

Hungary 2nd World War

Réka Krizmanics

Hungary in World War II Deborah S. Cornelius, 2019-08-08 A historian examines why Hungary allied with the Nazis, and the devastating consequences for the country. The full story of Hungary's participation in World War II is part of a fascinating tale of rise and fall, of hopes dashed and dreams in tatters. Using previously untapped sources and interviews she conducted for this book, Deborah S. Cornelius provides a clear account of Hungary's attempt to regain the glory of the Hungarian Kingdom by joining forces with Nazi Germany—a decision that today seems doomed to fail from the start. For scholars and history buffs alike, *Hungary in World War II* is a riveting read. After the First World War, the new country of Hungary lost more than 70 percent of its territory and saw its population reduced by nearly the same percentage. But in the early years of World War II, Hungary enjoyed boom times—and the dream of restoring the Hungarian Kingdom began to rise again. As the war engulfed Europe, Hungary was drawn into an alliance with Nazi Germany. When the Germans appeared to give Hungary much of its pre-World War I territory, Hungarians began to delude themselves into believing they had won their long-sought objective. Instead, the final year of the world war brought widespread destruction and a genocidal war against Hungarian Jews. Caught between two warring behemoths, the country became a battleground for German and Soviet forces—and in the wake of the war, Hungary suffered further devastation under Soviet occupation and forty-five years of communist rule. This is the story of a tumultuous time and a little-known chapter in the sweeping history of World War II.

The Second World War Teddy J. Uldricks, 2023-08-02 This work provides a comprehensive and balanced analysis of the Second World War in all its aspects – military, diplomatic, political, economic, social, and ecological. It explores the complex origins of the conflict in Europe and in the Far East as well as its lasting impact on the postwar world. It pays special attention to the fighting in Russia and China. It also examines the ideological struggle at the heart of this war between autarkic fascism and militarism on one side and liberal, democratic capitalism on the other. The author recounts the ideas and actions of political leaders and generals as well as the experiences of soldiers, sailors, POWs, defense plant workers, sex slaves, and other ordinary people caught up in the horror of war. He examines World War II as a total war that required the total mobilization of societies and economies to achieve battlefield success. The reader is also introduced to debates among historians concerning key aspects of the war including appeasement, the fall of France, and the impact of strategic bombing, the Holocaust, the role of Emperor Hirohito and more. Each chapter includes a number of thought provoking questions to

enhance the reader's understanding and stimulate discussion.

European Neutrals and Non-Belligerents During the Second World War Neville Wylie, 2002 This collection provides a comprehensive English-language survey of the conduct of neutral and non-belligerent states during the war. Instead of narrowly focusing on the few neutrals that survived the war intact, the volume broadens our understanding of neutrality, by including chapters on 'non-belligerents' and those neutrals of south-east Europe, such as Romania and Yugoslavia. The essays focus on how individual neutral governments perceived international developments and throw light on the domestic political circumstances that critically affected their response to the course of the war. They therefore provide the political context that has been overlooked in controversies surrounding their humanitarian and financial activities. While based on the authors' own research, the essays draw widely on secondary literature and provide invaluable analytical introductions to the large amount of historical writing on these countries.

Battle for Budapest Krisztián Ungváry, 2011-08-30 This title is presented with a new foreword by Istvan Deak. The battle of Budapest in the bleak winter of 1944-45 was one of the longest and bloodiest city sieges of World War II. From the appearance of the first Soviet tanks on the outskirts of the capital to the capture of Buda Castle, 102 days elapsed. In terms of human trauma, it comes second only to Stalingrad, comparisons to which were even being made by soldiers, both German and Soviet, fighting at the time. This definitive history covers their experiences, and those of the 800,000 non-combatants around whom the battle raged.

