Bill O'Reilly's Legends and Lies David Fisher,2016-05-24 The companion volume to the Fox news series--Jacket.

Bill O'Reilly's Legends and Lies: The Patriots David Fisher,2016-05-24 The must-have companion to Bill O'Reilly's historical docudrama *Legends and Lies: The Patriots*, an exciting and eye-opening look at the Revolutionary War through the lives of its leaders The American Revolution was neither inevitable nor a unanimous cause. It pitted neighbors against each other, as loyalists and colonial rebels faced off for their lives and futures. These were the times that tried men's souls: no one was on stable ground and few could be trusted. Through the fascinating tales of the first Americans, *Legends and Lies: The Patriots* reveals the contentious arguments that turned friends into foes and the country into a warzone. From the riots over a child's murder that led to the Boston Massacre to the suspicious return of Ben Franklin, the First American; from the Continental Army's first victory under George Washington's leadership to the little known southern Guerilla campaign of Swamp Fox Francis Marion, and the celebration of America's first Christmas, *The Patriots* recreates the amazing combination of resourcefulness, perseverance, strategy, and luck that led to this country's creation. Heavily illustrated with spectacular artwork that brings this important history to vivid life, and told in the same fast-paced, immersive narrative as the first *Legends and Lies*, *The Patriots* is an irresistible, adventure-packed journey back into one of the most storied moments of our nation's rich history.

Bill O'Reilly's Legends and Lies: The Civil War David Fisher,2017-06-06 From the birth of the Republican Party to the Confederacy's first convention, the Underground Railroad to the Emancipation Proclamation, the Battle of Gettysburg to the assassination of Abraham Lincoln, [this book examines] the often little known stories behind the battle lines of America's bloodiest war and debunks the myths that surround its greatest figures--Amazon.com.

See No Evil Jim DeBrosse,2018-03-29 After more than fifty years of new evidence and new theories, the Warren Commission's claim that Lee Harvey Oswald acted alone and without clear motive in assassinating John F. Kennedy, has become a wheezing jalopy running on missing and broken parts and fueled with lies. And yet the U.S. media continue to support its findings as the only factual explanation for the murder of JFK. Why does the media marginalize and even ridicule more plausible conspiracy theories when the majority of American people long ago wrote off the Warren Report as a cover-up? *See No Evil* analyzes the built-in biases of the U.S. corporate media, exposes its complicity in the whitewashing, and advocates for the broadest possible investigation into the key players who may have been responsible for the Crime of the Twentieth Century, including the CIA, Organized Crime, and Israel. This book is meant for readers who seek the truth no matter where it leads.

Scandal in a Digital Age Hinda Mandell,Gina Masullo Chen,2016-08-10 This book explores the way today's interconnected and digitized world--marked by social media, over-sharing, and blurred lines between public and private spheres--shapes the nature and fallout of scandal in a frenzied media environment. Today's digitized world has erased the former distinction between the public and private self in the social sphere. Scandal in a Digital Age marries scholarly research on scandal with journalistic critique to explore how our Internet culture driven by (over)sharing and viral, visual content impacts the occurrence of scandal and its rapid spread online through retweets and reposts. No longer are examples of scandalous behavior "merely" reported in the news. Today, news consumers can see the visual evidence of salacious behavior whether through an illicit tweet or video with a simple click. And we can't help but click.

The Real Axis of Evil Stephen Kaposi,2004-09 In The Real Axis of Evil, author Stephen Kaposi has utilised extensive research to provide a tough and uncompromising indictment of the US invasion of Iraq, Western imperialism, globalisation, the Israeli treatment of the Palestinians and the Police State being created in the name of security. He reveals clearly how the mainstream media has provided a pro-establishment coverage to convince people of the need for war and increased security measures that are intended to control their populations. He demolishes the facades of George W. Bush and Tony Blair to reveal dangerous war makers intent on controlling the world and destroying opposition to their new Empires. He shows why Iraq has descended into chaos by revealing the extraordinary level of opposition to America, not just in Iraq, but around the world. The Real Axis of Evil is the necessary perspective to the sanitised, pro-American image the mainstream media has built to deceive people of the real world situation. The Real Axis of Evil provides the truths that the government and their media allies don't want you to know, and do their best to cover up.

A Field Guide to the Culture Wars Michael McGough,2008-12-23 Like any realignment in politics, the Democratic takeover of Congress in the 2006 midterm elections inspired a raft of instant analyses. One take on the results that is surely wrong is that the change in control of Congress and the spike in Democratic hopes for the 2008 presidential race mark an end to the culture wars that conventional wisdom blamed (or credited) for George W. Bush's re-election in 2004. This book sets the stage for a new consideration of the contemporary culture wars by examining their antecedents—from the Scopes trial to Prohibition to the controversy over the Supreme Court's desegregation and school-prayer rulings to loyalty-oath battles of the 1950s to the pre- Roe v. Wade campaign to liberalize abortion laws. Even during times of supposed conformism, Americans have been presented with competing claims about what sort of culture this is and how and to what extent

government should reflect, and police, values. The author covers such topics as same-sex marriage, stem cell research, intelligent design, and other hot button issues that are debated not just between the religious and secular, but more and more among the ranks of the religious themselves, where a religious left has emerged to counter arguments from the religious right. Anyone interested in the intersection of religion and politics, in the rise of the so-called moral majority, and in the current state of affairs with regard to values and public life in America will gain a better understanding from reading this book.
