*Inequality in Contemporary Stand-Up Comedy in the UK* Claire Sedgwick, 2024-04-25 This Pivot explores the cultural economy of comedy in the UK, looking specifically at the links between industry practices and structures and who produces comedy in the UK. The research is based on interviews with comedians in the East Midlands; significantly, this demographic has been historically under-researched in studies of precarity, where the East Midlands is typically overlooked in discussions of arts funding and access in favour of a more simplistic north/south divide narrative. Similarly, whilst there has been increased discussion of the precarity of the creative and cultural industries, as well as media articles on the difficulty of breaking into comedy as a member of a marginalised group, there has been relatively little academic research to support this. While Friedman's work in particular has been helpful for understanding the link between comedy producers, class and taste making, there has been less attention paid to the sociologies of work within comedy. This book fills these gaps in research by exploring the experiences of comedians in the East Midlands, contributing to the rich body of scholarship on inequality in the cultural industries and promoting a better understanding of the impact of structural inequalities and precarity on access to the cultural industries.

De Gruyter Handbook of Humor Studies Thomas E. Ford, Władysław Chłopicki, Giselinde Kuipers, 2024-07-22 The De Gruyter Handbook of Humor Studies consolidates the cumulative contributions in theory and research on humor from 57 international scholars representing 21 different countries in the widest possible diversity of disciplines. It organizes research in a unique conceptual framework addressing two broad themes: the Essence of Humor and the Functions of Humor. Furthermore, scholars of humor have recognized that humor is not only a universal human experience, it is also inherently social, shared among people and woven into the fabric of nearly every type of interpersonal relationship. Scholars across all academic disciplines have addressed questions about the essence and functions of humor at different levels of analysis relating to how narrowly or broadly they conceptualize the social context of humor. Accordingly, the editors have organized each broad thematic section into four subsections defined by level of analysis. The book first addresses questions about individual psychological processes and text properties, then moves to questions involving broader conceptualizations of the social context addressing humor and social relations, and humor and culture. By providing a comprehensive review of foundational work as well as new research and theoretical advancements across academic disciplines, the De Gruyter

Handbook of Humor Studies will serve as the foremost authoritative research handbook for experienced humor scholars as well as an essential starting point for newcomers to the field, such as graduate students seeking to conduct their own research on humor. Further, by highlighting the interdisciplinary interest of new and emerging areas of research the book identifies and defines directions for future research for scholars from every discipline that contributes to our understanding of humor.

*Stand-up Comedy in Africa* Izuu Nwankwo, 2022-03-21 African cultural productions of humour have increased even in the face of myriad economic foibles and social upheavals. For instance, from the 1990s, stand-up comedy emerged across the continent and has maintained a pervasive presence since then. Its specificities are related to contemporary economic and political contexts and are also drawn from its pre-colonial history, that of joking forms and relationships, and orality. Izuu Nwankwo's fascinating collected volume offers a transnational appraisal of this unique art form spanning different nations of the continent and its diasporas. The book engages variously with jokesters, their materials, the mediums of dissemination, and the cultural value(s) and relevance of their stage work, encompassing the form and content of the practice. Its ruling theoretical perspective comes from theatre and performance, cultural studies, linguistics, and literary studies.

*The Dynamics of Interactional Humor* Villy Tsakona, Jan Chovanec, 2018-01-05 This book deals with the construction of diverse forms of humor in everyday oral, written, and mediatised interactions. It sheds light on the differences and, most importantly, the similarities in the production of interactional humor in face-to-face and various technology-mediated forms of communication, including scripted and non-scripted situations. The chapters analyze humor-related issues in such genres as spontaneous conversations, broadcast dialogues, storytelling, media blogs, bilingual conversations, stand-up comedy, TV documentaries, drama series, family sitcoms, Facebook posts, and internet memes. The individual authors trace how speakers collaboratively circulate, reconstruct, and (re)frame either personal or public accounts of reality, aiming -among other things- to produce and/or reproduce humor. Rather than being "finished" products with a "single" interpretation, humorous texts are thus approached as dynamic communicative events that give rise to diverse interpretations and meanings. The book draws on a variety of up-to-date approaches and methodologies, and will appeal to scholars in discourse analysis, conversation analysis, interactional sociolinguistics, pragmatics, ethnography of communication, and social semiotics.

**Joke-Performance in Africa** Ignatius Chukwumah, 2017-12-14 Jokes have always been part of African culture, but never have they been so blended with the strains and gains of the contemporary African world as today. Joke-Performance in Africa describes and analyses the diverse aesthetics, forms, and media of jokes and their performance and shows how African jokes embody the anxieties of the time and space in which they are enacted. The book considers the pervasive phenomenon of

jokes and their performance across Africa in such forms as local jests, street jokes, cartoons, mchongoano, ewhe-eje, stand-up comedy, internet sex jokes, and 'comicast' transmitted via modern technology media such as the TV, CDs, DVDs, the internet platforms of YouTube, Facebook, and other social arenas, as well as live performances. Countries represented are Egypt, Kenya, Malawi, Morocco, Nigeria, and Zambia, covering the North, West, East and Southern Africa. The book explores the description of the joke form from various perspectives, ranging from critical discourse analysis, interviews, humour theories, psychoanalysis, the postcolony and technauriture, to the interactive dramaturgy of joke-performances, irrespective of media and modes of performance. Containing insightful contributions from leading African scholars, the book acquaints readers with detailed descriptions of the diverse aesthetics of contemporary African jokes, thereby contributing to the current understanding of joke-performance in Africa. It will appeal to students and scholars of African studies, popular culture, theatre, performance studies and literary studies.

