Rivista di Estetica 86 AA.VV.,2024-12-11 The concept of speculative thinking is in many ways ambiguous. First, the concept of 'speculation' refers, on the one hand, to philosophical research, i.e., to the need for philosophy to remain committed to 'pure' thought and not to bend to instances allogenous to conceptual ones, while, on the other hand, it refers to financial transactions, aimed at profiting from fluctuations in market prices. Second, even within philosophical discourse, the term remains equivocal. At times, 'speculation' refers to an inquiry that - precisely by being merely speculative - seems detached from the practical concerns of the world, thereby indicating the essential theoretical element of philosophical inquiry; at others, the term marks the extreme experience of thinking in which ordinary discursiveness touches its limits. After a period of relative oblivion, the notion of the 'speculative' has returned today within contemporary philosophical debate. This special issue focuses on the notion of 'speculative thinking', both in its Hegelian and neo-Hegelian interpretations and in contexts that partially diverge from that tradition, aiming to philosophically explore the term's rich and varied meanings.

Indonesian art. Pleasures of chaos. Ediz. italiana e inglese Jim Supangkat,Primo Marella,2010 Secondo la teoria dell'entropia si può presupporre che la condizione di disordine che abbiamo oggi nella vita moderna non sia un sintomo negativo.... Così dichiara Jim Supangkat, autorevole critico e curatore indonesiano, nell'introduzione di questo volume che indaga la scena artistica contemporanea del suo paese attraverso il lavoro di dieci artisti cardine. Similmente alla produzione artistica di altre piazze asiatiche, soprattutto Cina e India, anche l'Indonesiana celebra il caos come, appunto, sintomo globalizzato non necessariamente privo di possibilità espressive. Prosegue, infatti, Supangkat: Quando il caos raggiunge il suo punto critico, il processo di decadenza e le condizioni di disordine si concludono e una nuova sostanza prende forma, con un livello di ordine che è del tutto differente da quello che esisteva prima....

A Course on Aesthetics Renato Barilli,1993 A Course on Aesthetics offers a broad perspective of current scholarship in aesthetics without favouring any one particular school, discipline, or ideology. Written in an elegant and clear style, Barilli's text explores the basic inherent structures of human thought about the classification and evaluation of the arts. Barilli avoids any binding or dogmatic conclusions about artistic assessment in his consideration of both historical and more current art forms such as video and performance art. In doing so, he presents a contemporary account of a scholarly concern. In A Course on Aesthetics, Barilli examines the aesthetic experience in general, the passage from aesthetics to art, the user of art, and the critic. In his brilliant analyses of the phenomenology of various forms of art - from literature to music, from painting to art, from theatre to television - he discusses the relationship between representation and expression, touching on many of the major questions debated in contemporary criticism. A bibliography provides direction for further study of the history of aesthetics as a discipline. Renato Barilli has published numerous books in Italian on poetics, cultural theory, and contemporary art, including Culturologia e Fenomenologia Degli Stili, L'Arte Contemporanea, and Il Ciclo Del Postmoderno. The University of Minnesota Press has also published a translation of his Rhetoric (1989). Karen Pinkus is translator of Giorgio Agamben's Language and Death (Minnesota, 1991).

L'archivio d'artista AA.VV.,2022-04-14T00:00:00+02:00 Legata al concetto di memoria, l'archiviazione risponde da sempre al bisogno di raccogliere e tutelare una testimonianza tramite i documenti che la attestano. Per un artista, l'archivio è essenziale non solo per conservare la traccia materiale del suo passaggio in un determinato ambiente culturale ma anche per la verifica, la difesa e la certificazione dell'autenticità delle opere, nonché per rendere tale patrimonio accessibile e

condiviso. Ma che cosa si intende per archivio d'artista e come viene strutturato? Quali normative legali e quali consuetudini si applicano? Come si organizza una successione e come prende forma un catalogo ragionato? Quali competenze coinvolge e quali requisiti lo rendono un punto di riferimento per gli studiosi e per il mercato? Questo volume - nato a partire dal Corso per curatore di archivio d'artista promosso da AitArt (Associazione Italiana Archivi d'Artista) - riunisce punti di vista e competenze diverse spaziando dalle materie umanistico-storiche a quelle economico-giuridiche, senza dimenticare gli aspetti più pratici legati alla schedatura e alla digitalizzazione. Nel suo duplice intento di diffondere principi ispiratori e proporre modalità di gestione, delinea una vera e propria deontologia professionale e si configura così come un vademecum imprescindibile per chiunque voglia sviluppare una professionalità specifica e farsi custode di un ecosistema complesso e prezioso come quello dell'archivio d'artista.

ANNO 2020 IL GOVERNO SECONDA PARTE ANTONIO GIANGRANDE, Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggiò i pregi italici. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

Photography and Italy Maria Antonella Pelizzari,2010-11-15 In this beautifully illustrated book Maria Antonella Pelizzari traces the history of photography in Italy from its beginnings to the present as she guides us through the history of Italy and its ancient sites and Renaissance landmarks. Pelizzari specifically considers the role of photography in the formation of Italian national identity during times of political struggle, such as the lead up to Unification in 1860, and later in the nationalist wars of Mussolini's regime. While many Italians and foreigners—such as Fratelli Alinari or Carlo Ponti, John Ruskin or Kit Talbot—focused their lenses on architectural masterpieces, others documented the changing times and political heroes, creating icons of figures such as Garibaldi and the brigands. Pelizzari's exploration of Italian visual traditions also includes the photographic collages of Bruno Munari, the neorealist work of photographers such as Franco Pinna, the bold stylized compositions of Mario Giacomelli, and the controversial images created by Oliviero Toscani for Benetton advertising in the 1980s. Featuring unpublished works and a rare selection of over one hundred images, this book will appeal to art collectors and students of art history and Italian culture.

The Influence of Pre-Raphaelitism on Fin de Siècle Italy Giuliana Pieri,2007 This volume is the first comprehensive study of the influence of English Pre-Raphaelitism on Italian art and culture in the late nineteenth century. Analysis of the cultural relations between Italy and Britain has focused traditionally on the special place that Italy had in the British imagination, but the cultural and artistic exchanges between the two countries have been much misunderstood. This book

aims to correct this imbalance by placing Pre-Raphaelitism in its European context. It explores the nature of its influence on Italy, how it was transmitted, and how it was manifested, by focusing on the role of Italian Anglophiles, the English communities in Florence and Rome, the writings of Gabriele D'Annunzio, and a number of Italian artists active in Tuscany and Rome. The works of Cellini, Ricci, Gioja, De Carolis, and Sartorio in particular fully demonstrate the impact of Pre-Raphaelitism on the young Italian school of painting which found in the English movement an ideal link with its glorious past on which it could build a new artistic identity. These artists show that English Pre-Raphaelitism was one of the most powerful single influences on fin-de-siecle Italian culture.

Italian Modern Art in the Age of Fascism Anthony White, 2019-07-30 This book examines the work of several modern artists, including Fortunato Depero, Scipione, and Mario Radice, who were working in Italy during the time of Benito Mussolini's rise and fall. It provides a new history of the relationship between modern art and fascism. The study begins from the premise that Italian artists belonging to avant-garde art movements, such as futurism, expressionism, and abstraction, could produce works that were perfectly amenable to the ideologies of Mussolini's regime. A particular focus of the book is the precise relationship between ideas of history and modernity encountered in the art and politics of the time and how compatible these truly were.
