie doll image through marketing. In addition, both areas will provide a concentrated emphasis on respectability. The analysis will be focused on Barbie's creation in 1959, & on the current practices of representations in 1999. The thesis is divided into two phases. Phase one illustrates the interpretation of how women perceive Barbie, & how they see themselves in her likeness. It further explores the determined impression of the doll as respectable. Phase two examines the way that Barbie is presented in the market & the techniques used to formulate the intended representations of the doll. The analysis of the thesis focuses solely on her introduction in 1959, & on her current distinction. The Barbie doll is an iconic image. The symbol of the feminine ideal which has caused women to perceive & recognize this figure in a personal light. Further, her existence in the marketplace creates a continual awareness in women to identify & evolve with this object as she captures the culture. It is critical to examine the conception & portrayal of an icon such as the Barbie doll. As a predominant feature in American culture & society, she is a fictitious character that many have contrived into a reality. She is a name that strikes instant familiarity, & she is a name that evokes controversy, emulation, & success. This thesis achieves a comprehensive look into her importance to women, & the ways in which her corporate creators make her accessible to fulfill this need. Therefore, this thesis accurately makes a connection between the marketing of the Barbie doll, & the building of an icon.

Reading, Learning, Teaching Barbara Kingsolver Paul Lee Thomas, 2005 Our English classrooms are often only as vibrant as the literature that we teach. Here, teachers will find an introduction to the works of Kingsolver and an opportunity to explore how to bring those works into the

classroom as a part of the reading and writing curriculum. This volume attempts to confront what we teach and how we teach as English teachers through the vivid texts Kingsolver offers her readers.

The New Millennium Reader Stuart Hirschberg,Terry Hirschberg,2002-03 This thematic reader identifies and collects some of the most important insights, discoveries, and reflections of the past millennia as produced by its most noteworthy writers. This reader includes a myriad of works of fiction and non- fiction, poems, and dramas that address.

Cultural Reflections John Gaughan,1997 Cultural Reflections takes the best from a writing process approach and adds a social dimension, demonstrating how to make cultural criticism the driving force in the high school English curriculum. Students carry different baggage than we did when we were in school- what engaged students thirty years ago does not engage them today. Cultural Reflections acknowledges those differences and addresses them in ways that make sense to teachers and keep students interested. Gaughan's work is that of a master teacher, continually developing his craft, drawing insight from his students, and featuring them in his accounts. From him, readers will learn about the importance of names and naming, not only for their students but also for themselves. They will learn new ways to think about language and the racist, sexist, and political assumptions that sometimes underlie the words we use. And they will see how teaching thematically removes the curricular constraints imposed by chronological approaches to literature. The book will help broaden teachers' notions of what constitutes legitimate texts to include not only young adult and contemporary multicultural texts, but audio and video texts as well. Preservice and inservice English teachers will find in Cultural Reflections a compelling vision for rethinking what English is or can be. Tom Romano writes in the foreword, After reading it, you might revise your teaching. You might take charge in a new way.

The New Millennium Reader Terry Hirschberg,1999 The second edition of The New Millennium Reader features many authors and particular works that have never before been anthologized.
