Encounterism: The Neglected Joys of Being In Person Andy Field,2023-07-18 A playful, analytical, informed, and poetic exploration of the delight and transformative power of real-life encounters. The light touch of a hairdresser's hands on one's scalp, the euphoric energy of a nightclub, huddling with strangers under a shelter in the rain, a spontaneous snowball fight in the street, a daily interaction with a homeless man—such mundane connections, when we closely inhabit the same space, and touch or are touched by others, were nearly lost to “social distancing.” Will we ever again shake hands without a thought? In this deeply rewarding book, Andy Field brings together history, science, psychology, queer theory, and pop culture with his love of urban life and his own experiences—both as a city-dweller and as a performance artist—to forge creative connections: walking hand-in-hand with strangers, knocking on doors, staging encounters in parked cars. In considering twelve different kinds of encounters, from car rides to video calls to dog-walker chats in the park, Field argues “that in the spontaneity and joy of our meetings with each other, we might find the faint outline of a better future.”

Ethnodramatherapy Stephen Snow,2021-11-24 Ethnodramatherapy explores the integration of the performance ethnography method, known as ethnodrama, with the principles and practices of drama therapy to establish a sound theoretical formulation for ethnodramatherapy, and considers its use as art, as therapy, as research and as a vehicle for social justice. The book begins by defining ethnodramatherapy - an original synthesis created by the author through deep

study and practice of Mienczakowski's ethnodrama, combined with 35 years of his own practice and research in drama therapy, creative arts therapies and therapeutic theatre. The book describes the origins of ethnodramatherapy, along with its evolution and method. It then delves into applications of the practice highlighted by five case studies with different audiences in different settings. Subjects include adults with developmental disabilities, female adolescents in youth protection, caregivers for loved ones with mental illnesses and Chinese students exploring controversial issues of oppression in China. Complex ethical issues are reviewed and suggestions are made on how to deal with some of the challenging ethical situations that are likely to arise in the ethnodramatherapy process. What emerges is a powerful tool that harnesses theatrical art, ethnographic research and the clinical techniques of drama therapy to create a potential for emancipatory experience for both performers and audiences. This exciting and dynamic synthesis of drama therapy, performance ethnography, theatrical art and social activism will be of interest to the whole community of theatre practitioners and scholars who use theatre to effect individual and social change, including the disciplines of applied theatre, theatre education, experimental theatre, performance studies, and, of course, drama therapy, psychodrama and the other creative arts therapies.

Designing for Empathy Elif M. Gokcigdem, 2019-05-24 As museums are currently shaping their tools for fostering empathy as an intentional outcome of museum experiences, the idea of empathy-building is reshaping them as socially relevant institutions that increasingly value diversity, accessibility, and equality. This is a non-linear, multi-layered, and multi-dimensional transformation that requires multidisciplinary, cross-industry, and cross-sector alliances for its sustainability. The potential of this collective transformation effort includes the invention of unconventional, evidence-based, and sustainable solutions that can be scaled up beyond the walls of traditional museums to all kinds of informal learning platforms to help eliminate the empathy-deficit in our world. Designing for Empathy expands our understanding of empathy and its potential for fostering compassionate worldviews and actions through a multidisciplinary exploration in three parts: "The Object of Our Empathy" explores how we define and perceive the "Other;" "The Alchemy of Empathy" introduces thirteen design elements of empathy that might lead to transformative learning experiences; and "The Scope and the Spectrum of Empathy" highlights the importance of positioning empathy as a cross-industrial shared value for the benefit of people and the planet. Designing for Empathy will inspire and empower those who are interested in intentionally designing for empathy to cultivate compassionate worldviews and actions that celebrate and preserve the oneness of all people, the environment, and our planet.

On Beckett, On! Jean-Michel Rabaté,Laurel Garver,2025-06-10 This collection of essays was born from a wish to show to a wider audience how exciting and productive Samuel Beckett scholarship has become, at a time when there are more essays and books written about Beckett than about any key modernist authors like Joyce and Woolf. This volume contains numerous essays on Beckett that the *Journal of Modern Literature* has published in the last decade. Their enduring quality proves that Beckett's oeuvre has maintained its appeal today because it attracts original scholars who are also interested in issues like philosophy, psychoanalysis, ethics, contemporary history, and literary theory.