Hungarian armoured units during the Second World War Eduardo Manuel Gil Martínez, 2023-10-24 The actions of German armored forces during World War II are well known. What has not yet been recounted as accurately are the actions of the armored forces of Germany's Allies. While it is true that their performance was generally quite secondary to what the forces of the German Reich were able to afford, the actions of the Hungarian armored forces, which not only managed to organize their own armored forces in substantial autonomy, but also developed their own military industry capable of supplying weapons and equipment to their troops, should be emphasized. This book will thus reveal a little-known page of Hungary's participation in World War II through the use of superb photographs provided by the author and his contributors. This story will take the reader from the beginning of the USSR campaign and consequent conquest of large Soviet territories, and then end with the bloody battles to prevent the advance of the Soviet and Romanian counteroffensive in Hungary (the siege of Budapest) and the last battles in Austrian and Slovenian territory before the unconditional surrender of the army. The author highlights the courage of these men and the terrible fate that would befall the Hungarian armored forces when the Soviet army invaded Hungary.

The Red Army and the Second World War Alexander Hill, 2019-02-07 In a definitive new account of the Soviet Union at war, Alexander Hill charts the development, successes and failures of the Red Army from the industrialisation of the Soviet

Union in the late 1920s through to the end of the Great Patriotic War in May 1945. Setting military strategy and operations within a broader context that includes national mobilisation on a staggering scale, the book presents a comprehensive account of the origins and course of the war from the perspective of this key Allied power. Drawing on the latest archival research and a wealth of eyewitness testimony, Hill portrays the Red Army at war from the perspective of senior leaders and men and women at the front line to reveal how the Red Army triumphed over the forces of Nazi Germany and her allies on the Eastern Front, and why it did so at such great cost.

Hungarian Armoured Fighting Vehicles in the Second World War Eduardo Manuel Gil Martínez, 2019-12-27 This WWII history vividly captures the Hungarian tanks and military vehicles that fought in Central and Eastern Europe through rare wartime photographs. The Kingdom of Hungary emerged from the Great Depression as a staunch ally of Germany and Italy. In the Second World War, the Central European country not only organized its armed forces in support of the Axis Powers, but also developed its own military industry to supply weapons and equipment to its troops. The Hungarian military produced all kinds of weapons, vehicles and armored vehicles, although they were generally under-gunned and under-armored. This book explores Hungary's participation in the Second World War through superb photographs showcasing its varieties of armored fighting vehicles. Wartime images take the reader from the beginning of the USSR campaign all the way to the bloody Siege of Budapest and the last clashes in Austrian and Slovenian territory before the army's unconditional surrender.

The Second World War David Horner, Robin Havers, Alastair Finlan, Mark J Grove, Philip D. Grove, Paul Collier, Geoffrey Jukes, Russell Hart, Stephen A. Hart, 2018-09-20 Bringing together the work of nine leading historians, and superbly illustrated with contemporary photography and colour maps, *The Second World War* gives readers a comprehensive understanding of all aspects of history's greatest conflict. The period from 1939 to 1945 saw some of the most devastating and remarkable events in living memory. Labouring beneath a daily burden of fear, sacrifice, deprivation and uncertainty, soldiers and civilians of all nationalities were driven to extremes of selfless loyalty, dogged determination or bitter cruelty by the demands of a world at war. This book tells the stories of the men and women who lived and died during the Second World War, from politicians to factory workers, and from High Command to the conscripted men on the front lines. The experience of war is brought to life through a wealth of contemporary documentation, private writings and historical research, whilst the political, military and historical significance of the war is assessed and examined. From Europe's Western and Eastern Fronts to the war at sea, and from the Pacific to the Mediterranean and North Africa, every fighting front of the Second World War is covered in this truly comprehensive volume.

Hungary in the Age of Total War (1938-1948) Nándor F. Dreisziger, 1998 This volume's sixteen essays and documentary section are devoted to an analysis and assessment of the Age of Total War's significance in Hungarian history. Distinguished scholars of several generations whose specialties range across Hungary's political, military, cultural and diplomatic histories

have contributed to this most comprehensive understanding of the tumultuous events of 1938-1948, the period many rightly regard a fateful decade in Hungary and eastern Europe.

The Second World War Volume One Christopher B. Yardley, 2022-04-21 The Second World War transformed the world not just America and the opposing belligerent nations. Eighty years later the postal authorities of the world continue to commemorate the conflict - because the effects are still being felt. This book looks at how the conflict is remembered and its aftermath. It is essentially an annotated picture book - the challenge to the reader is to determine the message the stamp is telling.

