De la historia al cuerpo y del cuerpo a la danza ,2001

Actividades musicales para niños pequeños Esther Ruiz Palomo,Isabel Luis Rico,Tamara De la Torre Cruz,María Camino Escolar Llamazares,Jonathan Huelmo García,Sara Berbén Saiz,Virginia Domingo Martínez,2019-09-12 La finalidad de la educación es el desarrollo pleno del individuo, y por lo tanto de la sociedad, a través de la adquisición de competencias dentro de los distintos ámbitos educativos: formal, no formal e informal. Por su parte, la finalidad de la educación infantil, según la legislación vigente, es contribuir al desarrollo físico, intelectual, afectivo y social de los niños (LOE, 2006, artículo 13). Son numerosas las investigaciones que se pueden encontrar actualmente acerca de los beneficios de la educación musical, no solo para la adquirir objetivos musicales, sino también desde el punto de vista del desarrollo global del niño y sobre la importancia de que esta educación se inicie lo más pronto posible. La expresión musical puede colaborar en el desarrollo integral, puesto que la relación de los elementos de la música: ritmo, melodía y armonía, con los ámbitos de la personalidad: cognitivo, psicomotor y afectivo-social, la hacen idónea para potenciar capacidades en todos ellos. No cabe duda de que para llevar a cabo este trabajo es importante haber adquirido unos conocimientos y destrezas musicales básicos; no obstante, y dado que el objetivo en la edad infantil con relación a la expresión musical es ofrecer a los niños oportunidades para establecer contacto con la música y el mundo de los sonidos, lo más significativo no es cuánto se sabe de música, sino qué se sabe hacer con la música. Con estas premisas, y en el ánimo de que quien lo desee pueda realizar actividades musicales con niños para contribuir de forma efectiva y divertida a su desarrollo integral, en el libro se recogen propuestas didácticas sencillas y abiertas que permiten ser llevadas a la práctica aunque no se posean grandes conocimientos musicales. Se completa el texto con un glosario de términos musicales y con anexos que recogen las láminas, fichas y materiales necesarios para llevar a cabo las propuestas.

La danza en la escuela Herminia María García Ruso,2003 La Danza en la Reforma Educativa y mas concretamente en el Diseno Curricular Base de Primaria, no tiene un tratamiento específico, sino que, aparece recogida, en las areas de Educacion Artistica y de Educacion Fisica. La falta de un hilo conductor que sirva de guia para desarrollar la Danza en el proceso educativo, ha sido una de las razones que subyace a la realizacion de esta obra, a esto habria que anadir la contribucion de la Danza a la Educacion Integral. Este texto constituye, por tanto, una guia para la accion del profesor, que

puede encontrar aqui los indicadores teorico-practicos para orientar su practica docente no solo en danza, sino tambien en expresion corporal y educacion fisica de base. Se abordan los temas de tal forma, que el profesor tiene un amplio abanico de actividades y de pautas didacticas, que pueden ayudarle a seleccionar y organizar el proceso formativo, que debe permitir al alumno enriquecer su vocabulario de movimiento expresivo, creativo y de comunicacion.

500 actividades para el currículo de educación infantil Pam Schiller,Joan Rossano,1993-04-23 Libro práctico, indispensable para maestras/os muy ocupados. Proyectos perfectamente explicados, agrupados por áreas, adaptados al Currículo de Educación Infantil y distribuidos mes a mes. Abundantes ilustraciones para saber qué hay que hacer y cómo hacerlo.

Devenir trama Vanina Andrea Papalini,2021-01-01 Este libro, fruto de un prolongado trabajo de investigación, presenta distintos aspectos de la cultura, desde una perspectiva abierta que no determina a priori qué es cultura, quiénes son sus efectores ni cómo se hace. La obra aborda asociaciones y relaciones: la creación, los artistas y los realizadores; su legitimación en circuitos específicos y las diferentes tensiones que se expresan, a veces de manera explícita y otras soterrada, en los procesos de producción, circulación, recepción, apropiación y legitimación cultural. Aunque el espacio de referencia es Córdoba, los textos ofrecen pistas interpretativas y enfoques que pueden ayudar a la comprensión de procesos que se desarrollan en otros lugares. El libro se organiza en dos secciones. La primera, Estabilizaciones, aborda la discusión entre un crítico literario y las lectoras de Florencia Bonelli; las experiencias de los escritores amateurs; la definición de profesionalismo y amateurismo; la edición independiente y autogestiva; la ilustración de libros infantiles y la configuración de una identidad peñera en la Peña Trashumante. La segunda, Circulaciones, propone una teoría y una perspectiva para pensar la cultura; la inserción y circulación de las artes y las artistas plásticas a través de las redes; la experiencia de la participación en performances; la literatura underground y social, y los circuitos alternativos; los avatares del teatro independiente a lo largo del tiempo. Escrito en un estilo ameno, permite observar y reflexionar en torno a muchos procesos subterráneos de la cultura contemporánea.

Above the Fold Brian D Miller,2011-02-15 This is a different kind of web design book. Above the Fold is not about timely design or technology trends; instead, this book is about the timeless fundamentals of effective communication within the context of web design. It is intended to help you, the reader, understand the considerations that web designers make when developing successful websites. Above the Fold is divided into three sections: Design & Typography Planning & Usability Business Value Each section represents a phase in the continuous cycle of web design. It's the balance among design, usability, and return on investment that makes a website truly great. Topics covered in Above the Fold include: What makes web design unique The history of web design Anatomy of a web page White space and grid use in web design The elements of web design: color, texture, imagery, scale, depth, animation, and variability Web typography, including web-safe type, images of type, and font replacement and embedding Web project planning Information architecture, including site maps, wireframes, and user flow diagrams The elements of usability: navigation, breadcrumbs, links, search, submission forms, and error messaging Search engine optimization Online marketing, including banner ads, viral and social marketing, on-site marketing, and email marketing Web statistics and analysis
