Robert Kolb, Richard Hyde

An Introduction to the International Law of Armed Conflicts Robert Kolb, Richard Hyde, 2008-09-17 This book provides a modern and basic introduction to a branch of international law constantly gaining in importance in international life, namely international humanitarian law (the law of armed conflict). It is constructed in a way suitable for self-study. The subject-matters are discussed in self-contained chapters, allowing each to be studied independently of the others. Among the subject-matters discussed are, inter alia: the Relationship between jus ad bellum / jus in bello; Historical Evolution of IHL; Basic Principles and Sources of IHL; Martens Clause; International and Non-International Armed Conflicts; Material, Spatial, Personal and Temporal Scope of Application of IHL; Special Agreements under IHL; Role of the ICRC; Targeting; Objects Specifically Protected against Attack; Prohibited Weapons; Perfidy; Reprisals; Assistance of the Wounded and Sick; Definition of Combatants; Protection of Prisoners of War; Protection of Civilians; Occupied Territories; Protective Emblems; Sea Warfare; Neutrality; Implementation of IHL.

The Principle of Mutual Recognition in EU Law Christine Janssens, 2013-10 Examining the principle of mutual recognition in the EU legal order this volume asks whether the principle as developed in the internal market, can and should be applied in judicial cooperation in criminal matters in the area of freedom, security, and justice.

Annuaire européen. 42.1994(1996) Tsimaratos, P. Leuprecht, J. Schwietzke, 1996-11-19 The European Yearbook promotes the scientific study of European organisations and the Organisation for Economic Co-operation and Development. Each volume contains a detailed survey of the history, structure and yearly activities of each organisation and an up-to-date chart providing a clear overview of the member states of each organisation. In addition, a number of articles on topics of general interest are included in each volume. A general index by subject and name, and a cumulative index of all the articles which have appeared in the Yearbook, are included in every volume and provide direct access to the Yearbook's subject matter. Each volume contains a comprehensive bibliography covering the year's relevant publications. This is an indispensable work of reference for anyone dealing with the European institutions. It is bilingual (English and French).

Recueil Des Cours, Collected Courses 1974, 1975-08-22 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects. This work of the Hague Academy aims to encourage an impartial examination of the problems arising from international relations in the field of law.

International Courts and the Development of International Law Nerina Boschiero,Tullio Scovazzi,Cesare Pitea,Chiara Ragni,2013-03-15 This book contains a collection of essays by leading experts linked to the outstanding characteristics of the scholar in honour of whom it is published, Tullio Treves, who combines his academic background with his practical experiences of a negotiator of international treaties and a judge of an international tribunal. It covers international public and private law related to international courts and the development of international law. Under Article 38 of its Statute, the International Court of Justice can apply judicial decisions only as a “subsidiary means for the determination of rules of law”. However, there are many reasons to believe that international courts and tribunals do play quite an important role in the progressive development of international law. There are a number of decisions which are inevitably recalled as the first step, or a decisive step, in the process of the formation of a new rule of customary international law. In these cases, can the judge be considered as a subsidiary of others? Are these cases compatible with the common belief that a judge cannot create law? Is this a peculiarity of international law, which is characterized by the existence of several courts but the lack of a legislator? Do decisions by different courts lead to the consequence of a fragmented international law? This volume provides the reader with an elaboration of various questions linked to the legislative role of courts. In their choices of subjects, some contributors have taken into account the general aspects of the development of international rules through court decisions or specific sectors of international law, such as human rights, international crimes, international economic law, environmental law and the law of the sea. Others have chosen the subject of the rules on jurisdiction and procedure of international courts. The question of the courts’ role in the development of areas of law different from public international law, namely private international law and European Union law, has also been considered. The information and views contained in this book will be of great value to academics, students, judges, practitioners and all others interested in the public and private international law aspects of the link between international courts and the development of international law.