**Humour Theory and Stylistic Enquiry** Taiwo Oloruntoba-Oju, 2023-12-28 This edited book brings together scholarly chapters on linguistic aspects of humour in literary and non-literary domains and contexts in different parts of the world. Previous scholarly engagements and theoretical postulations on humour and the comic provide veritable resources for reexamining the relationship between linguistic elements and comic sensations on the one hand, and the validity of interpretive humour stylistics on the other hand. Renowned Stylistics scholars, such as Michael Toolan, who writes the volume's foreword against the backdrop of nearly four decades of scholarly engagement with stylistics, and Katie Wales, who in this volume engages with Charles Dickens, one of the most eminent satirists in English literature, as well as many other European and African authors who have worked ceaselessly in the area of humour and language, weigh in on the topic of language and humour in this volume. Together, they provide a variety of interesting perspectives on the topic, deploying different textual sources from different media and from different regions of the world. Part of the book's offering includes integrative stylistic approaches to humour in African, European and American written texts, examinations of social media and political humour in Nigeria, Cameroon and Zimbabwe, pragmatics and humorous stance-taking, incongruity as comedy in works of fiction, and a unified levels of linguistic analysis approach to the investigation of humour. This book will be of interest to academics and students of Linguistics, Stylistics, Communications and Media Studies, and Humour Studies. Taiwo Oloruntoba-Oju is a Professor in the Department of English at the University of Ilorin in Nigeria

**Stand-up Comedy in Theory, or, Abjection in America** John Limon, 2000-06-23 A cultural theory of stand-up comedy.

**American Political Humor** Jody C. Baumgartner, 2019-10-07 This two-volume set surveys the profound impact of political humor and satire on American culture and politics over the years, paying special attention to the explosion of political humor in today's wide-ranging and turbulent media environment. Historically, there has been a tendency to regard political satire and humor as a sideshow to the wider world of American politics—entertaining and sometimes insightful, but ultimately only of modest interest to students and others surveying the trajectory of American politics and culture. This set documents just how mistaken that assumption is. By examining political humor and satire throughout US history, these volumes not only illustrate how expressions of political satire and humor reflect changes in American attitudes about presidents, parties, and issues but also how satirists, comedians, cartoonists, and filmmakers have helped to shape popular attitudes about landmark historical events, major American institutions and movements, and the nation's political leaders and cultural giants. Finally, this work examines how today's brand of political humor may be more influential than ever before in shaping American attitudes about the nation in which we live.

**Community-Making in Early Stuart Theatres** Anthony W. Johnson, Roger D. Sell, Helen Wilcox, 2016-10-14 Twenty-two leading experts on early modern drama collaborate in this volume to explore three closely interconnected research questions. To what extent did playwrights represent *dramatis personae* in their entertainments as forming, or failing to form, communal groupings? How far were theatrical productions likely to weld, or separate, different communal groupings within their target audiences? And how might such bondings or oppositions among spectators have tallied with the community-making or -breaking on stage? Chapters in Part One respond to one or more of these questions by reassessing general period trends in censorship, theatre attendance, forms of patronage, playwrights' professional and linguistic networks, their use of music, and their handling of ethical controversies. In Part Two, responses arise from detailed re-examinations of particular plays by Shakespeare, Chapman, Jonson, Beaumont and Fletcher, Cary, Webster, Middleton, Massinger, Ford, and Shirley. Both Parts cover a full range of early-Stuart theatre settings, from the public and popular to the more private circumstances of hall playhouses, court masques, women's drama, country-house theatricals, and school plays. And one overall finding is that, although playwrights frequently staged or alluded to communal conflict, they seldom exacerbated such divisiveness within their audience. Rather, they tended toward more tactful modes of address (sometimes even acknowledging their own ideological uncertainties) so that, at least for the duration of a play, their audiences could be a community within which internal rifts were openly brought into dialogue.

humor in self-translation, a virtually unexplored area of research in Humour Studies and Translation Studies. Of the select group of international scholars contributing to this volume some examine literary texts from different perspectives (sociological, philosophical, or post-colonial) while others explore texts in more extraneous fields such as standup comedy or language learning. This book sheds light on how humour in self-translation induces thoughts on social issues, challenges stereotypes, contributes to recast individuals in novel forms of identity and facilitates reflections on our own sense of humour. This accessible and engaging volume is of interest to advanced students of Humour Studies and Translation Studies.

**Analyzing Language and Humor in Online Communication** Taiwo, Rotimi, Odebunmi, Akinola, Adetunji, Akin, 2016-06-16  
Misunderstandings in technology-mediated communication can be due to a lack of tone and facial expression on the part of the speaker, which provide additional context clues into the meaning of the message beyond textual representation. As technology becomes more of a ubiquitous element in our interactions with one another, further study into the ways in which language and humor are conveyed online and impact human communication is essential. Analyzing Language and Humor in Online Communication presents a compendium of research into virtual communities, online communication, social networks, and the ways that language, and humor in particular, are being conveyed and understood in these digital environments. Emphasizing examples from popular culture and contemporary media, this innovative publication fills the current void in the literature by focusing specifically on humor creation and perception in the digital age. Students, researchers, linguists, psychologists, media professionals, and sociologists will find this publication to be a unique reference source.
