From the Mouths of Sirens Abigail Hair,2022-05-07 A dark reimagining of The Little Mermaid, From the Mouths of Sirens is the first installment in a compelling new YA fantasy series. With a lush fantasy world, a high-stakes competition, and a thrilling love story, From the Mouths of Sirens is The Cruel Prince meets The Hunger Games. Since childhood, Saoirse has trained for the sole purpose of being chosen for the Tournament. The angel-like people of Aurandel have won the Tournament for a century and ruled the continent with an iron grip. If Saoirse survives the three infamous trials, she will win the Crown of Revelore and overthrow the nation responsible for her mother's death. But when Saoirse is denied entry into the Tournament by the Mer king, she makes a forbidden bargain with an imprisoned sea witch: in exchange for entry in the competition, Saoirse agrees to kill the Auran prince. But while fighting for her life in the arena, the last thing Saoirse expects to do is fall for her greatest enemy, the arrogant Prince Rook.

Pale Rider - Two worlds collide in this action short story. Zombie destruction has leveled humanity. Gasoline fuel is no longer an option, but humanity must find a way to survive. Unfortunately for the workers at this factory, that includes information on how to be safe. Summer Sword - An otherworldly friendship is forged under stress and fear. Wyatt, a recently unemployed camper, is looking for an escape from responsibilities. Thunder Born is a wind esper looking to escape from those who want to murder him. Together they start something surpassing both of them. Floating Ink - The world was cookie cutter ready for an alien invasion. Xenophen leveraged humanity's growing into a knowledge economy. To control us, they simply needed to offer a better education. Vampire Caving - Join a risk taking vampire as he explores why vampires exist. Swamp Monster Voodoo - A voodoo swamp creature battles for his way of life. An explorer battles for the swamp creature's treasure. Frankenstein IT Support - Frankenstein's monster is retrained to provide IT support. After all, if you can't find good help, why not build it? Moonlight Motor - A fair fight doesn't start with hunger. That will to live drives a desperate, hungry man to find solace on a train. After all, you got to keep moving to survive. The only problem is that blending in with the passengers may be worse than getting caught.

Wax Tablets of the Mind Jocelyn Penny Small,2003-09-02 In this volume, the author argues that literacy is a complex combination of various skills, not just the ability to read and write: the technology of writing, the encoding and decoding of text symbols, the interpretation of meaning, the retrieval and display systems which organize how meaning is stored and memory. The book explores the relationship between literacy, orality and memory in classical antiquity, not only from the point of view of antiquity, but also from that of modern cognitive psychology. It examines the contemporary as well as the ancient debate about how the writing tools we possess interact and affect the product, why they should do so and how the tasks required of memory change and develop with literacy's increasing output and evoking technologies.
