**Ovid in French** Helena Taylor, Fiona Cox, 2023 This collection of essays examines the ways Ovid's diverse oeuvre has been translated, rewritten, adapted, and responded to by a range of French and Francophone women from the Renaissance to the present. It aims to reveal lesser-known voices in Ovidian reception studies, and to offer a wider historical perspective on the complex question of Ovid and gender. Ranging from Renaissance poetry to contemporary creative-criticism, it charts an understudied strand of reception studies, emphasizing how a longer view allows us to explore and challenge the notion of a female tradition of Ovidian reception. The range of genres analysed here--poetry, verse and prose translation, theatre, epistolary fiction, autofiction, autobiography, film, creative critique, and novels--also reflect the diversity of the Ovidian texts in reception from the *Heroides* to the *Metamorphoses*, from the *Amores* to the *Ars Amatoria*, from the *Tristia* to the *Fasti*. The study brings an array of critical approaches to bear on well-known authors such as George Sand, Julia Kristeva, and Marguerite Yourcenar, as well as less-known figures, from contemporary writer Linda Lê to the early modern Catherine and Madeline Des Roches, exploring exile, identity, queerness, displacement, voice, expectations of modesty, the poetics of translation, and the problems posed by Ovid's erotized violence, to name just some of the volume's rich themes. The epilogue by translator and novelist Marie Cosnay points towards new eco-critical and creative directions in Ovidian scholarship and reception. Students and scholars of French Studies, Classics, Comparative Literature and Translation Studies will find much to interest them in this diverse collection of essays.

**Reflections on Canada's Past, Present and Future in International Law/Réflexions sur le passé, le présent et l'avenir du Canada en droit international** Oonagh E. Fitzgerald, Valerie Hughes, Mark Jewett, 2018-06-30 Marking 150

years since Confederation provides an opportunity for Canadian international law practitioners and scholars to reflect on Canada's rich history in international law and governance, where we find ourselves today in the community of nations, and how we might help shape a future in which Canada's rules-based and progressive approach to international law gains ascendancy. This collection of essays, each written in the official language chosen by the authors, provides a thoughtful perspective on Canada's past and present in international law, surveys the challenges that lie before us, and offers renewed focus for Canada's pursuit of global justice and the rule of law. Part I explores the history and practice of international law, including sources of international law, Indigenous treaties, international treaty diplomacy, domestic reception of international law, and Parliament's role in international law. Part II explores Canada's role in international law, governance and innovation in the broad fields of economic, environmental, and intellectual property law. Part III explores Canadian perspectives on developments in international human rights and humanitarian law, including judicial implementation of these obligations, international labour law, business and human rights, international criminal law, war crimes, child soldiers, and gender. *Reflections on Canada's Past, Present and Future in International Law/Réflexions sur le passé, le présent et l'avenir du Canada en droit international* demonstrates the pivotal role that Canada has played in the development of international law and signals the essential contributions the country is poised to make in the future.

**The Falklands Saga** Graham Pascoe,2024-02-15 The Falklands Saga presents abundant evidence from hundreds of pages of documents in archives and libraries in Buenos Aires, La Plata, Montevideo, London, Cambridge, Stanley, Paris, Munich and Washington DC, some never printed before, many printed here for the first time, in English and, where different,

in their original languages, Spanish, French, German, Italian, Latin or Dutch. It provides the facts to correct the fallacies and distortions in accounts by earlier authors. It reveals persuasive evidence that the Falklands were discovered by a Portuguese expedition at the latest around 1518-19, and not by Vespucci or Magellan. It demonstrates conclusively that the Anglo-Spanish agreement of 1771 did not contain a reservation of Spanish rights, that Britain did not make a secret promise to abandon the islands, and that the Nootka Sound Convention of 1790 did not restrict Britain's rights in the Falklands, but greatly extended them at the expense of Spain. For the first time ever, the despairing letters from the Falklands written in German in 1824 to Louis Vernet by his brother Emilio are printed here in full, in both the original German and in English translation, revealing the total chaos of the abortive 1824 Argentine expedition to the islands. This book reveals how tiny the Argentine settlement in the islands was in 1826-33. In April 1829 there were only 52 people, and there was a constant turnover of population; many people stayed only a few months, and the population reached its maximum of 128 only for a few weeks in mid-1831 before declining to 37 people at the beginning of 1833. This work also refutes the falsehood that Britain expelled an Argentine population from the Falklands in 1833. That myth has been Argentina's principal propaganda weapon since the 1960s in its attempts to undermine Falkland Islanders' right to self-determination. In fact Britain encouraged the residents to stay, and only a handful left the islands. A crucial document printed here is the 1850 Convention of Peace between Argentina and Britain. At Argentina's insistence, this was a comprehensive peace treaty which restored perfect friendship between the two countries. Critical exchanges between the Argentine and British negotiators are printed here in detail, which show that Argentina dropped its claim to the Falklands and accepted that the islands are British. That, and the many later acts by Argentina described here, definitively ended any Argentine title to the islands. The islands' history is placed in its world context, with detailed accounts of the First Falklands Crisis of 1764-71, the Second Falklands Crisis of 1831-3, the Years of Confusion (1811-1850), and the Third Falklands Crisis of 1982 (the Falklands War), as well as a Falklands perspective on the First and Second World Wars, including the Battle of the Falklands (1914) and the Battle of the River Plate (1939), with extensive details and texts from German sources. The legal status of the Falklands is analysed by reference to legal works, to United Nations resolutions on decolonisation, and to rulings by the International Court of Justice, which together demonstrate conclusively that the islands are British territory in international law and that the Falkland Islanders, who have now (2024) lived in their country for over 180 years and for nine generations, are a unique people who are holders of territorial sovereignty with the full right of external self-determination.