Church and Society in Hungary and in the Hungarian Diaspora Nandor Dreisziger, 2016-05-12 In *Church and Society in Hungary and in the Hungarian Diaspora*, Nándor Dreisziger tells the story of Christianity in Hungary and the Hungarian diaspora from its earliest years until the present. Beginning with the arrival of Christianity in the middle Danube basin, Dreisziger follows the fortunes of the Hungarians' churches through the troubled times of the Middle Ages, the years of Ottoman and Habsburg domination, and the turmoil of the twentieth century: wars, revolutions, foreign occupations, and totalitarian rule. Complementing this detailed history of religious life in Hungary, Dreisziger describes the fate of the churches of Hungarian minorities in countries that received territories from the old Kingdom of Hungary after the First World War. He also tells the story of the rise, halcyon days, and decline of organized religious life among Hungarian immigrants to Western Europe, the Americas, and elsewhere. The definitive guide to the dramatic history of Hungary's churches, *Church and Society in Hungary and in the Hungarian Diaspora* chronicles their proud past and speculates about their uncertain future.

Austria 1867-1955 John W. Boyer, 2022-09-15 *Austria 1867-1955* connects the political history of German-speaking provinces of the Habsburg Empire before 1914 (Vienna and the Alpine Lands) with the history of the Austrian Republic that emerged in 1918. John W. Boyer presents the case of modern Austria as a fascinating example of democratic nation-building. The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices, with the German-speaking bourgeois Liberals defining the concept of a political people (Volk) and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown. The decades that followed saw the administrative and judicial institutions of the Liberal state solidified, but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes. Ethnic identity was not the final structuring principle of everyday politics, as it was in the Czech lands. Rather social class, occupational culture, and religion became more prominent variables in the sortition of civic interests, exemplified by the emergence of two great ideological parties, Christian Socialism and Social Democracy in Vienna in the 1890s. The war crisis of 1914/1918 exploded the Empire, with the Crown self-destructing in the face of military defeat, chronic domestic unrest, and bitter national partisanship. But this crisis

also accelerated the emergence of new structures of democratic self-governance in the German-speaking Austrian lands, enshrined in the republican Constitution of 1920. Initial attempts to make this new project of democratic nation-building work failed in the 1920s and 1930s, culminating in the catastrophe of the 1938 Nazi occupation. After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four-power Allied occupation, which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship, resulting, by the 1970s, in a successful republican system, organized under the aegis of elite democratic and corporatist negotiating structures, in which the Catholics and Socialists learned to embrace the skills of collective but shared self-governance.

The Tragedy of Karoly - a Story from Hungary Michael Fitzalan, 2011-07-23 This is the story of Karoly, a man whose family protected Jewish refugees who were trying to escape the advance of Nazi Germany and the advancing Russians. Karoly was used as human-shield by Romanian 'liberators' in Hungary. He was sent to prison for being the leader of the youth section of the Smallholder's Party under the post-war Communist Regime. Given the option of starvation or working as a miner in a forced labour camp, he worked in a coalmine until he escaped the regime in 1956. This is the story of a man who cheated death and moved to England to start again from nothing, a broken man and a former political prisoner for whom there was no care or comfort.

A Story from Hungary Michael Fitzalan, 2012-02-16 This is the story of Karoly, a man whose family protected Jewish refugees who were trying to escape the advance of Nazi Germany from the west and the advancing Russian Red Army and their Romanian allies to the east. Karoly was used as human-shield by Romanian 'liberators' in Hungary. When, after the war, Hungary was under Russian Communist control, he was sent to prison. Karoly was committed as a political prisoner for being a member of the Independent Small-holders Party, the communist party's only serious political rival. Forced to work in a coal mine and surviving roof collapses and gas leaks, Karoly escaped to England in 1956 during the revolution. A refugee, with few friends in his newly adopted country, he rebuilt his life and recovered his sanity. This is his incredible story.

