

Phoenicians In The Bible

Paul H. Wright

The Oxford Handbook of the Phoenician and Punic Mediterranean Carolina López-Ruiz, Brian R. Doak, 2022 The Phoenicians created the Mediterranean world as we know it--yet they remain a shadowy and poorly understood group. The academic study of the Phoenicians has come to an important crossroads; the field has grown in sheer content, sophistication of analysis, and diversity of interpretation, and we now need a current overview of where the study of these ancient seafarers and craftsman stands, and where it is going. Moreover, the field of Phoenician studies is particularly fragmented and scattered. While there is growing interest in all things Phoenician and Punic, the latest advances are mostly published in specialized journals and conference volumes in a plethora of languages. This Handbook is the first of its type to appear in over two decades, and the first ever to appear in English. In these chapters, written by a wide range of prominent and promising scholars from across Europe, North America, Australia, and the Mediterranean world, readers will find summary studies on key historical moments (such as the history of Carthage); areas of culture (organized around language, religion, and material culture); regional studies and areas of contact (spanning from the Levant and the Aegean to Iberia and North Africa); and the reception of the Phoenicians as an idea, entangled with the formation of other cultural identities, both ancient and modern.

Phoenicians in the Lands of Gold J.G. Cheock, 2017-10-02 Historical research on Philippine's past, in relation to the maritime Phoenician traders, based on four main areas: Iconography of the Phoenician Religion, Ancient Glass and Gold technologies and motifs, Proto-Canaanite Alphabet on tribal beads, and Impact of the Phoenicians on the languages and historical traditions of the Lands of Gold.

All the People in the Bible Richard R. Losch, 2008-05-13 More than any other book, the Bible offers an amazing collection of fascinating characters ranging from the holiest of the holy to some of the most depraved scoundrels imaginable. Many are mentioned only in passing, yet history and archaeology can often fill in the blanks and flesh them out as exciting human beings. For this reason we have in many cases been able to tell much more about them than the Bible alone reveals. -- Richard R. Losch (from the preface) A comprehensive gathering of persons found in the Bible, including the Apocrypha, *All the People in the Bible* really delivers on its title: literally all of the Bible's characters appear in this fascinating reference work. From the first article on Aaron to the final entry on Zophar, Richard Losch details each person in a lively narrative

style. The bulk of the book consists of Losch's A-Z articles covering the familiar and the not-so-familiar figures in Scripture. Names of people who are found only in genealogies or who had no significant effect on history are included solely in the alphabetical listing starting on page 452. That listing, *All the People in the Bible and Apocrypha*, includes pronunciations, brief identifications, and biblical references. Persons covered in greater detail in the main part of the book are identified in bold print. Losch's intriguing look at all the people in the Bible is anything but a dry reference work. This is a book to dip into and enjoy over and over.

Phoenician Inscriptions and the Bible Yitshak Avishur, 2000 That biblical and Canaanite literature are related has been understood for some time and yet no actual literary works have come to light south of Ugarit. However, remnants of Phoenician literature remain in Phoenician and Punic inscriptions. This unique study compares common elements of Phoenician inscriptions (word pairs, literary phraseology, similes, idioms and expressions) with similar literary usage in the Bible. Avishur then turns his attention to seven major inscriptions representing various genres to augment his comparative analysis.

A Short History of the Phoenicians Mark Woolmer, 2017-04-30 The Phoenicians present a tantalizing face to the ancient historian. Latin sources suggest they once had an extensive literature of history, law, philosophy and religion; but all now is lost. Offering new insights based on recent archaeological discoveries in their heartland of modern-day Lebanon, Mark Woolmer presents a fresh appraisal of this fascinating, yet elusive, Semitic people. Discussing material culture, language and alphabet, religion (including sacred prostitution of women and boys to the goddess Astarte), funerary custom and trade and expansion into the Punic west, he explores Phoenicia in all its paradoxical complexity. Viewed in antiquity as sage scribes and intrepid mariners who pushed back the boundaries of the known world, and as skilled engineers who built monumental harbour cities like Tyre and Sidon, the Phoenicians were also considered (especially by their rivals, the Romans) to be profiteers cruelly trading in human lives. The author shows them above all to have been masters of the sea: this was a civilization that circumnavigated Africa two thousand years before Vasco da Gama did it in 1498.

The Phoenicians Vadim S. Jigoulov, 2024-10-13 Drawing on an impressive range of archaeological and textual sources and a nuanced understanding of biases, this book offers a valuable reappraisal of the enigmatic Phoenicians. *The Phoenicians* is a fascinating exploration of this much-mythologized people: their history, artistic heritage, and the scope of their maritime and colonizing activities in the Mediterranean. Two aspects of the book stand out from other studies of Phoenician history: the source-focused approach and the attention paid to the various ways that biases—ancient and modern—have contributed to widespread misconceptions about who the Phoenicians really were. The book describes and analyzes various artifacts (epigraphic, numismatic, and material remains) and considers how historians have derived information about a people with little surviving literature. This analysis includes a critical look at the primary texts (classical, Near Eastern, and biblical), the

relationship between the Phoenician and Punic worlds; Phoenician interaction with the Greeks and others; and the repurposing of Phoenician heritage in modernity. Detailed and engrossing, *The Phoenicians* casts new light on this most enigmatic of civilizations.