Ontologies of Nature Gerard Kuperus,Marjolein Oele,2017-10-04 This volume contains essays that offer both historical and contemporary views of nature, as seen through a hermeneutic, deconstructive, and phenomenological lens. It reaches

back to Ancient Greek conceptions of physis in Homer and Empedocles, encompasses 13th century Zen master Dōgen, and extends to include 21st Century Continental Thought. By providing ontologies of nature from the perspective of the history of philosophy and of contemporary philosophy alike, the book shows that such perspectives need to be seen in dialogue with each other in order to offer a deeper and more comprehensive philosophy of nature. The value of the historical accounts discussed lies in discerning the conceptual problems that contribute to the dominant thinking underpinning our ecological predicament, as well as in providing helpful resources for thinking innovatively through current problems, thus recasting the past to allow for a future yet to be imagined. The book also discusses contemporary continental thinkers who are more critically aware of the dominant anthropocentric and instrumental view of nature, and who provide substantial guidance for a sensible, innovative “ontology of nature” suited for an ecology of the future. Overall, the ontologies of nature discerned in this volume are not merely of theoretical interest, but strategically serve to suspend anthropocentrism and spark ethical and political reorientation in the context of our current ecological predicament.

Out Loud Mark Morris, Wesley Stace, 2021-10-19 From the most brilliant and audacious choreographer of our time, the exuberant tale of a young dancer’s rise to the pinnacle of the performing arts world, and the triumphs and perils of creating work on his own terms—and staying true to himself Before Mark Morris became “the most successful and influential choreographer alive” (The New York Times), he was a six year-old in Seattle cramming his feet into Tupperware glasses so that he could practice walking on pointe. Often the only boy in the dance studio, he was called a sissy, a term he wore like a badge of honor. He was unlike anyone else, deeply gifted and spirited. Moving to New York at nineteen, he arrived to one of the great booms of dance in America. Audiences in 1976 had the luxury of Merce Cunningham’s finest experiments with time and space, of Twyla Tharp’s virtuosity, and Lucinda Childs’s genius. Morris was flat broke but found a group of likeminded artists that danced together, travelled together, slept together. No one wanted to break the spell or miss a thing, because “if you missed anything, you missed everything.” This collective, led by Morris’s fiercely original vision, became the famed Mark Morris Dance Group. Suddenly, Morris was making a fast ascent. Celebrated by The New Yorker’s critic as one of the great young talents, an androgynous beauty in the vein of Michelangelo’s David, he and his company had arrived. Collaborations with the likes of Mikhail Baryshnikov, Yo-Yo Ma, Lou Harrison, and Howard Hodgkin followed. And so did controversy: from the circus of his tenure at La Monnaie in Belgium to his work on the biggest flop in Broadway history. But through the Reagan-Bush era, the worst of the AIDS epidemic, through rehearsal squabbles and backstage intrigues, Morris emerged as one of the great visionaries of modern dance, a force of nature with a dedication to beauty and a love of the body, an artist as joyful as he is provocative. *Out Loud* is the bighearted and outspoken story of a man as formidable on the page as he is on the boards. With unusual candor and disarming wit, Morris’s memoir captures the life of a performer who broke the mold, a brilliant maverick who found his home in the collective and liberating world of music and dance.

Early Brain Sprouts from States to Traits Meena Chintapalli,2017-05-30 Today, the society is at a crossroads, spending billions of dollars on fixing drug addiction problems, teen pregnancy, and youth health-risk behaviors and violence but unable to accomplish the goals. Prevalence of ADHD, spectrum behaviors, explosive temper, bipolar disorder, violence everywhere, teen anxiety and depression, and drug abuse problems are still high. NIH data shows that 40% of eighteen- to thirty-four-year-olds have some mental health issues that need help. Dollars are spent when changes cannot happen. If the same money is spent in educating general masses through the community organizations on the brain synaptic proliferation for zero- to three-year-olds in their optimal intellectual, cognitive, personality development, we certainly can create a better world. We can prevent ADHD, autism-spectrum behaviors, learning disabilities, depression, and psychosomatic illnesses by preventing aversive pathways during development at zero to five years old. Every child born needs to live on their strengths and talents with self-confidence. The book discusses scientific facts on experiential neurodevelopment for physical, intellectual, psychological, social, and emotional health in childrens zero- to five-year development and gives a curriculum to parents on sensory nurturing and multisensory integration with no expensive toys or gadgets.