Historical Knowledge Production Cultures in Late Socialist Hungary and Croatia Réka Krizmanics, 2024-01-08 Historical Knowledge Production Cultures in Late Socialist Hungary and Croatia: Expertise Unsettled offers a comparative study and analysis from the Hungarian case, and integrating academic, party, and popular historiography into a single analytical framework. Narratives concerning the history of the interwar period and the Second World War, and circumstances of their elaboration are at the forefront of this study. Réka Krizmanics argues that even within state socialist Eastern Europe, different enabling and restrictive factors were at play, and investigates the specificities of late socialism while embedding them in the context of their interwar, Stalinist and post-Stalinist legacies. "Expertise Unsettled" refers to the growing peril of historians, who proved to be often divided among themselves, and were increasingly on the defense as a guild, when literature, cinema, and interested non-professionals got involved in making and criticizing narratives of the

recent past. Party history and party historians have been often sidelined in intellectual history, but the author argues that their inclusion is crucial both for a more complex understanding of what (late) state socialism meant for historians and to historicize practices of contemporary post-socialist, especially illiberal memory regimes.

The Second World War Bradley Lightbody, 2004-07-31 An accessible history of the Second World War in its global context for A-level students.

Stephen I, the First Christian King of Hungary Nora Berend, 2024-07-12 Stephen I, Hungary's first Christian king (reigned 997-1038) has been celebrated as the founder of the Hungarian state and church. Despite the scarcity of medieval sources, and consequent limitations on historical knowledge, he has had a central importance in narratives of Hungarian history and national identity. This book argues that instead of conceptualizing modern political medievalism separately as an 'abuse' of history, we must investigate history's very fabric, because cultural memory is woven into the production of the medieval sources. Medieval myth-making served as a firm basis for centuries of further elaboration and reinterpretation, both in historiography and in political legitimizing strategies. In many ways we cannot reach the 'real' Stephen, but we can do much more to understand the shaping of his myths. The author traces the origin of crucial stories around Stephen, contextualizing both the invention of early narratives and their later use. A challenger to Stephen's rule who may be a medieval literary invention became the protagonist of a rock opera in 1983, also standing in for Imre Nagy, a key figure of the 1956 revolution; moreover, he was reinvented as the embodiment of true Hungarian identity. The alleged right hand relic was 'discovered' to provide added legitimacy for Hungary's kings and then became a protagonist of the entanglement of Church and state. A medieval crown was invested with supernatural status, before turning into a national symbol. This book analyses the often seamless flow that has turned medieval myth into modern history, showing that politicisation was not a modern addition, but a determinant factor from the start.

Special Report of the Select Committee on Communist Aggression Etats-Unis. House of representatives. Select committee on communist aggression, 1954

Hungarian Uprising Louis Archard, 2018-01-30 When the world held its breath It is more than 25 years since the end of the Cold War. It began over 75 years ago, in 1944 long before the last shots of the Second World War had echoed across the wastelands of Eastern Europe with the brutal Greek Civil War. The battle lines are no longer drawn, but they linger on, unwittingly or not, in conflict zones such as Syria, Somalia and Ukraine. In an era of mass-produced AK-47s and ICBMs, one such flashpoint was Hungary Soviet troops had occupied Hungary in 1945 as they pushed towards Germany and by 1949 the country was ruled by a communist government that towed the Soviet line. Resentment at the system eventually boiled over at the end of October 1956. Protests erupted on the streets of Budapest and, as the violence spread, the government fell and was replaced by a new, more moderate regime. However, the intention of the new government to withdraw from the Warsaw

Pact and declare neutrality in the Cold War proved just too much for Soviet leader Nikita Khrushchev. Soviet forces had intervened at the beginning of events to help the former regime keep order but were withdrawn at the end of October, only to return in November and quell the uprising with blunt force. Thousands were arrested, many of whom were imprisoned and more than 300 executed. An estimated 200,000 fled Hungary as refugees. Despite advocating a policy of rolling back Soviet influence, the US and other western powers were helpless to stop the suppression of the uprising, which marked a realization that the Cold War in Europe had reached a stalemate.