The Ancient Israelite World Kyle H. Keimer, George A. Pierce, 2022-10-27 This volume presents a collection of studies by international experts on various aspects of ancient Israel's society, economy, religion, language, culture, and history, synthesizing archaeological remains and integrating them with discussions of ancient Near Eastern and biblical texts. Driven by theoretically and methodologically informed discussions of the archaeology of the Iron Age Levant, the 47 chapters in *The Ancient Israelite World* provide foundational, accessible, and detailed studies in their respective topics. The volume considers the history of interpretation of ancient Israel, studies on various aspects of ancient Israel's society and history, and avenues for present and future approaches to the ancient Israelite world. Accompanied by over 150 maps and figures, it allows the reader to gain an understanding of key issues that archaeologists, historians and biblical scholars have faced and are currently facing as they attempt to better understand ancient Israelite society. *The Ancient Israelite World* is an essential reference work for students and scholars of ancient Israel and its history, culture, and society, whether they are historians, archaeologists or biblical scholars.

The Bible of Every Land, 1860*

Who Were the Phoenicians? Nissim Raphael Ganor, 2009

In Search of the Phoenicians Josephine Quinn, 2019-12-10 Who were the ancient Phoenicians—and did they actually exist? The Phoenicians traveled the Mediterranean long before the Greeks and Romans, trading, establishing settlements, and refining the art of navigation. But who these legendary sailors really were has long remained a mystery. *In Search of the Phoenicians* makes the startling claim that the Phoenicians never actually existed as such. Taking readers from the ancient world to today, this book argues that the notion of these sailors as a coherent people with a shared identity, history, and culture is a product of modern nationalist ideologies—and a notion very much at odds with the ancient sources.

The Holy Land and the Bible Cunningham Geikie, 1888

Forgotten Empire of the Phoenicians Learn Alchemical, 2025-08-18 They built no grand pyramids, left behind no conquering armies, and their cities were swallowed by the tides of time—yet the Phoenicians shaped the ancient world in ways most have forgotten. From the shores of Tyre and Sidon, these enigmatic mariners set sail across the vast Mediterranean, spreading not only goods and purple dye, but the very alphabet that would become the foundation of Western writing. *Lords of the Purple Sea* is a gripping journey through lost harbors and sunken secrets, unveiling the untold story of a civilization that thrived on trade, diplomacy, and maritime mastery. Through ancient texts, archaeological discoveries, and the whispers of Greek, Roman, and Egyptian chroniclers, this book reconstructs the legacy of the Phoenicians—seafarers,

scribes, and silent architects of empire.

The Fourth Thousand Years W. Cleon Skousen, There is no period when the distant roar of history can be heard pounding on the pages of the past with greater fury than during the ten savage centuries known as The Fourth Thousand Years. This was the age of the first world empires, the days when Assyria, Babylon, Greece and Rome each displayed their passion for power. It was an age which demanded the resounding and inspired voices of many of God's greatest spokesmen. The turbulent chaos of these centuries brought forth many mighty prophets of God -- Elijah, Elisha, Isaiah, Jeremiah, Ezekiel, Jonah, Lehi, Nephi, Daniel, Zechariah, and many others. The lives and times of all these men are in these pages. This is the third and final volume of this series dealing with the Old Testament. The volumes which preceded it were entitled: The First 2,000 Years, which covered the period from Adam to Abraham, and The Third Thousand Years, which covered Bible history from Abraham to David. This present volume deals with the exciting scriptural epic which emerged between the time of David and the coming of Christ. For those who find the Old Testament arduous reading, these three books should prove especially inspirational and helpful. This eBook includes the original index, illustrations, footnotes, table of contents and page numbering from the printed format.

A History of Commerce Clive Day, 1922

Murray's Illustrated Bible Dictionary William Coleman Piercy, 1909

Kypros, the Bible and Homer Max Hermann Ohnefalsch-Richter, 1893

Joshua, Judges, Ruth (Understanding the Bible Commentary Series) J. Gordon Harris, Cheryl A. Brown, Michael S. Moore, 2012-07-01 The authors of this commentary take a canonical-historical approach to the books of Joshua, Judges, and Ruth, three books that are diverse, yet share the common historical context of the tribal settlement of Canaan. They examine Joshua, Judges, and Ruth as narratives with dynamic theological messages about the dynamic relationship between God's people and the powerful God who gives land and provides deliverers for the people.

Behind the Bible's Greatest Stories Paul H. Wright, 2025 Commentary for adult readers on seven popular Bible stories from the Old Testament with study questions to facilitate group discussion- Provided by publisher.

Islam: Global Christian Perspectives Wageeh Mikhail, 2024-07-30 There are hundreds of books on Islam; after all, it is the second largest religion on the planet. Few, however, are the books written by Christian scholars of Islam who live and work in Muslim-majority countries. Here lies the value of this current volume. It addresses Islam, Islamic history, Islamic theology, and Christian-Muslim relations from global Christian perspectives where contributors describe experiences and narratives of conversations, obstacles, cohabitation, understanding, and cooperative efforts between Christians and Muslims in a variety of Middle Eastern, African, and Asian nations, including Egypt, Ghana, India, Jordan, Lebanon, and Nigeria. This book treats Islam academically and from a Christian standpoint. Authors discuss historical interactions between Christians

and Muslims and, where relevant, current avenues for work for the common good.

Phoenician Aniconism in Its Mediterranean and Ancient Near Eastern Contexts Brian R. Doak, 2015-11-05 A close look at Phoenician religion The Hebrew Bible contains a prohibition against divine images (Exod 20:2-5a). Explanations for this command are legion, usually focusing on the unique status of Israel's deity within the context of the broader Near Eastern and Mediterranean worlds. Doak explores whether or not Israel was truly alone in its severe stance against idols. This book focuses on one particular aspect of this iconographic context in Israel's Iron Age world: that of the Phoenicians. The question of whether Phoenicians employed aniconic (as opposed to iconic) representational techniques has significance not only for the many poorly understood aspects of Phoenician religion generally, but also for the question of whether aniconism can be considered a broader trend among the Semitic populations of the ancient Near East. Features: More than fifty images and illustrations Examination of textual and archaeological evidence Application of art historical methods