Litigation at the International Court of Justice Juan José Quintana,2015-05-19 Litigation at the International Court of Justice provides a systematic guide to questions of procedure arising when States come before the International Court of Justice to take part in contentious litigation. Quintana's approach is primarily empirical and emphasis is put on examples derived from actual practice. This book is mainly intended to help practitioners and advisors to governments engaged in actual cases and deliberately avoids theoretical discussions, favoring a pragmatic stance that is focused not so much on what authors have to say on any given topic concerning procedure, but rather on presenting, directly “from the Court’s mouth,” as it were, what ICJ judges actually have done and said over the last ninety years concerning such questions.

Institutionalizing State Responsibility Vincent-Joël Proulx, 2016-05-05 Since the 9/11 attacks, international organizations have become actively engaged in devising counterterrorism strategies and frameworks. This monograph examines the role UN organs can play in implementing the law of State responsibility in global security contexts, using transnational terrorism as its principal case study. The institutional mechanisms utilized by the UN in implementing State responsibility are assessed in detail, shedding light on how the ICJ, the General Assembly and the Security Council contribute to the implementation of State responsibility in the context of global security. By acknowledging the Security Council's role as a post-9/11 legislator, this book argues that the Council can play an important and sometimes determinant role in implementing a State's legal responsibility for failing to prevent terrorism, both inside and outside the Chapter VII framework. Featuring a discussion of the more controversial consequences flowing from State responsibility, this monograph also explores the prospect of injured States adopting forcible measures against responsible States for their failures to prevent terrorism. The book investigates whether self-defence and other forcible reactions, envisaged both inside and outside the Council, can be reconciled with State responsibility principles.

How Interpretation Makes International Law Ingo Venzke, 2012-09-06 An account of how the practice of interpretation makes international law, drawing specific attention to the increasing authority of international courts and institutions, this book analyses the role that the language plays in shaping international law. It addresses the key issue of how it contributes to the evolution of international norms.

The Law of International Responsibility James Crawford, Alain Pellet, Simon Olleson, Dr Kate Parlett, 2010-05-20 The law of international responsibility is one of international law's core foundational topics. Written by international experts, this book provides an overview of the modern law of international responsibility, both as it applies to states and to international organizations, with a focus on the ILC's work.

Projections of Spanish Jesuit Scholasticism on British Thought Leopoldo J. Prieto López, José Luis Cendejas Bueno, 2022-12-12 Spanish Jesuits such as Francisco Suárez (1548-1617), José de Acosta (1540-1600), Pedro de Ribadeneira (1526-1611) and Juan de Mariana (1536-1624) had a powerful impact on English thinkers of the magnitude of John Locke (1632-1704), Francis Bacon (1561-1626), Robert Persons (1546-1610), Algernon Sidney (1623-1683), and, later, William Robertson (1721-1793), Thomas de Quincey (1785-1859) and Hilaire Belloc (1870-1953). An influence that was sometimes hidden and always controversial. This work highlights the importance of this influence regarding thought on politics, law and natural rights. A constitutionalist understanding of political power, the recognition and promotion of innate rights and the

necessary subjection of rulers to the law, all form part of the important legacy of these scholastic doctors for European intellectual heritage. Contributors to this volume: Rafael Alé Ruiz, Francisco T. Baciero Ruiz, Francisco Castilla Urbano, José Luis Cendejas Bueno, Alfonso Díaz Vera, Francisco Javier Gómez Díez, Cecilia Font de Villanueva, León M. Gómez Rivas, Fermín del Pino Díaz, Leopoldo J. Prieto López, Daniel Schwartz, Lorena Velasco Guerrero, and María Idoia Zorroza Huarte.

Direct Effect in EU Law Daniele Gallo, 2024-12-23 Direct Effect in EU Law is the first book in English to thoroughly examine this revolutionary legal principle, tracing direct effect's evolution throughout the multiform process of European integration. A founding doctrine of EU constitutional law and the driving force of the EU legal system, direct effect enables individuals and companies to invoke their rights before domestic authorities and the Court of Justice of the EU (CJEU). Yet, while the doctrine of direct effect remains the backbone of the EU legal system, it lacks clear legal framing by the CJEU. Emphasizing the need for the CJEU to fully articulate and systematize direct effect as to its core components and consequences, the book advocates for an innovative understanding of such principle that acknowledges its transformative impact on EU law. It bridges theory and practice, drawing upon the CJEU rulings dating from the 1950s up to 2024. The book reconstructs direct effect beyond the doctrine originating from Van Gend & Loos, and ultimately puts forward solutions for its principled comprehension and enforcement.

