Nepal International Monetary Fund. Asia and Pacific Dept,2017-03-27 This 2017 Article IV Consultation highlights the rebound of Nepal's economy following a slowdown caused by the 2015 earthquakes and trade disruptions at the southern border. The growth of real GDP at market prices slowed to 0.6 percent in 2015/16 (mid-July 2015 to mid-July 2016). Due to trade disruption, shortages of fuel and other essential goods drove up inflation to 12 percent (year over year) in January 2016, but it eased subsequently to 3.2 percent in January 2017, mainly because of lower food prices. Growth is projected to reach 5.5 percent in 2016/17, and inflation is expected to undershoot the central bank's mid-2017 target of 7.5 percent.

Nepal International Monetary,International Monetary Fund. Statistics Dept.,International Monetary Fund. Monetary and Capital Markets Department,2023-10-06 The mission conducted a diagnostic review of the financial sector oversight capacity and proposed a Technical Assistance Roadmap (TARM) to support the authorities' efforts to strengthen the identification, analysis, and mitigation of risks to financial stability in Nepal. Two modules were undertaken: (i) the financial stability module, focused on areas agreed with the NRB during the scoping stage: banking supervision and regulation, stress testing, crisis management, payment systems, and financial inclusion; and (ii) the financial sector statistics module, focused on key data gaps hampering financial stability analysis, as well as statistical reporting to the IMF's STA.

Indo Nepalese K.K. Muktan,2018-01-01 This book makes a critical re-appraisal of the ethno-cultural dimensions of Nepal and India and traces the parameters of socio-cultural, political, religious and linguistic unities and uniformities that exist between the two countries. The Gangetic valley of India was the cradle of Indo-Aryan civilization while Gandaki river of Nepal happened to be the ancient habitat of the Nepalese people. The former was known as Aryavarta (land of Aryans) while the latter was called Sapta-Gandaki (basin of seven tributaries of Gandaki). As the Aryans grew-up in population they advanced further towards the east and pushed the indigenous tribes living there up the sub-Himalayan region. As a result, the Kiratas were the first historically known people to enter Nepal from the North-Eastern frontiers of India. A few centuries thereafter, more advanced Hinduised people from northern India known as the Lichchhavis, Thakuris, and Mallas went to Nepal and established their kingdoms. They carried with them India's vedic culture and religion and initiated the people of Nepal into their culture and faith. The advent of the Rajputs in 14th century and the rise in power of the Gorkha dynasty, eventually succeeded in uniting the small principalities into a greater Nepal in the middle of 18th century. Mr. Muktan, in this book,

lucidly brings out the close affinities of culture, religion, language and ethnicity that exist between the peoples of India and Nepal and yearns for a closer relationship, harmony and richness of life between them.

Securities and Capital Markets Regulation in South Africa C. King Chanetsa, 2019-08-26 An effective capital markets industry has existed in South Africa for over 120 years. As recently as 2015, South Africa was considered the best regulator of securities in the world. The fall out from the GFC contained lessons for all markets, but not to the same extent. In the pursuit of G20 inspired conformity, aspects of the South African reform agenda may therefore appear replicative of initiatives in other jurisdictions and, consequently, uncritical in parts. In light of the fall to forty sixth place in the world in securities regulation ranking and some uncertainty in respect of the extent and shape of the reform process, C. King Chanetsa reviews activities in South Africa along the busy securities and capital markets value chain, and considers the continuing and emerging regulatory and supervisory framework.

Financial Accountability in Nepal World Bank, 2003 Nepal has suffered from the lack of proper management of public expenditures, stagnant real revenues, large and inefficient parastatals, and a weak financial sector. Fiduciary risk remains high. His Majesty's Government of Nepal has accorded high priority to the assurance of good accountability and transparency in public sector financial management. Reforms are now critical and should be approached in an integrated way covering planning, budgeting, accounting, internal control, internal audit, external audit, and oversight. Action in only one area of financial management will not result in the same degree of benefits. The capacity building recommended in this report's Development Action Plan is designed to introduce international accounting and auditing standards in both the public and the private sectors, and to close the gap between precept and practice. The Government has a firm commitment to implement these time-bound actions. --Résumé de l'éditeur.

Asian Models Of Entrepreneurship - From The Indian Union And Nepal To The Japanese Archipelago: Context, Policy And Practice (2nd Edition) Leo-paul Dana, 2014-06-13 In this book, Leo-Paul Dana makes it clear that much can be learnt about the nature of entrepreneurial activity when we delve into the unique characteristics of different nations of South Asia, South-east Asia and East Asia. Through in-depth analyses and comprehensive reviews of many Asian countries, the profound differences both among and within countries of the region become vividly apparent. Dana juxtaposes the explosion in entrepreneurial growth within China against the struggles to build an entrepreneurial community in Japan, or the enlightened public policy leadership in Singapore against the crisis-driven developments in Korea. The range of factors

identified within each of the 15 countries examined by Dana is not an example of random influences on the entrepreneurial process, because they can be construed in more systematic and logical ways. Thus, the book uncovers the Chinese model of gradual transition, the Royal Cambodian model, and the Doi-Moi model, among many others. The reader is challenged to grasp these different models, and identify their commonalities and differences.

Financial Market Regulations and Legal Challenges in South Asia Kashyap, Amit K., 2016-03-17 South Asia has experienced a long period of robust economic growth. While many regulatory policies have helped usher in this prosperous growth, some markets have plateaued due to hardships such as the decline in foreign remittance and international credit lines, and a contraction of exports. To continue to grow, the nations in this region must begin to integrate into the globalized world economy. *Financial Market Regulations and Legal Challenges in South Asia* addresses the difficulties and challenges of the regulatory environment in South Asia. This research-based publication outlines the apparent issues and resolutions as these developing nations transition into global economic players. This book is an excellent resource for policy makers, researchers and students in the financial field, government officials, bankers, and financial market regulators.