**Art Et Architecture Au Canada** Loren Ruth Lerner, Mary F. Williamson, 1991-01-01 Identifies and summarizes thousands of books, article, exhibition catalogues, government publications, and theses published in many countries and in several languages from the early nineteenth century to 1981.

**Carchemish in Context** Edgar Peltenburg, T. J. Wilkinson, Eleanor Barbanes Wilkinson, 2016-05-31 The city of

Carchemish in the valley of the Euphrates river can be regarded as one of the iconic sites in the Middle East, a mound complex known both for its own intrinsic qualities as the seat of later Hittite power and Neo-Hittite kings, but also because its history of excavations included well known historical figures such as Leonard Woolley and T. E. Lawrence. However, because of its location within the military zone of the Turkish-Syrian border the site itself has been inaccessible to archaeologists for more than 90 years. *Carchemish in Context* summarises the results of regional investigations conducted within the Land of Carchemish Project in Syria, as well as other archaeological surveys in the region, in order to provide a regional, historical and archaeological context for the development of the city. A synthesis of the history of Carchemish is presented and a regional overview of the Land of Carchemish as it is defined by archaeological features and key historical references through to the early Iron Age. Insightful snapshots of the dynamics of an ancient state are revealed which can now be seen to have fluctuated dramatically in size throughout 700-800 years, in part depending upon the power of the king of Carchemish or the aggressions of external powers. The results from the Project provide an overview of the main trends of settlement in the region over 8000 years, using a combination of survey databases to both north and south of the Syrian-Turkish border and with a focus on the earlier phases of settlement from the Neolithic until the end of the Bronze Age when Carchemish became an outpost of the Hittite empire. The Iron Age is a period blessed by numerous historical records some of which can be traced in the modern landscape. Further chapters explore site-specific aspects of the regional archaeology, including a series of important sites on the Sajur river, some of which were positioned along the main campaign routes of the Assyrian kings. The close relationship between the nearby Early Bronze Age site of Tell Jerablus Tahtani and Carchemish are examined and the results from the 40 ha Carchemish Outer Town survey described, providing important new data sources regarding the layout, defenses and dates of occupation of this significant part of the city. The Classical, Roman, Byzantine and Early Islamic occupations are also discussed in relation to what is known of occupation in the surrounding region.

Social-Ecological Restoration in Paddy-Dominated Landscapes Nisikawa Usio, Tadashi Miyashita, 2015-01-20 With a focus on environmentally friendly rice farming, this unique book integrates both ecosystem and human dimensions of ecological restoration to provide strategies to promote sustainable agriculture and rural development. Paddy fields have multiple functions beyond their role of producing rice: They serve as refuge habitats for a range of wildlife that once inhabited floodplain wetlands and contain a number of unique and threatened aquatic species. They also provide various ecosystem services for regional communities such as water retention, erosion control, flood control, fish culture, and educational opportunities. However, rice paddies are threatened worldwide due to the modernization of agriculture and abandonment of farmland caused by depopulation and the aging of rural communities. Therefore, multiple ecological and sociological aspects must be considered in the ecological restoration of paddy fields. This book aims to do so by incorporating various disciplines of natural and social sciences. Strategies for sustainable agriculture are reviewed, including financial incentives for farmers

and the use of flagship wildlife species such as the crested ibis (toki) to promote ecological restoration. With the increasing popularity of environmentally friendly rice farming in parts of Asia and the western United States, this book offers model cases for sustainable management of paddy-dominated landscapes.

**The Military and Colonial Destruction of the Roman Landscape of North Africa, 1830-1900** Michael

Greenhalgh,2014-05-08 The French invaded Algeria in 1830, and found a landscape rich in Roman remains, which they proceeded to re-use to support the constructions such as fortresses, barracks and hospitals needed to fight the natives (who continued to object to their presence), and to house the various colonisation projects with which they intended to solidify their hold on the country, and to make it both modern and profitable. Arabs and Berbers had occasionally made use of the ruins, but it was still a Roman and Early Christian landscape when the French arrived. In the space of two generations, this was destroyed, just as were many ancient remains in France, in part because “real” architecture was Greek, not Roman.

**The Bloomsbury Companion to the Philosophy of Sport** Cesar R. Torres,2014-04-24 This monograph addresses a perceived lack of clarity in the recent turns toward 'theological interpretation', presenting an understanding of theological interpretation that is highly eclectic.