The Statute of the International Court of Justice Andreas Zimmermann, Christian J. Tams, Karin Oellers-Frahm, Christian Tomuschat, 2019-03-21 This landmark publication in the field of international law delivers expert assessment of new developments in the important work of the International Court of Justice (ICJ) from a team of renowned editors and commentators. The ICJ is the principal judicial organ of the United Nations and plays a central role in both the peaceful settlement of international disputes and the development of international law. This comprehensive Commentary on the Statute of the International Court of Justice, now in its third edition, analyses in detail not only the Statute of the Court itself but also the related provisions of the United Nations Charter as well as the relevant provisions of the Court's Rules of Procedure. Six years after the publication of the second edition, the third edition of the Commentary embraces current events before the International Court of Justice as well as before other courts and tribunals relevant for the interpretation and application of its Statute. The Commentary provides a comprehensive overview and analysis of all legal questions and issues the Court has had to address in the past, and looks forward to those it will have to address in the future. It illuminates the central issues of procedure and substance that the Court and counsel appearing before it face in their day-to-day work. In addition to commentary covering all of the articles of the Statute of the ICJ, plus the relevant articles of the Charter of the United Nations, the book includes two scene-setting chapters: Historical Introduction and General Principles of Procedural Law, as well as important and instructive chapters on Counter-Claims, Discontinuation and Withdrawal, and Evidentiary Issues.

International Law and Its Sources Wybo P. Heere, Maarten Bos, 1989

International Responsibility Today Maurizio Ragazzi, 2005-05-01 The law of international responsibility, a classic area of investigation in international law, has been attracting an ever increasing interest in recent times, as reflected also in the work of the International Law Commission on State responsibility and on responsibility of international organizations. The exploration of current trends in this important area is therefore an appropriate and timely subject for a book in memory of Oscar Schachter, a former United Nations official, Columbia Law School professor, ASIL President, and international lawyer of world-wide reputation, who died in December 2003. The editor of the book has assembled a team of thirty-six prominent international lawyers belonging to twenty different nationalities to write about different aspects of the law of international responsibility, from general issues to specific areas of the law (including responsibility before international courts and tribunals), with respect to both the law of State responsibility and responsibility of international organizations and other non-State actors. The result of this effort is a monographic volume (enriched by a biography and a list of publications of Oscar Schachter, and accompanied by a bibliography of all the works cited in the various contributions and an index for easier consultation), which will be of interest not only to the many admirers and friends of Oscar Schachter around the world, but also, more broadly, to international law academics and practitioners.

Principles of Proper Conduct for Supranational, State and Private Actors in the European Union Jan Wouters, 2001 This book contains the proceedings of an international colloquium in honour of Professor Walter van Gerven which was held in Leuven on 15-16 September 2000 and organized by the Universities of Leuven and Maastricht in the framework of the lus Commune Research School. Walter van Gerven has been a professor of Law in Leuven for four decades and in Maastricht between 1994 and 2000; he has been Advocate General at the Court of Justice of the European Communities (1988-1994) and was Member of the Committee of Independent Experts which screened the European Commission in 1999. The book is built around three themes: good governance in the European Union, judicial review of administrative action and liability of supranational, State and private actors. A great number of very distinguished scholars have contributed to this book: Lord Slynn of Hadley, Deirdre Curtin, Christiaan W.A. Timmermans, Gil Carlos Rodriguez Iglesias, Sacha Prechal, Jürgen Schwarze, Takis Tridimas, Bruno de Witte, Jeremy Lever, Pierre Larouche, Francis G. Jacobs, Luc Gyselen, Paul J.G. Kapteyn, Arthur Hartkamp and Pieter VerLoren van Themaat.