Soul to Soul Ruth Lindeck Forman,2023-01-06 The unique Soul to Soul Connection and Communication experience presents a positive, mindful, and compelling personal and intercultural communication global paradigm moving forward in the twenty-first century. Communication expert Ruth Lindeck Forman takes the reader through enlightening and light-hearted conversations. Her anecdotes enhance, inspire, and uplift to promote well-being, civility, and inclusion. This reader-friendly journey is supported by science, woven with connections to nature, and covers socio-political issues such as racism and diversity. These ideas encourage compassion and understanding for the reader and others. Ruth declares each person has the sole right to define who they are. This is best defined by what is in one's heart and soul as a member of the human race. She also affirms each person has the right to live their dreams and they matter. Ruth reminds us how we can always

choose to respond positively or negatively and sensitively or insensitively. Likewise, we choose to honor or dishonor ourselves and others. Our choices are a formative facet of our character and the energy we radiate. The four sections of the book include Soul to Soul Connection, Soul to Soul Communication, Soul to Soul Intercultural Communication, and Appendix. Soul to Soul Connection presents core jewels that consist of source-connection, the essence of each person, and how to connect to that within ourselves and hopefully all others. The hand-dome concept reveals why each person solely feels, thinks, acts, speaks, and writes as they do. This also fosters inclusion. A significant chapter Personal Lenses is devoted to a multitude of negative lenses that block your and other's ultimate well-being. You learn to how to engage the time-tested Identify, Block, Move, Delete, Replace (IBMDR) Technique that reduces or erases troublesome thoughts and replaces them with positive, inclusive, and uplifting views. The private and nonjudgmental Forman Approach to Identify Prejudice Within Ourselves raises awareness. So, you have to be aware to care, and if you care you are aware. Soul to Soul Communication focuses on forty communication topics that benefit personal and virtual communication. These offer insightful, powerful, and practical tools. When combined, integrated, and applied, they provide a thoughtful and comprehensive command of communication to precisely express the meaning and intention of your message. Soul to Soul Intercultural Communication presents an uplifting chapter Embracing Diversity. Necessary nuances, cultural styles, tables, and numerous topics enlighten to bridge communication gaps. These elevate comfort, trust, understanding, and appreciation so more people are willing to reach out to each other. Appendix includes Positive Solutions to Maintain Harmony, Thank You, and Author's Journey, in which Ruth shares her eighty years' life's journey and sixty years in the field of speech pathology and communication. Initially, she served patients in stroke rehabilitation. Later, as a Specialist in Personal and Intercultural Communication, she consulted with and lectured to individuals in varied walks of life and cultures. Overcoming medical challenges and sensitivities, she recounts adventuresome travels with husband Lee to thirty-five countries, and living among locals on the tiny, exotic Nevis-isle in the West Indies. Charming, engrossing stories of Nevis folks and fellow humanity highlight how they triumphed or serenely accepted their challenges. Appendix also offers A Time to Pause and Reflect that provides an opportunity after each chapter to integrate the information and create your personal transformative guide. For your pleasure, Photos Reflecting Selective Narratives; the broad, passionate, and thoughtful Epilogue; and References finalize your read. These pages empower you to value your ultimate best, foster healing to free your spirit, and champion self-worth and kindness. Comfort, joy, confidence, self-actualization, and community follow. The goal is to create a positive communication environment that invites others to enter and benefits you. As minor to major crises arise or days seem to unravel, Soul to Soul Connection and Communication serves as a valuable lifelong guide. Therefore, decency, gratitude, harmony, and inclusion are natural and positive consequences of a diverse human race whose members communicate comfortably, mindfully, and source-connected with each other.
